An Act To Amend Act No. 1128 Of 1964, Relating To The Piedmont Technical Education Commission, So As To Further Provide Therefor.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Section 1 of Act 1128 of 1964 amended—findings of General Assembly.—Section 1 of Act No. 1128 of 1964 is amended by striking "Laurens," on line six. The section when amended shall read as follows:

"Section 1. The General Assembly finds that by legislation enacted pari materia there has been created the Piedmont Technical Education and Training District (hereafter called the 'district'), which is governed by the Piedmont Technical Education Commission (hereafter called the 'commission'), for Abbeville, Greenwood, McCormick and Saluda Counties, in order that these counties may cooperate with the program instituted by Section 21-701 of the 1962 Code to promote a program of vocational and technical education in the State.

The General Assembly further finds that there is an immediate need that such a program be instituted in the district. Under the provisions of the State program, it is required that cooperating counties furnish the facilities necessary to implement the program and thereafter supervise and maintain them. Surveys conducted indicate that suitable facilities and equipment, located in a convenient place, are necessary before the State program can begin to function in the district. The General Assembly has therefore determined to authorize the commission to issue general obligation bonds of the district to the extent herein pro-

vided, in order to provide the commission with the funds required for the construction and equipping of the facilities. In so determining, the General Assembly has found that the basic purpose for the program is to educate, in technical and vocational fields, those to whom the program will become available, and the purpose of the expenditure is educational."

SECTION 2. Section 2 of Act 1128 of 1964 amended—bond issue authorized.—Section 2 of Act No. 1128 of 1964 is amended on line three by striking ", as it exists on July 1, 1964,". The section when amended shall read as follows:

"Section 2. In order to provide funds to be expended by the commission for the construction and equipping of appropriate facilities, the commission is authorized to issue and sell general obligation bonds of the district in an aggregate principal amount not exceeding three hundred seventy-five thousand dollars."

SECTION 3. Time effective.—This act shall take effect upon approval by the Governor.

No. 498

An Act To Authorize The Governing Body Of Abbeville County To Borrow Not Exceeding Three Hundred Sixty Thousand Dollars For The Construction Of County Roads; To Provide That The Roads Shall Be Constructed By The State Highway Department Pursuant To A Contract Of Reimbursement To Be Made Between The Governing Body And The State Highway Department; And To Provide For The Payment Of The Loan.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Findings of General Assembly.—The General Assembly finds that by Section 65-1075 of the 1962 Code provision was made for the continuance of the so-called Farm-to-Market or State Secondary Highway program for the period to end June 30, 1972, and that it was therein provided the method by which funds available for such purpose should be apportioned among the counties of the State.

Pursuant to the program, funds were made available for Farm-to-Market roads in Abbeville County for the fiscal year ending June 30, 1964, an amount in excess of one hundred twenty thousand dollars, and it is to be reasonably anticipated that during each fiscal year throughout the period to end June 30, 1972, further substantial apportionments will be made.

In Abbeville County it has been determined that an immediate need exists for further Farm-to-Market roads, and that the Governing Body of Abbeville County (the board) should be empowered to borrow not exceeding three hundred sixty thousand dollars and to make such sum available to the State Highway Department which, in turn, should apply it to the construction of the most-needed county

roads in Abbeville County, which have been transferred to and become a part of the State's Secondary Highway System (Farm-to-Market roads).

SECTION 2. Abbeville County may borrow money for road construction.—If a suitable agreement can be reached between the board and the State Highway Department providing that the State Highway Department shall construct Farm-to-Market roads in Abbeville County to an extent mutually agreed upon and divert moneys which would otherwise be expended in future years for Farm-to-Market roads in Abbeville County, to the extent estimated to be necessary to meet the payment of the prinicipal of the obligation herein authorized, the board is authorized to borrow three hundred sixty thousand dollars which shall be repaid in six equal, successive, annual installments, with interest at a rate to be agreed upon by the board and the lender, the first annual instalment to become due and payable not later than October 1, 1966.

SECTION 3. Notes—form—execution—exempt from taxes.—Notes issued pursuant to this act shall be in such denominations and form as the board shall approve, shall be executed as the board shall prescribe, and may be subject to redemption as the board shall determine. The notes and the interest thereon shall have the tax-exempt status prescribed by Section 65-4.1 of the 1962 Code.

SECTION 4. Payment.—For the payment of the principal and interest of the note issued pursuant to this act, the full faith, credit and taxing power of Abbeville County, shall be irrevocably pledged, and there shall be levied annually by the Auditor of Abbeville County, and collected by the Treasurer of Abbeville County, in the same manner as county taxes are levied and collected, a tax without limit, on all taxable property in Abbeville County, sufficient to pay the principal and interest on the note as it becomes due and to create such sinking fund as may be necessary therefor; *provided,* that the ad valorem tax levy shall be reduced to the extent that there has been paid to the county treasurer by the State Highway Department moneys pursuant to the reimbursement agreement herein authorized, on the occasion in each year when the ad valorem tax levy is to be made, and in all instances where an annual tax levy is so reduced, the moneys received from the reimbursement agreement shall be applied to the payment of such principal and to no other purpose.

SECTION 5. Proceeds.—The proceeds derived from any note issued pursuant to this act shall be paid to the Abbeville County Treasurer, and shall be deposited in a special account and shall be first applied to the expenses incident to issuance of the note and so much as remains thereafter shall be turned over to the State Highway Department and applied by it on Farm-to-Market roads in Abbeville County.

SECTION 6. Reimbursement agreement.—The State Highway Department is hereby authorized to reimburse Abbeville County for all moneys turned over to it by Abbeville County pursuant to this act. This reimbursement shall be made in annual instalments (in amounts not exceeding the annual debt service on the obligation) out of the apportionment of funds accruing to Abbeville County under the State Highway Department's Farm-to-Market Construction Program and by reason of the statute, if so much thereof shall accrue to Abbeville County. The State Highway Department shall not be obligated to the repayment to Abbeville County for any instalment due under its reimbursement agreement unless sufficient amounts for the instalments shall accrue to Abbeville County under the State Farm-to-Market Construction Program. The State Highway Department shall not be required to pay any interest to Abbeville County for funds turned over to the department pursuant to the provisions of this act. If, during any year, the apportionment to which Abbeville County is entitled exceeds the sum required to meet the annual instalment of principal or interest of the note in that year, then the excess shall be applied by the State Highway Department as if no reimbursement agreement had been entered into.

SECTION 7. Powers to be additional.—The powers and authorizations conferred upon the board and the State Highway Department shall be in addition to all other powers and authorizations previously vested in them.

SECTION 8. Time effective.—This act shall take effect upon approval by the Governor.

Approved the 8th day of June, 1965.

An Act To Amend Act 1042 Of 1962, As Amended, Relating To The Fripp Island Public Service District, So As To Authorize The District To Increase The Amount For Which General Obligation Bonds May Be Issued, Confirm The Permission To Dispose Of Such Bonds At Private Sale And To Authorize Payment Of Costs And Legal Fees Incurred In The Disposition.

Whereas, the General Assembly finds that by Act 1042 of 1962, as amended, Fripp Island Public Service District (therein erroneously called Fripps Island Public Service District) was created and the Fripp Island Public Service District Commission (therein erroneously

called Fripps Island Public Service District Commission), on behalf of the District, was authorized to issue two hundred sixty thousand dollars of General Obligation Bonds for the purposes specified in the act and pursuant to such legislative authorization the Commission did provide for the issuance ot two hundred sixty thousand dollars of General Obligation Bonds and they were offered for public sale on Tuesday, March 16, 1964, after advertisement; and

Whereas, no bids were received for the bonds at the public sale and the Commission is authorized by the act to negotiate privately for the sale of the bonds; and

Whereas, it now appears that the bonds will be disposed of at a private sale at a discount, and interest for two years must be capitalized, and for that reason and in order to defray costs incidental to the issuance of the bonds, the amount of the bond issue must be increased to two hundred and eighty thousand dollars. Now, therefore,

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Section 4 of Act 1042 of 1962 amended—bonds may be issued.—The first paragraph of Section 4 of Act 1042 of 1962 is amended on line four by striking "two hundred" and inserting "two hundred and eighty". The paragraph when amended shall read as follows:

"As one method of raising money to acquire and to enlarge and improve the waterworks system required for the district, the commission, on behalf of the district, shall be empowered to issue not exceeding two hundred and eighty thousand dollars of General Obligation Bonds of the district, whose proceeds shall be used for said purposes, including the payment of such interest on the bonds as may be capitalized. All or any General Obligation Bonds issued pursuant to this paragraph may be additionally secured by a pledge of the net revenues to be derived from the operation of the waterworks system to such extent as the commission shall determine to pledge the same, it being specifically recognized that the commission may thereafter wish to provide for further obligations of the district, secured by a pledge on a parity with the pledge herein required. The words 'net revenues' as used in this paragraph shall mean that sum remaining from the aggregate of all moneys realized by the district from rates and charges imposed and collected for water service after paying the cost of operation and maintenance of the waterworks system. If pursuant to this paragraph, General Obligation Bonds are issued:".

SECTION 2. Act 1042 of 1962 amended—sections added—payment of costs—private sale confirmed.—Act 1042 of 1962, as amended, is further amended by adding at the end thereof the following two sections to read as follows:

"Section ... The commission may pay, out of the proceeds of the sale, all costs incidental to the issuance of the bonds, including legal fees, and may capitalize interest on the bonds for two years.

"Section ... The public sale required by this act having been held, the right of the commission to dispose of the two hundred and eighty thousand dollars of general obligation bonds provided for herein at a private sale is hereby expressly confirmed."

SECTION 3. Time effective.—This act shall take effect upon approval by the Governor.

Approved the 16th day of April, 1965.

SECTION 1. Paragraph (e), Section 4 of Act 1042 of 1962 amended—payment.—Paragraph (e) of Section 4 of Act No. 1042 of 1962, is amended by adding at the end thereof the following: "If pursuant to the authorizations of this act, as amended, front foot assessments shall be imposed upon properties abutting water distribution mains or water lines making water available to such lots with the proceeds of bonds issued pursuant to this act, then in such instances, the proceeds derived from such assessments shall be paid into the sinking fund created pursuant to this paragraph and shall be applied solely to the payment of principal and interest of bonds issued pursuant to this act. To the extent that moneys from this source shall be available, then in such instances, the tax levy ordered by this section shall be reduced or omitted. *Provided,* that the county treasurer shall, in his discretion, be empowered to appoint any banking institution in

It shall be the duty of the corporate trustee, at the direction of the county treasurer, to make all or any part of the proceeds in its hands available for the payment of principal and interest on the bonds, in accordance with the directives, from time to time, issued by the county treasurer." The paragraph when amended shall read as follows:

"(e) There shall be irrevocably pledged for the payment of the bonds and interest thereon, as the same mature, the full faith, credit and resources of the district, and the Auditor and Treasurer of Beaufort County, respectively, are hereby authorized and directed to levy and collect annually a tax upon all taxable property within the district sufficient to pay the bonds and interest thereon as they respectively mature, and to create such sinking fund as may be necessary for the redemption of the bonds and interest at their respective maturities. In such event, such net revenues as shall be available shall be delivered to the Treasurer of Beaufort County prior to the occasion when the Auditor fixes the annual levy. The annual ad valorem tax herein directed to be levied may be reduced in each year by the amount of net revenues as aforesaid actually in the hands of the Treasurer of Beaufort County at the time the tax for such year is required to be levied, and the tax may be entirely suspended for any year in case such moneys on hand, applicable as aforesaid, are sufficient to pay both principal and interest then due or falling due in such year and remaining unpaid. If pursuant to the authorizations of this act, as amended, front foot assessments shall be imposed upon properties abutting water distribution mains or water lines making water available to such lots with the proceeds of bonds issued pursuant to this act, then in such instances, the proceeds derived from such assessments shall be paid into the sinking fund created pursuant to this paragraph and shall be applied solely to the payment of principal and interest of bonds issued pur-

suant to this act. To the extent that moneys from this source shall be available, then in such instances, the tax levy ordered by this section shall be reduced or omitted. *Provided,* that the county treasurer shall, in his discretion, be empowered to appoint any banking institution in South Carolina maintaining offices in Beaufort or Charleston Counties, and having an established trust department, as corporate trustee of funds derived from front foot assessments. In such instance, it shall be the duty of such corporate trustee to keep the same invested and reinvested in obligations of the United States or any agency thereof, or obligations guaranteed by the United States or any agency thereof, having maturities of not longer than five years from the occasion of any such investment. It shall be the duty of the corporate trustee, at the direction of the county treasurer, to make all or any part of the proceeds in its hands available for the payment of principal and interest on the bonds, in accordance with the directives, from time to time, issued by the county treasurer."

SECTION 2. Act 1042 of 1962 amended—Section 4A added—additional powers.—Act No. 1042 of 1962, as amended, is further amended by adding thereto the following to be known as Section 4A.

"Section 4A. (1) In addition to all powers now existing, the commission is hereby empowered to provide by resolution that the actual cost of the establishment and construction of any lateral water distribution lines constructed by the commission within the district and any extensions thereof, or so much of the actual cost thereof as the commission in its discretion deems appropriate, shall be assessed upon the lots and parcels of land abutting directly on such lateral lines or extensions thereof, according to the extent of the respective frontage thereon, by an equal rate per foot of such frontage, and may in its discretion in the case of corner lots, for an assessment only upon one of the two corner lines. The commission may provide in such resolution that the front foot assessments to be levied in connection with such work may be paid in equal installments covering a period of not exceeding ten years. The resolution providing for such front foot assessments shall designate by a general description the improvements to be made and the street or streets or parts thereof whereon the work is to be effected and the estimated cost thereof and the amount of the cost to be assessed upon all abutting property and the terms and manner of payment. Such resolution shall not become effective until at least seven days after it shall have been published in a newspaper

of general circulation in the district published in Beaufort County. Such resolution may incorporate by reference plats and engineering reports and other data on file in the commission's office provided that the place of filing and reasonable hours for inspection by interested persons are specified in the resolution.

(2) Upon the completion of the construction of any such water laterals or any extensions thereof, the commission shall compute and ascertain the total cost thereof and shall thereupon make an assessment of such total cost or so much thereof as it deems appropriate. For that purpose the commission shall make out an assessment roll in which must be entered the names of the persons assessed and the amount assessed against their respective properties with a brief description of the lots or parcels of land assessed.

(3) Immediately after such assessment roll has been completed the commission shall forthwith cause one copy thereof to be deposited in the commission's office for inspection by interested parties, and shall cause to be published at least once in a newspaper of general circulation within the district a notice of completion of the assessment roll setting forth a description in general terms of the improvement and the time fixed for the meeting of the commission for a hearing of objections in respect to the front foot assessments; such meeting not to be earlier than ten days from the date of the publication of such notice.

(4) As soon as practicable after the completion of the assessment roll and prior to the publication of the notice above mentioned in paragraph (3), the commission shall mail to the owner or owners of each lot or parcel of land against which a front foot assessment is to be levied, at his or their address appearing in the records of the county treasurer, a notice stating the nature of the improvement, the total cost thereof, the amount to be assessed against that particular property and the frontage in feet upon which the front foot assessment is based, together with the terms and conditions upon which the front foot assessment may be paid. This notice shall also contain a brief description of the particular property involved together with a statement that the amount assessed shall constitute a lien against the said property superior to all other liens except property taxes. The notice shall also state the time and place fixed for the meeting of the commission above mentioned for a hearing of objections in respect of the front foot assessments. Any property owner who fails, not later than three days prior to the date set for such meeting, to file with the com-

mission a written objection to the front foot assessment against his property shall be deemed to have waived all rights to object to such front foot assessment; and the notice prescribed herein shall so state.

(5) At the time and place specified for the meeting above mentioned, or at some other time to which it may adjourn, the commission shall hear the objections of all persons who have filed written notice of objection within the time prescribed above who may appear and make proof in relation thereto, either in person or by their attorney. The commission may thereupon make such corrections in the assessment roll as it may deem proper or may confirm the same, or may set it aside and provide for a new assessment. Whenever the commission shall confirm an assessment roll, either as originally prepared or as thereafter corrected, a copy thereof certified by the secretary of the commission shall forthwith be filed in the office of the Clerk of Court of Common Pleas of Beaufort County and from the time of such filing the front foot assessments impressed in the assessment roll shall constitute and be a lien on the real property against which the same are assessed superior to all other liens and encumbrances except only the lien for property taxes.

(6) After the assessment roll has been confirmed, a certified copy thereof shall be delivered to the Treasurer of Beaufort County who shall proceed to collect the same in the manner of county taxes and shall remit such collections upon the direction of the commission. Past due front foot assessments shall be turned over by the treasurer to the Beaufort County Sheriff who shall proceed to collect the same in the same manner as unpaid county taxes are collected.

(7) Immediately upon the confirmation of an assessment the commission shall give written notice to all persons who have filed written objections as hereinabove provided of the amount of the front foot assessment finally confirmed against his property. If any such person is dissatisfied with the amount of the front foot assessment so confirmed and shall within ten days after such confirmation give written notice to the commission of his intent to do so, he may appeal from his front foot assessment to the Beaufort County Court of Common Pleas and shall within five days after giving such notice serve upon the commission a statement of facts upon which he bases his appeal; but no such appeal shall delay or stop the improvements or affect the validity of the front foot assessments confirmed and not appealed. The appeal shall be tried at the next term of court as other actions at law with priority over all other cases.

(8) The commission may correct, cancel or remit any such front foot assessment and may remit, cancel or adjust the interest or penalties of any such front foot assessment and is empowered when in its judgment there is any irregularity, omission, error or lack of jurisdiction in any of the proceedings relating thereto set aside the whole of any assessment made by it and thereupon to make a reassessment.

(9) In the event the commission provides that such front foot assessments may be paid in equal annual installments, then in that event any property owner shall have the option and privilege of paying his respective front foot assessment in full in cash, provided he gives notice of his intent to do so in writing to the commission within thirty days after the notice prescribed in paragraph (4) supra. If no such notice of intent is given within the said thirty day period, the front foot assessment shall be deemed to be due and payable in the equal annual installments prescribed by the commission and shall bear interest at the rate of four per cent from the date of the confirmation of the assessment roll, payable with such annual installment. Any property owner shall have the right at any time, in his option, to prepay in full the front foot assessment against his property by the payment of the balance due plus interest calculated to the date of prepayment. If any property owner shall fail or neglect to pay any installment when the same becomes due and payable, then and in that event the commission may, at its option, declare all of the installments remaining unpaid at once due and payable and such property shall be sold by the Sheriff of Beaufort County in the same manner and with the same right of redemption as are prescribed by law for the sale of land for unpaid county taxes.

The County Board of Education of Beaufort County shall, on or before the first day of April of each year, report to the legislative delegation, in writing, a detailed statement of all revenues allotted for school purposes for the preceding school fiscal year and all disbursements made by it for school purposes for the preceding fiscal year. It shall also furnish to the legislative delegation, on or before the first day of April of each year, an estimate of all anticipated revenues for the present school fiscal year. It shall also furnish to the legislative delegation an estimate of all revenues to be allotted or received for school purposes for the next school fiscal year, and also an estimate of all disbursements for the next school fiscal year.

SECTION 18. All transfers of funds heretofore made by the county treasurer from one account to another, made upon the written request of a majority of the Beaufort County Legislative Delegation, including the Senator, are hereby validated.

SECTION 19. Any motor vehicle confiscated pursuant to law by enforcement officials of Beaufort County and any motor vehicle abandoned on the highways of Beaufort County and unclaimed after the notice provided for by law may be retained by such confiscating authorities for use in law enforcement purposes within the county. Funds derived from the sale of such vehicles shall be paid into the general fund of Beaufort County.

Provided, an inventory of all vehicles and equipment retained by the confiscating authority shall be furnished to the county board of directors semiannually.

SECTION 20. The Beaufort County Board of Directors may rent to any person the road equipment of Beaufort County or may rent or charge for the use of other equipment under the following conditions:

(a) The county equipment must have been engaged in the performance of county work immediately preceding such rental at the site of the job or project for which it is desired to be rented;

(b) The equipment shall be operated by a county employee regularly employed for such purpose, and the rental of such equipment shall be charged for at the rate then prevailing in Beaufort County and the value of the work done shall not exceed fifty dollars.

Provided, that upon the board of director's determination that an emergency need for the equipment exists, the above limitations shall not apply.

Provided, further, that the above limitation shall not apply when rented to the State, any subdivision thereof, or municipality.

SECTION 21. The Treasurer of Beaufort County is hereby authorized, upon approval by a majority of the legislative delegation, including the Senator, to borrow for general county purposes not exceeding one hundred thousand dollars from the Division of General Services. The amount borrowed shall be evidenced by a note or notes to be executed by the Treasurer of Beaufort County. The note or notes shall bear interest at four per cent per annum from the date thereof and shall be payable in five successive, equal, annual installments. The first installment shall be paid twelve months from the date of the note or notes. *Provided,* the borrower reserves the right to anticipate the payment of part or all of the loan on any annual installment date.

For the payment of the note or notes, the Auditor of Beaufort County shall levy, and the treasurer shall collect, an annual tax on all the taxable property of the county sufficient to retire the loan and interest due thereon, and the entire proceeds of such levy shall be applied to the payment of the note or notes, inclusive of the interest in full, at which date the levy provided herein shall be terminated.

The full faith, credit and taxing power of the county are hereby irrevocably pledged to the payment of the indebtedness provided for in this act.

Should there be default in the payment of any installment, the State Treasurer is authorized and directed to withhold all State funds accruing to the county, which have not heretofore been pledged, for the

payment of such installment and shall transmit the funds so withheld to the Division of General Services.

SECTION 22. The treasurer is authorized to borrow one hundred thousand dollars in anticipation of taxes to be used for general county purposes.

SECTION 23. All funds not necessary for current operating expenses shall be deposited or invested as provided in Section 65-2015 of the 1962 Code.

No. 526

An Act To Make Provision For The Settlement Of The Indebtedness Of Fripp Island Toll Bridge Authority And The Sale Of Its Toll Bridge To The Private Corporation Now Owning And Developing Fripp Island; To Empower The Corporation To Operate The Toll Bridge; And To Provide For The Dissolution Of Fripp Island Toll Bridge Authority, Following The Payment Of All Of Its Indebtedness.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Findings of General Assembly.—The General Assembly finds:

1. Heretofore by Act 174 of 1961 (Act 174) it created Fripp Island Toll Bridge Authority (the authority) and authorized and empowered the authority to construct a toll bridge spanning the inlet between Hunting Island and Fripp Island in Beaufort County. It further empowered the authority to finance the construction of the bridge with the proceeds of bonds payable from the revenues to be derived from the operation of the toll bridge.

2. Acting pursuant to the authorization of Act 174, the authority issued bonds as follows:

(a) Two hundred fifty thousand dollars First Lien Toll Bridge revenue bonds, dated May 1, 1962, bearing interest at the rate of five and one-half per cent per annum, and maturing May 1, 1977 (the first lien bonds).

All of the bonds of this issue were made subject to redemption on all interest payment dates, at par, plus accrued interest to the date fixed for redemption, plus a redemption premium of at least ten per cent of the amount of each bond redeemed.

Interest on the first lien bonds was capitalized from the proceeds of the bonds for the three-year period ending May 1, 1965.

(b) Two hundred ninety thousand dollars Second Lien Toll Bridge Revenue Bonds, dated May 1, 1962, bearing interest at the rate of six per cent per annum, and maturing May 1, 1978 (the second lien bonds).

The first lien bonds were sold to investment bankers and were thereafter distributed among private investors.

The second lien bonds were purchased and are now held by Fripp Island Resort, Incorporated (the company), which corporation is the owner and developer of Fripp Island. No interest on the second lien bonds has ever been paid.

3. In the course of securing its bonds, the authority appointed The First National Bank of South Carolina (in Charleston), now The First Commercial National Bank of South Carolina (the bank) as its fiscal agent and as the paying agent of its bonds, and provided that all moneys to which the authority should become entitled by reason of its ownership or operation of the toll bridge be paid to the bank for application in accordance with the terms and conditions of the proceedings authorizing the issuance of the bonds.

4. The toll bridge was satisfactorily constructed in accordance with specifications and under supervision of the State Highway Department.

5. The entire proceeds of the bonds were applied to the cost of constructing the bridge and to the cost of financing the issuance of the bonds.

6. The toll bridge is situate at the end of State Highway No. S-406 in Beaufort County, a secondary road in the State Highway system. While the island is in the process of development, its development has not been such as to promote sufficient traffic to produce the revenues required to meet the payment of the principal and interest of the first lien bonds and doubt exists as to whether traffic will develop to a degree which would generate the revenues required to meet the payment of the first lien bonds.

7. The authority, mindful of the necessity for providing for the payment of interest on the first lien bonds on November 1, 1965, and the company have been considering the situation and have reached

a tentative agreement on a plan by which, if legislative approval is given, the company would buy the toll bridge from the authority for a sum sufficient to provide for the payment of all indebtedness of the authority, and thereafter operate it as a private toll bridge for a period of forty years and under conditions by which the tolls charged would not exceed those now in effect, and with the option to Beaufort County and any State agency to purchase and acquire the toll bridge under terms and conditions more fully set forth hereafter.

8. On the basis of the foregoing facts the General Assembly has determined to authorize the authority to sell and convey the toll bridge to the company and to further provide that when all indebtedness of the authority has been fully paid, in accordance with the terms and conditions of its bonds, the authority shall be dissolved.

SECTION 2. Authority may sell toll bridge—conditions.—The authority shall be fully empowered to sell its toll bridge and all other properties and property rights, real and personal, acquired by it in the course of constructing the toll bridge, to the company, under the following conditions:

(1) The company shall cause to be deposited with the bank that sum which, together with other moneys of the authority, will be sufficient to provide for the payment of the principal, interest and redemption premium of the first lien bonds.

(2) The company shall agree to fully satisfy the second lien bonds which it now holds.

SECTION 3. Deed of conveyance.—If pursuant to any contract so made the company shall cause to be deposited with the bank the sum required to meet the payment of the first lien bonds and shall fully satisfy the second lien bonds, the authority shall be fully empowered to execute and deliver its deed of conveyance, conveying to the company its toll bridge and all other property, and all property rights of the authority, real and personal.

SECTION 4. Authority dissolved upon execution of deed.—Upon the execution and delivery of the deed of the authority, the authority shall stand dissolved and shall cease to function, and the provisions of Act 174 devolving special functions upon the authority and empowering it to act shall no longer have force and effect.

SECTION 5. Company may operate toll bridge—rates.—Upon the acquisition of the properties of the authority, the company shall

have the right to operate and maintain the toll bridge, unless pursuant to the provisions of Section 8 of this act, the toll bridge shall be acquired by either Beaufort County or the State Highway Department. During such period it shall have the right to charge and collect tolls for passage over the bridge, at rates not to exceed the following, to wit:

(One Way)

Motorcycle, motorbike, bicycles	$ .75
Two axle vehicles, including passenger cars, pickups and panel trucks and single unit four tire and six tire trucks	1.00
Three axle vehicles including single unit trucks, semi-trailer combinations and two axle vehicles drawing single axle trailer	1.50
Four axle vehicles including semi-trailer combination and other two axle vehicles with two-axle trailers	2.00
Five axle vehicles including semi-trailer combination and other special and unusual vehicles	2.50
Buses	3.50
Pedestrians	.25

Notwithstanding the provisions of this section, the company shall at all times permit any public officer acting in the course of official business to make use of the toll bridge without toll or charge.

SECTION 6. Bridge to be kept in good repair.—During the period of its franchise the company, and its successors and assigns, shall be obligated to maintain the bridge and its approaches in good repair and maintenance in accordance with the standards of the State Highway Department, and the personnel of the State Highway Department shall have the right to enter upon and inspect the bridge and its approaches at all times. The company shall maintain sufficient insurance against all hazards to insure replacement or repair in the event of its damage or destruction.

SECTION 7. No other bridge to Fripp Island to be allowed.—During the period of the franchise no public bridge or causeway shall be constructed to Fripp Island and no other contract or franchise shall be granted by the State of South Carolina or Beaufort County for the construction of a bridge or causeway across Fripp Inlet, whether they are operated under an arrangement which would permit the charge of tolls, or whether they are operated free and without charge.

SECTION 8. Acquisition of bridge from company—conditions.—The conveyance to the company and the franchise herein conditionally granted to it shall be subject to the condition that Beaufort County or the State Highway Department may, if suitably authorized by legislation subsequently enacted, acquire from the company or its assigns, the bridge and other properties incident thereto, upon the following terms and conditions:

(1) The purchase price shall be the construction costs and is not to include any penalties, interest or redemption premium less depreciation thereon, at the rate of two and one-half per cent per annum from the effective date of this act.

SECTION 9. Time effective.—This act shall take effect upon approval by the Governor, but the power and authority herein granted to the authority, unless exercised on or before December 31, 1966, shall cease and determine.

Approved the 15th day of June, 1965.

No. 527

An Act To Amend Act No. 957 Of The Acts Of 1960, Relating To The Hanahan Public Service District In Berkeley County, By Further Defining The Boundaries Of The District; By Empowering The District Commission To Regulate The Use Of Sewerage Facilities In The District; And To Provide For Charges, Liens, Hearings, And Court Proceedings.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Findings of General Assembly.—The General Assembly finds that it did, by Section 1 of Act No. 957 of the Acts of 1960 (Act 957), define the boundaries of Hanahan Public Service District in Berkeley County (the District) and did grant to Hanahan Public Service District Commission (the Commission) certain powers and functions. It has now been determined that certain property in the District, being a portion of that owned by West Virginia Pulp and Paper Company (West Virginia) and the United States Government, should be excluded from the District for the reason that the same is not compatible to the character of the District inasmuch as it is devoted, or suitable of being devoted, to industrial and other pur-

poses. It has, therefore, determined to redefine the boundaries of the District to the extent hereinafter set forth, so as to eliminate such properties from the District.

It is further noted that while most of the District will have available to it public sewage collection and disposal facilities, there may be areas in the District for which such facilities are not available. It has, therefore, determined that it is necessary, in order to maintain the public health of the District, to empower the Commission to regulate the use of private sewers, cesspools and septic tanks, for which public sewage collection and disposal facilities are not available.

The General Assembly has further determined to confirm the right of the Commission to impose sewer charges (originally provided for in Act 257 of 1945 and Act 898 of 1946) and to provide for hearings in connection therewith.

It proposes to accomplish such purposes by amending Act 957.

SECTION 2. Section 1 of Act 957 of 1960 amended—area.— Section 1 of Act 957 is amended to read as follows:

"Section 1. The boundaries of the Hanahan Public Service District in Berkeley County shall be those set forth on a revised plat drawn by Cummings and McCrady, Architects-Engineers, dated February, 1965, and bearing the legend 'Hanahan Public Service District'. Copies of said plat shall be recorded in the offices of the Clerk of Court, the Auditor, and the Treasurer of Berkeley County. The boundaries of the District, as shown on the plat, are as follows:

> Beginning at the southwestern corner of Berkeley County, said point being on the western right of way line of the A. C. L. Railroad and near the northern edge of the Remount Road, thence in a northerly direction along the western boundary of Berkeley County to the north property line of property of the Commissioners of Public Works (formerly a part of the Nixon tract), thence N. 73° - 28′ - 29″ E to the center line of the channel of Goose Creek to the lands of the Charleston Transportation Depot, thence in a southwesterly direction along the northern property line of the Charleston Transportation Depot to the S. A. L. Railroad, thence in a southerly direction along the eastern right of way of the S. A. L. Railroad to the northern property line of a tract owned by the United States of America and used as a fuel storage area; thence due west for a distance of 1280 feet, more or less to the eastern R/W of North Rhett

Avenue; thence southerly along the eastern R/W of North Rhett Avenue a distance of 3730 feet more or less to the southern boundary of Berkeley County; thence westerly along the southern boundary of Berkeley County to the point of beginning."

SECTION 3. Act 957 of 1960 amended—Sections 7A, 7B and 7C added—regulations—fees—unpaid charges to constitute lien.— Act 957 is amended by adding the following:

"Section 7A. The Commission is expressly empowered to prescribe and enforce regulations (a) requiring all persons to whom it is available to make use of any sewer system which the District shall from time to time operate; and (b) generally with respect to the discharge of sewage and the use of privies, septic tanks and any other type of sewage facilities within the District. Any such regulations shall, however, become effective only after they have been adopted by resolution of the Commission, a certified copy thereof has been recorded in the office of the county clerk of court, a copy posted in the courthouse of the county, and notice of the adoption of such resolution has been published at least once a week for three successive weeks in a newspaper having general circulation in the District. The published notice shall specify in brief the scope of the regulations and shall state the date on which the same shall become effective. Prior to the adoption of the resolution, the Commission shall give public notice of a meeting to be held to consider its adoption and the notice shall appear in a newspaper having general circulation in the District at least once not less than seven days prior to the occasion fixed for the holding of such meeting. Any person affected may attend such meeting and express his views on the proposed regulations.

Section 7B. The Commission is expressly empowered to impose such schedule of fees, rates and charges for sewer connection and for sewage disposal service as the Commission shall from time to time approve. To that end the Commission shall be empowered to place into effect, and to revise whenever it so wishes or may be so required, a schedule of fees, rates and charges for the sewage disposal facilities made available by it to persons, firms or corporations within the District. Prior to the furnishing of any sewage disposal service for which the prescribed fee, rate or charge shall, pursuant to Section 7C of this act, become a lien on the property affected, and

prior to any subsequent increase in any such fee, rate, or charge, not less than ten days' written notice shall be given to each affected property owner, notifying him of the nature and quantum of the charge, and providing such property owner an opportunity, if desired and requested, to appear and be heard in person, or by counsel, before the Commission. Following such hearing, if such be requested and held, action shall be taken by the Commission, and notice of its decision shall be given to the property owner concerned, or his counsel, as the case may be, not less than ten days prior to the effective date of the fee, rate or charge. Any property owner aggrieved by the action of the Commission may proceed by certiorari in the Court of Common Pleas for Berkeley County to have such court review the action taken by the Commission, at which time the court shall determine the validity and reasonableness of the charge so made.

Section 7C. If the notice or notices prescribed by Section 7B shall have been given and any hearing requested pursuant thereto shall have been held, all tapping fees, service charges, and other charges duly imposed by the Commission under authority of this act and not paid when due and payable, shall be and constitute a lien upon the real estate to which the sewage service concerned relates, so long as the fees or charges remain unpaid, and prior to all liens except the lien for property taxes. In addition to such other rights and remedies as may be available to the Commission in law or equity for collection of the fees and charges, the lien may be enforced by the Commission in the same manner and fashion as the lien of property taxes upon real estate."

SECTION 4. Time effective.—This act shall take effect upon approval by the Governor.

Approved the 30th day of April, 1965.

No. 528

An Act To Amend Act No. 1163 Of 1964, Relating To The Hanahan Public Service District In Berkeley County And The Issuance Of General Obligation Bonds By It, So As To Increase The Amount Of Such Bonds, And To Enlarge The Powers Of The District So As To Permit Front Foot Assessments Against Property Abutting Sewer Lateral Lines.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Findings of General Assembly.—The General Assembly finds that acting pursuant to Act No. 1163 of 1964, by which Hanahan Public Service District in Berkeley County (the District) was empowered to issue general obligation bonds to the extent of not exceeding eight hundred thousand dollars for the purpose of constructing a system for the collection, treatment and disposal of sewage and other waste and to renovate and improve its waterworks system, Hanahan Public Service District Commission (the Commission) set about to construct an extensive sewer system and to make minor improvements to its waterworks system. It now develops that the cost of the project will exceed the eight hundred thousand dollars estimated by Act No. 1163 and that the cost will amount to approximately one million two hundred thousand dollars. Construction is now under way and it becomes necessary to provide a means by which the District may raise one million two hundred thousand dollars.

After due consideration the General Assembly has determined that the most appropriate method by which the money may be raised is through increasing the authorization to issue bonds pursuant to Act No. 1163. It, however, has taken note of the fact that it would be equitable that a portion of the cost, if possible, should be met through moneys raised by a front foot assessment imposed upon properties abutting sewer laterals, in view of the fact that the value of such properties will be comparably enhanced through the availability of sewage disposal service.

The General Assembly is also mindful that certain possible legal questions might be thought to exist by reason of two old decisions of the Supreme Court of South Carolina, viz.: the case of *Mauldin* vs. *City Council of Greenville,* 53 S. C. 285, 31 S. E. 252 and *Stehmeyer* vs. *City Council of Charleston,* 53 S. C. 259, 31 S. E. 322. While it is believed that the logic of such rulings has been dissipated by later decisions of the Supreme Court it is nevertheless mindful that there is a possibility that the front foot assessment plan might be held invalid. The General Assembly, therefore, proposes to make available to the Commission the power to impose front foot assessments against properties abutting sewer laterals, and to provide that the Commission shall, if possible, undertake to impose such front foot assessments, and to make all proceeds of such assessments available for debt service of the one million two hundred thousand dollars of bonds, but it does not intend that the imposition of front foot as-

sessments shall be a condition precedent to the issuance of bonds, to the extent of one million two hundred thousand dollars, pursuant to Act No. 1163, as amended. Accordingly, through the means of this act it intends to (a) enlarge the bond authorization granted to the Commission by Act No. 1163 of 1964, and (b) enlarge the powers of the District so that it may levy front foot assessments.

SECTION 2. Section 2 of Act 1163 of 1964 amended—bond issue authorized.—Section 2 of Act No. 1163 of 1964 is amended to read as follows:

"Section 2. In order to raise the sum required therefor, the Commission is empowered to issue not exceeding one million two hundred thousand dollars of general obligation bonds of the District, whose proceeds shall be used to construct a system for the collection, treatment and disposal of sewage and other waste and to renovate and improve the existing waterworks system of the District and, to the extent required, to the payment of such interest on the bonds as may be capitalized."

SECTION 3. Section 7 of Act 1163 of 1964 amended—payment.—Section 7 of Act No. 1163 of 1964 is amended by adding at the end thereof the following:

"*Provided,* that if pursuant to the authorizations of this act, as amended, front foot assessments shall be imposed upon properties abutting sewer laterals, then in such instances, the proceeds derived from such assessments shall be paid into the sinking fund created pursuant to this section and shall be applied solely to the payment of principal and interest of bonds issued pursuant to this act. To the extent that moneys from this source shall be available, then in such instances, the tax levy ordered by this section shall be reduced or omitted.

Likewise, if pursuant to any other authorization sewer service charges shall be imposed, then in such instance, such portion thereof not required for operation and maintenance shall be paid into the sinking fund created pursuant to this section and shall be applied solely to the payment of principal and interest of bonds issued pursuant to this act. To the extent that moneys from this source shall be available, then in such instances, the tax levy ordered by this section shall be reduced or omitted.

Provided, further, that the county treasurer shall, in his discretion, be empowered to appoint any banking institution in South Carolina

maintaining offices in Berkeley or Charleston Counties, and having an established trust department, as corporate trustee of funds derived from front foot assessments and the surplus derived from sewer service charges. In such instance, it shall be the duty of such corporate trustee to keep the same invested and reinvested in obligations of the United States or any agency thereof, or obligations guaranteed by the United States or any agency thereof, having maturities of not longer than five years from the occasion of any such investment. It shall be the duty of the corporate trustee, at the direction of the county treasurer, to make all or any part of the proceeds in its hands available for the payment of principal and interest on the bonds, in accordance with the directives, from time to time, issued by the county treasurer."

SECTION 4. Act 1163 of 1964 amended—Section 9A added—front foot assessments.—Act No. 1163 of 1964 is further amended by adding the following:

"Section 9A. (1) In addition to all powers now existing, the Commission is hereby empowered to provide by resolution that the actual cost of the establishment and construction of any lateral collection sewer lines constructed by the Commission within the District and any extensions thereof, or so much of the actual cost thereof as the Commission in its discretion deems appropriate, shall be assessed upon the lots and parcels of land abutting directly on such lateral lines or extensions thereof, according to the extent of the respective frontage thereon, by an equal rate per foot of such frontage, and may in its discretion provide in the case of corner lots, for an assessment only upon one of the two corner lines. The Commission may provide in such resolution that the front foot assessments to be levied in connection with such work may be paid in entirety or in equal installments covering a period of not exceeding ten years. The resolution providing for such front foot assessments shall designate by a general description the improvement to be made and the street or streets or parts thereof whereon the work is to be effected and the estimated cost thereof and the amount of the cost to be assessed upon all abutting property and the terms and manner of payment. Such resolution shall not become effective until at least seven days after it shall have been published in a newspaper of general circulation in the District. Such resolution may incorporate by reference plats and engineering reports and other data on file in the Com-

mission's office provided that the place of filing and reasonable hours for inspection by interested persons are specified in the resolution.

(2) Upon the completion of the construction of any such sewer laterals or any extensions thereof, the Commission shall compute and ascertain the total cost thereof and shall thereupon make an assessment of such total cost or so much thereof as it deems appropriate. For that purpose the Commission shall make out an assessment roll in which must be entered the names of the persons assessed and the amount assessed against their respective properties with a brief description of the lots or parcels of land assessed.

(3) Immediately after such assessment roll has been completed the Commission shall forthwith cause one copy thereof to be deposited in the Commission's office for inspection by interested parties, and shall cause to be published at least once in a newspaper of general circulation within the District a notice of completion of the assessment roll setting forth a description in general terms of the improvement and the time fixed for the meeting of the Commission for a hearing of objections in respect to the front foot assessments; such meeting not to be earlier than ten days from the date of the publication of such notice.

(4) As soon as practicable after the completion of the assessment roll and prior to the publication of the notice above mentioned in paragraph (3), the Commission shall mail to the owner or owners of each lot or parcel of land against which a front foot assessment is to be levied, at his or their address appearing in the records of the county treasurer, a notice stating the nature of the improvement, total cost thereof, the amount to be assessed against that particular property and the frontage in feet upon which the front foot assessment is based, together with the terms and conditions upon which the front foot assessment may be paid. This notice shall also contain a brief description of the particular property involved together with a statement that the amount assessed shall constitute a lien against the said property superior to all other liens except property taxes. The notice shall also state the time and place fixed for the meeting of the Commission above mentioned for a hearing of objections in respect of the front foot assessments. Any property owner who fails, not later than three days prior to the date set for such meeting, to file with the Commission a written objection to the front foot assessment against his property shall be deemed to have waived all rights to object to such front foot assessment; and the notice prescribed herein shall so state.

(5) At the time and place specified for the meeting above mentioned, or at some other time to which it may adjourn, the Commission shall hear the objections of all persons who have filed written notice of objection within the time prescribed above who may appear and make proof in relation thereto, either in person or by their attorney. The Commission may thereupon make such corrections in the assessment roll as it may deem proper or may confirm the same, or may set it aside and provide for a new assessment. Whenever the Commission shall confirm an assessment roll, either as originally prepared or as thereafter corrected, a copy thereof certified by the secretary of the Commission shall forthwith be filed in the office of the clerk of court of the county and from the time of such filing the front foot assessments imposed in the assessment roll shall constitute and be a lien on the real property against which the same are assessed superior to all other liens and encumbrances except only the lien for property taxes.

(6) After the assessment roll has been confirmed a certified copy thereof shall be delivered to the county treasurer who shall proceed to collect the same in the manner of county taxes and apply the same in the manner prescribed by Section 7 of Act No. 1163, as amended. Past due front foot assessments shall be turned over by the treasurer to the county sheriff who shall proceed to collect the same in the same manner as unpaid county taxes are collected.

(7) Immediately upon the confirmation of an assessment the Commission shall give written notice to all persons who have filed written objections as hereinabove provided of the amount of the front foot assessment finally confirmed against his property. If any such person is dissatisfied with the amount of the front foot assessment so confirmed and shall within ten days after such confirmation give written notice to the Commission of his intent to do so, he may appeal from his front foot assessment to the Court of Common Pleas of Berkeley County and shall within five days after giving such notice serve upon the Commission a statement of facts upon which he bases his appeal; but no such appeal shall delay or stop the improvements or affect the validity of the front foot assessments confirmed and not appealed. The appeal shall be tried at the next term of court as other actions at law with priority over all other cases.

(8) The Commission may correct, cancel or remit any such front foot assessment and may remit, cancel or adjust the interest or penalties of any such front foot assessment and is empowered when

in its judgment there is any irregularity, omission, error or lack of jurisdiction in any of the proceedings relating thereto to set aside the whole of any assessment made by it and thereupon to make a reassessment.

(9) In the event the Commission provides that such front foot assessments may be paid in equal annual installments, the front foot assessment shall be deemed to be due and payable in the equal annual installments prescribed by the Commission and shall bear interest at the rate of four per cent per annum from the date of the confirmation of the assessment roll, payable with such annual installment. Any property owner shall have the right at any time, in his option, to prepay in full the front foot assessment against his property by the payment of the balance due plus interest calculated to the date of prepayment. If any property owner shall fail or neglect to pay any installment when the same becomes due and payable, then and in that event the Commission may, at its option, declare all of the installments remaining unpaid at once due and payable and such property shall be sold by the county sheriff in the same manner and with the same right of redemption as are prescribed by law for the sale of land for unpaid county taxes.

(10) If the General Assembly shall, through general law, make available to the District the power to impose front foot assessments against property abutting upon sewer laterals to provide for the cost of such installations and shall prescribe the procedure by which the District may act, the Commission shall proceed under the authorizations of the general law to impose front foot assessments."

No. 529

An Act Providing For The Creation Of Watershed Conservation Districts In Berkeley County And The Election Of Directors, Their Powers And Duties; And Providing For A Levy Of Taxes For The Organization And Administration Of The Districts And For The Construction, Operation And Maintenance Of Works Of Improvement Within The Districts.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Definitions.—Whenever used or referred to in this act, unless a different meaning clearly appears from the context:

(1) "Watershed conservation district" means a governmental subdivision of this State, and a public body corporate and politic, organized in accordance with the provisions of this act, for the purposes, with the powers, and subject to the restrictions hereinafter set forth.

(2) "Director" means one of the members of the governing body of a watershed conservation district, elected in accordance with the provisions of this act.

(3) "Supervisor" means one of the members of the governing body of the Berkeley Soil and Water Conservation District in which any part of a watershed conservation district is situated.

(4) "Petition" means a petition filed under the provisions of Section 4 of this act for the creation of a watershed conservation district.

(5) "County" means Berkeley County of South Carolina.

(6) "Landowner" or "owner of land" includes any person, firm or corporation who shall hold legal or equitable title to any lands lying within a watershed conservation district organized under the provisions of this act.

(7) "Due notice" means notice published at least twice, with an interval of at least one week between the two publication dates, in a publication of general circulation within the appropriate area, or, if no such publication of general circulation be available, notice posted at a reasonable number of conspicuous places within the appropriate area, such posting to include, where possible, posting at public places where it is customary to post notices concerning county or municipal affairs generally.

SECTION 2. Watershed Conservation Districts may be formed in Berkeley County.—Authority is hereby granted to form watershed conservation districts within Berkeley County for the purpose of developing and executing plans and programs relating to any phase of the control and prevention of soil erosion, flood prevention, or the conservation, development, utilization and disposal of water.

SECTION 3. Area.—The area embraced in a watershed conservation district must be contiguous and must lie within a well-defined

watershed; and such area shall not include lands located within the boundary of any incorporated city or town, or lands embraced in another watershed conservation district.

SECTION 4. Petition for formation.—When twenty-five or more landowners within a proposed watershed conservation district, or, if less than fifty landowners are involved, a majority of such landowners, desire to form a watershed conservation district, they shall file a petition with the supervisors of the soil and water conservation district asking that a watershed conservation district be organized to function in the area described in the petition. Such petition shall set forth the proposed name of the watershed conservation district; that there is need, in the interest of the public health, safety and welfare, for a watershed conservation district to function in the territory described in the petition; a description of the territory proposed to be organized as a watershed conservation district, which description need not be given by metes and bounds or by legal subdivisions, but shall be deemed sufficient if generally accurate; and the approximate number of acres of land included in the proposed watershed conservation district.

SECTION 5. Hearing on petition.—(1) Within thirty days after such petition has been filed with the supervisors of the soil and water conservation district, they shall cause due notice to be given of a hearing upon the question of the desirability and necessity, in the interest of the public health, safety and welfare, of the creation of such watershed conservation district. All interested parties shall have the right to attend such hearing and to be heard. If it shall appear at the hearing that other lands should be included in the petition or that lands included in the petition should be excluded, the supervisors shall permit such inclusion or exclusion, provided the land area involved still meets the requirements of Section 3 of this act.

(2) If it appears upon the hearing that it may be desirable to include within the proposed watershed conservation district territory outside of the area within which due notice of the hearing has been given, the hearing shall be adjourned and due notice of a further hearing shall be given throughout the entire area considered for inclusion in the proposed watershed conservation district, and such further hearing shall be held. After final hearing, if the supervisors of the soil and water conservation district determine, upon the facts presented at the hearing and upon other available informa-

tion, that there is need, in the interest of the public health, safety and welfare, for a watershed conservation district to function in the territory considered at the hearing, they shall make and record such determination, and shall define the area, but the description need not be given by metes and bounds. The description shall be deemed sufficient if generally accurate and the approximate number of acres of land included in the proposed watershed conservation district is shown.

(3) If the supervisors of the soil and water conservation district determine after such hearing that there is no need for a watershed conservation district to function in the territory considered at the hearing, they shall make and record such determination and shall deny the petition.

SECTION 6. Referendum.—After the supervisors of the soil and water conservation district have made and recorded a determination that there is need, in the interest of the public health, safety and welfare, for a watershed conservation district to function in the territory considered at the hearing, and have defined the boundaries thereof, they shall consider the question of whether the operation of a watershed conservation district within the proposed boundaries with the powers conferred upon it by this act is administratively practicable and feasible. To assist the supervisors in making this determination they shall, within a reasonable time after the entry of a finding that there is need for the organization of a watershed conservation district and the determination of the boundaries thereof, hold a referendum within the proposed watershed conservation district upon the proposition of the creation of the watershed conservation district. Due notice of the referendum shall be given by the supervisors. Such notice shall state the date of holding the referendum, the hours of opening and closing the polls, and shall designate one or more places within the proposed watershed conservation district as polling places and shall give notice that the directors shall have the power of eminent domain. The supervisors shall have full charge of the referendum and shall have suitable ballots printed and furnished to each polling place, appoint necessary box managers and other referendum officials, and shall canvass the referendum and announce the results. The cost of holding the referendum shall be paid from the general fund of Berkeley County. *Provided,* that notwithstanding any provision of law to the contrary, the power of

eminent domain shall not be exercised over the protest of any landowner until it is conclusively established that the land proposed to be condemned is absolutely essential to the creation and operation of the watershed conservation district.

SECTION 7. Question.—The question to be voted on shall be submitted by ballots upon which appear the words:

"For creation of ..... Watershed Conservation District"

"Against creation of ..... Watershed Conservation District"

A square shall follow each proposition. The ballot shall contain a direction to insert an "X" mark in the square following one or the other of the propositions as the voter may favor or oppose creation of the watershed conservation district. The ballot shall set forth the boundaries of the proposed watershed conservation district as determined by the supervisors of the soil and water conservation district. No one except owners of lands lying within the boundaries of the proposed watershed conservation district, as determined by the supervisors of the soil and water conservation district, shall be eligible to vote in the referendum. Qualified voters may vote by absentee ballot in the referendum under such rules and regulations as may be prescribed by the supervisors. No informalities in the conduct of the referendum or in any matters relating thereto shall invalidate the referendum or the result thereof if notice of the referendum shall have been given substantially as herein provided and the referendum shall have been fairly conducted.

SECTION 8. Results—district to be created if results and determination favorable.—The votes shall be counted by the referendum officials at the close of the polls and a report of the results, along with the ballots, shall be delivered and certified to the supervisors of the soil and water conservation district; and thereafter the supervisors shall determine whether the operation of the watershed conservation district within the defined boundaries is administratively practicable and feasible. If the supervisors determine that the operation of such district is not administratively practicable and feasible, they shall record such determination and deny the petition. If the supervisors determine that the operation of such district is administratively practicable and feasible, they shall record such determination and shall proceed with the organization of such district in the manner hereinafter set forth; *provided, however,* that the supervisors shall not have authority to determine that the operation of such

district is administratively practicable and feasible unless at least a majority of the votes cast in the referendum upon the proposition of the creation of such district shall have been cast in favor of the creation of the district. If the supervisors shall determine that the operation of such district is administratively practicable and feasible, they shall certify such determination to the Clerk of Court for Berkeley County and to the Secretary of State. Upon proper recordation of such determination, such watershed conservation district shall constitute a governmental subdivision of this State and a public body corporate and politic. After being recorded, such certification shall be filed with the State Soil and Water Conservation Committee.

SECTION 9. Board of directors to govern district—nominating petitions—election—ballots—terms—officers—bond of treasurer. —(1) The governing body of the watershed conservation district shall consist of five directors, elected as provided herein.

(2) Within thirty days after a watershed conservation district has been created, nominating petitions may be filed with the supervisors of the soil and water conservation district to nominate candidates for directors of the watershed conservation district. No such nominating petition shall be accepted by the supervisors unless it is signed by twenty-five or more landowners within the watershed conservation district, or, if less than fifty landowners are involved, by a majority of such landowners. If the candidates nominated do not exceed the number of directors to be chosen, the supervisors shall declare them to be elected. No person shall be eligible to be a director of a watershed conservation district who is not a landowner in the watershed conservation district in which he seeks election.

(3) If the candidates nominated for directors of the watershed conservation district exceed the number of directors to be chosen, the supervisors of the soil and water conservation district shall, after having given due notice thereof, cause an election to be held within the watershed conservation district within a reasonable time after the expiration of the nominating period. The provisions of Sections 5, 6 and 7 of this act as to notice, qualifications of voters, absentee voting, and the manner of holding the referendum in organizing a watershed conservation district, shall apply insofar as practicable to the election of the directors. The names of all qualified nominees shall be printed in alphabetical order upon ballots with a

square before each name and a direction to insert an "X" mark in the square before any five names to indicate the voter's preference. Only landowners within the watershed conservation district shall be eligible to vote in the election. The five candidates who shall receive the largest number respectively of the votes cast in the election shall be the directors of the watershed conservation district, and shall, under the supervision of the supervisors of the soil and water conservation district, be the governing body of the watershed conservation district.

(4) Of the directors first elected, the two receiving the largest number of votes shall serve for terms of four years, the two receiving the next largest number of votes shall serve for terms of three years, and the one receiving the next largest number of votes shall serve for a term of two years. The term of office of each of their successors shall be for four years, and until their successors are elected and qualify. Vacancies shall be filled by selection by the supervisors for the unexpired portion of the term only.

(5) The directors shall annually designate from among their number a chairman, secretary, and treasurer. The treasurer shall execute an official bond for the faithful performance of the duties of his office, to be approved by the directors. Such bond shall be executed by a surety company authorized to do business in this State and shall be in an amount determined by the directors. The premium on each bond shall be paid by the watershed conservation district.

SECTION 10. District to be corporate body—powers and duties. —A watershed conservation district organized under the provisions of this act shall constitute a governmental subdivision of this State, and a public body corporate and politic, exercising public powers, and such district and the directors thereof shall, subject to the approval of the supervisors of the soil and water conservation district, have the following powers, in addition to others granted in other sections of this act:

(1) To acquire, by purchase, exchange, lease, gift, grant, bequest, devise, or otherwise, or through condemnation proceedings in the manner provided in Sections 25-101 through 25-140 and Sections 33-121 through 33-148, Code of Laws of South Carolina, 1962, such lands, easements or rights-of-way as are needed to carry out any authorized purpose of the watershed conservation district; and to sell, lease, or otherwise dispose of any of its property or interests

therein in furtherance of the purposes and provisions of this act; *provided*, that the power of eminent domain conferred hereunder shall not extend to the property of any public utility or public service corporation that the utility or public service corporation could have acquired under its power of eminent domain;

(2) To construct, reconstruct, repair, enlarge, improve, operate, and maintain such works of improvement as may be necessary or convenient for the performance of any of the operations authorized by this act;

(3) To borrow money and to execute promissory notes and other evidences of debt in connection therewith for payment of the costs and expenses of organizing the watershed conservation district or for carrying out any authorized purpose of such district, and if promissory notes are issued, to execute such mortgages on any property owned by such district, or assign or pledge such revenues or assessments of such district as may be required by the lender as security for the repayment of the loan; and to issue, negotiate, and sell its bonds as provided in Section 11 of this act;

(4) To levy an annual tax on the real property within the district subject to the limitations provided in Section 13 of this act for payment of the costs and expenses of organizing the watershed conservation district or for carrying out any authorized purpose of such district. Such levy shall be made only after approval by the supervisors of the soil and water conservation district and upon notifying the county auditor; and

(5) Where watersheds cross county or state lines, the watershed directors are authorized to work with similar organizations in determining cost sharing to solve common problems.

SECTION 11. Bonds not to be issued unless referendum held.—(1) Bonds authorized by Section 10 of this act shall not be issued until proposed by order or resolution of the directors of the watershed conservation district, specifying the purpose for which the funds are to be used and the proposed undertaking, the amount of bonds to be issued, the rate of interest they are to bear, and the amount of any necessary tax levy in excess of the maximum authorized in Section 13 of this act. A copy of the order or resolution shall be certified to the supervisors of the soil and water conservation district.

(2) The supervisors shall hold a hearing on such proposal after having given due notice. If it appears that the proposal is within

the scope and purpose of this act and meets all other requirements of the law, the proposal shall be submitted to the landowners of the district by a referendum held by the supervisors.

(3) The provisions of Sections 5, 6 and 7 of this act as to notice, qualifications of voters, absentee voting, and manner of holding the referendum in organizing a watershed conservation district shall apply to the referendum held under this section.

(4) If two-thirds of the votes cast in such referendum favor the proposal, the directors shall, with the approval of the supervisors, be authorized to issue such bonds.

SECTION 12. Compensation.—The directors of the watershed conservation district shall receive no compensation for their services, but they may be reimbursed for expenses, including traveling expenses, necessarily incurred in the performance of their duties as approved by the supervisors of the soil and water conservation district.

SECTION 13. Budget—tax levy.—Within the first quarter of each calendar year, the directors of the watershed conservation district shall prepare an itemized budget of the funds needed for administration of the watershed conservation district and for construction, operation and maintenance of works of improvement. After approval of such budget by the supervisors of the soil and water conservation district, the county auditor shall levy a tax sufficient to meet such budget on all real property within the watershed conservation district of not to exceed five mills on each dollar of assessed valuation, except that this limitation shall not apply to any levy necessary to provide a sinking fund for the retirement of bonds authorized by Section 11 of this act. A copy of such budget shall be certified to the Auditor of Berkeley County.

SECTION 14. List of landowners and acres subject to assessment.—(1) The directors of the watershed conservation district, with the assistance of the county auditor, shall prepare a list of the landowners involved, showing the number of acres subject to assessment.

(2) When the property tax rolls are delivered to the county treasurer by the county auditor, as required by law, the county treasurer shall compute the tax due the watershed conservation district from each landowner in accordance with the rate fixed by the directors and the value of the real property indicated on the tax roll. The computation shall be made on the regular tax bills.

SECTION 15. Collection of taxes.—(1) The county treasurer shall collect the taxes due the watershed conservation district at the same time and in the same manner as he collects other taxes of the county.

(2) The taxes shall be subject to the same due and delinquency dates, discounts, penalties and interests as are applied to the collection of county taxes.

SECTION 16. Expenditures.—Tax funds collected shall be transferred to and held by the treasurer of the watershed conservation district for the specific purpose for which they have been collected. All expenditures of such funds shall be made by the directors of the watershed conservation district with the approval of the supervisors of the soil and water conservation district.

SECTION 17. Petition to have lands detached.—The owners of lands which have not been, are not and cannot be benefited by their inclusion in the watershed conservation district may petition the supervisors of the soil and water conservation district to have such lands detached. The petition shall describe such lands and state the reasons why they should be detached. A hearing shall be held by the supervisors within thirty days after the petition is filed and due notice of such hearing shall be given by the supervisors. If it is determined by the supervisors that such lands shall be detached, such determination shall be certified to the Auditor of Berkeley County for recording. After being recorded, the certification shall be filed with the State Soil and Water Conservation Committee.

SECTION 18. Petition for discontinuance of district—hearing—referendum—discontinuance if election and determination favorable.—(1) At any time after five years after the organization of a watershed conservation district, twenty-five or more landowners within such district, or if less than fifty landowners are involved, a majority of such landowners, may file a petition with the supervisors of the soil and water conservation district asking that the existence of the watershed conservation district be discontinued. The petition shall state the reasons for discontinuance, and that all obligations of the watershed conservation district have been met. The supervisors may conduct such hearings upon the petition as may be necessary to assist them in the consideration thereof.

(2) Within sixty days after such petition has been filed with the supervisors they shall give due notice of the holding of a referendum.

The supervisors shall hold such referendum substantially as provided for in Section 11 of this act. The question shall be submitted by ballots upon which the words "For terminating the existence of the ..... Watershed Conservation District" and "Against terminating the existence of the ..... Watershed Conservation District" shall be printed, with a square before each proposition and a direction to insert an "X" mark in the square before one or the other of the propositions as the voter may favor or oppose the discontinuance of such watershed conservation district. Only landowners within the watershed conservation district shall be eligible to vote in such referendum. No informality in the conduct of the referendum or in any matters relating thereto shall invalidate the referendum or the results thereof if notice of the referendum shall have been given substantially as herein provided and the referendum shall have been fairly conducted.

(3) The supervisors shall publish the results of the referendum and shall thereafter determine whether the continued operation of the watershed conservation district is administratively practicable and feasible. If the supervisors determine that the continued operation of the watershed conservation district is administratively practicable and feasible, they shall record such determination and deny the petition. If the supervisors determine that the continued operation of the watershed conservation district is not administratively practicable and feasible, they shall record such determination and shall certify such determination to the directors of the watershed conservation district; *provided,* however, that the supervisors shall not be authorized to determine that the continued operation of the watershed conservation district is administratively practicable and feasible unless at least a majority of the votes cast in the referendum shall have been cast in favor of the continuance of the watershed conservation district.

(4) Upon receipt from the supervisors of a certification that they have determined that the continued operation of the watershed conservation district is not administratively practicable and feasible, the directors shall forthwith proceed to terminate the affairs of the watershed conservation district. A copy of the determination shall be certified to the Auditor of Berkeley County for recording. After being recorded, the certification shall be filed with the State Soil and Water Conservation Committee.

SECTION 19. Supervisory authority if district discontinued.—If the Berkeley County Soil and Water Conservation District is discontinued, all supervisory authority over the affairs of the watershed conservation district which was previously exercised by the supervisors shall thereafter be exercised by the governing body of Berkeley County.

SECTION 20. Not to affect existing districts.—The provisions of this act shall not affect any watershed conservation district in existence in the county prior to the effective date.

SECTION 21. Time effective.—This act shall take effect upon approval by the Governor.

Approved the 27th day of May, 1965.

No. 534

An Act To Authorize The County Council Of Charleston County To Issue And Sell Not Exceeding Four Million Three Hundred Fifty Thousand Dollars Of General Obligation Bonds Of Charleston County; To Prescribe The Conditions Under Which The Bonds May Be Sold, The Conditions Under Which Their Proceeds Shall Be Expended; And To Make Provisions For The Payment Of The Bonds.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Findings of General Assembly.—The General Assembly takes note of the fact that the County Council of Charleston County, which is the public agency upon whom is devolved the principal governmental functions relating to the administration of county affairs in Charleston County, having been created by Act No. 764 of 1948, as amended, hereinafter called "County Council" may incur indebtedness on behalf of Charleston County.

The General Assembly finds that County Council acting pursuant to powers granted to it by such act ordered that there be submitted to the qualified voters of Charleston County at the General Election held on November 3, 1964 the following questions all of which resulted favorably:

Shall County Council of Charleston County be empowered to issue and sell, either as a single issue, or from time to time as several separate issues, general obligation bonds of Charleston County, not exceeding two hundred seventy-five thousand dollars whose proceeds shall be expended for a juvenile detention home and a site therefor?

Shall County Council of Charleston County be empowered to issue and sell, either as a single issue, or from time to time as several separate issues, general obligation bonds of Charleston County, not exceeding one million forty thousand dollars whose proceeds shall be expended for a new county jail and a site therefor?

Shall County Council of Charleston County be empowered to issue and sell, either as a separate issue, or from time to time as several separate issues, general obligation bonds of Charleston County, not exceeding one million six hundred thirty-two thousand dollars whose proceeds shall be expended for a county office building, a site therefor and appurtenances thereto?

Shall County Council of Charleston County be empowered to issue and sell, either as a single issue, or from time to time as several separate issues, general obligation bonds of Charleston County, not exceeding five hundred fifty-five thousand dollars whose proceeds shall be expended for renovation and improvements at the county center?

Shall County Council of Charleston County be empowered to issue and sell, either as a single issue, or from time to time as several separate issues, general obligation bonds of Charleston County, not exceeding three hundred forty-eight thousand dollars whose proceeds shall be expended for the renovation and improvement of the existing county courthouse?

Shall County Council of Charleston County be empowered to issue and sell general obligation bonds of Charleston County not exceeding five hundred thousand dollars whose proceeds shall be contributed toward the cost of the construction and equipping of a municipal auditorium in the City of Charleston, which is to be built by the City of Charleston and which would be subject to the use and enjoyment of the citizens of Charleston County?

The General Assembly further notes that under the proceedings prescribed by such act, County Council is required to make provisions for the issuance of the bonds through an ordinance which shall have been read at three regular meetings of County Council.

It takes note of the fact that conditions in the money market are sometimes volatile and that it is desirable that the procedure by which County Council may issue the bonds for the purposes enumerated above may be expedited.

SECTION 2. Bonds may be issued.—In order to provide the funds required for the projects authorized to be undertaken by this act, County Council may issue general obligation bonds of Charleston County in the aggregate principal amount of not exceeding four million three hundred fifty thousand dollars.

The action to be taken by County Council in effecting the issuance of the bonds authorized by this act may be taken at special or regular meeting and may be in the form of a resolution which shall become effective immediately upon its adoption at the meeting at which it is presented, notwithstanding that the procedure herein authorized shall be different from the procedure authorized by Act No. 764 of 1948, as amended, for the issuance of bonds by County Council on behalf of Charleston County.

SECTION 3. Issue—maturity.—The bonds authorized by this act may be issued as a single issue, or from time to time as several separate issues. They shall mature in such series or instalments as County Council shall from time to time determine.

SECTION 4. Redemption—interest—dates.—The bonds may contain a provision permitting their redemption prior to their stated maturity at such rate of premium as may be prescribed by the County Council. They shall bear such rates of interest as County Council shall determine, payable semiannually. They shall bear such date and be payable at such places as County Council shall determine. The bonds may be issued with the privilege to the holder of having them registered as to principal on the books of the County Treasurer of Charleston County, and the principal thus made payable to the registered holder, unless the last registered transfer shall have been to bearer, upon such conditions as County Council may prescribe.

SECTION 5. Execution.—The bonds shall be executed, and the coupons authenticated, in such manner as County Council shall by resolution prescribe.

SECTION 6. Sale.—The bonds issued pursuant to this act shall be sold at not less than par and accrued interest to the date of their delivery, at public sale, and at least ten days prior to any sale, notice, announcing the intention to receive bids for the sale of the bonds authorized by this act, shall be published in a newspaper of general circulation in the State of South Carolina.

SECTION 7. Proceeds.—The proceeds derived from the sale of the bonds shall be deposited with the Treasurer of Charleston County in a special fund, separate and distinct from all other funds, and shall be expended, upon the order or warrant of County Council, to:

(a) Defray the cost of issuing the bonds;

(b) To provide moneys to the extent of not exceeding two hundred seventy-five thousand dollars whose proceeds shall be expended for a juvenile detention home and a site therefor;

(c) To provide moneys to the extent of not exceeding one million forty thousand dollars whose proceeds shall be expended for a new county jail and a site therefor;

(d) To provide moneys to the extent of not exceeding one million six hundred thirty-two thousand dollars whose proceeds shall be expended for a county office building, a site therefor and appurtenances thereto;

Any costs incurred in the issuance of the bonds shall be divided between the projects herein authorized in the proportion that the sum intended for each bears to the total of bonds issued.

If any moneys shall remain after making the foregoing applications, the remainder shall be applied to the retirement of bonds issued pursuant to this act. No purchaser or subsequent holder of any of the bonds shall be responsible for the proper application of the proceeds to the purposes for which such bonds are issued.

SECTION 8. Payment.—The full faith, credit and taxing power of Charleston County shall be pledged for the payment of the bonds and interest, and the auditor and treasurer, respectively, shall levy and collect annually a tax upon all taxable property in the county sufficient to pay such principal and interest as they respectively mature.

SECTION 9. Exempt from taxes.—The principal and interest of all bonds issued pursuant to this act shall have the tax exempt status prescribed by Section 65-4.1, Code of Laws of South Carolina, 1962.

SECTION 10. Time effective.—This act shall take effect upon approval by the Governor.

(R273, H1246) **No. 535**

An Act To Authorize St. Andrews Public Service District, Charleston County, To Issue Not Exceeding Five Million Dollars Of Bonds Of The District To Provide Funds For Sewage Collection, Treatment And Disposal Facilities For The District; To Prescribe The Conditions Under Which The Bonds Shall Be Issued And To Make Provisions For The Payment Of The Bonds.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Findings of General Assembly.—The General Assembly finds that it did by Act No. 443 of 1949, create St. Andrews Public Service District (the district) as a special purpose district in Charleston County and committed to its governing body, the St. Andrews Public Service District Commission (the commission) certain functions including the function of providing adequate sewage collection, treatment and disposal facilities for the district. The boundaries of the district as originally defined have been modified by subsequent legislation and by annexation by the City of Charleston and the term district as used herein is intended to mean the district as now constituted or as it may hereafter be constituted.

The district has become thickly populated and the preservation of the public health requires, (a) the construction and maintenance of sewage treatment facilities in order that raw sewage shall no longer be discharged into Charleston Harbor and rivers, creeks and tributaries thereof; (b) the installation of additional sewer trunk lines, and (c) the construction of sewer laterals in order that substantially all of the developed area of the district shall be furnished with sewage disposal facilities.

It has been estimated that the cost of providing the foregoing facilities to the district will be substantial. Present estimates made by consulting engineers employed by the district indicate an expenditure of not less than five million dollars. The General Assembly has given due consideration to the method of financing the expenditures which must be undertaken by the commission and has concluded that the district shall be empowered to issue general obligation bonds to the extent of five million dollars.

The General Assembly by legislation in pari materia, has empowered the district inter alia, (a) to impose a sewer service charge on all furnished sewage disposal service, being a charge generally designed to care for the cost of operation and maintenance of the

sewage facilities of the district and also designed to provide a portion of the debt service charges on bonds of the district; and (b) to impose assessments to defray portions of the costs of constructing sewer laterals against the properties abutting thereon. The latter power conferred upon the district results from the fact that the General Assembly has also taken note of the fact that many areas in the district now have sewage collection facilities which are furnished by existing sewers paid for by the district or by those who developed the properties and that as a consequence it is equitable that all those hereafter furnished sewage collection facilities should pay for the sewer laterals designed to serve their immediate properties.

On the basis of the foregoing, the General Assembly has determined to empower the commission to issue general obligation bonds of the district to the extent of five million dollars upon the conditions hereinafter set forth.

SECTION 2. Definitions.—For all purposes of this act,

(a) the term "district" shall mean the St. Andrews Public Service District in Charleston County as now or hereafter constituted.

(b) the term "commission" shall mean the governing agency of the district as now or hereafter constituted.

SECTION 3. Bond issue authorized.—In order to obtain funds to defray the costs of constructing the sewage collection and treatment facilities hereinabove described, the commission is hereby authorized and empowered to issue not exceeding five million dollars of general obligation bonds of the district; *provided,* that the commission covenant and agree in the proceedings providing for the issuance of the bonds, or any part thereof, that the commission will impose assessments against properties abutting sewer laterals constructed from the proceeds of the bonds to such extent as the commission shall deem fair and equitable.

SECTION 5. Redemption.—Any bond issued pursuant to this act may be issued with a provision for its redemption prior to its stated

maturity at par and accrued interest plus such redemption premium as may be prescribed by the commission, but no bond shall be redeemable before maturity unless it contains a statement to that effect. SECTION 6. Form.—The bonds issued pursuant to this act shall be in the form of negotiable coupon bonds payable to bearer but may be issued with the privilege to any holder of having them registered as to principal on the books of the treasurer of Charleston County upon such conditions as the commission may prescribe. Except when so registered all bonds issued pursuant to this act shall have the attributes of negotiable instruments under the law merchant and negotiable instruments law.

SECTION 7. Where payable.—The bonds issued pursuant to this act shall be made payable in such place within or without the State as the commission shall prescribe.

SECTION 8. Interest.—Bonds issued pursuant to this act shall bear interest at such rate as may be determined by the commission.

provided, that it shall be the duty of the commission to remit to or make available to the treasurer of Charleston County all sums realized from front foot assessments and the net proceeds of all sums derived from sewer charges remaining after the payment of the cost of operating and maintaining the sewer system and the ad valorem tax levy above-ordered shall be reduced to the extent that there shall have been made available for debt service on the occasion in each year when the ad valorem tax levy is to be imposed monies derived from the sewer charges and front foot assessments as hereinabove-mentioned; and in all instances where an annual tax levy is so reduced, the monies derived from the sewer charges and front foot assessments shall be applied to the payment of such principal and interest and to no other purpose.

SECTION 12. Exempt from taxes.—The principal of and interest on bonds issued pursuant to this act shall have the tax exempt status prescribed by Section 65-4.1, Code of Laws of South Carolina, 1962.

SECTION 13. Proceeds.—The proceeds derived from the sale of any bonds issued pursuant to this act shall be paid to the treasurer of Charleston County and shall be deposited in a special bond account fund for the commission and shall be expended and made use of as follows:

(b) Any premium received upon the sale of the bonds shall be applied to the payment of the first installment of principal of the bonds.

(c) The remaining proceeds shall be used upon the warrant or order of the commission to defray the cost of issuing bonds authorized hereby and to pay all costs to be incurred in providing the sewage collection and treatment facilities for the district hereinabove-mentioned, including the acquisition of any site necessary therefor and the cost of installing additional sewage collection lines in the district. *Provided,* that pending the use of proceeds of the bonds to meet the cost to be incurred as aforesaid, the proceeds of the bonds shall, at the direction of the commission and to the extent prescribed by the commission, be invested and reinvested in obligation of the United States or of agencies having a stated maturity of not exceeding twelve months from the date of such investments. The commission may employ the services of the trust department of any bank having an office in Charleston County to assist it in effecting such investments, and if

such action shall be taken by the commission, the treasurer of Charleston County shall, on the order of the commission, deliver to such bank the proceeds of the bonds to the extent ordered by the commission.

All income realized from such investments after meeting any costs incident thereto shall be from time to time turned over to the treasurer of Charleston County and by him applied to the payment of interest to become due on the bonds, but the provisions hereof shall in no way limit or impair the directive of this act made by Section 11 requiring the auditor and treasurer of Charleston County to levy and collect sufficient taxes to meet the payment of principal and interest of the bonds as they respectively mature, and any reduction in the tax levy, resulting from income so received, shall take place only after the actual receipt by the treasurer of the proceeds of such investment income. Whenever investments made as herein authorized shall be reconverted into cash, the principal proceeds of any such investment shall be returned to the treasurer of Charleston County and by him applied in accordance with the provisions of this subsection.

(d) If any balance remains after meeting all costs of providing the sewage collection and treatment facilities above-mentioned, it shall be held by the treasurer of Charleston County in a special fund and used to effect the retirement of bonds authorized hereby.

SECTION 14. Powers to be additional.—The powers and authorizations hereby conferred upon the commission shall be in addition to all other powers and authorizations previously vested in them and may be exercised by action taken at regular or special meetings. The compliance with the provisions of this act shall constitute all action necessary to effect the valid issuance of the bonds authorized hereunder.

SECTION 15. Time effective.—This act shall take effect upon approval by the Governor.

An Act To Amend Act No. 443 Of 1949, As Amended, Relating To The St. Andrews Public Service District, Charleston County, So As To Enlarge And Redefine The Powers Of The St. Andrew's Public Service District; To Empower The District To Impose And Enforce The Payment Of Sewer Service Charges; To Empower The District To Make Unpaid Sewer Charges A Lien Against The Property Served; To Empower The District To Adopt And Enforce Regulations Requiring Property In The District To Connect To And Use The District's Sewage Collection Facilities And Regulating Generally The Use Of The Public Sewage Facilities; And To Empower The District To Impose Front Foot Assessments Against Property Abutting Its Sewer Lines.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Findings of General Assembly.—The General Assembly finds that St. Andrews Public Service District in Charleston County (the District) was created by Act No. 443 of the Acts of 1949 wherein it was given divers functions including the function of acquiring, constructing, maintaining and operating in the District sanitary sewer systems including extensions to the then existing sanitary sewer systems of the District. Subsequent legislative enactments have redefined the territorial limits of the District. The St. Andrews Public Service District Commission (the Commission) which is the governing body of the District contemplates substantial extensions and im-

provements to its existing sanitary sewer system, the cost of which will be defrayed by the issuance of general obligation bonds of the District payable from a district-wide ad valorem tax as will more fully appear in legislation enacted in pari materia herewith authorizing the issuance of such bonds.

The General Assembly after due investigation has concluded that the collection of sewer charges for sewage collection services to defray the cost of operation and maintenance of the sewage facilities and to provide a portion of the debt service on the District's bonds can be enforced by making such unpaid sewer charge a lien against the property concerned in the manner approved in the case of *Distin v. Bolding,* 126 S. E. 2d 649. Furthermore the General Assembly has concluded that in some instances the cost of constructing sewage collection facilities can be more equitably distributed by way of an assessment against the properties fronting upon the sewage collection laterals.

In view of the foregoing the General Assembly has determined to give the Commission in addition to those powers already vested in it the power: (a) to place into effect and revise a schedule of fees for its sewage collection service; (b) to make unpaid sewer charges a lien against the property served; (c) to adopt and enforce regulations requiring all properties to which sewer service is available to connect to the District's sewage collection facilities as now existing and hereafter improved; (d) to make regulations generally with respect to the discharge of sewage and the use of privies, septic tanks and other facilities in connection with the public sewage facilities; and (e) to impose front foot assessments against properties abutting the sewage collection laterals.

It is the legislative intent of this act that it shall be deemed complementary and supplementary to existing laws relating to the District and to add to the powers, functions and duties committed to the Commission in order that the District may fulfill its function of preserving the public health and provide for all those who own, use or occupy dwellings or other buildings therein adequate means for the collection and treatment of sewage originating therein. In enacting this law the General Assembly exercises its general police powers having found that such exercise was necessary for the maintenance and preservation of the health of the inhabitants of the District.

SECTION 2. Definitions.—For the purposes of this act,

Service District in Charleston County as now or hereafter constituted;

(a) the term "District" shall mean the St. Andrews Public

(b) the term "Commission" shall mean the governing agency of the District as now or hereafter constituted;

(c) the term "sewer charge" shall mean the monthly, quarterly, or annual charge imposed for the collection, treatment and disposal of sewage and shall include all tapping and connection fees;

(d) the term "front foot assessment" shall mean assessment levied to reimburse the District for that portion of the cost of installing sewer lateral (collection lines) imposed by the Commission on a front foot basis.

SECTION 3. Section 4 of Act 443 of 1949 amended—powers further.—Section 4 of Act No. 443 of the Acts of 1949, as amended, is further amended by adding at the end thereof the following:

"(18) To place into effect and to revise whenever it so wishes or may be required a schedule of sewer charges for the connection to and use of its sewage disposal system as now existing and hereafter improved and extended. Prior to the making of any sewer connection or the furnishing of any sewage disposal service for which the prescribed sewer charge shall, pursuant to Section 9 of this act, become a lien on the property affected and prior to any subsequent increase in any such sewer charge, not less than ten days written notice shall be given to each affected property owner notifying him of the nature and quantum of the sewer charge and providing such property owner an opportunity if desired and requested, to appear and be heard in person or by counsel before the Commission. Following such hearing if such be requested and held, action shall be taken by the Commission and notice of its decision shall be given to the property owner concerned or his counsel as the case may be not less than ten days prior to the effective date of the sewer charge. Any property owner aggrieved by the action of the Commission may proceed by certiorari in the Court of Common Pleas for Charleston County to have such court review the action taken by the Commission at which time the court will determine the validity and reasonableness of the charge so made. Sewer charges not intended to become liens in the case of nonpayment can be imposed and subsequently increased upon any user in the District without such notice and hearing.

(19) To prescribe and enforce regulations (a) requiring all persons to whom it is available to make use of any sewer system which the District shall from time to time operate and (b) generally with respect to the discharge of sewage and the use of privies, septic tanks and other sewage facilities in the District. Any such

regulations shall, however, become effective only after they have been adopted by resolution of the Commission, a certified copy thereof has been recorded in the Office of the Register of Mesne Conveyances for Charleston County, a copy has been posted in the Charleston County Courthouse and a notice of the adoption of such resolution has been published at least once a week for three successive weeks in a newspaper published in Charleston County and having a general circulation in the District. The published notice shall specify in brief the scope of the regulations and shall state the date on which it shall become effective. Prior to the adoption of the resolution, the Commission shall give public notice of a meeting to be held to consider its adoption and the notice shall appear in a newspaper published in Charleston County and having general circulation in the District at least once not less than seven days prior to the occasion fixed for the holding of such meeting. Any persons affected may attend such meeting and express their views on the proposed regulations. The provisions of this paragraph prescribing conditions upon the effectiveness of the regulations specified above in this paragraph shall not be deemed to impose mandatory conditions upon the exercise of any other power or the adoption of any other type of regulation authorized by this act."

SECTION 4. Act 443 of 1957 amended—Section 9 added—unpaid charges to constitute lien.—Act No. 443 of the Acts of 1957 is amended by adding a new section to be Section 9 as follows:

"Section 9. If the notice or notices prescribed by paragraph 18 of Section 4 of this act shall have been given and any hearing requested pursuant thereto shall have been held, all sewer charges and other charges imposed by the Commission following that procedure under authority of this act and not paid when due and payable shall be and constitute a lien upon the real estate to which the sewage service concerned relates so long as the sewer charges remain unpaid. In addition to such other rights and remedies as may be available to the Commission in law or in equity for the collection of the sewer charges, the lien may be enforced by the Commission in the same manner and fashion as the lien of property taxes on real estate. The lien herein provided shall be superior to all other liens except lien for unpaid property taxes.

The method provided in this act for the enforcement of the collection of past due sewer charges by creating them liens against real property shall not be the exclusive method of enforcing such collec-

tions and the Commission is fully empowered to enforce the collection of any such charges in any other lawful manner in all or any part of the District."

SECTION 5. Act 443 of 1949 amended—Section 10 added—enforcement of regulations.—Act No. 443 of the Acts of 1949 is amended by adding a new section to be Section 10 as follows:

"Section 10. Paragraph 19 of Section 4 of this act authorizes the Commission in the interest of the health of the District to adopt regulations requiring the use of its sewer system and regulations generally with respect to the discharge of sewage and the use of privies, septic tanks and other sewage facilities in the District. The Commission is expressly authorized to apply to any court of general jurisdiction for the enforcement of any such regulations through the means of mandatory injunction or other remedial process; *provided,* such regulation has been duly adopted in the fashion prescribed by paragraph 19 of Section 4 of this act."

SECTION 6. Act 443 of 1949 amended—Section 11 added—front foot assessments.—Act No. 443 of the Acts of 1949 is amended by adding a new section to be Section 11 as follows:

"Section 11. (1) The Commission is hereby empowered to provide by resolution that the actual cost of the establishment and construction of any lateral collection sewer lines constructed by the Commission within the District and any extensions thereof, or so much of the actual cost thereof as the Commission in its discretion deems appropriate, shall be assessed upon the lots and parcels of land abutting directly on such lateral lines or extensions thereof according to the extent of the respective frontage thereon, by an equal rate per foot of such frontage, and may in its discretion provide in the case of corner lots, for an assessment only upon one of the two corner lines. The Commission may provide in such resolution that the front foot assessments to be levied in connection with such work may be paid in equal installments covering a period of not exceeding ten years. The resolution providing for such front foot assessments shall designate by a general description the improvement to be made and the street or streets or parts thereof whereon the work is to be effected and the estimated cost thereof and the amount of the cost to be assessed upon all abutting property and the terms and manner of payment. Such resolution shall not become effective until at least seven days after it shall have been published in a newspaper of general

circulation in the District published in Charleston County. Such resolution may incorporate by reference plats and engineering reports and other data on file in the Commission's office provided that the place of filing and reasonable hours for inspection by interested persons are specified in the resolution.

(2) Upon the completion of the construction of any such sewer laterals or any extensions thereof the Commission shall compute and ascertain the total cost thereof and shall thereupon make an assessment of such total cost or so much thereof as it deems appropriate. For that purpose the Commission shall make out an assessment roll in which must be entered the names of the persons assessed and the amount assessed against their respective properties with a brief description of the lots or parcels of land assessed.

(3) Immediately after such assessment roll has been completed the Commission shall forthwith cause one copy thereof to be deposited in the Commission's office for inspection by interested parties, and shall cause to be published at least once in a newspaper of general circulation within the District a notice of completion of the assessment roll setting forth a description in general terms of the improvement and the time fixed for the meeting of the Commission for a hearing of objections in respect of the front foot assessments; such meeting not to be earlier than ten days from the date of the publication of such notice.

(4) As soon as practicable after the completion of the assessment roll and prior to the publication of the notice above-mentioned in paragraph (3) the Commission shall mail to the owner of each lot or parcel of land against which a front foot assessment is to be levied at his address appearing in the records of the county treasurer, a notice stating the nature of the improvement, the total cost thereof, the amount to be assessed against that particular property and the frontage in feet upon which the front foot assessment is based, together with the terms and conditions upon which the front foot assessment may be paid. This notice shall also contain a brief description of the particular property involved together with a statement that the amount assessed shall constitute a lien against the property superior to all other liens except property taxes. The notice shall also state the time and place fixed for the meeting of the Commission above-mentioned for a hearing of objections in respect of the front foot assessments. Any property owner who fails, not later than three days prior to the date set for such meeting, to file with the Commis-

sion a written objection to the front foot assessment against his property shall be deemed to have waived all rights to object to such front foot assessment; and the notice prescribed herein shall so state.

(5) At the time and place specified for the meeting above-mentioned, or at some other time to which it may adjourn, the Commission shall hear the objections of all persons who have filed written notice of objection within the time prescribed above who may appear and make proof in relation thereto either in person or by their attorney. The Commission may thereupon make such corrections in the assessment roll as it may deem proper or may confirm the same, or may set it aside and provide for a new assessment. Whenever the Commission shall confirm an assessment roll, either as originally prepared or as thereafter corrected, a copy thereof certified by the Secretary of the Commission shall forthwith be filed in the office of the Clerk of Court of Common Pleas of Charleston County and from the time of such filing the front foot assessments impressed in the assessment roll shall constitute and be a lien on the real property against which the same are assessed superior to all other liens and encumbrances except only the lien for property taxes.

(6) After the assessment roll has been confirmed a certified copy thereof shall be delivered to the Treasurer of Charleston County who shall proceed to collect the same in the manner of county taxes and shall remit such collections upon the direction of the Commission. Past due front foot assessments shall be turned over by the treasurer to the Charleston County Sheriff who shall proceed to collect them in the same manner as unpaid county taxes are collected.

(7) Immediately upon the confirmation of an assessment the Commission shall give written notice by mailing to the last known address according to the records of the Commission to all persons who have filed written objections as provided of the amount of the front foot assessment finally confirmed against his property. If any such person is dissatisfied with the amount of the front foot assessment so confirmed and shall within ten days after the confirmation give written notice to the Commission of his intent to do so, he may appeal his front foot assessment to the Charleston County Court and shall within five days after giving such notice serve upon the Commission a statement of facts upon which he bases his appeal; but no such appeal shall delay or stop the improvements or affect the validity of the front foot assessments confirmed and not appealed. The appeal shall be tried at

the next term of court as other actions at law with priority over all other cases.

(8) The Commission may correct, cancel or remit any such front foot assessment and may remit, cancel or adjust the interest or penalties of any such front foot assessment and is empowered when in its judgment there is any irregularity, omission, error or lack of jurisdiction in any of the proceedings relating thereto set aside the whole of any assessment made by it and thereupon to make a reassessment.

(9) In the event the Commission provides that such front foot assessments may be paid in equal annual installments, then in that event any property owner shall have the option and privilege of paying his respective front foot assessments in full in cash provided he gives notice of his intent to do so in writing to the Commission within thirty days after the notice prescribed in paragraph (4). If no such notice of intent is given within the thirty day period the front foot assessment shall be deemed to be due and payable in the equal annual installments prescribed by the Commission and shall bear interest at the rate of four per cent per annum from the date of the confirmation of the assessment roll, payable with such annual installment. Any property owner shall have the right at any time in his option to prepay in full the front foot assessment against his property by the payment of the balance due plus interest calculated to the date of prepayment. If any property owner shall fail or neglect to pay any installment when it becomes due and payable, then and in that event the Commission may, at its option, declare all of the installments remaining unpaid at once due and payable and such property shall be sold by the Charleston County Sheriff in the same manner and with the same right of redemption as are prescribed by law for the sale of land for unpaid county taxes."

SECTION 7. Time effective.—This act shall take effect upon approval by the Governor.

Approved the 5th day of May, 1965.

No. 541

An Act To Authorize The Sullivan's Island Township Commissioners In Charleston County To Issue Not Exceeding One Million Dollars General Obligation Bonds For Sewage Facilities And To Provide For An Election.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Findings of General Assembly.—The General Assembly finds that the Township of Sullivans Island in Charleston County (the township), was created by Act No. 140 of 1906, and the Board of Township Commissioners for Sullivans Island (the commissioners) was established as its governing body.

The commissioners, pursuant to statutory authorization, constructed a municipal water system for the township in about the year 1932, and have since that time operated it.

During the year 1948 the commissioners acquired from the United States of America certain property lying at the western end of the

township in which a sewage collection and disposal system had been installed, consisting of sewer collection lines and a chlorine treatment outfall emptying into the tidal waters of Charleston Harbor. The commissioners have subsequently improved and enlarged the sewage collection system and at the present time it serves approximately 225 out of the 1100 lots within the township. The sewer system belongs to the township and is operated by the commissioners.

Act No. 132 of 1963 makes it unlawful after July 1, 1970, for any person or governmental entity to dump untreated sewage into the tidal waters of Charleston Harbor and the treatment presently being afforded by the township's treatment facility has been found to be entirely inadequate to comply with the provisions of this law.

In that portion of Sullivans Island where sewage collection facilities are not available septic tanks are generally being used, but a drainage problem throughout this area renders septic tanks in many cases unsatisfactory and creates a public health menace within the township.

In order to alleviate the public health menace resulting from the use of septic tanks, the commissioners have employed engineers to make recommendations for the collection of sewage throughout the township and the method of treating and disposing of the same. On the basis of the studies and recommendations of these engineers, the commissioners have concluded that the most satisfactory method of solving the sewer problems of the township is through the installation of sewer collection lines throughout the presently unsewered portion of the township and construction of a treatment plant or plants adequate to treat all sewage collected within the township. Based on the estimates of the engineers, it appears that, in addition to Federal grants which may be available, the township will need to raise one million dollars in order to defray the cost of constructing the proposed sewage collection, treatment and disposal facilities.

The General Assembly has, therefore, determined to empower the commissioners to issue one million dollars of general obligation bonds of the township in order to obtain funds to defray the costs of constructing such facilities upon the favorable vote of the qualified electors of the township and, in addition, to authorize the commissioners: (1) to establish and enforce a schedule of sewage service charges; (2) to adopt and enforce regulations requiring all those to whom it is available to connect to the township's sewer system; (3) to adopt regulations generally with regard to the operation of privies, septic tanks or other private sewage facilities within the township; and (4) to

impose front foot assessments against properties abutting on the proposed sewer laterals.

SECTION 2. Bonds may be issued if election favorable.—Upon the favorable result of the election hereinafter prescribed and in order to obtain funds to be used for the purpose of constructing sewage collection, treatment and disposal facilities for the township, the commissioners are hereby authorized to issue, either as a single issue, or from time to time as several separate issues, not exceeding one million dollars of general obligation bonds of the township.

SECTION 3. Denominations—maturity—interest—redemption.—The bonds shall be in such denomination and shall bear such date as the commission shall determine and any issue or series thereof shall mature in such equal or unequal annual installments as may be determined by the commissioners, except that the first maturing bonds of any issue or series shall mature not later than five years from their date of issue and the last maturing bonds of any issue or series shall mature not later than forty years from their date of issue. Bonds shall be made payable at such place or places as the commissioners shall prescribe, either within or without the State, and shall bear such rate or rates of interest, and be payable on such occasions, as the commissioners may determine. The bonds may be issued with the privilege to the holder of having them registered as to principal at the office of the Treasurer of Charleston County and the principal thus made payable to the registered holder, unless the last registered transfer shall have been to bearer, upon such conditions as the commissioners may prescribe. Any bond issued pursuant to the provisions of this act may be made subject to redemption prior to its stated maturity on such terms and conditions and with such redemption premium as the commissioners shall prescribe.

SECTION 4. Sale.—All bonds issued pursunt to this act shall be sold at not less than par and accrued interest to the date of their respective deliveries and shall be sold at public sale, after not less than ten days' notice of the sale shall be given by publication in a newspaper of general circulation in South Carolina.

SECTION 5. Exempt from taxes.—The principal and interest of all bonds issued pursuant to this act shall have the tax-exempt status prescribed by Section 65-4.1 of the Code of 1962.

SECTION 6. Manner of issuance.—The bonds and the coupons attached thereto shall be issued in such fashion as the commissioners may provide.

SECTION 7. Payment.—For the payment of the bonds, both principal and interest as they respectively mature, the full faith, credit, resources and taxing power of the Township of Sullivans Island shall be pledged and there shall be levied and collected by the Auditor and Treasurer of Charleston County, respectively, an ad valorem tax upon all taxable property in the township, without limitation as to rate or amount, sufficient to pay the principal of and interest on the bonds as they respectively mature, and create such sinking fund as may be necessary therefor; *provided,* however, that the annual ad valorem tax levy prescribed by the foregoing provisions of this section may be reduced to the extent that there is on deposit with the Treasurer of Charleston County, on the occasion of the imposition of the annual ad valorem tax levy, monies derived from front foot assessments or sewer service charges imposed by the commissioners pursuant to the authorizations hereinafter set forth and available for debt service on the bonds for which the ad valorem tax levy is to be imposed. If the ad valorem tax levy is so reduced, the monies on deposit with the county treasurer from the front foot assessments or sewer service charges shall be held by the county treasurer in a special fund and used for the payment of the principal and interest on the bonds and for no other purpose. The taxes when so levied and collected shall be held by the county treasurer separate and distinct from all other funds and used solely for the purposes for which levied and collected under the terms of this act.

SECTION 8. Proceeds.—The proceeds derived from the sale of these bonds shall be deposited with the county treasurer in a special fund separate and distinct from all other funds and shall be expended upon order of the commission for the following purposes and for no other:

(1) The accrued interest, if any, shall be applied to meet the first installment of interest to become due on the bonds.

(2) The premium received, if any, shall be applied to the payment of the first installment of principal to become due.

(3) The remaining proceeds, after the payment of all costs and expenses incident to the issuance of the bonds, shall be applied to defray the cost of constructing a sewage collection, treatment and dis-

posal facility for the township; *provided,* that the purchaser shall not be responsible for the proper application of the proceeds.

Provided, further, that pending the use of the proceeds of the bonds to meet the costs to be incurred in constructing sewage collection, treatment and disposal facilities in the township, the proceeds of the bonds shall, at the direction of the commission and to the extent prescribed by the commission, be invested and reinvested in obligations of the United States, or the agencies thereof, having a stated maturity of not exceeding twelve months from the date of any such investment. The commission may employ the services of the trust department of any bank having an office in Charleston County to assist it in effecting such investments and, if such action shall be taken by the commission, the Treasurer of Charleston County shall, on the order of the commission, deliver to such bank the proceeds of the bonds, to the extent ordered by the commission.

All income realized from such investments, after meeting any costs incident thereto, shall be from time to time turned over to the Treasurer of Charleston County and by him applied to the payment of interest to become due on the bonds, but the provisions hereof shall in no way limit or impair the directive of this act made by Section 7, requiring the Auditor and Treasurer of Charleston County to levy and collect sufficient taxes to meet the payment of the principal and interest of the bonds as they respectively mature, and any reduction in the tax levy resulting from income so received shall take place only after the actual receipt by the treasurer of the proceeds of such investment income. Whenever investments made as herein authorized shall be reconverted into cash, the principal proceeds of any such investments shall be returned to the Treasurer of Charleston County and by him applied in accordance with the provisions of this subsection.

SECTION 9. Powers.—The commissioners are hereby authorized and empowered to exercise all of the powers given to the governing bodies of special purpose districts operating sewer systems under the provisions of an Act of 1965, bearing Ratification No. 578, and approved June 8, 1965, to the end that the commissioners may exercise with respect to the township the same powers in the same fashion and to the same extent that commissions can exercise under the terms of the act with respect to public service districts.

SECTION 10. Powers to be additional.—The power and authority hereby conferred upon the commissioners shall be in addition to all

presently existing power and authority and not in abrogation thereof and the bonds herein authorized can be issued without the approval of any other agency or commission and at any regular or special meeting of the commissioners.

SECTION 11. Election—conduct of.—The commissioners are empowered to make provision for the holding of a special election in the township, on a date fixed by the commission, at which time there shall be submitted to the qualified electors of the township the question of issuing general obligation bonds of the township for the purposes of Section 2 of this act. The election shall be conducted by the Commissioners of Election for Charleston County, who shall give notice thereof by publication once each week for three successive weeks prior thereto, in one or more newspapers with general circulation in the township, stating the question to be submitted at the election and specifying the amount in dollars of the bonds proposed to be issued. The election shall be conducted in the precinct of the township as the same is now established by law, and at the regular voting place therein. The question submitted shall be substantially in the following form:

"Shall the Township of Sullivans Island issue general obligation bonds in a sum not exceeding one million dollars, whose proceeds shall be used for sewage collection, treatment and disposal facilities for the Township?

The ballot shall contain suitable instructions, advising the voter that if he favors the issuance of bonds he shall erase or strike through the word "NO" and that if he is opposed to the issuance of bonds, he shall erase or strike through the word "YES". The managers of election at the precinct shall count the ballots and forthwith return the result of the election, together with the original ballots and tally sheets, to the Commissioners of Election for Charleston County, who shall declare the result of the election. If the commissioners of election determine that a majority of the voters voting in the election voted in favor of the issuance of bonds, the bonds, or any part thereof, may be issued as provided in this act. Save and except as herein provided, the election shall be conducted in accordance with the provisions of the South Carolina Election Law.

SECTION 12. Time effective.—This act shall take effect upon approval by the Governor.

SECTION 6. The amount herein appropriated shall be paid out as near as practicable one-twelfth each month during the year 1965, and, if any item or salary has been overpaid for any month, such overpayment shall be deducted from the following month. Any note or contract made by any officer of the county or by the board of county commissioners for any amount not included in this appropriation act shall be null and void; any officer or employee who disregards any of the provisions hereof without the written consent of a majority of the Cherokee Delegation to the General Assembly, kept on file in the treasurer's office, shall be guilty of a malfeasance in office and subject to removal. If the county supervisor or the board of commissioners at any time finds that the appropriation or monthly allotment is not sufficient to maintain the maximum chain gang and equipment or road maintenance, then, in that event, they are required to send to the State Penitentiary a sufficient number of long term chain gang prisoners and reduce equipment and other expenses

so that expense will come within the monthly allotment herein provided. All appropriations herein made are subject to the right and authority of the majority of the Cherokee County Delegation to change, alter or deduct therefrom at any time, without notice, when in its judgment such change, alteration or deduction is necessary for the best interest of the county or to conform with the revenue expected during the life of this act. *Provided,* that the changes made by the delegation pursuant to the authority herein conferred shall not operate to increase the total amount herein appropriated.

SECTION 7. The supervisor and the chain gang and employees of Cherokee County are hereby prohibited from doing any private work and spending any money of the county on any private roads or private property.

SECTION 8. The clerk of the county board of commissioners shall, during each month, send to each member of the Cherokee County Delegation an itemized list of all expenditures of the county for the preceding month, and also an itemized list of all obligations incurred and not paid.

SECTION 11. Whenever references are made in this act to any action of or by the legislative delegation or county delegation, the same means the joint approval, agreement, or order of the Senator and at least one-half of the Representatives of Cherokee County in the General Assembly. In the event, however, of the death, resignation or removal of any one or more of the members of the delegation, the remaining members shall have the right to execute any such approval, agreement or order.

SECTION 12. The supervisor shall employ a supply clerk. His duties shall consist of checking in and out materials and supplies

purchased by the county for chain gang and road building purposes which shall be subject to his inspection at all times, and keeping proper records of such transactions. The supply clerk shall be furnished, by the county board of commissioners, with an office and a building for storage of all such materials and supplies. No warrant for the payment of any such materials and supplies shall be issued until the supply clerk shall certify, in writing, to the receipt of same, and he shall keep proper records to show to which agency of the county such materials and supplies were issued or delivered.

SECTION 13. No long distance telephone calls shall be charged to the county except such as are necessary in performing a public duty in connection with the administration of the affairs of the county, and no claim for any such calls shall be approved or paid unless on a verified itemized claim showing the name of the person making the call, the person to whom the call was made and the date and purpose thereof.

SECTION 14. The Attendance Teacher and the School Lunch Supervisor shall each receive a salary supplement, during the school months, sufficient to make their salaries equal to the salaries they would receive as school teachers with their qualifications. *Provided,* the supplement shall not be less than nine hundred thirty-six dollars per year. The salary of the Clerk to the School Lunch Supervisor and the Secretary of the County Probation and Parole Officer shall be three thousand three hundred dollars each annually. Travel shall be paid at the prevailing rate of mileage allowed by the State. A report of the number of miles traveled on official business shall be submitted monthly to the county board of education for approval, and a warrant of the board shall be issued in payment thereof.

SECTION 15. There may be expended for county purposes during the months of January, February and March of 1966, the amounts authorized herein to be expended for the same months during the year 1965. All such expenditures shall be made from the general fund of the county. This provision is included in this act so that the activities of the county may continue uninterrupted until the appropriation act for the calendar year 1966 is adopted.

SECTION 16. The County Board of Commissioners of Cherokee County may rent office space in the Cherokee County Courthouse and the Cherokee County Agricultural Building for use by persons or organizations in the performance of State or Federal functions. No

office space in such building shall be occupied by any person or organization not using such office space in the performance of State, county or Federal functions. Any person or organization using such office space in performance of a function of the Federal Government shall be charged a reasonable rental, based upon the space occupied and the services provided, as determined by the county board of commissioners.

SECTION 17. An Act Providing For The Creation Of Watershed Conservation Districts In Chester County, And The Election Of Directors Of Watershed Conservation Districts And Their Powers And Duties; And Providing For A Levy Of Taxes For The Organization And Administration Of Such Districts, And For The Construction, Operation And Maintenance Of Works Of Improvement Within Such Districts.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Definitions.—Whenever used or referred to in this act, unless a different meaning clearly appears from the context:

(1) "Watershed conservation district" means a governmental subdivision of this State, and a public body corporate and politic, organized in accordance with the provisions of this act, for the purposes, with the powers, and subject to the restrictions hereinafter set forth.

(2) "Director" means one of the members of the governing body of a watershed conservation district, elected in accordance with the provisions of this act.

(3) "Supervisor" means one of the members of the governing body of the Chester Soil Conservation District in which any part of a watershed conservation district is situated.

(4) "Petition" means a petition filed under the provisions of Section 4 of this act for the creation of a watershed conservation district.

(5) "County" means Chester County of South Carolina.

(6) "Landowner" or "owner of land" includes any person, firm or corporation who shall hold legal or equitable title to any lands lying within a watershed conservation district organized under the provisions of this act.

(7) "Due notice" means notice published at least twice, with an interval of at least one week between the two publication dates, in a publication of general circulation within the appropriate area, or, if no such publication of general circulation be available, notice posted at a reasonable number of conspicuous places within the appropriate area, such posting to include, where possible, posting at public places where it is customary to post notices concerning county or municipal affairs generally.

SECTION 2. Watershed Conservation Districts may be formed in Chester County.—Authority is hereby granted to form watershed conservation districts within Chester County for the purpose of developing and executing plans and programs relating to any phase of the control and prevention of soil erosion, flood prevention, or the conservation, development, utilization, and disposal of water.

SECTION 3. Area.—The area embraced in a watershed conservation district must be contiguous and must lie within a well-defined watershed; and such area shall not include lands located within the boundary of any incorporated city or town, or lands embraced in another watershed conservation district.

SECTION 4. Petition for formation.—When twenty-five or more landowners within a proposed watershed conservation district, or, if less than fifty landowners are involved, a majority of such landowners, desire to form a watershed conservation district, they shall file a petition with the supervisors of the soil conservation district asking that a watershed conservation district be organized to function in the

area described in the petition. Such petition shall set forth the proposed name of the watershed conservation district; that there is need, in the interest of the public health, safety, and welfare, for a watershed conservation district to function in the territory described in the petition; a description of the territory proposed to be organized as a watershed conservation district, which description need not be given by metes and bounds or by legal subdivisions, but shall be deemed sufficient if generally accurate; and the approximate number of acres of land included in the proposed watershed conservation district.

SECTION 5. Hearing on petition.—(1) Within thirty days after such petition has been filed with the supervisors of the soil conservation district, they shall cause due notice to be given of a hearing upon the question of the desirability and necessity, in the interest of the public health, safety, and welfare, of the creation of such watershed conservation district. All interested parties shall have the right to attend such hearing and to be heard. If it shall appear at the hearing that other lands should be included in the petition or that lands included in the petition should be excluded, the supervisors shall permit such inclusion or exclusion, provided the land area involved still meets the requirements of Section 3 of this act.

(2) If it appears upon the hearing that it may be desirable to include within the proposed watershed conservation district territory outside of the area within which due notice of the hearing has been given, the hearing shall be adjourned and due notice of a further hearing shall be given throughout the entire area considered for inclusion in the proposed watershed conservation district, and such further hearing shall be held. After final hearing, if the supervisors of the soil conservation district determine, upon the facts presented at the hearing and upon other available information, that there is need, in the interest of the public health, safety, and welfare, for a watershed conservation district to function in the territory considered at the hearing, they shall make and record such determination, and shall define the area, but the description need not be given by metes and bounds. The description shall be deemed sufficient if generally accurate and the approximate number of acres of land included in the proposed watershed conservation district is shown.

(3) If the supervisors of the soil conservation district determine after such hearing that there is no need for a watershed conservation district to function in the territory considered at the hearing, they shall make and record such determination and shall deny the petition.

SECTION 6. Referendum.—After the supervisors of the soil conservation district have made and recorded a determination that there is need, in the interest of the public health, safety, and welfare, for a watershed conservation district to function in the territory considered at the hearing, and have defined the boundaries thereof, they shall consider the question whether the operation of a watershed conservation district within the proposed boundaries with the powers conferred upon it by this act is administratively practicable and feasible. To assist the supervisors in making this determination, they shall, within a reasonable time after the entry of a finding that there is need for the organization of a watershed conservation district and the determination of the boundaries thereof, hold a referendum within the proposed watershed conservation district upon the proposition of the creation of the watershed conservation district. Due notice of the referendum shall be given by the supervisors. Such notice shall state the date of holding the referendum, the hours of opening and closing the polls, and shall designate one or more places within the proposed watershed conservation district as polling places and shall give notice that the directors shall have the power of eminent domain. The supervisors shall have full charge of the referendum and shall have suitable ballots printed and furnished to each polling place; appoint necessary box managers and other referendum officials, and shall canvass the ballots and announce the results. The cost of holding the referendum shall be paid from the general fund of Chester County. *Provided,* that notwithstanding any provision of law to the contrary the power of eminent domain shall not be exercised over the protest of any landowner until it is conclusively established that the land proposed to be condemned is absolutely essential to the creation and operation of the watershed conservation district.

SECTION 7. Question.—The question to be voted on shall be submitted by ballots upon which appear the words:

"For creation of ———— Watershed Conservation District"
"Against creation of ———— Watershed Conservation District"

A square shall follow each proposition. The ballot shall contain a direction to insert an "X" mark in the square following one or the other of the propositions as the voter may favor or oppose creation of the watershed conservation district. The ballot shall set forth the boundaries of the proposed watershed conservation district as determined by the supervisors of the soil conservation district. No one except owners of lands lying within the boundaries of the proposed watershed conser-

vation district, as determined by the supervisors of the soil conservation district, shall be eligible to vote in the referendum. Qualified voters may vote by absentee ballot in the referendum under such rules and regulations as may be prescribed by the supervisors. No informalities in the conduct of the referendum or in any matters relating thereto shall invalidate the referendum or the result thereof if notice of the referendum shall have been given substantially as herein provided and the referendum shall have been fairly conducted.

SECTION 8. Results—district to be created if results and determination favorable.—The votes shall be counted by the referendum officials at the close of the polls and a report of the results along with the ballots shall be delivered and certified to the supervisors of the soil conservation district; and thereafter the supervisors shall determine whether the operation of the watershed conservation district within the defined boundaries is administratively practicable and feasible. If the supervisors determine that the operation of such district is not administratively practicable and feasible, they shall record such determination and deny the petition. If the supervisors determine that the operation of such district is administratively practicable and feasible, they shall record such determination and shall proceed with the organization of such district in the manner hereinafter set forth; *provided*, however, that the supervisors shall not have authority to determine that the operation of such district is administratively practicable and feasible unless at least a majority of the votes cast in the referendum upon the proposition of the creation of such district shall have been cast in favor of the creation of such district. If the supervisors shall determine that the operation of such district is administratively practicable and feasible, they shall certify such determination to the Clerk of Court of Chester County, the Code Commissioner and to the Secretary of State. Upon proper recordation of such determination, such watershed conservation district shall constitute a governmental subdivision of this State and a public body corporate and politic. After being recorded, such certification shall be filed with the State Soil Conservation Committee.

SECTION 9. Board of directors to govern district—nominating petitions—election—ballots—terms—officers—bond of treasurer.—(1) The governing body of the watershed conservation district shall consist of five directors, elected as provided herein.

(2) Within thirty days after a watershed conservation district has been created, nominating petitions may be filed with the supervisors of

the soil conservation district to nominate candidates for directors of the watershed conservation district. No such nominating petition shall be accepted by the supervisors unless it is signed by twenty-five or more landowners within the watershed conservation district, or, if less than fifty landowners are involved, by a majority of such landowners. If the candidates nominated do not exceed the number of directors to be chosen, the supervisors shall declare them to be elected. No person shall be eligible to be a director of a watershed conservation district who is not a landowner in the watershed conservation district in which he seeks election.

(3) If the candidates nominated for directors of the watershed conservation district exceed the number of directors to be chosen, the supervisors of the soil conservation district shall, after having given due notice thereof, cause an election to be held within the watershed conservation district within a reasonable time after the expiration of the nominating period. The provisions of Sections 5, 6 and 7 of this act as to notice, qualifications of voters, absentee voting, and the manner of holding the referendum in organizing a watershed conservation district, shall apply insofar as practicable to the election of the directors. The names of all qualified nominees shall be printed in alphabetical order upon ballots with a square before each name and a direction to insert an "X" mark in the square before any five names to indicate the voter's preference. Only landowners within the watershed conservation district shall be eligible to vote in the election. The five candidates who shall receive the largest number respectively of the votes cast in the election shall be the directors of the watershed conservation district, and shall, upon the supervision of the supervisors of the soil conservation district, be the governing body of the watershed conservation district.

(4) Of the directors first elected, the two receiving the largest number of votes shall serve for terms of four years, the two receiving the next largest number of votes shall serve for terms of three years, and the one receiving the next largest number of votes shall serve for a term of two years. The term of office of each of their successors shall be for four years. Any vacancy shall be filled for the unexpired term as provided to original directors.

(5) The directors shall annually designate from among their number a chairman, secretary, and treasurer. The treasurer shall execute an official bond for the faithful performance of the duties of his office, to be approved by the directors. Such bond shall be executed by a surety company authorized to do business in this State and shall be

in an amount determined by the directors. The premium on each bond shall be paid by the watershed conservation district.

SECTION 10. District to be corporate body—powers and duties.—A watershed conservation district organized under the provisions of this act shall constitute a governmental subdivision of this State, and a public body corporate and politic, exercising public powers, and such district and the directors thereof shall, subject to the approval of the supervisors of the soil conservation district, have the following powers, in addition to others granted in other sections of this act:

(1) to acquire, by purchase, exchange, lease, gift, grant, bequest, devise, or otherwise, or through condemnation proceedings in the manner provided in Sections 25-101 through 25-140 and Sections 33-121 through 33-148, Code of Laws of South Carolina, 1962, such lands, easements, or rights-of-way as are needed to carry out any authorized purpose of the watershed conservation district; and to sell, lease, or otherwise dispose of any of its property or interests therein in furtherance of the purposes and provisions of this act;

(2) to construct, reconstruct, repair, enlarge, improve, operate and maintain such works of improvement as may be necessary or convenient for the performance of any of the operations authorized by this act;

(3) to borrow money and to execute promissory notes and other evidences of debt in connection therewith for payment of the costs and expenses of organizing the watershed conservation district for carrying out any authorized purpose of such district, and if promissory notes are issued, to execute such mortgages on any property owned by such district, or assign or pledge such revenues or assessments of such district as may be required by the lender as security for the repayment of the loan; and to issue, negotiate, and sell its bonds as provided in Section 11 of this act;

(4) to levy an annual tax on the real property within the district subject to the limitations provided in Section 13 of this act for payment of the costs and expenses of organizing the watershed conservation district or for carrying out any authorized purpose of such district. Such levy shall be made only after approval by the supervisors of the soil conservation district and the county legislative delegation and upon notifying the county auditor.

SECTION 11. Bonds not to be issued unless referendum held.—(1) Bonds authorized by Section 10 of this act shall not be issued

until proposed by order or resolution of the directors of the watershed conservation district, specifying the purpose for which the funds are to be used and the proposed undertaking, the amount of bonds to be issued, the rate of interest they are to bear, and the amount of any necessary tax levy in excess of the maximum authorized in Section 13 of this act. A copy of the order or resolution shall be certified to the supervisors of the soil conservation district.

(2) The supervisors shall hold a hearing on such proposal after having given due notice. If it appears that the proposal is within the scope and purpose of this act and meets all other requirements of the law, the proposal shall be submitted to the landowners of the district by a referendum held by the supervisors.

(3) The provisions of Sections 5, 6 and 7 of this act as to notice, qualifications of voters, absentee voting, and manner of holding the referendum in organizing a watershed conservation district shall apply to the referendum held under this section.

(4) If two-thirds of the votes cast in such referendum favor the proposal, the directors shall, with the approval of the supervisors, be authorized to issue such bonds.

SECTION 12. Compensation.—The directors of the watershed conservation district shall receive no compensation for their services, but they may be reimbursed for expenses, including traveling expenses, necessarily incurred in the performance of their duties as approved by the supervisors of the soil conservation district.

SECTION 13. Budget—tax levy.—Within the first quarter of each calendar year, the directors of the watershed conservation district shall prepare an itemized budget of the funds needed for administration of the watershed conservation district and for construction, operation and maintenance of works of improvement. After approval of such budget by the supervisors of the soil conservation district, the county auditor shall levy a tax sufficient to meet such budget on all real property within the watershed conservation district of not to exceed five mills on each dollar of assessed valuation, except that this limitation shall not apply to any levy necessary to provide a sinking fund for the retirement of bonds authorized by Section 11 of this act. A copy of such budget shall be certified to the Auditor of Chester County.

SECTION 14. List of landowners and acres subject to assessment.—(1) The directors of the watershed conservation district

with the assistance of the county auditor shall prepare a list of the landowners involved showing the number of acres subject to assessment.

(2) When the property tax rolls are delivered to the county treasurer by the county auditor, as required by law, the county treasurer shall compute the tax due the watershed conservation district from each landowner in accordance with the rate fixed by the directors and the value of the real property indicated on the tax roll. The computation shall be made on the regular tax bills.

SECTION 15. Collection of taxes.—(1) The county treasurer shall collect the taxes due the watershed conservation district at the same time and in the same manner as he collects other taxes of the county.

(2) The taxes shall be subject to the same due and delinquency dates, discounts, penalties and interest as are applied to the collection of county taxes.

SECTION 16. Expenditures.—Tax funds collected shall be transferred to and held by the treasurer of the watershed conservation district for the specific purpose for which they have been collected. All expenditures of such funds shall be made by the directors of the watershed conservation district with the approval of the supervisors of the soil conservation district.

SECTION 17. Petition to have lands detached.—The owners of lands which have not been, are not and cannot be benefited by their inclusion in the watershed conservation district may petition the supervisors of the soil conservation district to have such lands detached. The petition shall describe such lands and state the reasons why they should be detached. A hearing shall be held by the supervisors within thirty days after the petition is filed and due notice of such hearing shall be given by the supervisors. If it is determined by the supervisors that such lands shall be detached, such determination shall be certified to the Auditor of Chester County for recording. After being recorded, the certification shall be filed with the State Soil Conservation Committee.

SECTION 18. Petition for discontinuance of district—hearing—referendum—discontinuance if election and determination favorable.—(1) At any time after five years after the organization of a watershed conservation district, twenty-five or more landowners within such district, or if less than fifty landowners are involved, a ma-

jority of such landowners, may file a petition with the supervisors of the soil conservation district asking that the existence of the watershed conservation district be discontinued. The petition shall state the reasons for discontinuance, and that all obligations of the watershed conservation district have been met. The supervisors may conduct such hearings upon the petition as may be necessary to assist them in the consideration thereof.

(2) Within sixty days after petition has been filed with the supervisors they shall give due notice of the holding of a referendum. The supervisors shall hold such referendum substantially as provided for in Section 11 of this act. The question shall be submitted by ballots upon which the words "For terminating the existence of the ——— ——— Watershed Conservation District" and "Against terminating the existence of the ——— Watershed Conservation District" shall be printed, with a square before each proposition and a direction to insert an "X" mark in the square before one or the other of the propositions as the voter may favor or oppose the discontinuance of such watershed conservation district. Only landowners within the watershed conservation district shall be eligible to vote in such referendum. No informality in the conduct of the referendum or in any matters relating thereto shall invalidate the referendum or the results thereof if notice of the referendum shall have been given substantially as herein provided and the referendum shall have been fairly conducted.

(3) The supervisors shall publish the results of the referendum and shall thereafter determine whether the continued operation of the watershed conservation district is administratively practicable and feasible. If the supervisors determine that the continued operation of the watershed conservation district is administratively practicable and feasible, they shall record such determination and deny the petition. If the supervisors determine that the continued operation of the watershed conservation district is not administratively practicable and feasible, they shall record such determination and shall certify such determination to the directors of the watershed conservation district; *provided,* however, that the supervisors shall not be authorized to determine that the continued operation of the watershed conservation district is administratively practicable and feasible unless at least a majority of the votes cast in the referendum shall have been cast in favor of the continuance of the watershed conservation district.

(4) Upon receipt from the supervisors of a certification that they have determined that the continued operation of the watershed con-

servation district is not administratively practicable and feasible, the directors shall forthwith proceed to terminate the affairs of the watershed conservation district. A copy of the determination shall be certified to the Auditor of Chester County for recording. After being recorded, the certification shall be filed with the State Soil Conservation Committee.

bonds of the district to be issued pursuant to a loan agreement with an agency of the United States Government, and that it may become necessary for the district to borrow in anticipation of the delivery of such bonds, to a greater extent than permitted by an act of 1965 bearing ratification No. 164.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Deep Creek Watershed Conservation District may be created in Chesterfield County.—Authority is hereby granted to form the Deep Creek Watershed Conservation District in Chesterfield County for the purpose of developing and executing plans and programs relating to any phase of the control and prevention of soil erosion, flood prevention, or the conservation, development, utilization and disposal of water.

SECTION 2. Area.—The area embraced in the district must be contiguous and drain naturally into Deep Creek. The area shall not include lands located within the boundary of any incorporated city or town, lands not included within a soil conservation district, or lands embraced in another watershed conservation district.

SECTION 3. Petition for formation.—Formation of the district shall be initiated by the filing of a petition with the board of supervisors of the soil conservation district within the proposed conservation district. The petition must be signed by twenty-five or more freeholders in the proposed district. If there are less than fifty landowners within the proposed district, then a majority of the landowners may file a petition with the board asking that a watershed conservation district be organized to function in the area described in the petition. The petition shall set forth and define the boundaries of the proposed district, the number of acres involved, reasons for requesting the creation of the district and any other information pertinent to the proposal.

SECTION 4. Hearing on petition.—(a) Within thirty days after the petition has been filed with the board of supervisors of the soil conservation district, it shall cause due notice to be given of a hearing upon the question of the desirability and necessity in the interest of the public health, safety, and welfare, of the creation of the watershed conservation district. All interested parties shall have the right to attend the hearing and to be heard. If it shall appear at the hearing that other lands should be included in the petition or that lands included in the petition should be excluded, the board of supervisors may permit such inclusion or exclusion, provided the land area involved still meets the requirements of Section 2 of this act.

(b) If it appears upon the hearing that it may be desirable to include within the proposed watershed conservation district territory outside of the area within which due notice of the hearing has been given, the hearing shall be adjourned and due notice of a further hear-

ing shall be given throughout the entire area considered for inclusion in the proposed watershed conservation district, and such further hearing shall be held. After final hearing, if the board of supervisors of the soil conservation district determines, upon the facts presented at the hearing and upon other available information, that there is need, in the interest of the public health, safety, and welfare, for a watershed conservation district to function in the territory considered at the hearing, it shall make and record such determination, and shall define the area but the description need not be given by metes and bounds, but the description shall be deemed sufficient if generally accurate and the approximate number of acres of land included in the proposed watershed conservation district is shown.

(c) If the board of supervisors of the soil conservation district determines after such hearing that there is no need for a watershed conservation district to function in the territory considered at the hearing, it shall make and record such determination and shall deny the petition.

SECTION 5. Referendum.—After the board of supervisors has determined that there is need, in the interest of the public health, safety and welfare, for creation of the proposed watershed conservation district, it shall consider the question whether the operation of a district within the proposed boundaries with the power conferred upon such district in Section 9 of this act is administratively practicable and feasible. To assist the board of supervisors in this determination the board shall, within a reasonable time after entry of the finding that there is need for the organization of the district and the determination of the boundaries of the district, hold a referendum within the proposed district upon the proposition of the creation of the district. Due notice of the referendum shall be by notice published at least twice with an interval of at least one week between the two publication dates, in a publication of general circulation within the appropriate area, or, if no such publication of general circulation be available, notices shall be posted at a reasonable number of conspicuous places in the appropriate area. These notices shall be posted at public places where it is customary to post notices concerning county or municipal affairs generally. Such notices shall state the date of holding the referendum, the hours of opening and closing the polls, and shall designate one or more places within the proposed district as polling places. The board shall have full charge of the election and shall have suitable ballots printed and furnished to each voting place, appoint necessary box

managers and other election officials, and shall canvass the election and announce the results. Cost of holding the referendum shall be paid from the General Fund of Chesterfield County.

SECTION 6. Question.—The question to be voted on shall be submitted by the ballots upon which appear the words:

"For the creation of the Deep Creek Watershed Conservation District".

"Against the creation of the Deep Creek Watershed Conservation District". A square shall follow each proposition. The ballot shall also contain a direction to insert an "X" mark in the square following one or the other of the propositions, as the voter may favor or oppose creation of the district. The ballot shall set forth the boundaries of the proposed district as determined by the board of supervisors. Only owners of lands lying within the boundaries of the territory, as determined by such board, shall be eligible to vote in the referendum. Qualified voters may vote by absentee ballot in such referendum under the rules and regulations prescribed by the board of supervisors.

SECTION 7. Results—district to be created if results and determination favorable.—The votes shall be counted by the referendum officials at the close of the polls and a report of the results along with the ballots shall be delivered and certified to the board of supervisors. Thereafter the board shall determine whether the operation of the watershed conservation district within the defined boundaries is administratively practicable and feasible. If the board determines that the operation of such district is not administratively practicable and feasible, it shall record such determination and deny the petition. If the board determines that the operation of such district is administratively practicable and feasible, it shall record such determination and shall proceed with the organization of the district in the manner hereinafter set forth; *provided,* however, that the board shall not have authority to determine that the operation of such district is administratively practicable and feasible unless at least a two-thirds majority of the votes cast in the referendum upon the proposition of the creation of such district shall have been cast in favor of the creation of such district. If the board shall determine that the operation of such district is administratively practicable and feasible, it shall certify such determination to the Clerk of Court of Chesterfield County and to the Secretary of State. Upon this certification, the watershed conservation district shall constitute a governmental subdivision of this

State and a public body, corporate and politic. After being recorded, such certification shall be filed with the State Soil Conservation Committee.

SECTION 8. Board of directors to govern district—nominating petitions—election—ballots—terms—officers—bond of treasurer. —(a) The governing body of the watershed conservation district shall consist of five directors, elected as provided herein.

(b) Within thirty days after the watershed conservation district has been created, nominating petitions may be filed with the board of supervisors of the soil conservation district to nominate candidates for directors of the watershed conservation district. No nominating petition shall be accepted by the board of supervisors unless it is signed by twenty-five or more landowners within the watershed conservation district, or, if less than fifty landowners are involved, by a majority of such landowners. If the candidates nominated do not exceed the number of directors to be chosen, the board of supervisors shall declare them to be elected. No person shall be eligible to be a director who is not a landowner in that portion of the watershed conservation district within the soil conservation district in which he seeks election.

(c) If the candidates nominated for directors of the watershed conservation district exceed the number of directors to be chosen, the board of supervisors of the soil conservation district shall, after having given due notice thereof, cause an election to be held within the watershed conservation district within a reasonable time after the expiration of the thirty-day period for the election of five directors of the watershed conservation district. The provisions of this act as to notice, qualifications of voters, absentee voting, and the manner of holding the referendum in organizing a watershed conservation district, shall apply insofar as practicable to the election of the directors. The names of all nominees on behalf of whom nominating petitions have been filed as hereinabove provided shall be printed, arranged in alphabetical order of their surnames, upon ballots with a square before each name and a direction to insert an "X" mark in the square before any five names to indicate the voter's preference. All landowners within the watershed conservation district shall be eligible to vote in the election. Only landowners shall be eligible to vote. The five candidates who shall receive the largest number respectively of the votes cast in such election shall be the elected directors of the watershed conservation district. The five elected directors shall, under

This act is intended and is construed to make appropriations for the operation and activities of Clarendon County for the period beginning July 1, 1965, and ending June 30, 1966.

Balances from appropriations in former years, unexpended on August 1, 1965, shall terminate and end as of that date. SECTION 6. No county officer charged with disbursing the funds herein provided shall expend or contract to spend under any general item any sum greater than the amount for each general item being

appropriated, without the written consent of the Clarendon County Legislative Delegation. Any violation of the provisions herein is hereby declared a malfeasance in office and such officer shall be subject to removal by the Governor upon the recommendation of the delegation. in the opinion of the county board or county legislative delegation, additional funds are necessary for such purposes, the necessity and the grounds therefor may be presented to the county legislative delegation and the members thereof may authorize additional expenditures, and the written direction of said delegation will authorize the county treasurer to pay such excess amounts out of any available funds in his hand.

SECTION 11. Whenever it appears to the county board that a purchaser at a tax sale received nothing for his bid, because of double entries or other errors in the county records, it may refund the amount paid on account of such bids by approving a claim therefor against the county which may be paid from collections from forfeited lands or from the appropriation herein for contingent expenses, but nothing herein shall be construed as a warrant or representation by the county of the validity of any title acquired at tax sale now or hereafter.

The trustees of each district shall make an agreement with the auditor so appointed as to the cost prior to commencement of the work and should they fail to agree then the county shall fix his compensation and in this event the county delegation may provide by written order for the payment of the same.

SECTION 17. All appropriations herein for the operation of the public school system shall cease and become inoperative for the time that any pupil or pupils shall by order of any court attend a school other than that which he or she is now attending or may be assigned by local board of trustees or other governing body of such school. No. 580

An Act To Authorize And Empower The Respective Boards Of School Trustees Of Lake View School District No. 1, Dillon School District No. 2, And Latta School District No. 3, In Dillon County To Issue General Obligation Bonds Of Such Districts In Order To Pay Existing Indebtedness, To Prescribe The Conditions Under Which The Bonds May Be Issued And The Purposes For Which Their Proceeds May Be Expended And To Make Provision For The Payment Of The Bonds, And To Repeal Acts Of 1965 Bearing Ratification Nos. 129, 130 And 131,

Relating To Bond Issues Of Latta School District No. 3, Dillon School District No. 2 And Lake View School District No. 1.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Bond issues for Dillon County School District to be repealed.—At the present session of the General Assembly, by three separate acts of 1965 identical in form, with the exception of the amount of bonds authorized, bearing Ratification Nos. 129, 130 and 131, Lake View School District No. 1, Dillon School District No. 2 and Latta School District No. 3, in Dillon County, were authorized to issue general obligation bonds of the respective school districts for the purpose of providing additional public school facilities and for the purpose of funding indebtedness of such school districts.

Following a further study of the needs of Dillon County it has been decided that the county itself, acting through the county board of education, and in conformity with a special constitutional amendment relating to Dillon County, which permits Dillon County to incur bonded indebtedness for school purposes to the extent of fifteen per cent of the assessed value of all taxable property in the county, should incur bonded debt for the construction and equipping of new public school facilities in each of the school districts.

On this basis it has been determined that the right of the individual school districts to incur bonded indebtedness pursuant to the legislation above referred to should be limited to bonded indebtedness required for the funding of existing indebtedness, and to repeal these three acts, and through the means of this act provide a method by which each of the three school districts in Dillon County will be empowered to incur bonded debt for the purpose of funding existing indebtedness.

SECTION 2. Findings of General Assembly.—The General Assembly finds that Lake View School District No. 1 is indebted to the Anderson Bank and to Dillon County, as of April 1, 1965, in the aggregate principal amount of one hundred ten thousand three hundred ninety-five dollars and ten cents; that Dillon School District No. 2 is indebted to the State Sinking Fund, as of April 1, 1965, in the aggregate principal amount of three hundred ten thousand dollars; and that Latta School District No. 3 is indebted to the State Sinking Fund and to Dillon County, as of April 1, 1965, in the aggregate principal amount of one hundred sixty-one thousand six hundred fifty-one dollars and twenty-six cents.

SECTION 3. Bond issues authorized for school districts.—The boards of trustees of each of the three school districts of Dillon County are hereby authorized and empowered to issue general obligation bonds of each respective school district, to the extent that may be required to effect the payment and retirement of the existing indebtedness of such school district, as set forth in Section 2 of this act, and to that end each board of trustees may avail themselves of the authorizations of this act.

SECTION 4. Maturity.—Bonds of any school district issued pursuant to this act shall mature in such annual series or instalments as the board of trustees shall provide, except that the first maturing bonds shall mature within two years from the date of issue; not less than two per cent of the bonds shall mature in each year; and no bonds shall mature later than twenty-five years from the date of issue.

SECTION 5. Redemption.—Any bond issued pursuant to this act may be issued with a provision permitting its redemption prior to its stated maturity, at par and accrued interest, plus such redemption premium as may be prescribed by the board of trustees, but no bond shall be redeemable prior to its stated maturity unless it contains a statement to that effect. In the proceedings authorizing the issuance of such bonds, provision shall be made specifying the manner of call and the notice thereof that must be given as to bonds made redeemable prior to their stated maturities.

SECTION 6. Form.—The bonds issued pursuant to this act shall be in the form of negotiable coupon bonds, payable to bearer, but may be issued with the privilege to any holder of having them registered as to principal on the books of the Treasurer of Dillon County, upon such conditions as the board of trustees may prescribe. Except when so registered, all bonds issued pursuant to this act shall have all attributes of negotiable instruments under the law merchant and the negotiable instrument law.

SECTION 7. Where payable.—The bonds issued pursuant to this act shall be made payable at such places, within or without the State, as the board of trustees shall provide.

SECTION 8. Interest.—Bonds issued pursuant to this act shall bear interest at rates determined by the board of trustees.

SECTION 9. Denominations and execution.—The bonds and the coupons to be thereunto attached, shall be in such denomination and shall be executed in such manner as the board of trustees shall by resolution prescribe.

SECTION 10. Sale.—Bonds issued pursuant to this act shall be sold at a price of not less than par and accrued interest to the date of their respective deliveries. They shall be sold after public advertisement of their sale in a newspaper of general circulation in South Carolina. Such published notice shall appear not less than ten days prior to the occasion set for opening bids.

SECTION 11. Payment.—For the payment of the principal and interest of any issue of bonds issued pursuant to this act, as they respectively mature, and for the creation of such sinking fund as may be necessary therefor, the full faith, credit and taxing power of the respective school districts shall be irrevocably pledged, and there shall be levied annually by the Auditor of Dillon County, and collected by the Treasurer of Dillon County, in the same manner as county taxes are levied and collected, on all taxable property in the respective school district, a tax sufficient to pay the principal and interest of the bonds as they respectively mature and to create such sinking fund as may be necessary therefor; *provided,* that, until changed by subsequent enactment, the ad valorem tax levy shall be reduced to the extent that there is on deposit with the Treasurer of Dillon County, on the occasion in each year when the ad valorem tax levy is to be made, moneys derived from contributions or grants from the State of South Carolina to the respective school districts for capital improvements for school facilities which can be used for the payment of such principal and interest, and in all instances where an annual tax levy is so reduced, the moneys derived from such contributions and grants shall be applied to the payment of such principal and interest and to no other purpose.

SECTION 12. Exempt from taxes.—The principal and interest of bonds issued pursuant to this act shall have the tax exempt status prescribed by Section 65-4.1, Code of Laws of South Carolina, 1962.

SECTION 13. Proceeds.—The proceeds derived from the sale of any bonds issued pursuant to this act shall be paid to the Treasurer of Dillon County, to be deposited in a Bond Account Fund for the county and shall be expended and made use of as follows:

(a) Any accrued interest shall be applied to the payment of the first instalment of interest to become due on such bonds.

(b) Any premium shall be applied to the payment of the first instalment of principal of such bonds.

(c) So much as shall be required shall be paid out by the treasurer, on the warrant of the board of trustees for costs and expenses incident to the issuance of the bonds.

(d) The remaining proceeds shall be applied with any other funds available therefor for the retirement of the indebtedness for which such bonds were issued.

SECTION 14. Powers to be additional.—The powers and authorizations hereby conferred upon the boards of trustees shall be in addition to all other powers and authorizations previously vested in the boards of trustees and may be availed of pursuant to action taken at any regular or special meeting of the boards of trustees but no bonds shall be issued pursuant to the provisions of this act subsequent to eighteen months following the effective date of this act, unless litigation shall be instituted challenging the right of the school districts to incur bonded indebtedness pursuant to this act, in which event, the time for the issuance of bonds pursuant to the provisions of this act shall be postponed for a period of eighteen months following the conclusion of such litigation.

SECTION 15. No further action required for issuance.—No action other than that prescribed in this act need be taken to effect the issuance of the bonds herein authorized, nor shall the board of trustees be required to obtain the approval of any public agency to any action taken pursuant to the authorizations of this act.

SECTION 16. Acts 576, 577 and 578 of 1965 repealed.—Acts of 1965 bearing Ratification Nos. 129, 130 and 131, are repealed.

No. 581

An Act To Authorize And Empower The County Board Of Education Of Dillon County To Issue General Obligation Bonds Of Dillon County To Provide Additional Public School Facilities In The County, To Prescribe The Conditions Under Which The Bonds May Be Issued And The Purposes For Which Their Proceeds May Be Expended, And To Make Provision For The Payment Of The Bonds.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Determinations of General Assembly.—The General Assembly takes note of the fact that Dillon County is divided into three school districts: Lakeview School District No. 1, Dillon School District No. 2 and Latta School District No. 3 (Section 21-2401, Code of Laws of South Carolina, 1962). Each school district has its own special eight per cent constitutional debt limitation, but the aggregate of indebtedness of each is such that little, if any, further bonded debt may be created.

Dillon County itself has a special constitutional amendment which specifically provides that it may incur bonded indebtedness for school purposes in an amount not exceeding fifteen per cent of the assessed value of all taxable property in the county. This amendment and the provisions of Sections 5 and 6 of Article X of the Constitution thus permit the county to incur bonded indebtedness for educational purposes.

Surveys have been made of the needs of the three school districts in Dillon County for further public school facilities and it has been ascertained that there is an acute need for additional facilities in each of the school districts and that in certain instances unless additional classrooms are provided there will be no space available for pupils for the next school session.

Due consideration has been given to a fair and equitable method of apportioning any contribution that might be made by Dillon County to the three school districts and it has been determined that it is both equitable and just to effect an apportionment of any contribution in the proportion, to the nearest one thousand dollars, that the pupil enrollment of each school district, as of the beginning of the 1964-65 school years, bears to the total pupil enrollment in Dillon County.

On the basis of its findings, the General Assembly has determined to make provision for the issuance of general obligation bonds of Dillon County for school purposes and to distribute the proceeds derived from the sale of such bonds among the school districts of Dillon County on the basis above set forth.

SECTION 2. Bond issues authorized for schools.—For the purpose of providing funds for additional public school facilities to be expended on a pro rata per pupil enrollment basis, and in accordance with the formula expressed in Section 1 hereof, the County Board of Education of Dillon County, as constituted by Article 2 of Chapter 33, Title 14, Code of Laws of South Carolina, 1962 (the board), is hereby authorized and empowered to issue general obligation bonds of Dillon County to such amount as it shall determine. *Provided,* that the aggregate of bonded debt incurred pursuant to this act shall not exceed that permitted by the special constitutional amendment referred to in Section 1.

SECTION 3. In the proceedings authorizing the issuance of such bonds, provision shall be made specifying the manner of call and the notice thereof that must be given as to bonds made redeemable prior to their maturities.

SECTION 5. Form.—The bonds issued pursuant to this act shall be in the form of negotiable coupon bonds, payable to bearer, but may be issued with the privilege to any holder of having them registered as to principal on the books of the Treasurer of Dillon County, upon such conditions as the board may prescribe. Except when so registered, all bonds issued pursuant to this act shall have all attributes of negotiable instruments under the law merchant and the negotiable instrument law.

They shall be sold after public advertisement of their sale in a newspaper of general circulation in South Carolina. Such published notice shall appear not less than ten days prior to the occasion set for opening bids.

SECTION 10. Payment.—For the payment of the principal and interest of all bonds issued pursuant to this act, as they respectively mature, and for the creation of such sinking fund as may be necessary therefor, the full faith, credit and taxing power of the county shall be irrevocably pledged, and there shall be levied annually by the Auditor of Dillon County, and collected by the Treasurer of Dillon County, in the same manner as county taxes are levied and collected, on all taxable property in Dillon County, a tax sufficient to pay the principal and interest of the bonds as they respectively mature and to create such sinking fund as may be necessary therefor.

SECTION 11. Exempt from taxes.—The principal and interest of bonds issued pursuant to this act shall have the tax exempt status prescribed by Section 65-4.1, Code of Laws of South Carolina, 1962.

(e) If, after the final completion of the county's school building program, there shall be any balance remaining in the bond account, then such balance shall be held by the treasurer and used to effect the retirement of bonds issued pursuant to this act then outstanding.

SECTION 13. Powers to be additional.—The powers and authorizations hereby conferred upon the board shall be in addition to all other powers and authorizations previously vested in the board and may be availed of pursuant to action taken at any regular or special meeting of the board, but no bonds shall be issued pursuant to the provisions of this act subsequent to eighteen months following the effective date of this act, unless litigation shall be instituted challenging the right of Dillon County to incur bonded indebtedness pursuant to this act, in which event, the time for the issuance of bonds pursuant to the provisions of this act shall be postponed for a period of eighteen months following the conclusion of such litigation.

SECTION 14. No further action required.—No action other than that prescribed in this act need be taken to effect the issuance of the bonds herein authorized, nor shall the board be required to obtain the approval of any public agency to any action taken pursuant to the authorizations of this act.

SECTION 15. Time effective.—This act shall take effect upon approval by the Governor.

An Act Providing For The Creation Of Watershed Conservation Districts In Dorchester County, And The Election Of Directors Of Watershed Conservation Districts And Their Powers And Duties; And Providing For A Levy Of Taxes For The Organization And Administration Of Such Districts, And For The Construction, Operation And Maintenance Of Works Of Improvement Within Such Districts.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Definitions.—Whenever used or referred to in this act, unless a different meaning clearly appears from the context:

(1) "Watershed conservation district" means a governmental subdivision of this State, and a public body corporate and politic, organ-

ized in accordance with the provisions of this act, for the purposes, with the powers, and subject to the restrictions hereinafter set forth.

(2) "Director" means one of the members of the governing body of a watershed conservation district, elected in accordance with the provisions of this act.

(3) "Supervisor" means one of the members of the governing body of the Dorchester Soil Conservation District in which any part of a watershed conservation district is situated.

(4) "Petition" means a petition filed under the provisions of Section 4 of this act for the creation of a watershed conservation district.

(5) "County" means Dorchester County of South Carolina.

(6) "Landowner" or "owner of land" includes any person, firm or corporation who shall hold legal or equitable title to any lands lying within a watershed conservation district organized under the provisions of this act.

(7) "Due notice" means notice published at least twice, with an interval of at least one week between the two publication dates, in a publication of general circulation within the appropriate area, or, if no such publication of general circulation be available, notice posted at a reasonable number of conspicuous places within the appropriate area, such posting to include, where possible, posting at public places where it is customary to post notices concerning county or municipal affairs generally.

SECTION 2. Watershed Conservation Districts may be formed in Dorchester County.—Authority is hereby granted to form watershed conservation districts within Dorchester County for the purpose of developing and executing plans and programs relating to any phase of the control and prevention of soil erosion, flood prevention, or the conservation, development, utilization, and disposal of water.

SECTION 3. Area.—The area embraced in a watershed conservation district must be contiguous and must lie within a well-defined watershed; and such area shall not include lands located within the boundary of any incorporated city or town, or lands embraced in another watershed conservation district.

SECTION 4. Petition for formation.—When twenty-five or more landowners within a proposed watershed conservation district, or, if less than fifty landowners are involved, a majority of such landowners, desire to form a watershed conservation district, they shall file a petition with the supervisors of the soil conservation district asking

that a watershed conservation district be organized to function in the area described in the petition. Such petition shall set forth the proposed name of the watershed conservation district; that there is need, in the interest of the public health, safety, and welfare, for a watershed conservation district to function in the territory described in the petition; a description of the territory proposed to be organized as a watershed conservation district, which description need not be given by metes and bounds or by legal subdivisions, but shall be deemed sufficient if generally accurate; and the approximate number of acres of land included in the proposed watershed conservation district.

SECTION 5. Hearing on petition.—(1) Within thirty days after such petition has been filed with the supervisors of the soil conservation district, they shall cause due notice to be given of a hearing upon the question of the desirability and necessity, in the interest of the public health, safety, and welfare, of the creation of such watershed conservation district. All interested parties shall have the right to attend such hearing and to be heard. If it shall appear at the hearing that other lands should be included in the petition or that lands included in the petition should be excluded, the supervisors shall permit such inclusion or exclusion, provided the land area involved still meets the requirements of Section 3 of this act.

(2) If it appears upon the hearing that it may be desirable to include within the proposed watershed conservation district territory outside of the area within which due notice of the hearing has been given, the hearing shall be adjourned and due notice of a further hearing shall be given throughout the entire area considered for inclusion in the proposed watershed conservation district, and such further hearing shall be held. After final hearing, if the supervisors of the soil conservation district determine, upon the facts presented at the hearing and upon other available information, that there is need, in the interest of the public health, safety, and welfare, for a watershed conservation district to function in the territory considered at the hearing, they shall make and record such determination, and shall define the area, but the description need not be given by metes and bounds. The description shall be deemed sufficient if generally accurate and the approximate number of acres of land included in the proposed watershed conservation district is shown.

(3) If the supervisors of the soil conservation district determine after such hearing that there is no need for a watershed conservation district to function in the territory considered at the hearing, they shall make and record such determination and shall deny the petition.

SECTION 6. Referendum.—After the supervisors of the soil conservation district have made and recorded a determination that there is need, in the interest of the public health, safety, and welfare, for a watershed conservation district to function in the territory considered at the hearing, and have defined the boundaries thereof, they shall consider the question whether the operation of a watershed conservation district within the proposed boundaries with the powers conferred upon it by this act is administratively practicable and feasible. To assist the supervisors in making this determination, they shall, within a reasonable time after the entry of a finding that there is need for the organization of a watershed conservation district and the determination of the boundaries thereof, hold a referendum within the proposed watershed conservation district upon the proposition of the creation of the watershed conservation district. Due notice of the referendum shall be given by the supervisors. Such notice shall state the date of holding the referendum, the hours of opening and closing the polls, and shall designate one or more places within the proposed watershed conservation district as polling places and shall give notice that the directors shall have the power of eminent domain. The supervisors shall have full charge of the referendum and shall have suitable ballots printed and furnished to each polling place; appoint necessary box managers and other referendum officials, and shall canvass the ballots and announce the results. The cost of holding the referendum shall be paid from the general fund of Dorchester County. *Provided*, that notwithstanding any provision of law to the contrary the power of eminent domain shall not be exercised over the protest of any landowner until it is conclusively established that the land proposed to be condemned is absolutely essential to the creation and operation of the watershed conservation district.

SECTION 7. Question.—The question to be voted on shall be submitted by ballots upon which appear the words:
"For creation of ..... Watershed Conservation District"
"Against creation of ..... Watershed Conservation District"
A square shall follow each proposition. The ballot shall contain a direction to insert an "X" mark in the square following one or the other of the propositions as the voter may favor or oppose creation of the watershed conservation district. The ballot shall set forth the boundaries of the proposed watershed conservation district as determined by the supervisors of the soil conservation district. No one except owners of lands lying within the boundaries of the proposed

watershed conservation district, as determined by the supervisors of the soil conservation district, shall be eligible to vote in the referendum. Qualified voters may vote by absentee ballot in the referendum under such rules and regulations as may be prescribed by the supervisors. No informalities in the conduct of the referendum or in any matters relating thereto shall invalidate the referendum or the result thereof if notice of the referendum shall have been given substantially as herein provided and the referendum shall have been fairly conducted.

SECTION 8. Results—district to be created if results and determination favorable.—The votes shall be counted by the referendum officials at the close of the polls and a report of the results along with the ballots shall be delivered and certified to the supervisors of the soil conservation district; and thereafter the supervisors shall determine whether the operation of the watershed conservation district within the defined boundaries is administratively practicable and feasible. If the supervisors determine that the operation of such district is not administratively practicable and feasible, they shall record such determination and deny the petition. If the supervisors determine that the operation of such district is administratively practicable and feasible, they shall record such determination and shall proceed with the organization of such district in the manner hereinafter set forth; *provided,* however, that the supervisors shall not have authority to determine that the operation of such district is administratively practicable and feasible unless at least a majority of the votes cast in the referendum upon the proposition of the creation of such district shall have been cast in favor of the creation of such district. If the supervisors shall determine that the operation of such district is administratively practicable and feasible, they shall certify such determination to the Clerk of Court of Dorchester County, the Code Commissioner and to the Secretary of State. Upon proper recordation of such determination, such watershed conservation district shall constitute a governmental subdivision of this State and a public body corporate and politic. After being recorded, such certification shall be filed with the State Soil Conservation Committee.

SECTION 9. Board of directors to govern district—nominating petitions—election—ballots—terms—officers—bond of treasurer.—(1) The governing body of the watershed conservation district shall consist of five directors, elected as provided herein.

(2) Within thirty days after a watershed conservation district has been created, nominating petitions may be filed with the supervisors of the soil conservation district to nominate candidates for directors of the watershed conservation district. No such nominating petition shall be accepted by the supervisors unless it is signed by twenty-five or more landowners within the watershed conservation district, or, if less than fifty landowners are involved, by a majority of such landowners. If the candidates nominated do not exceed the number of directors to be chosen, the supervisors shall declare them to be elected. No person shall be eligible to be a director of a watershed conservation district who is not a landowner in the watershed conservation district in which he seeks election.

(3) If the candidates nominated for directors of the watershed conservation district exceed the number of directors to be chosen, the supervisors of the soil conservation district shall, after having given due notice thereof, cause an election to be held within the watershed conservation district within a reasonable time after the expiration of the nominating period. The provisions of Sections 5, 6 and 7 of this act as to notice, qualifications of voters, absentee voting, and the manner of holding the referendum in organizing a watershed conservation district, shall apply insofar as practicable to the election of the directors. The names of all qualified nominees shall be printed in alphabetical order upon ballots with a square before each name and a direction to insert an "X" mark in the square before any five names to indicate the voter's preference. Only landowners within the watershed conservation district shall be eligible to vote in the election. The five candidates who shall receive the largest number respectively of the votes cast in the election shall be the directors of the watershed conservation district, and shall, upon the supervision of the supervisors of the soil conservation district, be the governing body of the watershed conservation district.

(4) Of the directors first elected, the two receiving the largest number of votes shall serve for terms of four years, the two receiving the next largest number of votes shall serve for terms of three years, and the one receiving the next largest number of votes shall serve for a term of two years. The term of office of each of their successors shall be for four years. Any vacancy shall be filled for the unexpired term as provided to original directors.

(5) The directors shall annually designate from among their number a chairman, secretary, and treasurer. The treasurer shall execute

an official bond for the faithful performance of the duties of his office, to be approved by the directors. Such bond shall be executed by a surety company authorized to do business in this State and shall be in an amount determined by the directors. The premium on each bond shall be paid by the watershed conservation district.

SECTION 10. District to be corporate body—powers and duties.—A watershed conservation district organized under the provisions of this act shall constitute a governmental subdivision of this State, and a public body corporate and politic, exercising public powers, and such district and the directors thereof shall, subject to the approval of the supervisors of the soil conservation district, have the following powers, in addition to others granted in other sections of this act:

(1) To acquire, by purchase, exchange, lease, gift, grant, bequest, devise, or otherwise, or through condemnation proceedings in the manner provided in Sections 25-101 through 25-140 and Sections 33-121 through 33-148, Code of Laws of South Carolina, 1962, such lands, easements, or rights-of-way as are needed to carry out any authorized purpose of the watershed conservation district; and to sell, lease, or otherwise dispose of any of its property or interests therein in furtherance of the purposes and provisions of this act;

(2) To construct, reconstruct, repair, enlarge, improve, operate, and maintain such works of improvement as may be necessary or convenient for the performance of any of the operations authorized by this act;

(3) To borrow money and to execute promissory notes and other evidences of debt in connection therewith for payment of the costs and expenses of organizing the watershed conservation district for carrying out any authorized purpose of such district, and if promissory notes are issued, to execute such mortgages on any property owned by such district, or assign or pledge such revenues or assessments of such district as may be required by the lender as security for the repayment of the loan; and to issue, negotiate, and sell its bonds as provided in Section 11 of this act;

(4) To levy an annual tax on the real property within the district subject to the limitations provided in Section 13 of this act for payment of the costs and expenses of organizing the watershed conservation district or for carrying out any authorized purpose of such district. Such levy shall be made only after approval by the super-

visors of the soil conservation district and the county legislative delegation and upon notifying the county auditor.

SECTION 11. Bonds not to be issued unless referendum held.—(1) Bonds authorized by Section 10 of this act shall not be issued until proposed by order or resolution of the directors of the watershed conservation district, specifying the purpose for which the funds are to be used and the proposed undertaking, the amount of bonds to be issued, the rate of interest they are to bear, and the amount of any necessary tax levy in excess of the maximum authorized in Section 13 of this act. A copy of the order or resolution shall be certified to the supervisors of the soil conservation district.

(2) The supervisors shall hold a hearing on such proposal after having given due notice. If it appears that the proposal is within the scope and purpose of this act and meets all other requirements of the law, the proposal shall be submitted to the landowners of the district by a referendum held by the supervisors.

(3) The provisions of Sections 5, 6 and 7 of this act as to notice, qualifications of voters, absentee voting, and manner of holding the referendum in organizing a watershed conservation district shall apply to the referendum held under this section.

(4) If two-thirds of the votes cast in such referendum favor the proposal, the directors shall, with the approval of the supervisors, be authorized to issue such bonds.

SECTION 12. Compensation.—The directors of the watershed conservation district shall receive no compensation for their services, but they may be reimbursed for expenses, including traveling expenses, necessarily incurred in the performance of their duties as approved by the supervisors of the soil conservation district.

SECTION 13. Budget—tax levy.—Within the first quarter of each calendar year, the directors of the watershed conservation district shall prepare an itemized budget of the funds needed for administration of the watershed conservation district and for construction, operation and maintenance of works of improvement. After approval of such budget by the supervisors of the soil conservation district, the county auditor shall levy a tax sufficient to meet such budget on all real property within the watershed conservation district of not to exceed five mills on each dollar of assessed valuation, except that this limitation shall not apply to any levy necessary to provide a sinking fund for the retirement of bonds authorized by Section 11 of this act.

A copy of such budget shall be certified to the Auditor of Dorchester County.

SECTION 14. List of landowners and acres subject to assessment.—(1) The directors of the watershed conservation district with the assistance of the county auditor shall prepare a list of the landowners involved showing the number of acres subject to assessment.

(2) When the property tax rolls are delivered to the county treasurer by the county auditor, as required by law, the county treasurer shall compute the tax due the watershed conservation district from each landowner in accordance with the rate fixed by the directors and the value of the real property indicated on the tax roll. The computation shall be made on the regular tax bills.

SECTION 15. Collection of taxes.—(1) The county treasurer shall collect the taxes due the watershed conservation district at the same time and in the same manner as he collects other taxes of the county.

(2) The taxes shall be subject to the same due and delinquency dates, discounts, penalties and interest as are applied to the collection of county taxes.

SECTION 16. Expenditures.—Tax funds collected shall be transferred to and held by the treasurer of the watershed conservation district for the specific purpose for which they have been collected. All expenditures of such funds shall be made by the directors of the watershed conservation district with the approval of the supervisors of the soil conservation district.

SECTION 17. Petition to have lands detached.—The owners of lands which have not been, are not and cannot be benefited by their inclusion in the watershed conservation district may petition the supervisors of the soil conservation district to have such lands detached. The petition shall describe such lands and state the reasons why they should be detached. A hearing shall be held by the supervisors within thirty days after the petition is filed and due notice of such hearing shall be given by the supervisors. If it is determined by the supervisors that such lands shall be detached, such determination shall be certified to the Auditor of Dorchester County for recording. After being recorded, the certification shall be filed with the State Soil Conservation Committee.

SECTION 18. Petition for discontinuance of district—hearing—referendum—discontinuance if election and determination

favorable.—(1) At any time after five years after the organization of a watershed conservation district, twenty-five or more landowners within such district, or if less than fifty landowners are involved, a majority of such landowners, may file a petition with the supervisors of the soil conservation district asking that the existence of the watershed conservation district be discontinued. The petition shall state the reasons for discontinuance, and that all obligations of the watershed conservation district have been met. The supervisors may conduct such hearings upon the petition as may be necessary to assist them in the consideration thereof.

(2) Within sixty days after petition has been filed with the supervisors they shall give due notice of the holding of a referendum. The supervisors shall hold such referendum substantially as provided for in Section 11 of this act. The question shall be submitted by ballots upon which the words "For terminating the existence of the ..... Watershed Conservation District" and "Against terminating the existence of the ..... Watershed Conservation District" shall be printed, with a square before each proposition and a direction to insert an "X" mark in the square before one or the other of the propositions as the voter may favor or oppose the discontinuance of such watershed conservation district. Only landowners within the watershed conservation district shall be eligible to vote in such referendum. No informality in the conduct of the referendum or in any matters relating thereto shall invalidate the referendum or the results thereof if notice of the referendum shall have been given substantially as herein provided and the referendum shall have been fairly conducted.

(3) The supervisors shall publish the results of the referendum and shall thereafter determine whether the continued operation of the watershed conservation district is administratively practicable and feasible. If the supervisors determine that the continued operation of the watershed conservation district is administratively practicable and feasible, they shall record such determination and deny the petition. If the supervisors determine that the continued operation of the watershed conservation district is not administratively practicable and feasible, they shall record such determination and shall certify such determination to the directors of the watershed conservation district; *provided,* however, that the supervisors shall not be authorized to determine that the continued operation of the watershed conservation district is administratively practicable and feasible unless

at least a majority of the votes cast in the referendum shall have been cast in favor of the continuance of the watershed conservation district.

(4) Upon receipt from the supervisors of a certification that they have determined that the continued operation of the watershed conservation district is not administratively practicable and feasible, the directors shall forthwith proceed to terminate the affairs of the watershed conservation district. A copy of the determination shall be certified to the Auditor of Dorchester County for recording. After being recorded, the certification shall be filed with the State Soil Conservation Committee.

SECTION 19. Supervisory authority if district discontinued.—If the Dorchester Soil Conservation District is discontinued, all supervisory authority over the affairs of the watershed conservation district which was previously exercised by the supervisors shall thereafter be exercised by the governing body of Dorchester County.

SECTION 20. Time effective.—This act shall take effect upon approval by the Governor.

Approved the 13th day of March, 1965.

No. 586

An Act To Authorize The Governing Body Of Dorchester County To Borrow Not Exceeding Three Hundred Fifty Thousand Dollars For The Construction Of County Roads; To Provide That The Roads Shall Be Constructed By The State Highway Department Pursuant To A Contract Of Reimbursement To Be Made Between The Governing Body And The State Highway Department; And To Provide For The Payment Of The Loan.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Findings of General Assembly.—The General Assembly finds that by Section 65-1075, Code of Laws of South Carolina, 1962, provision was made for the continuance of the so-called Farm-to-Market or State Secondary Highway program for the period to end June 30, 1972, and that it was therein provided the method by which funds available for such purpose should be apportioned among the counties of the State.

Pursuant to the program, funds were made available for Farm-to-Market roads in Dorchester County for the fiscal year ending June 30, 1964, in the amount of one hundred eighteen thousand four hundred dollars, and it is to be reasonably anticipated that during each fiscal year throughout the period to end June 30, 1972, further substantial apportionments will be made.

In Dorchester County it has been determined that an immediate need exists for further Farm-to-Market roads, and that the Governing Body of Dorchester County (the board) should be empowered to borrow not exceeding three hundred fifty thousand dollars and to make such sum available to the State Highway Department which, in turn, should apply it to the construction of the most-needed county roads in Dorchester County, which have been transferred to and become a part of the State's Secondary Highway System (Farm-to-Market roads).

SECTION 2. Dorchester County may borrow money—conditions.—If a suitable agreement can be reached between the board and the State Highway Department providing that the State Highway Department shall construct Farm-to-Market roads in Dorchester County to an extent mutually agreed upon and divert moneys which would otherwise be expended in future years for Farm-to-Market roads in Dorchester County, to the extent estimated to be necessary to meet the payment of the principal of the obligation herein authorized, the board is authorized to borrow three hundred fifty thousand dollars which shall be repaid in seven equal, successive, annual instalments, with interest at a rate to be agreed upon by the board and the lender, the first annual instalment to become due and payable not later than October 1, 1966.

SECTION 3. Issuance of notes.—Notes issued pursuant to this act shall be in such denominations and form as the board shall approve, shall be executed as the board shall prescribe, and may be subject to redemption as the board shall determine. The notes and the interest

thereon shall have the tax-exempt status prescribed by Section 65-4.1 of the Code of 1962.

SECTION 4. Payment.—For the payment of the principal and interest of the note issued pursuant to this act, the full faith, credit and taxing power of Dorchester County, shall be irrevocably pledged, and there shall be levied annually by the Auditor of Dorchester County, and collected by the Treasurer of Dorchester County, in the same manner as county taxes are levied and collected, a tax without limit, on all taxable property in Dorchester County, sufficient to pay the principal and interest on the note as it becomes due and to create such sinking fund as may be necessary therefor; *provided* that the ad valorem tax levy shall be reduced to the extent that there has been paid to the county treasurer by the State Highway Department moneys pursuant to the reimbursement agreement herein authorized, on the occasion in each year when the ad valorem tax levy is to be made, and in all instances where an annual tax levy is so reduced, the moneys received from the reimbursement agreement shall be applied to the payment of such principal and to no other purpose.

SECTION 5. Proceeds.—The proceeds derived from any note issued pursuant to this act shall be paid to the Dorchester County Treasurer, and shall be deposited in a special account and shall be first applied to the expenses incident to issuance of the note and so much as remains thereafter shall be turned over to the State Highway Department and applied by it on Farm-to-Market roads in Dorchester County.

SECTION 6. Highway Department may reimburse Dorchester County.—The State Highway Department is hereby authorized to reimburse Dorchester County for all moneys turned over to it by Dorchester County pursuant to this act. This reimbursement shall be made in annual instalments (in amounts not exceeding the annual debt service on the obligation) out of the apportionment of funds accruing to Dorchester County under the State Highway Department's Farm-to-Market Construction Program and by reason of the statute, if so much thereof shall accrue to Dorchester County. The State Highway Department shall not be obligated to the repayment to Dorchester County for any instalment due under its reimbursement agreement unless sufficient amounts for the instalments shall accrue to Dorchester County under the State Farm-to-Market Construction Program. The State Highway Department shall not be required to pay

any interest to Dorchester County for funds turned over to the department pursuant to the provisions of this act. If, during any year, the apportionment to which Dorchester County is entitled exceeds the sum required to meet the annual instalment of principal or interest of the note in that year, then the excess shall be applied by the State Highway Department as if no reimbursement agreement had been entered into.

SECTION 7. Powers to be additional.—The powers and authorizations conferred upon the board and the State Highway Department shall be in addition to all other powers and authorizations previously vested in them.

SECTION 8. Time effective.—This act shall take effect upon approval by the Governor.

Approved the 20th day of May, 1965.

An Act Providing For The Creation Of Watershed Conservation Districts In Fairfield County, And The Election Of Directors Of Watershed Conservation Districts And Their Powers And Duties; And Providing For A Levy Of Taxes For The Organization And Administration Of Such Districts, And For The Construction, Operation And Maintenance Of Works Of Improvement Within Such Districts.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Definitions.—Whenever used or referred to in this act, unless a different meaning clearly appears from the context:

(1) "Watershed conservation district" means a governmental subdivision of this State, and a public body corporate and politic, organized in accordance with the provisions of this act, for the purposes, with the powers, and subject to the restrictions hereinafter set forth.

(2) "Director" means one of the members of the governing body of a watershed conservation district, elected in accordance with the provisions of this act.

(3) "Supervisor" means one of the members of the governing body of the Fairfield Soil Conservation District in which any part of a watershed conservation district is situated.

(4) "Petition" means a petition filed under the provisions of Section 4 of this act for the creation of a watershed conservation district.

(5) "County" means Fairfield County of South Carolina.

(6) "Landowner" or "owner of land" includes any person, firm or corporation who shall hold legal or equitable title to any lands lying within a watershed conservation district organized under the provisions of this act.

(7) "Due notice" means notice published at least twice, with an interval of at least one week between the two publication dates, in a publication of general circulation within the appropriate area, or, if no such publication of general circulation be available, notice posted at a reasonable number of conspicuous places within the appropriate area, such posting to include, where possible, posting at public places where it is customary to post notices concerning county or municipal affairs generally.

SECTION 2. Watershed Conservation Districts may be formed in Fairfield County.—Authority is hereby granted to form watershed

conservation districts within Fairfield County for the purpose of developing and executing plans and programs relating to any phase of the control and prevention of soil erosion, flood prevention, or the conservation, development, utilization, and disposal of water.

SECTION 3. Area.—The area embraced in a watershed conservation district must be contiguous and must lie within a well-defined watershed; and such area shall not include lands located within the boundary of any incorporated city or town, or lands embraced in another watershed conservation district.

SECTION 4. Petition for formation.—When twenty-five or more landowners within a proposed watershed conservation district, or, if less than fifty landowners are involved, a majority of such landowners, desire to form a watershed conservation district, they shall file a petition with the supervisors of the soil conservation district asking that a watershed conservation district be organized to function in the area described in the petition. Such petition shall set forth the proposed name of the watershed conservation district; that there is need, in the interest of the public health, safety, and welfare, for a watershed conservation district to function in the territory described in the petition; a description of the territory proposed to be organized as a watershed conservation district, which description need not be given by metes and bounds or by legal subdivisions, but shall be deemed sufficient if generally accurate; and the approximate number of acres of land included in the proposed watershed conservation district.

SECTION 5. Hearing on petition.—(1) Within thirty days after such petition has been filed with the supervisors of the soil conservation district, they shall cause due notice to be given of a hearing upon the question of the desirability and necessity, in the interest of the public health, safety, and welfare, of the creation of such watershed conservation district. All interested parties shall have the right to attend such hearing and to be heard. If it shall appear at the hearing that other lands should be included in the petition or that lands included in the petition should be excluded, the supervisors shall permit such inclusion or exclusion, provided the land area involved still meets the requirements of Section 3 of this act.

(2) If it appears upon the hearing that it may be desirable to include within the proposed watershed conservation district territory outside of the area within which due notice of the hearing has been given, the hearing shall be adjourned and due notice of a further

hearing shall be given throughout the entire area considered for inclusion in the proposed watershed conservation district, and such further hearing shall be held. After final hearing, if the supervisors of the soil conservation district determine, upon the facts presented at the hearing and upon other available information, that there is need, in the interest of the public health, safety, and welfare, for a watershed conservation district to function in the territory considered at the hearing, they shall make and record such determination, and shall define the area, but the description need not be given by metes and bounds. The description shall be deemed sufficient if generally accurate and the approximate number of acres of land included in the proposed watershed conservation district is shown.

(3) If the supervisors of the soil conservation district determine after such hearing that there is no need for a watershed conservation district to function in the territory considered at the hearing, they shall make and record such determination and shall deny the petition.

SECTION 6. Referendum.—After the supervisors of the soil conservation district have made and recorded a determination that there is need, in the interest of the public health, safety, and welfare, for a watershed conservation district to function in the territory considered at the hearing, and have defined the boundaries thereof, they shall consider the question whether the operation of a watershed conservation district within the proposed boundaries with the powers conferred upon it by this act is administratively practicable and feasible. To assist the supervisors in making this determination, they shall, within a reasonable time after the entry of a finding that there is need for the organization of a watershed conservation district and the determination of the boundaries thereof, hold a referendum within the proposed watershed conservation district upon the proposition of the creation of the watershed conservation district. Due notice of the referendum shall be given by the supervisors. Such notice shall state the date of holding the referendum, the hours of opening and closing the polls, and shall designate one or more places within the proposed watershed conservation district as polling places and shall give notice that the directors shall have the power of eminent domain. The supervisors shall have full charge of the referendum and shall have suitable ballots printed and furnished to each polling place; appoint necessary box managers and other referendum officials, and shall canvass the ballots and announce the results. The cost of holding the referendum shall be paid from the general fund of Fairfield County.

Provided, that notwithstanding any provision of law to the contrary the power of eminent domain shall not be exercised over the protest of any landowner until it is conclusively established that the land proposed to be condemned is absolutely essential to the creation and operation of the watershed conservation district.

SECTION 7. Question.—The question to be voted on shall be submitted by ballots upon which appear the words:

"For creation of ..... Watershed Conservation District"

"Against creation of ..... Watershed Conservation District"

A square shall follow each proposition. The ballot shall contain a direction to insert an "X" mark in the square following one or the other of the propositions as the voter may favor or oppose creation of the watershed conservation district. The ballot shall set forth the boundaries of the proposed watershed conservation district as determined by the supervisors of the soil conservation district. No one except owners of lands lying within the boundaries of the proposed watershed conservation district, as determined by the supervisors of the soil conservation district, shall be eligible to vote in the referendum. Qualified voters may vote by absentee ballot in the referendum under such rules and regulations as may be prescribed by the supervisors. No informalities in the conduct of the referendum or in any matters relating thereto shall invalidate the referendum or the result thereof if notice of the referendum shall have been given substantially as herein provided and the referendum shall have been fairly conducted.

SECTION 8. Results—district to be created if results and determination favorable.—The votes shall be counted by the referendum officials at the close of the polls and a report of the results along with the ballots shall be delivered and certified to the supervisors of the soil conservation district; and thereafter the supervisors shall determine whether the operation of the watershed conservation district within the defined boundaries is administratively practicable and feasible. If the supervisors determine that the operation of such district is not administratively practicable and feasible, they shall record such determination and deny the petition. If the supervisors determine that the operation of such district is administratively practicable and feasible, they shall record such determination and shall proceed with the organization of such district in the manner hereinafter set forth; *provided,* however, that the supervisors shall not have authority to

determine that the operation of such district is administratively practicable and feasible unless at least a majority of the votes cast in the referendum upon the proposition of the creation of such district shall have been cast in favor of the creation of such district. If the supervisors shall determine that the operation of such district is administratively practicable and feasible, they shall certify such determination to the Clerk of Court of Fairfield County, the Code Commissioner and to the Secretary of State. Upon proper recordation of such determination, such watershed conservation district shall constitute a governmental subdivision of this State and a public body corporate and politic. After being recorded, such certification shall be filed with the State Soil Conservation Committee.

SECTION 9. Board of directors to govern district—nominating petitions—election—ballots—terms—officers—bond of treasurer. —(1) The governing body of the watershed conservation district shall consist of five directors, elected as provided herein.

(2) Within thirty days after a watershed conservation district has been created, nominating petitions may be filed with the supervisors of the soil conservation district to nominate candidates for directors of the watershed conservation district. No such nominating petition shall be accepted by the supervisors unless it is signed by twenty-five or more landowners within the watershed conservation district, or, if less than fifty landowners are involved, by a majority of such landowners. If the candidates nominated do not exceed the number of directors to be chosen, the supervisors shall declare them to be elected. No person shall be eligible to be a director of a watershed conservation district who is not a landowner in the watershed conservation district in which he seeks election.

(3) If the candidates nominated for directors of the watershed conservation district exceed the number of directors to be chosen, the supervisors of the soil conservation district shall, after having given due notice thereof, cause an election to be held within the watershed conservation district within a reasonable time after the expiration of the nominating period. The provisions of Sections 5, 6 and 7 of this act as to notice, qualifications of voters, absentee voting, and the manner of holding the referendum in organizing a watershed conservation district, shall apply insofar as practicable to the election of the directors. The names of all qualified nominees shall be printed in alphabetical order upon ballots with a square before each name

and a direction to insert an "X" mark in the square before any five names to indicate the voter's preference. Only landowners within the watershed conservation district shall be eligible to vote in the election. The five candidates who shall receive the largest number respectively of the votes cast in the election shall be the directors of the watershed conservation district, and shall, upon the supervision of the supervisors of the soil conservation district, be the governing body of the watershed conservation district.

(4) Of the directors first elected, the two receiving the largest number of votes shall serve for terms of four years, the two receiving the next largest number of votes shall serve for terms of three years, and the one receiving the next largest number of votes shall serve for a term of two years. The term of office of each of their successors shall be for four years. Any vacancy shall be filled for the unexpired term as provided to original directors.

(5) The directors shall annually designate from among their number a chairman, secretary, and treasurer. The treasurer shall execute an official bond for the faithful performance of the duties of his office, to be approved by the directors. Such bond shall be executed by a surety company authorized to do business in this State and shall be in an amount determined by the directors. The premium on each bond shall be paid by the watershed conservation district.

SECTION 10. District to be corporate body—powers and duties.—A watershed conservation district organized under the provisions of this act shall constitute a governmental subdivision of this State, and a public body corporate and politic, exercising public powers, and such district and the directors thereof shall, subject to the approval of the supervisors of the soil conservation district, have the following powers, in addition to others granted in other sections of this act:

(1) To acquire, by purchase, exchange, lease, gift, grant, bequest, devise, or otherwise, or through condemnation proceedings in the manner provided in Sections 25-101 through 25-140 and Sections 33-121 through 33-148, Code of Laws of South Carolina, 1962, such lands, easements, or rights-of-way as are needed to carry out any authorized purpose of the watershed conservation district; and to sell, lease, or otherwise dispose of any of its property or interests therein in furtherance of the purposes and provisions of this act;

(2) To construct, reconstruct, repair, enlarge, improve, operate, and maintain such works of improvement as may be necessary or

convenient for the performance of any of the operations authorized by this act;

No. 613

An Act To Amend Act No. 1239 Of 1964, Relating To The Creation Of The Stroud Memorial Hospital District In Greenville County, So As To Redefine The Area Of The District, The Powers And Functions Of The District And Its Governing Commission, And The Purposes For Which The Bonds Of The District May Be Issued.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Findings of General Assembly.—The General Assembly finds that it did, by Act No. 1239 of 1964, create the Stroud Memorial Hospital District in Greenville County, and did commit to it the power to acquire, construct and operate a public hospital. Prior to holding the election provided for by Section 5 of Act No. 1239 of 1964, it was found that the description of the district as contained in Section 2 did not accurately define the area intended to be included within the district, that paragraph 3 of Section 4 did not accurately define certain of the powers and duties of the commissioners of the district, and that Section 5 did not accurately state the purpose for which the bonds might be issued. It has therefore been determined that it is desirable to amend Act No. 1239 of 1964 to redefine the territory comprising the district, to redefine certain powers and duties of the commissioners of the district, and to redefine the purposes for which the bonds authorized by the act may be issued.

SECTION 2. Section 2 of Act 1239 of 1964 amended—Stroud Memorial Hospital District created—area.—Section 2 of Act No. 1239 of 1964 is amended by striking it out and inserting in lieu thereof the following:

"Section 2. There is hereby created in Greenville County the Stroud Memorial Hospital District which shall be a public corporation and shall have the functions prescribed by this act. The district shall include that area in Greenville County described as follows:

> The area comprising Stroud Memorial Hospial District includes the tax districts as shown in the Greenville County Block Book Department as numbers 350, 355, 360, 370, 375, 399, 450, 455, 460, 465, 470, 475, 480, 485, 320, 380, and 445. Said area being more clearly defined and shown on a plat entitled 'STROUD MEMORIAL HOSPITAL DISTRICT' recorded on January 8, 1965, in the R. M. C. Office for Greenville County in Plat Book JJJ, at page 9."

SECTION 3. Paragraph 3, Section 4 of Act 1239 of 1964, amended—powers and duties.—Section 4 of Act No. 1239 of 1964 is amended by striking out paragraph 3 and inserting in lieu thereof the following:

"3. To acquire, construct, equip, operate and maintain a health facility to be used in public hospitalization and nursing care;".

SECTION 4. Section 5 of Act 1239 of 1964 amended—election concerning issuance of bonds.—Section 5 of Act No. 1239 of 1964 is amended by striking it out and inserting in lieu thereof the following:

"Section 5. The Commissioners of Election for Greenville County shall make provision for the holding of a special election in the district, on a date to be fixed by the commissioners, at which time there shall be submitted to the qualified electors of the district the question of issuing bonds of the district for the purposes authorized by paragraph 16 of Section 4. The election shall be conducted by the commissioners of election who shall give notice thereof by publication once each week for three successive weeks prior thereto in one or more newspapers with general circulation in the district, stating the question to be submitted at the election and specifying the amount in dollars of the bonds proposed to be issued. The election shall be conducted in each of the several precincts of the district as they are now established by law and at the regular voting place therein, if such be within the district; otherwise, the commissioners of election shall designate a suitable voting place within such precinct. The question submitted shall show on its face the primary purpose for which the proceeds of the bond issue are to be expended. The question shall be substantially in the following form:

'Shall the Stroud Memorial Hospital District issue bonds in a sum not exceeding fifty thousand dollars, the proceeds of which shall be used to renovate existing hospital facilities, construct and equip additional hospital facilities and operate a hospital or nursing home for the district?

YES
NO'

The ballot shall contain suitable instructions, advising the voter that if he favors the issuance of bonds he shall strike through the word "NO", and that if he is opposed to the issuance of bonds he shall strike through the word "YES". The managers of election at each precinct shall count the ballots and forthwith return the result of the election,

together with the original ballots and tally sheets, to the Commissioners of Election for Greenville County, who shall declare the result of the election and certify the results to the Clerk of Court of Greenville County and the Secretary of State within ten days of the election. If the commissioners determine that a majority of the voters voting in the election voted in favor of the issuance of bonds, the bonds, or any part thereof, may be issued as provided in paragraph 16 of Section 4; but if the commissioners determine that a majority of the ballots cast in the election be against the issuance of bonds, then no bonds shall be issued. Except as herein provided, the election shall be conducted in accordance with the provisions of the South Carolina Election Law."

SECTION 5. Time effective.—This act shall take effect upon approval by the Governor.

Approved the 26th day of February, 1965.

No. 618

An Act To Ratify The Action Of The County Board Of Commissioners Of Greenville County In Issuing An Aggregate Total Amount Of Six Hundred Thousand Dollars Of Bonds Authorized By Acts Nos. 1241 And 1243 Of 1964, And To Declare Such Bonds Valid And Binding Obligations Of Greenville County.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Findings of General Assembly.—The General Assembly finds that it did by Act No. 1241 of 1964 authorize the County Board of Commissioners of Greenville County (the board) to issue not exceeding two hundred fifty thousand dollars of general obligation bonds of Greenville County for the purpose of defraying a part of the cost of obtaining a suitable site and constructing and equipping a public health center; and that by Act No. 1243 of 1964 it did authorize the board to issue not exceeding three hundred fifty thousand dollars of general obligation bonds of Greenville County for the purpose of providing funds for the Greenville County Commission for Technical Education to defray the cost of enlargement of the existing technical education facilities, of additional equipment and further land for use in connection with the expanded facilities.

The General Assembly further finds that, acting pursuant to such authorizations, the board has made provision for the issuing of the bonds but, in order to reduce the cost of issuing them, has combined them into a single issue and by reason thereof it is desirable that the General Assembly validate such action.

SECTION 2. Bond issue validated.—The action of the board in issuing the two issues of bonds described in Section 1 as a single issue is hereby validated and confirmed in all respects and such bonds, when issued, are declared valid and binding obligations of Greenville County, payable both as to principal and interest from an ad valorem tax to be levied upon all taxable property in Greenville County without limitation as to rate or amount.

SECTION 3. Time effective.—This act shall take effect upon approval by the Governor.

No. 619

An Act To Permit The Commissioners Of Greater Greenville Sewer District To Accept A Portion Of Gantt Water And Sewer District.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Findings of General Assembly.—The General Assembly of South Carolina finds that a portion of the Gantt Water and Sewer District, a special service district in Greenville County, has been declared by the South Carolina Health Department to be a critical area with reference to sewage disposal and, unless provisions are soon made, the general health of the residents of the area will be greatly endangered. The General Assembly has provided for a bond issue, the funds of which are to be used to correct the critical sewerage situation prevailing in portions of the Gantt Water and Sewer District. It has been ascertained that it is not practical for the Gantt Water and Sewer District to construct trunk lines for is sewerage system, but that the more practical procedure would be for the Gantt Water and Sewer District to connect its sewerage lines with the trunk lines of the Greater Greenville Sewer District.

SECTION 2. Greater Greenville Sewer District may accept portion of Gantt Water and Sewer District.—The Greater Greenville Sewer District is hereby authorized to accept into the district any portion of the Gantt Water and Sewer District upon a petition by Gantt Water and Sewer District Commissioners addressed to the Commissioners of Greater Greenville Sewer District, the petition to be accompanied by a recent survey of the area covered by the petition. If the Greater Greenville Sewer District approves the petition, thereby agreeing to accept the area into the district, the Greater Greenville Sewer District Commissioners shall notify Gantt Water and Sewer District Commissioners in writing of their action and the terms and conditions of the acceptance.

SECTION 3. Time effective.—This act shall take effect upon approval by the Governor.

An Act To Amend Act No. 559 Of 1951, Relating To Mauldin-Simpsonville-Fountain Inn Water District Commission, So As To Enlarge And Further Define Its Powers.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Findings of General Assembly.—The General Assembly finds that it did by Act No. 559 of the Acts of 1951 create the Mauldin-Simpsonville-Fountain Inn Water District (the District) and did commit to the Board of Commissioners of the Mauldin-Simpsonville-Fountain Inn Water District (the Commission) the function of constructing and thereafter operating, improving and enlarging a waterworks system for the District. The District includes the incorporated towns of Mauldin, Simpsonville and Fountain Inn, which, by reason of the service afforded by the District, do not operate and maintain water systems within their corporate limits.

It has now found that one or more municipalities within the District may undertake the construction or enlargement of sewage collection, disposal and treatment facilities, for which a service charge will be imposed. It is proposed that such charge be collected by the Commission for such towns under a contract mutually agreeable, which would obligate the Commission to collect, as a part of the bill rendered by Commission for water service, the sewer charge to be imposed by the municipality, and that both the Commission and the contracting municipality will require all those who utilize both water and sewer service to pay the bill for such services as an entirety, with the right to discontinue water service of all who fail to pay the combined bill for water and sewer services.

The General Assembly, therefore, proposes to enlarge the powers of the Commission in order that it may enter into such contracts with municipalities within the District, and in order that it may perform the obligations assumed under such contracts.

SECTION 2. Act 559 of 1951 amended—Section 4A added—additional powers.—Act No. 559 of 1951 is amended by adding thereto the following which shall be Section 4A:

"Section 4A. In addition to all other powers, the Commission is authorized to enter into contracts with any municipal corporation within the District in which the Commission furnishes water service, on terms, conditions and for compensation, to be mutually agreed

upon, by which the Commission shall become the agent of such municipal corporation for the purpose of collecting such charges as the municipal corporation shall from time to time impose upon those who utilize its sewage disposal facilities, and by which the Commission as such agent shall be empowered to disconnect service upon failure of any user to pay such charges. The Commission is likewise fully authorized and empowered to discharge all undertakings assumed by it in any such contract."

SECTION 3. Time effective.—This act shall take effect upon approval by the Governor.

Approved the 1st day of June, 1965.

(R519, S404) **No. 621**

An Act To Make Provision For The Establishment Of Sewer Service In A Portion Of The Special Purpose District In Greenville County Now Known As Berea Water And Sewer District; To Provide That Such Portion Shall Become A Part Of Greater Greenville Sewer District And A Subdistrict Of Greater Greenville Sewer District; To Provide A Governing Commission For The Subdistrict And To Define Its Powers; To Provide For The Issuance Of Not Exceeding Three Million Dollars Of Bonds Of Berea Sewer Subdistrict; To Authorize The Issuance Of Bonds Of Greater Greenville Sewer District To Provide Funds With Which To Purchase Bonds Of Berea Sewer Subdistrict; To Describe The Terms And Conditions Under Which The Bonds May Be Issued, The Purposes For Which Their Proceeds May Be Expended; To Make Provision For Their Payment; To Remove From The Functions Of Berea Water And Sewer District The Function Of Providing Sewer Service Therein; And To Change The Name Of Berea Water And Sewer District To Berea Public Service District.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Findings of General Assembly.—The General Assembly finds as follows:

1. Greater Greenville Sewer District (Greater Greenville) is a special purpose district in Greenville County created pursuant to Act

No. 362 of 1925. This district has for many years provided trunk line sewer service within its service area. Situate within Greater Greenville are several so-called subdistricts which provide sewer laterals or collector lines which in turn utilize the trunk line sewer service of Greater Greenville.

2. Berea Water and Sewer District (Berea) is a special purpose district adjacent to Greater Greenville created by Act No. 848 of 1954. Berea furnishes water service throughout the district by means of its water distribution system and also provides fire protection therein. It has never undertaken to furnish sewer service anywhere within the district.

3. Berea has recently caused a study to be made to determine the extent to which the district requires sewer service. The study indicates that there are two natural drainage areas in Berea. The one bordering on Greater Greenville is in dire need of sewer service. The second lying beyond Greater Greenville is less populated and, due to its situation in a different drainage area, it is neither practical nor essential that sewer service be provided therein. Act No. 848 of 1954 contemplated that any sewer service rendered in Berea would be paid for by a tax on all taxable property in the district; it is now determined that it would be inequitable to tax that portion of Berea lying in a drainage area different from that which is adjacent to Greater Greenville for sewer service which it would not receive.

4. It is recognized that the cost of providing a sewer service for the area of Berea next adjacent to Greenville will require a substantial outlay of funds with resulting increase in taxation in addition to other charges made for sewer service upon those who receive such service. For this reason it has been found that it is not practical that Berea provide sewer service anywhere within Berea.

5. Greater Greenville is in a position and has the means with which to extend its trunk line sewer service to connect with any system of collector lines or lateral sewers which would be constructed within that portion of Berea described in Section 2 infra. Greater Greenville is also empowered to lend its credit to any of its subdistricts by purchasing bonds issued by its subdistricts with funds raised by bonds issued by itself. Greater Greenville has established credit and its securities would thus bear lower rates of interest than securities of its subdistricts.

6. On the basis of the foregoing, the following plan has been determined upon.

a. The function of providing sewer service in Berea should be taken from Berea and the name of the district changed from Berea Water and Sewer District to Berea Public Service District.

b. That portion of Berea described in Section 2 shall be annexed to Greater Greenville for main trunk line sewer purposes and shall also become a subdistrict of Greater Greenville. Its governing body, hereinafter provided for, shall consist of those who from time to time shall constitute the Berea Commission (the commission) and who shall, ex officio, function as the governing agency of the Berea Sewer Subdistrict. In determining that the Berea Commission shall also act as the governing agency of Berea Sewer Subdistrict the General Assembly has taken into consideration the fact that the Berea Commission has, in the exercise of functions granted to it, concerned itself with the development of plans for sewer service within Berea. It is further mindful of the fact that notwithstanding the removal from Berea of the function of providing sewer service, Berea will continue to function in providing other public services, and will continue to concern itself with the need for sewer service elsewhere within Berea and will thus be able to better ascertain when the need for sewer service elsewhere within Berea may arise and under what circumstances it will prove practical to provide sewer service in such areas.

c. Greater Greenville shall provide trunk line sewer service for the subdistrict.

d. Greater Greenville shall issue its bonds to the extent necessary but within the limitations of this act to provide funds which shall be used to purchase bonds of the subdistrict to be issued by the Berea Water and Sewer District Commission (the Berea Commission).

e. The Berea Commission shall issue bonds in principal amount equal to the amount of bonds issued by Greater Greenville which shall bear the same rate of interest as the bonds of Greater Greenville which shall mature on such occasions as shall be prescribed by the Greater Greenville Sewer District Commission (the Greater Greenville Commission). The maturity dates shall be so arranged as to insure Greater Greenville the availability of sufficient funds to meet the payment of its own bonds.

SECTION 2. Portion of Berea to be part of Greater Greenville—powers and duties.—Effective as of July 1, 1965, the following portion of Berea shall become a part of Greater Greenville and as such be entitled to all benefits and shall assume pro rata its share of all liabilities now existing or hereafter incurred by Greater Greenville:

BEGINNING in centerline White Horse Road at a point 200′ north of intersection of the road with Broadway Drive; thence a southwesterly direction parallel with and 200′ from centerline of Broadway Drive to a point 200′ across Saluda Dam Road; thence parallel with and 200′ from centerline Saluda Dam Road in a southeasterly direction to intersection of the road with White Horse Road; thence along with White Horse Road 200′ parallel to centerline in a southerly direction to point 200′ northwest of Banner Drive; thence a southwesterly direction parallel with and 200′ from centerline Banner Drive to point on the right of way of Southern Railway System; thence crossing said railroad right of way at right angles to a point on southern edge of railroad right of way which point is also on the boundary of Berea Water & Sewer District; thence a southeasterly direction following the District along its eastern side to a point on Long Forest Drive, this point 3000′ from intersection of Long Forest Drive and Old Buncombe Road; thence N68-30W 344.2′; thence N32-06E 550′; thence N31-22E 862.5′; thence N68-45W 1,163′; thence S55-00W 967′ to a point on Reedy River, this point being 180′ north of Sharon Drive and in existing Berea Water & Sewer District line; thence following existing District line to Montague Road; thence N31-30W 546′; thence N16-49W 1,181′; thence N16E 495′; thence N33-45W 136.6′; thence S86-30W 168.3′; thence N33-45W 264′; thence N47-45W 198′; thence N33W 139.9′; thence N34W 271.9′; thence N82-29W 320.6′; thence N82-30W 62′; thence N65-34W 180.8′; thence N87W 215.1′; thence S88-04W 368.9′; thence S27-30W 2,736.4′ to a point in centerline of White Horse Road 145′ north of its intersection with Hunts Bridge Road; thence centerline of White Horse Road in a southerly direction to the point of beginning.

The area shall also become a sewer subdistrict of Greater Greenville. It is hereby designated as Berea Sewer Subdistrict and shall be so referred to. In order to provide a governing agency for Berea Sewer Subdistrict the General Assembly constitutes those who from time to time shall constitute the Berea Commission, as ex officio, the governing agency of Berea Sewer Subdistrict. Its action in this respect is based upon its findings set forth in subparagraph (b) of paragraph

6 of Section 1. As such the Berea Commission shall have all of the powers granted by Section 3 of Act 848 of 1954 which are germane to the construction, operation, and maintenance of a sewer system within Berea Sewer Subdistrict, applicable thereto, except that its right to issue general obligation bonds shall be controlled by this act and subsequent enactments of the General Assembly. In addition to such powers the commission shall have the following powers:

1. To provide that charges for sewer service may be added to and combined with charges made for water service and that, upon failure to pay the entire bill, water services may be disconnected. The Berea Commission shall be fully empowered to delegate the power granted to it by this paragraph to any other public agency which may now or hereafter collect water bills in the Berea Sewer Subdistrict.

2. To prescribe that any charges made for a sewer connection or for sewer services shall become a lien on the property affected; *provided,* however, that prior to such action not less than ten days' written notice shall be given to each affected owner, notifying him of the nature and quantum of the charge, and providing the property owner an opportunity, if desired and requested, to appear and be heard in person or by counsel, before the Berea Commission. Following such hearing, if such be requested and held, action shall be taken by the Berea Commission, and notice of its decision shall be given to the property owner concerned, or his counsel as the case may be, not less than ten days prior to the effective date thereof. Any property owner aggrieved by the action of the commission may proceed by certiorari in the Court of Common Pleas for Greenville County to have the court review the action taken by the Berea Commission, at which time the court shall determine the validity and reasonableness of the charge so made. Fees or charges not intended to become liens in the case of nonpayment can be imposed and subsequently increased upon any user in the district without notice and hearing. If the notice prescribed by this paragraph shall have been given and any hearing requested shall have been held, all tapping fees, service charges and other charges imposed by the Berea Commission and not paid when due and payable, shall be and constitute a lien upon the real estate to which the sewer service concerned relates, so long as the fees or charges remain unpaid. In addition to such other rights and remedies as may be available to the Berea Commission in law or in equity for collection of the fees and charges, the lien may be enforced by the Berea Commission in the same manner and fashion as the lien for

property taxes upon real estate. The method provided in this paragraph for the enforcement of the collection of past due sewer charges by creating them liens against real property shall not be the exclusive method of enforcing such collections and the Berea Commission is fully empowered to enforce the collection of any such charges in any other lawful manner in all or in any part of the Berea Sewer Subdistrict.

3. (a) To provide by resolution that the actual cost of the establishment and construction of any lateral collection sewer lines constructed by the commission within the district and any extensions thereof, or so much of the actual cost thereof as the commission in its discretion deems appropriate, shall be assessed upon the lots and parcels of land abutting directly on such lateral lines or extensions thereof according to the extent of the respective frontage thereon, by an equal rate per foot of such frontage, and may in its discretion provide in the case of corner lots, for an assessment only upon one of the two corner lines. The commission may provide in such resolution that the front foot assessments to be levied in connection with such work may be paid in equal installments covering a period of not exceeding ten years. The resolution providing for such front foot assessments shall designate by a general description the improvement to be made and the street or streets or parts thereof whereon the work is to be effected and the estimated cost thereof and the amount of the cost to be assessed upon all abutting property and the terms and manner of payment. The resolution shall not become effective until at least seven days after it shall have been published in a newspaper of general circulation in the district published in Greenville County. The resolution may incorporate by reference plats and engineering reports and other data on file in the commission's office provided that the place of filing and reasonable hours for inspection by interested persons are specified in the resolution.

(b) Upon the completion of the construction of any sewer laterals or any extensions thereof the commission shall compute and ascertain the total cost thereof and shall thereupon make an assessment of such total cost or so much thereof as it deems appropriate. For that purpose the commission shall make out an assessment roll in which must be entered the names of the persons assessed and the amount assessed against their respective properties with a brief description of the lots or parcels of land assessed.

(c) Immediately after such assessment roll has been completed the commission shall forthwith cause one copy thereof to be deposited in the commission's office for inspection by interested parties, and shall cause to be published at least once in a newspaper of general circulation within the district a notice of completion of the assessment roll setting forth a description in general terms of the improvement and the time fixed for the meeting of the commission for a hearing of objections in respect of the front foot assessments; such meeting not to be earlier than ten days from the date of the publication of such notice.

(d) As soon as practicable after the completion of the assessment roll and prior to the publication of the notice above-mentioned in paragraph (c) the commission shall mail to the owner of each lot or parcel of land against which a front foot assessment is to be levied at his address appearing in the records of the county treasurer, a notice stating the nature of the improvement, the total cost thereof, the amount to be assessed against that particular property and the frontage in feet upon which the front foot assessment is based, together with the terms and conditions upon which the front foot assessment may be paid. This notice shall also contain a brief description of the particular property involved together with a statement that the amount assessed shall constitute a lien against the property superior to all other liens except property taxes. The notice shall also state the time and place fixed for the meeting of the commission above-mentioned for a hearing of objections in respect of the front foot assesssments. Any property owner who fails, not later than three days prior to the date set for such meeting, to file with the commission a written objection to the front foot assessment against his property shall be deemed to have waived all rights to object to such front foot assessment; and the notice prescribed herein shall so state.

(e) At the time and place specified for the meeting above-mentioned, or at some other time to which it may adjourn, the commission shall hear the objections of all persons who have filed written notice of objection within the time prescribed above who may appear and make proof in relation thereto either in person or by their attorney. The commission may thereupon make such corrections in the assessment roll as it may deem proper or may confirm the same, or may set it aside and provide for a new assessment. Whenever the commission shall confirm an assessment roll, either as originally prepared or as thereafter corrected, a copy thereof certified by the secretary of the

commission shall forthwith be filed in the office of Clerk of Court of Common Pleas of Greenville County and from the time of such filing the front foot assessments impressed in the assessment roll shall constitute and be a lien on the real property against which the same are assessed superior to all other liens and encumbrances except only the lien for property taxes.

(f) After the assessment roll has been confirmed a certified copy thereof shall be delivered to the Treasurer of Greenville County who shall proceed to collect the same in the manner of county taxes and shall remit such collections upon the direction of the commission. Past due front foot assessments shall be turned over by the treasurer to the Sheriff of Greenville County who shall proceed to collect them in the same manner as unpaid county taxes are collected.

(g) Immediately upon the confirmation of an assessment the commission shall give written notice by mailing to the last known address according to the records of the commission to all persons who have filed written objections as provided of the amount of the front foot assessment finally confirmed against his property. If any such person is dissatisfied with the amount of the front foot assessment so confirmed and shall within ten days after the confirmation give written notice to the commission of his intent to do so, he may appeal his front foot assessment to the Court of Common Pleas for Greenville County and shall within five days after giving such notice serve upon the commission a statement of facts upon which he bases his appeal; but no such appeal shall delay or stop the improvements or affect the validity of the front foot assessments confirmed and not appealed. The appeal shall be tried at the next term of court as other actions at law with priority over all other cases.

(h) The commission may correct, cancel or remit any such front foot assessment and may remit, cancel or adjust the interest or penalties of any such front foot assessment and is empowered when in its judgment there is any irregularity, omission, error or lack of jurisdiction in any of the proceedings relating thereto set aside the whole of any assessment made by it and thereupon to make a reassessment.

(i) In the event the commission provides that such front foot assessments may be paid in equal annual installments, then in that event any property owner shall have the option and privilege of paying his respective front foot assessments in full in cash provided

he gives notice of his intent to do so in writing to the commission within thirty days after the notice prescribed in paragraph (d). If no such notice of intent is given within the thirty day period the front foot assessment shall be deemed to be due and payable in the equal annual installments prescribed by the commission and shall bear interest at the rate of four per cent per annum from the date of the confirmation of the assessment roll, payable with such annual installment. Any property owner shall have the right at any time in his option to prepay in full the front foot assessment against his property by the payment of the balance due plus interest calculated to the date of prepayment. If any property owner shall fail or neglect to pay any installment when it becomes due and payable, then and in that event the commission may, at its option, declare all of the installments remaining unpaid at once due and payable and such property shall be sold by the Sheriff of Greenville County in the same manner and with the same right of redemption as are prescribed by law for the sale of land for unpaid county taxes.

Provided, that if a general law shall be enacted making provision for the levy of front foot assessments to meet any portion of the cost of installing sewer laterals, then in such event the power to impose front foot assessments for sewer laterals shall be effected through the means of and in accordance with the general law, and the power herein granted to the Berea Commission by the provisions of this paragraph 3 shall be superseded and no longer of force and effect.

SECTION 3. Bond issue authorized for construction of sewer lines.—To provide funds for the construction of lateral or collector sewer lines sufficient to provide for sewer collection service throughout Berea Sewer Subdistrict, the Berea Commission shall be empowered to issue as a single issue or from time to time as several separate issues not exceeding three million dollars of general obligation bonds of Berea Sewer Subdistrict. The bonds shall be of such denomination (including a single fully registered bond) as the Greater Greenville Commission shall prescribe. The bonds shall bear interest at such rate as Greater Greenville Commission shall prescribe (not exceeding the rates of interest borne by the bonds of Greater Greenville authorized by Section 4), and shall have such form, tenor, terms and conditions as shall be agreed upon by the Berea Commission and Greater Greenville Commission.

For the payment of all bonds of Berea Sewer Subdistrict issued pursuant to this act there shall be irrevocably pledged for the payment of the bonds and interest, as they mature, the full faith, credit and resources of the Berea Sewer Subdistrict, and the Auditor and Tax Collector of Greenville County, respectively, are hereby directed to levy and collect annually a tax upon all taxable property within the district, sufficient to pay the bonds and interest as they respectively mature, and to create such sinking fund as may be necessary for the redemption of the bonds and interest at their respective maturities. The bonds may be additionally secured by a pledge of any revenues which the Berea Sewer Subdistrict may derive from sewer charges, and by the proceeds of any front foot assessments levied against abutting property to which sewer laterals or collector lines shall have been constructed with the proceeds of bonds issued pursuant to this act.

In such event, the revenues as shall be available shall be delivered to the Treasurer of Greenville County, prior to the occasion when the auditor fixes the annual levy. The annual ad valorem tax herein directed to be levied may be reduced in each year by the amount of revenues derived from such sources actually in the hands of the Treasurer of Greenville County at the time the tax for the year is required to be levied, and the tax may be entirely suspended for any year in case the moneys on hand are sufficient to pay both principal and interest then due or falling due in the year and remaining unpaid.

SECTION 4. Greater Greenville Commission may purchase or issue bonds.—1. If the Greater Greenville Commission shall determine that bonds of the Berea Sewer Subdistrict cannot be sold at a reasonable rate of interest, it may purchase such bonds at the same rate of interest that it is required to pay upon the bonds of Greater Greenville authorized by this act. In order to provide funds which will enable Greater Greenville to purchase all or any part of the bonds of Berea Sewer Subdistrict authorized by this act, Greater Greenville Commission shall be empowered to issue general obligation bonds of Greater Greenville to such extent as may be necessary therefor, but not in excess of the aggregate principal of bonds issued on behalf of Berea Sewer Subdistrict.

2. For the payment of the bonds of Greater Greenville Sewer District, both principal and interest, as they respectively mature,

the full faith, credit, resources and taxing power of Greater Greenville Sewer District shall be pledged, and there shall be levied and collected by the auditor and tax collector of Greenville County, respectively, an ad valorem tax upon all taxable property in the Greater Greenville Sewer District without limitation as to rate or amount, sufficient to pay the principal and interest on the bonds as they respectively mature, and to create such sinking fund as may be necessary for the redemption of the bonds and interest at respective maturities. The taxes, when so levied and collected, shall be held by the Treasurer of Greenville County separate and distinct from all other funds and used solely for the purposes for which levied and collected under the terms of this act. The annual ad valorem tax herein directed to be levied may be reduced in each year by the amount of moneys received by Greater Greenville upon the bonds of Berea Sewer Subdistrict which are actually in the hands of the Treasurer of Greenville County at the time the tax for the year is required to be levied, and the tax may be entirely suspended for any year in case the moneys on hand are sufficient to pay both principal and interest then due or falling due in such year and remaining unpaid.

SECTION 5. Denominations and maturity.—All bonds issued pursuant to this act shall be in such denomination or denominations and shall mature in such annual series or installments as the governing commission of the district issuing bonds shall provide.

SECTION 6. Redemption.—Bonds issued pursuant to this act may be issued with provisions for their redemption prior to their stated maturities at par and accrued interest, plus such redemption premium as may be prescribed by the applicable governing commission, but no bond shall be redeemable before maturity unless it contains a statement to that effect. In the proceedings, providing for the issuance of each issue, provision shall be made specifying the extent to which bonds of such issue are redeemable, the occasions of redemption, and the notice thereof that must be given.

SECTION 7. Form.—Bonds issued pursuant to this act may be either (a) in the form of negotiable coupon bonds, payable to bearer, with the privilege to the holder of having them registered as to principal on the books of the Treasurer of Greenville County, and the principal thus made payable to the registered holder, unless the last registered transfer shall have been to bearer, or (b) in

the form of a single fully registered bond. Unless registered, such bonds shall have all the qualities of negotiable instruments under the law merchant and the negogtiable instruments law.

SECTION 8. Where payable.—Bonds issued pursuant to this act shall be payable at such places, within or without the State, as the issung commission shall provide.

SECTION 9. Interest.—Bonds issued pursuant to this act shall bear interest at rates prescribed by the issuing commission.

SECTION 10. Execution.—Bonds issued pursuant to this act and the coupons annexed thereto, if any, shall be executed in the manner provided for by the issuing commission.

SECTION 11. Sale.—Except for bonds of Berea Sewer Subdistrict which are sold to Greater Greenville, bonds issued pursuant to this act shall be sold at public sale, after advertisement in a newspaper having general circulation in the State, or in a financial publication published in the city of New York, or, in the discretion of the issuing commission, in both publications. The advertisement shall appear not less than ten days prior to the occasion set for such sale. The bonds may be disposed of at private sale if there are no bids received or if all bids are rejected. The provisions of this section shall not prevent a sale at private sale to the United States of America or any agency thereof.

SECTION 12. Price.—All bonds issued pursuant to this act shall be sold at a price of not less than par and accrued interest to the date of delivery.

SECTION 13. Exempt from taxes.—Bonds issued pursuant to this act and all interest to become due thereon shall be exempt from all State, County, Municipal, School District and other taxes or assessments, direct or indirect, general or special, whether imposed for the purpose of general revenue or otherwise.

SECTION 14. Proceeds.—The proceeds derived from the sale of bonds issued pursuant to this act shall be deposited with the Treasurer of Greenville County in a separate and special fund and shall be expended upon the warrants or orders of the governing commission of the particular district for the purposes for which the bonds are issued, provided always that the purchasers of any bonds, or any subsequent holders thereof, shall be in no wise responsible for the proper appli-

cation of such proceeds. *Provided,* that pending the use of proceeds of the bonds to meet the costs to be incurred for the purposes for which such bonds are issued, the proceeds of the bonds shall, at the direction of the appropriate commission and to the extent prescribed by such commission, be invested and reinvested in obligations of the United States or of agencies thereof having a stated maturity of not exceeding twelve months from the date of such investments. The commission may employ the services of the trust department of any bank having an office in Greenville County to assist it in effecting the investments, and if such action shall be taken by the commission, the Treasurer of Greenville County shall, on the order of the commission, deliver to the bank the proceeds of the bonds to the extent ordered by the commission.

All income realized from such investments after meeting any costs incident thereto shall be from time to time turned over to the Treasurer of Greenville County and by him applied to the payment of interest to become due on the bonds, but the provisions hereof shall in no way limit or impair the directives of this act made, requiring the Auditor and Tax Collector of Greenville County to levy and collect sufficient taxes to meet the payment of principal and interest of such bonds as they respectively mature, and any reduction in the tax levy, resulting from income so received, shall take place only after the actual receipt by the treasurer of the proceeds of the investment income. Whenever investments made shall be reconverted into cash, the principal proceeds of any such investment shall be returned to the Treasurer of Greenville County and by him applied in accordance with the provisions of this act.

If any balance remains from the principal proceeds of the bonds, it shall be held by the Treasurer of Greenville County in a special fund and used to effect the retirement of bonds authorized hereby.

SECTION 15. Powers of Berea Commission.—The function heretofore granted to the Berea Commission of providing sewer service within Berea is hereby removed, but it shall be the duty of the Berea Commission to continue studies and surveys necessary to determine when sewer service for other parts of the Berea District as constituted by Act No. 848 of 1954 become necessary, and the Berea Commission shall continue to exercise all other powers granted to it by Act No. 848 of 1954. The provisions of this act shall not be assumed to take away from the Berea Commission any power which might be granted by any act enacted at the 1965 session of the General Assembly grant-

ing to it the power to sell and dispose of its Water Distribution System.

SECTION 16. Names of districts.—Effective as of July 1, 1965 the name of the district created by Act No. 848 of 1954 shall be changed to Berea Public Service District and the name of the commission created by the act and herein referred to as the Berea Commission and the commission shall be "Berea Public Service District Commission."

SECTION 17. Time effective.—This act shall take effect upon its approval by the Governor.

Approved the 8th day of June, 1965.

An Act To Enlarge The Powers Of Greater Greenville Sewer District And All Special Purpose Districts In Greenville County Whose Functions Include The Operation And Maintenance Of Sewer Systems, And To Authorize Them To Enter Into Contracts By Which Greater Greenville Sewer District Shall Assume The Operation And Maintenance Of Sewer Systems In Such Special Purpose Districts.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Findings of General Assembly.—As an incident to the enactment of this act the General Assembly has made the following findings of fact:

(1) That by Act No. 362 of 1925 it created Greater Greenville Sewer District in Greenville County (Greater Greenville) and committed to it the function of providing sewage collection, treatment and disposal for the district. The governing agency of Greater Greenville, through whom the functions of the district are performed, is the Greater Greenville Sewer District Commission (the commission).

(2) Meanwhile other parts of Greenville County have become thickly populated, a situation which has resulted in the establishment of many special purpose districts elsewhere in Greenville County. To many of these special purpose districts is committed the function of providing sewer service facilities.

(3) The commission has been successfully functioning for many years and has acquired a great degree of efficiency in operating and maintaining the system functioning in Greater Greenville. By reason of that fact it appears that circumstances might arise by which, upon appropriate terms and conditions, some of the special purpose districts in Greenville County might advantageously contract with the commission for the operation and maintenance of the sewer systems in their respective districts.

(4) On that basis the General Assembly is minded to enlarge the powers of Greater Greenville so as to permit it to enter into contracts with the governing agency of any special purpose district in Greenville County, to which is committed the function of operating and maintaining a sewer system, to operate and maintain the system of such special purpose district on terms and conditions to be mutually agreed upon between the commission and the governing agency of such district.

SECTION 2. Greater Greenville Sewer District—additional powers.—In addition to all other powers now vested in Greater Greenville and its commission, it shall be authorized to undertake the operation and maintenance of sewer systems belonging to and constructed by special purpose districts in Greenville County, situate outside of the boundaries of Greater Greenville, and to that end the commission and the governing agency of the special purpose districts shall be empowered to enter into contracts on such terms, for such considerations, and for such periods of time as shall be mutually agreed upon, by the commission and the governing agency of the district, under the terms of which the commission shall assume the operation and maintenance of the sewer system of the district. If the contracts be made, the commission shall become the agent of the governing agency of the district, and may perform such functions committed to the governing agency of the district as shall be delegated to them by the contract, and including, without limiting the generality of the foregoing, the power to impose and collect sewer service charges to those to whom sewer service is rendered.

SECTION 3. Time effective.—This act shall take effect upon approval by the Governor.

Approved the 8th day of June, 1965.

An Act To Enlarge The Powers And Functions Of Taylor's Water And Sewer District in Greenville County; To Authorize The Issuance Of Two Million Five Hundred Thousand Dollars Of General Obligation Bonds Of The District To Raise Moneys For The Construction Of A System For The Collection, Treatment And Disposal Of Sewage; To Prescribe The Terms And Conditions Under Which The Bonds Shall Be Issued; And To Make Provision For The Payment Of The Bonds.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Findings of General Assembly.—As an incident to the enactment of this act the General Assembly has made the following findings of fact:

(1) Taylor's Water and Sewer District (the district) was created by Act 1099 of 1958 and was therein authorized and empowered to acquire, construct, enlarge, improve, operate and maintain a water distribution system and a sewer system.

(2) The district was enlarged by an act bearing ratification number 277 of 1965.

(3) By Act 1099 of 1958 it was provided that the governing agency of the district should be the Taylor's Water and Sewer District Commission (the commission).

(4) The district is becoming increasingly populated and the preservation of the public health therein requires the construction and maintenance of sewage collection treatment and disposal facilities.

(5) It has been estimated that the cost of providing the foregoing facilities to the district will be substantial. Present estimates made by consulting engineers employed by the district indicate an expenditure of not less than two million five hundred thousand dollars. The General Assembly has given due consideration to the method of financing the expenditures which must be undertaken by the commission and has concluded that the district shall be empowered to issue general obligation bonds to the extent of two million five hundred thousand dollars.

(6) The General Assembly has given further consideration to the methods by which the district will raise the monies required to provide debt service on the bonds of the district to be issued pursuant to this act and has concluded that, in addition to the power to cause the levy of ad valorem taxes, the district should be empowered (a) to impose sewer service charges for sewage collection services to be rendered to

those to whom sewage collection service is provided; (b) to impose assessments against properties fronting on sewage collection laterals which were served by such laterals; and (c) to impose a charge to cover the cost of effecting connections to sewer laterals. Accordingly, the General Assembly has determined the powers of the commission should be enlarged to the extent herein provided.

(7) It is the legislative intent of this act that it shall be deemed complementary and supplementary to existing laws relating to the district and to add to the powers, functions and duties committed to the commission in order that the district may fulfill its function of preserving the public health and provide for all those who own, use or occupy dwellings or other buildings therein adequate means for the collection, disposal and treatment of sewage originating therein. In enacting this law the General Assembly exercises its general police powers having found that such exercise was necessary for the maintenance and preservation of the health of the inhabitants of the district.

SECTION 2. Definitions.—For the purposes of this act:

(a) The term "district" shall mean the Taylors Water and Sewer District in Greenville County as now or hereafter constituted.

(b) The term "commission" shall mean the governing agency of the district as now or hereafter constituted.

(c) The term "sewer charge" shall mean the monthly, quarterly or annual charge imposed for the collection, treatment and disposal of sewage and shall include all tapping and connection fees.

(d) The term "front foot assessment" shall mean assessment levied to reimburse the district for that portion of the cost of installing sewer lateral (collection lines) imposed by the commission on a front foot basis.

SECTION 3. Additional powers.—In addition to the powers heretofore granted by Act 1099 of 1958, the following powers, to be exercised by the commission, are hereby granted to and conferred upon the district:

1. To place into effect and to revise whenever it so wishes or may be required a schedule of sewer charges for the connection to and use of its sewage disposal system. Prior to the making of any sewer connection or the furnishing of any sewage disposal service for which the prescribed sewer charge shall, pursuant to paragraph 2 of this section, become a lien on the property affected, and prior to any sub-

sequent increase in any such sewer charge, not less than ten days written notice shall be given to each affected property owner notifying him of the nature and quantum of the sewer charge and providing such property owner an opportunity if desired and requested, to appear and be heard in person or by counsel before the commission. Following such hearing, if such be requested and held, action shall be taken by the commission and notice of its decision shall be given to the property owner concerned or his counsel as the case may be not less than ten days prior to the effective date of the sewer charge. Any property owner aggrieved by the action of the commission may proceed by certiorari in the Court of Common Pleas for Greenville County to have such court review the action taken by the commission at which time the court will determine the validity and reasonableness of the charge so made. Sewer connection charges and sewer service charges not intended to become liens in the case of nonpayment can be imposed and subsequently increased upon any user in the district without such notice and hearing.

2. If the notices prescribed by paragraph 1 of this section shall have been given and any hearing requested pursuant thereto shall have been held, all sewer connection charges and sewer service charges imposed by the commission following that procedure under authority of this act and not paid when due and payable shall be and constitute a lien upon the real estate to which the sewage service concerned relates so long as the sewer charges remain unpaid. In addition to such other rights and remedies as may be available to the commission in law or in equity for the collection of the sewer charges, the lien may be enforced by the commission in the same manner and fashion as the lien of property taxes on real estate. The lien herein provided shall be superior to all other liens except lien for unpaid property taxes.

The method provided in this act for the enforcement of the collection of past due sewer connection charges and sewer service charges by creating them liens against real property shall not be the exclusive method of enforcing such collections and the commission is fully empowered to enforce the collection of any such charges in any other lawful manner in all or any part of the district.

3. To prescribe and enforce regulations (a) requiring all persons to whom it is availabe to make use of any sewer system which the district shall from time to time operate and (b) generally with respect to the discharge of sewage and the use of privies, septic tanks and other sewage facilities in the district. Any such regulations shall, however, become effective only after they have been adopted by resolu-

tion of the commission, a certified copy thereof has been recorded in the Office of the Register of Mesne Conveyances for Greenville County, a copy has been posted in the Greenville County Courthouse and a notice of the adoption of such resolution has been published at least once a week for three successive weeks in a newspaper published in Greenville County having a general circulation in the district. The published notice shall specify in brief the scope of the regulations and shall state the date on which it shall become effective. Prior to the adoption of the resolution, the commission shall give public notice of a meeting to be held to consider its adoption and the notice shall appear in a newspaper published in Greenville County and having general circulation in the district at least once not less than seven days prior to the occasion fixed for the holding of such meeting. Any persons affected may attend such meeting and express their views on the proposed regulations. The provisions of this paragraph prescribing conditions upon the effectiveness of the regulations specified above in this paragraph shall not be deemed to impose mandatory conditions upon the exercise of any other power or the adoption of any other type of regulation which the commission is authorized to adopt.

4. Paragraph 3 of this section authorizes the commission in the interest of the health of the district to adopt regulations requiring the use of its sewer system and regulations generally with respect to the discharge of sewage and the use of privies, septic tanks and other sewage facilities in the district. The commission is expressly authorized to apply to any court of general jurisdiction for the enforcement of any such regulations through the means of mandatory injunction or other remedial process; *provided,* such regulation has been duly adopted in the manner prescribed by paragraph 3 of this section.

5. The commission is hereby authorized to enter into contracts with the Commissioners of Public Works of the City of Greenville or any other public or private agency now or hereafter furnishing water service within the district, on terms and conditions to be mutually agreed upon by which the commission shall constitute such agency as its agent for the purpose of collecting sewer service charges which the commission shall from time to time impose on those to whom it furnishes sewage collection service and by such contract to empower such agency to disconnect water service upon the failure to pay the sewer service charge. The contract may provide that the charge for sewer service shall be combined with the charge made for

water service and rendered to the customer as a single joint bill which the customer shall be required to pay as an entirety.

6. To combine any bill that the commission may render for water service with the bill that it is rendered for sewer service and to require the payment of the charges for both water and sewer service as a part of a single joint bill and to disconnect water service upon failure of the customer to pay the joint bill in accordance with the regulations of the commission, from time to time in force.

7. (a) The commission is hereby empowered to provide by resolution that the actual cost of the establishment and construction of any lateral collection sewer lines constructed by the commission within the district and any extensions thereof, or so much of the actual cost thereof as the commission in its discretion deems appropriate, shall be assessed upon the lots and parcels of land abutting directly on such lateral lines or extensions thereof according to the extent of the respective frontage thereon, by an equal rate per foot of such frontage, and may in its discretion provide in the case of corner lots, for an assessment only upon one of the two corner lines. The commission may provide in such resolution that the front foot assessments to be levied in connection with such work may be paid in equal installments covering a period of not exceeding ten years. The resolution providing for such front foot assessments shall designate by a general description the improvement to be made and the streets or parts thereof whereon the work is to be effected and the estimated cost thereof and the amount of the cost to be assessed upon all abutting property and the terms and manner of payment. Such resolution shall not become effective until at least seven days after it shall have been published in a newspaper of general circulation in the district published in Greenville County. Such resolution may incorporate by reference plats and engineering reports and other data on file in the commission's office provided that the place of filing and reasonable hours for inspection by interested persons are specified in the resolution.

(b) Upon the completion of the construction of any such sewer laterals or any extensions thereof, the commission shall compute and ascertain the total cost thereof and shall thereupon make an assessment of such total cost or so much thereof as it deems appropriate. For that purpose the commission shall make out an assessment roll in which must be entered the names of the persons assessed and the amount assessed against their respective properties with a brief description of the lots or parcels of land assessed.

(c) Immediately after such assessment roll has been completed the commission shall forthwith cause one copy thereof to be deposited in the commission's office for inspection by interested parties, and shall cause to be published at least once in a newspaper of general circulation within the district a notice of completion of the assessment roll setting forth a description in general terms of the improvement and the time fixed for the meeting of the commission for a hearing of objections in respect of the front foot assessments, such meeting not to be earlier than ten days from the date of the publication of such notice.

(d) As soon as practicable after the completion of the assessment roll and prior to the publication of the notice above-mentioned in paragraph (c) the commission shall mail to the owner of each lot or parcel of land against which a front foot assessment is to be levied at his address appearing in the records of the county treasurer, a notice stating the nature of the improvement, the total cost thereof, the amount to be assessed against that particular property and the frontage in feet upon which the front foot assessment is based, together with the terms and conditions upon which the front foot assessment may be paid. This notice shall also contain a brief description of the particular property involved together with a statement that the amount assessed shall constitute a lien against the property superior to all other liens except property taxes. The notice shall also state the time and place fixed for the meeting of the commission above-mentioned for a hearing of objections in respect of the front foot assessments. Any property owner who fails, not later than three days prior to the date set for such meeting, to file with the commission a written objection to the front foot assessment against his property shall be deemed to have waived all rights to object to such front foot assessments; and the notice prescribed herein shall so state.

(e) At the time and place specified for the meeting above-mentioned, or at some other time to which it may adjourn, the commission shall hear the objections of all persons who have filed written notice of objection within the time prescribed above who may appear and make proof in relation thereto either in person or by their attorney. The commission may thereupon make such corrections in the assessment roll as it may deem proper or may confirm the same, or may set it aside and provide for a new assessment. Whenever the commission shall confirm an assessment roll, either as originally prepared or as thereafter corrected, a copy thereof certified by the secre-

tary of the commission shall forthwith be filed in the office of the Clerk of Court of Common Pleas of Greenville County and from the time of such filing the front foot assessments impressed in the assessment roll shall constitute and be a lien on the real property against which the same are assessed superior to all other liens and encumbrances except only the lien for property taxes.

(f) After the assessment roll has been confirmed a certified copy thereof shall be delivered to the Treasurer of Greenville County who shall proceed to collect the same in the manner of county taxes and shall remit such collections upon the direction of the commission. Past due front foot assessments shall be turned over by the treasurer to the Sheriff of Greenville County who shall proceed to collect them in the same manner as unpaid county taxes are collected.

(g) Immediately upon the confirmation of an assessment the commission shall give written notice by mailing to the last known address according to the records of the commission to all persons who have filed written objections as provided of the amount of the front foot assessment finally confirmed against his property. If any such person is dissatisfied with the amount of the front foot assessment so confirmed and shall within ten days after the confirmation give written notice to the commission of his intent to do so, he may appeal his front foot assessment to the Court of Common Pleas for Greenville County and shall within five days after giving such notice serve upon the commission a statement of facts upon which he bases his appeal; but no such appeal shall delay or stop the improvements or affect the validity of the front foot assessments confirmed and not appealed. The appeal shall be tried at the next term of court as other actions at law with priority over all other cases.

(h) The commission may correct, cancel or remit any such front foot assessment and may remit, cancel or adjust the interest or penalties of any such front foot assessment and is empowered when in its judgment there is any irregularity, omission, error or lack of jurisdiction in any of the proceedings relating thereto set aside the whole of any assessment made by it and thereupon to make a reassessment.

(i) In the event the commission provides that such front foot assessments may be paid in equal annual installments, then in that event any property owner shall have the option and privilege of paying his respective front foot assessments in full in cash provided he gives notice of his intent to do so in writing to the commission within thirty days after the notice prescribed in paragraph (d). If no such

notice of intent is given within the thirty day period the front foot assessment shall be deemed to be due and payable in the equal annual installments prescribed by the commission and shall bear interest at the rate of four per cent per annum from the date of the confirmation of the assessment roll, payable with such annual installment. Any property owner shall have the right at any time in his option to prepay in full the front foot assessment against his property by the payment of the balance due plus interest calculated to the date of prepayment. If any property owner shall fail or neglect to pay any installment when it becomes due and payable, then and in that event the commission may, at its option, declare all of the installments remaining unpaid at once due and payable and such property shall be sold by the Sheriff of Greenville County in the same manner and with the same right of redemption as are prescribed by law for the sale of land for unpaid county taxes.

All income realized from such investments after meeting any costs incident thereto shall be from time to time turned over to the Treasurer of Greenville County and by him applied to the payment of interest to become due on the bonds, but the provisions hereof shall in no way limit or impair the directive of this act made by Section 12 requiring the Auditor and Treasurer of Greenville County to levy and collect sufficient taxes to meet the payment of principal and interest of the bonds as they respectively mature, and any reduction in the tax levy, resulting from income so received, shall take place only after the

Act of 1965 bearing Ratification No. 100, create the Stroud Memorial Hospital District in Greenville County. The General Assembly further finds that the description of the district in the original act and as amended did not accurately define the area intended to be included within the district and, therefore, in order to re-define the area and modify certain powers and duties of the commissioners of the district, the General Assembly deems it advisable to amend Act No. 1239 of 1964, as amended by an Act of 1965 bearing Ratification No. 100.

All of that area lying east of Highway 25 from the point where it enters Tax District 370 to a point where it leaves Tax District 460 is deleted from the district." The section when amended shall read as follows:

Said area being more clearly defined and shown on a plat entitled 'STROUD MEMORIAL HOSPITAL DISTRICT' recorded on January 8, 1965, in the R. M. C. Office for Greenville County in Plat Book JJJ, at page 9. The hospital district shall also include all that area of the above tax districts lying west of U. S. Highway 25 from the point where said U. S. Highway 25 enters Tax District 370 to a point where it leaves Tax District 460. The Tax Districts appear on the Greenville County Block Book Department. All of that area lying east of Highway 25 from the point where it enters Tax District 370 to a point where it leaves Tax District 460 is deleted from the district."

SECTION 3. Section 4 of Act 1239 of 1964 further amended—may make loans.—Section 4 of Act 1239 of 1964, as amended by an Act of 1965 bearing Ratification No. 100, is further amended by adding a new paragraph at the end thereof to read as follows:

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Findings of General Assembly.—The General Assembly finds that Act 449 of 1963, amending Act 389 of 1955, made provision for borrowing by the Piedmont Sewer and Light District, including the issuance of not exceeding two hundred thousand dollars of general obligation bonds of the district; that thereafter it was found that such maximum authorization was inadequate; that in order to provide an adequate sewer system including disposal plant, sufficient for the protection of the health and welfare of residents of the district and for the prevention of pollution of the Saluda River, issuance of not exceeding three hundred forty thousand dollars of general obligation bonds of the district is necessary.

SECTION 2. Act 389 of 1955 further amended—issuance of bonds.—Act No. 389 of 1955, as amended by Act No. 449 of 1963, is further amended as follows:

(a) By striking the words "two hundred thousand dollars" from paragraph 15 of Section 3 and inserting in lieu thereof the words "three hundred forty thousand dollars" so that when so amended paragraph 15 shall read as follows:

"15. To issue, under the conditions prescribed by paragraph 17 of this section, *infra,* general obligation bonds of the district in an amount not exceeding three hundred forty thousand dollars."

(b) The act is further amended by striking the words "two hundred thousand dollars" from the first sentence of the first paragraph of paragraph 17 of Section 3 and inserting in lieu thereof the words "three hundred forty thousand dollars" so that when so amended the first paragraph of paragraph 17 shall read as follows:

"17. To issue not exceeding three hundred forty thousand dollars of general obligation bonds of the district, whose proceeds shall be used to defray the costs of constructing, establishing, maintaining, repairing or renovating a sewer system in the district. For the purpose of this section, the term 'construct and establish' shall embrace the cost of direct construction, the cost of all land, property, rights, easements and franchises acquired, which are deemed necessary for such sewer system, the cost of all machinery and equipment needed therefor, payments to contractors, laborers or others for work done or material furnished, financing charges, interest prior to and during construction and for six months after completion of construction, cost of engineering services, legal services, legal expenses, plans, specifications, surveys, administrative expenses and such other expenses as may be necessary or incident to the construction of the sewer system and the placing of the same in operation. General obligation bonds shall be issued only in the event the election required by paragraph 18 shall result favorably. All or any general obligation bonds issued pursuant to this paragraph may be additionally secured by a pledge of the net revenues to be derived from the operation of any revenue producing facility operated and maintained by the district. The words 'net revenues' as used in this paragraph shall mean that sum remaining from the aggregate of all moneys realized by the district from rates and charges imposed and collected after paying the cost of operation and maintenance of the facility, whose revenues shall be

pledged. If, pursuant to this paragraph, general obligation bonds are issued:".

(c) The act is further amended by striking the words "two hundred thousand dollars" from the question to be submitted to public election as stated in paragraph 18 of Section 3 and inserting in lieu thereof the words "three hundred forty thousand dollars" so that the question submitted shall be substantially in the following form:

"Shall the Piedmont Sewer and Light Commission of Anderson and Greenville Counties issue general obligation bonds in a sum not exceeding three hundred forty thousand dollars, the proceeds of which shall be used to construct and establish a sewer system in the district?

YES

No 626

An Act To Create Greenville Hospital System District In Greenville County; To Define Its Functions And Powers; To Provide A Governing Agency Therefor; To Authorize The Greenville General Hospital Board Of Trustees To Convey, Without Consideration, Its Properties To The District; To Provide For The Dissolution Of The Greenville General Hospital Board; And To Authorize The District To Issue General Obligation Bonds To Provide Additional Hospital Facilities, Prescribe The Terms And Conditions Under Which The Bonds May Be Issued And Make Provision For Their Payment.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Findings of General Assembly.—1. The General Assembly finds that public hospital facilities in Greenville County are being presently provided by a public agency known as the Greenville General Hospital Board of Trustees (the hospital board). The membership of the hospital board is comprised in the manner set forth

in Section 4 of Act 432 of 1947, as amended (the Act of 1947) and now consists of seven individuals.

2. Acting pursuant to the Act of 1947, the hospital board acquired from the City of Greenville certain hospital properties then owned by the City of Greenville under a contract which provided inter alia as follows:

> "(1) That in the event this Act embodying the agreed plan and method for the operation of said hospital and all of its expanded facilities is repealed or amended in any particular without first obtaining the approval of the corporate authorities of the City of Greenville evidenced by a majority action at a duly called meeting of the Greenville City Council; or,
>
> "(2) That in the event Greenville County shall hereafter acquire the property and assets which the City of Greenville shall convey to the said Board of Trustees, created by Section 4 of this Act, as the same may be constituted on the occasion of their acquisition by said Board of Trustees, or as the same may have been modified, transformed, converted or changed, and whether the acquisition become effective by operation of law, by voluntary act, or through eminent domain, then in either of such events Greenville County shall be obligated to pay to the City of Greenville the sum of One Million Five Hundred Thousand ($1,500,000.00) Dollars which obligation shall constitute a lien upon all hospital facilities and equipment located within the corporate limits of said City, inferior only to any lien created in favor of revenue bonds issued prior to the occurrence of such event. This covenant or agreement shall be deemed to be for the benefit of the several residents and taxpayers of the City of Greenville and shall be enforceable at law or in equity at the instance of any one or more or either of them."

3. Hospital facilities have been maintained and expanded through gifts, grants and the proceeds of general obligation bonds issued by Greenville County and certain hospital districts located in Greenville County. Such facilities are available to all residents of Greenville County.

4. The manner of selecting the hospital board provided by the Act of 1947 has been eminently satisfactory, and the membership of the board has consisted of individuals especially fitted to perform the functions granted to the hospital board.

5. Studies indicate that the growth of Greenville County requires tremendous expansion of existing facilities, and much consideration has been given to provide means therefor. After due consideration it has been determined to establish a hospital district co-extensive with Greenville County, and to create a commission as the governing agency thereof, and to authorize and empower the commission to issue bonds of the district to the extent permitted by such constitutional debt limitation as shall from time to time be applicable, in order to provide funds for hospital facilities.

6. On the basis of this determination the General Assembly undertakes to establish Greenville County as a hospital district, to provide a governing agency therefor, to prescribe its powers and to provide means by which the district may acquire the properties now vested in the hospital board, and obtain funds for the expansion of hospital facilities. Because of the satisfactory record established by the hospital board, the General Assembly has determined to follow the method employed by the Act of 1947 in prescribing the manner in which the governing agency of the district shall be appointed.

SECTION 2. Greenville Hospital System District created in Greenville County.—There is hereby created and established in Greenville County a district to be known as "Greenville Hospital System District" (the district), which shall include and be comprised of all territory in Greenville County within the boundaries of Greenville County.

SECTION 3. Powers and duties.—It shall be the function of the district, acting through its governing agency, hereinafter established, to do all things necessary and convenient for the purpose of establishing, acquiring, and at all times operating and maintaining adequate hospital facilities for all residents and inhabitants of the district, including those residing within the corporate limits of the City of Greenville and within the corporate limits of other municipalities within the district, as well as those living beyond the corporate limits of such municipalities. Without limiting in any way the generality of the foregoing, the district shall be empowered as follows:

(1) To adopt and use a corporate seal;

(2) To adopt such bylaws, rules and regulations for the conduct of its business and expenditure of its funds, as it may deem advisable;

(13) To establish and promulgate reasonable rates for the use of the services and facilities afforded by the district;

(14) To define eligibility requirements for patients for charity services, to operate and maintain necessary services for such patients, to contract with third parties for reimbursement for services rendered to such patients, and to collect partial payment from patients unable to pay the rates established by the board;

(15) To expend the proceeds derived from the charges made for the use of the services and facilities of the hospital for the operation and maintenance thereof;

(21) To conduct periodic investigations into hospital, medical and health conditions in Greenville County;

(22) To enter into contracts for the construction and repair of hospitals and hospital facilities and to contract for equipment and supplies for the hospital;

(23) To exercise the power of eminent domain for the purpose of acquiring property for purposes of expansion, and to that end it may avail itself of the procedure prescribed for the exercise of eminent domain by any county, municipality or authority created by or organized under the laws of this State, or by the State Highway Department, or by railroad corporations; and

(24) To borrow money from banking or other lending institutions in such amounts and on such terms as the district may determine, in its discretion, is for the best interest of and most favorable to the hospital for the operation thereof or for the acquisition of real or personal property, or to enlarge or improve any hospital facilities and to secure such loan or loans by pledge of revenues.

SECTION 4. To be governed by a commission—members—terms—vacancies—officers.—All functions granted to the district shall be exercised by its governing agency which shall be the Greenville Hospital System District Commission (the commission). The commission shall consist of seven members, all of whom shall be qualified electors of Greenville County. Three of the members, designated for convenience as city members, shall reside within the corporate limits of the City of Greenville; three of the members, designated for convenience as county members, shall reside within the corporate limits of Greenville County but without the corporate limits of the City of Greenville, and the seventh member, designated for convenience as member at large, shall reside within the County of Greenville, either within or without the corporate limits of the City of Greenville.

The terms of the commissioners shall begin on the effective date of the conveyance by the hospital board to the district of its properties.

Such occasion shall be the date of the deed from the hospital board to the district, or, if the action of the hospital board in effecting the conveyance of its properties to the district, or the validity of the act be challenged by any action at law or in equity in any court of competent jurisdiction, upon the final termination of such litigation.

Of the initial commissioners, two shall have a term ending July 1, 1967, two shall have a term ending July 1, 1969, and three shall have a term ending July 1, 1971.

Subsequent terms of office of the members of the commission shall be for six years. Vacancies on the commission, either among the initial appointees, or among their successors in office, occurring by reason of death, resignation, refusal to serve or otherwise, shall be for the remainder of the term of the office in which the vacancy shall have occurred. If, upon the expiration of the term of any member of the commission, a successor shall not have been appointed, the member whose term has thus expired shall hold over until the appointment and qualification of his successor, but this provision shall not extend the term of the successor beyond the six-year period herein provided for. All vacancies shall be filled in the following manner: If the vacancy in office shall be for a city member, the remaining members of the commission, or a majority thereof, shall submit a nomination or nominations to the City Council of the City of Greenville for its approval; if the vacancy in office shall be for a county member, the remaining members of the commission, or a majority thereof, shall submit a nomination or nominations to the Greenville County Legislative Delegation for its approval; and, if the vacancy in office shall be for the member at large, the remaining members of the commission, or a majority thereof, shall submit a nomination or nominations to the City Council of the City of Greenville and the Greenville County Legislative Delegation for their approval. Upon the approval of a majority of the City Council of Greenville, or a majority of the Greenville County Legislative Delegation, as the case may be, or by both in the event the nomination be for the member at large, then the clerk of city council, or the secretary or acting secretary of the county legislative delegation, or both, as the case may be, shall certify their approval to the Governor, who shall commission the nominee for the term provided. All members of the commission shall serve without compensation. Appointments and acceptances thereof shall be duly filed in the office of the Clerk of Court for Greenville County.

Upon its appointment, the commission shall meet as soon as may be practicable and organize by electing one of its members as chairman, a second as vice-chairman, and a third as secretary, whereupon, after the organization of the commission, it shall determine by lot the duration of the term of each member, in order that the requirements of this section shall be complied with. After the terms of the several members are thus determined, the secretary of the commission shall certify them to the Governor who shall issue commissions to each member for the term required by this act. A full transcript of the records of the initial organization shall be filed with the Clerk of Court of Greenville County by the secretary of the commission, and shall be recorded and indexed by that official.

Inasmuch as it is contemplated by this act that the hospital board shall cease to function following the conveyance of its properties to the district as it is now constituted, the hospital board having knowledge gained from experience as to the proper functioning of hospital facilities, it is hereby declared that the individuals now holding office as members of the hospital board shall be eligible to appointment on the commission. In so providing, the General Assembly believes that such individuals will not be exercising the functions of more than one public office at the same time, inasmuch as it is herein provided that the hospital board shall cease to function upon the conveyance of its properties herein provided for. The ratio of commissioners representing the City of Greenville in proportion to the present total membership of the Board shall not be changed without prior approval of the City Council.

SECTION 5. Greenville General Hospital may convey property to district.—If the City Council of Greenville shall give its consent thereto, and shall release the district and Greenville County from the obligation to pay to the city the sum of one million five hundred thousand dollars provided by the provisions of the Act of 1947 and the contract made pursuant thereto, and shall discharge the properties from all liens and encumbrances, such consent to be evidenced in the form of a quitclaim deed, release or other document, (1) that no hospital district real estate situated within the corporate limits of Greenville may be disposed of without the consent of the county legislative delegation and the city council; (2) that the primary hospital property remain within the corporate limits of Greenville; and (3) that there be a reversionary clause in the deed of property to district trustees with respect to the land conveyed by the city in

1947 to locate General Hospital so that the hospital property would revert to the city if the hospital ever ceased to function as such, the hospital board shall be empowered to convey all of its property, real, personal and mixed, to the district, without consideration. Upon such act, or, if the action of the hospital board in effecting the conveyance of its properties to the district, or the validity of the act, be challenged by any action at law or in equity in any court of competent jurisdiction, upon the termination of such litigation, the hospital board shall cease to exist, and all functions and duties thereof shall be transferred to the district.

SECTION 6. Records and audit.—The commission shall at all times keep full and accurate account of its actings and doings and of its receipts and expenditures, and at least once within four months following the close of its fiscal year, a complete audit of its affairs shall be made by a qualified public accountant. Copies of the audit shall be filed with the Clerk of Court for Greenville County, the Clerk of the City Council of the City of Greenville, and with the Secretary or Acting Secretary of the Greenville County Legislative Delegation.

SECTION 7. Bonds may be issued.—In order to raise funds to provide additional hospital facilities, the district, acting through the commission, shall be empowered from time to time to issue general obligation bonds of the district in such amounts as shall, on the occasion of any issue of bonds, be within the applicable constitutional debt limitation of the district.

SECTION 8. Maturity.—All bonds issued pursuant to this act shall mature in such annual series or instalments as the commission shall provide, except that the first maturing bonds shall mature within three years from the date of issue; not less than three per cent of the bonds shall mature in each year; and no bond shall mature later than twenty-five years from the date of issue.

SECTION 9. Redemption.—Any bond issued pursuant to this act may be issued with a provision permitting its redemption prior to its stated maturity, at par and accrued interest, plus such redemption premium as may be prescribed by the commission, but no bond shall be redeemable prior to its stated maturity unless it contains a statement to that effect. In the proceedings authorizing the issuance of such bonds, provision shall be made specifying the manner of call and the notice thereof that must be given as to bonds made redeemable prior to their stated maturities.

SECTION 10. Form.—The bonds issued pursuant to this act shall be in the form of negotiable coupon bonds, payable to bearer, but may be issued with the privilege to any holder of having them registered as to principal on the books of the Treasurer of Greenville County, upon such conditions as the commission may prescribe. Except when so registered, all bonds issued pursuant to this act shall have all attributes of negotiable instruments under the law merchant and the negotiable instrument law.

SECTION 11. Where payable.—The bonds issued pursuant to this act shall be made payable at such place or places, within or without the State, as the commission shall provide.

SECTION 12. Interest.—Bonds issued pursuant to this act shall bear interest at rates determined by the commission.

SECTION 13. Denominations.—The bonds and the coupons to be thereunto attached shall be in such denomination and shall be executed in such manner as the commission shall by resolution prescribe.

SECTION 14. Sale.—Bonds issued pursuant to this act shall be sold at a price of not less than par and accrued interest to the date of their respective deliveries. They shall be sold after public advertisement of their sale in a newspaper of general circulation in South Carolina. Such published notice shall appear not less than ten days prior to the occasion set for opening bids.

SECTION 15. Payment.—For the payment of the principal and interest of all bonds issued pursuant to this act, as they respectively mature, and for the creation of such sinking fund as may be necessary therefor, the full faith, credit and taxing power of the district shall be irrevocably pledged, and there shall be levied annually by the Auditor of Greenville County, and collected by the Treasurer of Greenville County, in the same manner as county taxes are levied and collected, on all taxable property in the district, a tax sufficient to pay the principal and interest of the bonds as they respectively mature and to create such sinking fund as may be necessary therefor.

SECTION 16. Exempt from taxes.—The principal and interest of bonds issued pursuant to this act shall have the tax-exempt status prescribed by Section 65-4.1, Code of Laws of South Carolina, 1962.

SECTION 17. Proceeds.—The proceeds derived from the sale of any bonds issued pursuant to this act shall be paid to the Treasurer of

Greenville County and shall be expended upon the warrant of the commission. Such proceeds shall be expended as follows:

(a) Any accrued interest shall be applied to the payment of the first instalment of interest to become due on such bonds.

(b) Any premium shall be applied to the payment of the first instalment of principal of such bonds.

(c) The remaining proceeds shall be expended for the following purposes:

(i) To defray the cost of issuing the bonds authorized by this act; and

(ii) To provide for additional hospital facilities for the district.

(d) If, after the final completion of the commission's program, the commission shall certify to the Treasurer of Greenville County that any remaining balance in the bond account is no longer needed for its program, then such balance shall be held by the treasurer and used to effect the retirement of bonds then outstanding, which shall have been issued pursuant to this act.

Pending any use of funds it shall be lawful for the commission to cause the same to be invested in obligations of the United States, or any agency thereof, having a maturity of not more than two years from the date when such investments shall be made. In order to effect such investment the commission shall be empowered to withdraw from the treasurer the entire proceeds of any bonds that may be issued and to cause the same to be deposited with any corporate trustee who shall hold the same as trust funds to be invested in the manner that the commission shall direct.

Any income resulting from such investment may, in the discretion of the commission, be returned to the Treasurer of Greenville County and used by him to meet the debt service of any bonds so issued, or, in the discretion of the commission, be applied, together with the principal proceeds of the bonds, to hospital facilities.

SECTION 18. No further action required for issuance.—No election is prescribed as a condition precedent to the issuance of bonds pursuant to this act, and no action other than that prescribed herein need be taken to effect the issuance of the bonds herein authorized, nor shall the commission be required to obtain the approval of any public agency to any action taken pursuant to the authorizations of this act.

SECTION 19. Time effective.—This act shall take effect upon approval by the Governor.

Approved the 18th day of June, 1965.

Whereas, the qualified electors in School District No. 52 of Greenwood County, in a special election held in the district on August 7, 1962, overwhelmingly approved a bond issue in the sum of two hundred thousand dollars, the proceeds from which were for the purpose of defraying a portion of the costs of building and equipping a new high school building and such facilities and other improvements in connection therewith as are needed for school purposes of the district; and

Whereas, by Act No. 550 of 1963, as amended, it was provided that, in addition to the original issue of two hundred thousand dollars, the board of trustees of the district were authorized to issue not exceeding one hundred eighteen thousand dollars for the above purposes; and

Whereas, pursuant to the acts, a total of three hundred thousand dollars in bonds of the district were issued; and

Whereas, it is found that additional funds are necessary in order to complete the building of the high school and all school facilities in connection therewith, which will not exceed six hundred thousand dollars; and

Whereas, it has been determined that, due to the increased assessed valuation in the district, an additional sum of six hundred thousand dollars in bonds or other indebtedness may be issued without raising the millage of the district. Now, therefore,

SECTION 4. Form.—The bonds shall be in the form of negotiable coupon bonds, payable to bearer, but may be issued with the privilege to any holder of having them registered as to principal on the books of the Treasurer of Greenwood County, upon such conditions as the board may prescribe. Except when so registered, all bonds issued pursuant to this act shall have all attributes of negotiable instruments under the law merchant and the negotiable instruments law.

SECTION 5. Where payable.—The notes or bonds shall be made payable at such places, within or without the State, as the board shall provide, and shall bear interest at rates determined by the board.

SECTION 6. SECTION 7. Payment.—For the payment of the principal and interest of all notes or bonds issued pursuant to this act, as they respectively mature, and for the creation of such sinking fund as may be necessary therefor, the full faith, credit and taxing power of the school district shall be irrevocably pledged, and there shall be levied annually by the Auditor of Greenwood County, and collected by the Treasurer of Greenwood County, in the same manner as county taxes are levied and collected, on all taxable property in the school district a tax

sufficient to pay the principal and interest of the notes or bonds as they respectively mature and to create such sinking fund as may be necessary therefor.

SECTION 8. Exempt from taxes.—The principal and interest of the notes or bonds issued pursuant to this act shall have the tax exempt status prescribed by Section 65-4.1 of the 1962 Code.

(b) Any premium shall be applied to the payment of the first installment of principal of such notes or bonds;

(2) To provide for additional public school facilities for the school district in the manner contemplated by this act;

(d) If, after the final completion of the board's program, the board shall certify to the Treasurer of Greenwood County that any remaining balance in the account is no longer needed for its program, then such balance shall be held by the treasurer and used to effect the retirement of the notes or bonds then outstanding, which shall have been issued pursuant to this act.

SECTION 10. Powers to be additional.—The powers and authorizations hereby conferred upon the board shall be in addition to all other powers and authorizations previously vested in the board and may be availed of pursuant to action taken at any regular or special meeting of the board.

SECTION 11. No further action required.—No action other than that prescribed in this act need be taken to effect the issuance of the notes or bonds, nor shall the board be required to obtain the approval of any public agency to any action taken pursuant to the authorizations of this act.

Whereas, it was provided by Act No. 1255 of 1964 that the Finance Board of Greenwood County may issue and sell general obligation bonds of Greenwood County (without the necessity of holding any election) in an amount not to exceed one million five hundred thousand dollars to replace existing Greenwood County Courthouse and offices, either in whole or in part, with new, modern, and well-equipped Courthouse and offices on the property where the courthouse and offices are now located, and purchase additional property for such purposes, and to pay outstanding indebtedness already incurred for the purchase of land to be used for such purposes, and for the further purpose of refinancing any existing bonds or debts of Greenwood County, if such were deemed desirable by the Finance Board; and

SECTION 4. Proceeds.—The proceeds derived from the sale of the bonds shall be deposited with the Treasurer of Greenwood County in a special fund, separate from all other funds, and shall be expended for the following purposes:

Whereas, in order for the Greenwood Metropolitan Commission to accomplish the purpose for its creation of establishing and operating a coordinated and unified system of sewerage disposal in the Greenwood Metropolitan District, it will be necessary for the commission to extend sewer trunk lines into and through additional water shed areas of the district; and

Whereas, it will be necessary to borrow funds for the purpose of extending the trunk line system of the commission, and the financial condition of the commission and the income received from the tax levy of six mills established for the payment of the initial bonds

SECTION 3. Proceeds.—The proceeds of the sale of the bonds shall be kept by the county treasurer as a separate fund and shall be

The maturity date of the first installment may be fixed for any occasion not later than three years from the date of the first series of bonds, and the maturity of the last installment shall not be later than twenty years from the date of the first series of bonds. Any of the bonds may, in the discretion of the finance board, contain a provision permitting its redemption prior to its stated maturity at such premiums as the finance board shall determine. The county treasurer shall set apart this revenue in a special fund and, after making the annual payments of principal and interest on the obligations secured by the prior pledges above set forth, shall apply the remaining funds solely

to the payment of the principal and interest of the bonds authorized by this act. The annual ad valorem tax herein directed to be levied shall be reduced in each year by the amount of these funds available for payment on the bond debt at the time the tax for such year is required to be levied.

The General Assembly, after due investigation, determines that the sums which will be available from the State gasoline tax will be in all likelihood sufficient to meet the payments of principal and interest of the bonds authorized by this act.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Definitions.—Whenever used or referred to in this act, unless a different meaning clearly appears from the context:

(1) "Watershed conservation district" means a governmental subdivision of this State, and a public body corporate and politic, organized in accordance with the provisions of this act, for the purposes, with the powers, and subject to the restrictions hereinafter set forth.

(2) "Director" means one of the members of the governing body of a watershed conservation district, elected in accordance with the provisions of this act.

(3) "Supervisor" means one of the members of the governing body of the Hampton Soil Conservation District in which any part of a watershed conservation district is situated.

(4) "Petition" means a petition filed under the provisions of Section 4 of this act for the creation of a watershed conservation district.

(5) "County" means Hampton County of South Carolina.

(6) "Landowner" or "owner of land" includes any person, firm or corporation who shall hold legal or equitable title to any lands lying within a watershed conservation district organized under the provisions of this act.

(7) "Due notice" means notice published at least twice, with an interval of at least one week between the two publication dates, in a publication of general circulation within the appropriate area, or, if no such publication of general circulation be available, notice posted at a reasonable number of conspicuous places within the appropriate area, such posting to include, where possible, posting at public places where it is customary to post notices concerning county or municipal affairs generally.

SECTION 2. Watershed Conservation Districts may be formed in Hampton County.—Authority is hereby granted to form watershed conservation districts within Hampton County for the purpose of developing and executing plans and programs relating to any phase of the control and prevention of soil erosion, flood prevention, or the conservation, development, utilization, and disposal of water.

SECTION 3. Area.—The area embraced in a watershed conservation district must be contiguous and must lie within a well-defined watershed; and such area shall not include lands located within the boundary of any incorporated city or town, or lands embraced in another watershed conservation district.

SECTION 4. Petition for formation.—When twenty-five or more landowners within a proposed watershed conservation district, or, if less than fifty landowners are involved, a majority of such landowners, desire to form a watershed conservation district, they shall file a petition with the supervisors of the soil conservation district asking that a watershed conservation district be organized to function in the area described in the petition. Such petition shall set forth the proposed name of the watershed conservation district; that there is need, in the interest of the public health, safety, and welfare, for a watershed conservation district to function in the territory described in the petition; a description of the territory proposed to be organized as a watershed conservation district, which description need not be given by metes and bounds or by legal subdivisions, but shall be deemed sufficient if generally accurate; and the approximate number of acres of land included in the proposed watershed conservation district.

SECTION 5. Hearing on petition.—(1) Within thirty days after such petition has been filed with the supervisors of the soil conservation district, they shall cause due notice to be given of a hearing upon the question of the desirability and necessity, in the interest of the public health, safety, and welfare, of the creation of such watershed conservation district. All interested parties shall have the right to attend such hearing and to be heard. If it shall appear at the hearing that other lands should be included in the petition or that lands included in the petition should be excluded, the supervisors shall permit such inclusion or exclusion, provided the land area involved still meets the requirements of Section 3 of this act.

(2) If it appears upon the hearing that it may be desirable to include within the proposed watershed conservation district territory

outside of the area within which due notice of the hearing has been given, the hearing shall be adjourned and due notice of a further hearing shall be given throughout the entire area considered for inclusion in the proposed watershed conservation district, and such further hearing shall be held. After final hearing, if the supervisors of the soil conservation district determine, upon the facts presented at the hearing and upon other available information, that there is need, in the interest of the public health, safety, and welfare, for a watershed conservation district to function in the territory considered at the hearing, they shall make and record such determination, and shall define the area, but the description need not be given by metes and bounds. The description shall be deemed sufficient if generally accurate and the approximate number of acres of land included in the proposed watershed conservation district is shown.

(3) If the supervisors of the soil conservation district determine after such hearing that there is no need for a watershed conservation district to function in the territory considered at the hearing, they shall make and record such determination and shall deny the petition.

SECTION 6. Referendum.—After the supervisors of the soil conservation district have made and recorded a determination that there is need, in the interest of the public health, safety, and welfare, for a watershed conservation district to function in the territory considered at the hearing, and have defined the boundaries thereof, they shall consider the question whether the operation of a watershed conservation district within the proposed boundaries with the powers conferred upon it by this act is administratively practicable and feasible. To assist the supervisors in making this determination, they shall, within a reasonable time after the entry of a finding that there is need for the organization of a watershed conservation district and the determination of the boundaries thereof, hold a referendum within the proposed watershed conservation district upon the proposition of the creation of the watershed conservation district. Due notice of the referendum shall be given by the supervisors. Such notice shall state the date of holding the referendum, the hours of opening and closing the polls, and shall designate one or more places within the proposed watershed conservation district as polling places and shall give notice that the directors shall have the power of eminent domain. The supervisors shall have full charge of the referendum and shall have suitable ballots printed and furnished to each polling place; appoint necessary box managers and other referendum officials, and shall canvass the refer-

endum and announce the results. The cost of holding the referendum shall be paid from the general fund of Hampton County. *Provided,* that notwithstanding any provision of law to the contrary the power of eminent domain shall not be exercised over the protest of any landowner until it is conclusively established that the land proposed to be condemned is absolutely essential to the creation and operation of the watershed conservation district.

SECTION 7. Question.—The question to be voted on shall be submitted by ballots upon which appear the words:

"For creation of ———— Watershed Conservation District"

"Against creation of ———— Watershed Conservation District"

A square shall follow each proposition. The ballot shall contain a direction to insert an "X" mark in the square following one or the other of the propositions as the voter may favor or oppose creation of the watershed conservation district. The ballot shall set forth the boundaries of the proposed watershed conservation district as determined by the supervisors of the soil conservation district. No one except owners of lands lying within the boundaries of the proposed watershed conservation district, as determined by the supervisors of the soil conservation district, shall be eligible to vote in the referendum. Qualified voters may vote by absentee ballot in the referendum under such rules and regulations as may be prescribed by the supervisors. No informalities in the conduct of the referendum or in any matters relating thereto shall invalidate the referendum or the result thereof if notice of the referendum shall have been given substantially as herein provided and the referendum shall have been fairly conducted.

SECTION 8. Results—district to be created if results and determination favorable.—The votes shall be counted by the referendum officials at the close of the polls and a report of the results along with the ballots shall be delivered and certified to the supervisors of the soil conservation district; and thereafter the supervisors shall determine whether the operation of the watershed conservation district within the defined boundaries is administratively practicable and feasible. If the supervisors determine that the operation of such district is not administratively practicable and feasible, they shall record such determination and deny the petition. If the supervisors determine that the operation of such district is administratively practicable and feasible, they shall record such determination and shall proceed with the organization of such district in the manner hereinafter set

forth; *provided,* however, that the supervisors shall not have authority to determine that the operation of such district is administratively practicable and feasible unless at least a majority of the votes cast in the referendum upon the proposition of the creation of such district shall have been cast in favor of the creation of such district. If the supervisors shall determine that the operation of such district is administratively practicable and feasible, they shall certify such determination to the Clerk of Court of Hampton County and to the Secretary of State. Upon proper recordation of such determination, such watershed conservation district shall constitute a governmental subdivision of this State and a public body corporate and politic. After being recorded, such certification shall be filed with the State Soil Conservation Committee.

SECTION 9. Board of directors to govern district—nominating petitions—election—ballots—terms—officers—bond of treasurer. —(1) The governing body of the watershed conservation district shall consist of five directors, elected as provided herein.

(2) Within thirty days after a watershed conservation district has been created, nominating petitions may be filed with the supervisors of the soil conservation district to nominate candidates for directors of the watershed conservation district. No such nominating petition shall be accepted by the supervisors unless it is signed by twenty-five or more landowners within the watershed conservation district, or, if less than fifty landowners are involved, by a majority of such landowners. If the candidates nominated do not exceed the number of directors to be chosen, the supervisors shall declare them to be elected. No person shall be eligible to be a director of a watershed conservation district who is not a landowner in the watershed conservation district in which he seeks election.

(3) If the candidates nominated for directors of the watershed conservation district exceed the number of directors to be chosen, the supervisors of the soil conservation district shall, after having given due notice thereof, cause an election to be held within the watershed conservation district within a reasonable time after the expiration of the nominating period. The provisions of Sections 5, 6 and 7 of this act as to notice, qualifications of voters, absentee voting, and the manner of holding the referendum in organizing a watershed conservation district, shall apply insofar as practicable to the election of the directors. The names of all qualified nominees shall be printed in alphabetical order upon ballots with a square before each

name and a direction to insert an "X" mark in the square before any five names to indicate the voter's preference. Only landowners within the watershed conservation district shall be eligible to vote in the election. The five candidates who shall receive the largest number respectively of the votes cast in the election shall be the directors of the watershed conservation district, and shall, upon the supervision of the supervisors of the soil conservation district, be the governing body of the watershed conservation district.

(4) Of the directors first elected, the two receiving the largest number of votes shall serve for terms of four years, the two receiving the next largest number of votes shall serve for terms of three years, and the one receiving the next largest number of votes shall serve for a term of two years. The term of office of each of their successors shall be for four years, and until their successors have been appointed or elected and qualify. Vacancies shall be filled in the manner of the original appointment for the unexpired portion of the term only.

(5) The directors shall annually designate from among their number a chairman, secretary, and treasurer. The treasurer shall execute an official bond for the faithful performance of the duties of his office, to be approved by the directors. Such bond shall be executed by a surety company authorized to do business in this State and shall be in an amount determined by the directors. The premium on each bond shall be paid by the watershed conservation district.

SECTION 10. District to be corporate body—powers and duties. —A watershed conservation district organized under the provisions of this act shall constitute a governmental subdivision of this State, and a public body corporate and politic, exercising public powers, and such district and the directors thereof shall, subject to the approval of the supervisors of the soil conservation district, have the following powers, in addition to others granted in other sections of this act:

(1) To acquire, by purchase, exchange, lease, gift, grant, bequest, devise, or otherwise, or through condemnation proceedings in the manner provided in Sections 25-101 through 25-140 and Sections 33-121 through 33-148, Code of Laws of South Carolina, 1962, such lands, easements or rights-of-way as are needed to carry out any authorized purpose of the watershed conservation district; and to sell, lease, or otherwise dispose of any of its property or interests therein in furtherance of the purposes and provisions of this act;

(2) To construct, reconstruct, repair, enlarge, improve, operate, and maintain such works of improvement as may be necessary or con-

venient for the performance of any of the operations authorized by this act;

(3) To borrow money and to execute promissory notes and other evidences of debt in connection therewith for payment of the costs and expenses of organizing the watershed conservation district or for carrying out any authorized purpose of such district, and if promissory notes are issued, to execute such mortgages on any property owned by such district, or assign or pledge such revenues or assessments of such district as may be required by the lender as security for the repayment of the loan; and to issue, negotiate, and sell its bonds as provided in Section 11 of this act;

(4) To levy an annual tax on the real property within the district subject to the limitations provided in Section 13 of this act for payment of the costs and expenses of organizing the watershed conservation district or for carrying out any authorized purpose of such district. Such levy shall be made only after approval by the supervisors of the soil conservation district and upon notifying the county auditor.

(5) Where watersheds cross county or state lines, the watershed directors are authorized to work with similar organizations in determining cost sharing to solve common problems.

SECTION 11. Bonds not to be issued unless referendum held.—(1) Bonds authorized by Section 10 of this act shall not be issued until proposed by order or resolution of the directors of the watershed conservation district, specifying the purpose for which the funds are to be used and the proposed undertaking, the amount of bonds to be issued, the rate of interest they are to bear, and the amount of any necessary tax levy in excess of the maximum authorized in Section 13 of this act. A copy of the order or resolution shall be certified to the supervisors of the soil conservation district.

(2) The supervisors shall hold a hearing on such proposal after having given due notice. If it appears that the proposal is within the scope and purpose of this act and meets all other requirements of the law, the proposal shall be submitted to the landowners of the district by a referendum held by the supervisors.

(3) The provisions of Sections 5, 6 and 7 of this act as to notice, qualifications of voters, absentee voting, and manner of holding the referendum in organizing a watershed conservation district shall apply to the referendum held under this section.

(4) If two-thirds of the votes cast in such referendum favor the proposal, the directors shall, with the approval of the supervisors, be authorized to issue such bonds.

SECTION 12. Compensation.—The directors of the watershed conservation district shall receive no compensation for their services, but they may be reimbursed for expenses, including traveling expenses, necessarily incurred in the performance of their duties as approved by the supervisors of the soil conservation district.

SECTION 13. Budget—tax levy.—Within the first quarter of each calendar year, the directors of the watershed conservation district shall prepare an itemized budget of the funds needed for administration of the watershed conservation district and for construction, operation and maintenance of works of improvement. After approval of such budget by the supervisors of the soil conservation district, the county auditor shall levy a tax sufficient to meet such budget on all real property within the watershed conservation district of not to exceed five mills on each dollar of assessed valuation, except that this limitation shall not apply to any levy necessary to provide a sinking fund for the retirement of bonds authorized by Section 11 of this act. A copy of such budget shall be certified to the Auditor of Hampton County.

SECTION 14. List of landowners and acres subject to assessment.—(1) The directors of the watershed conservation district, with the assistance of the county auditor, shall prepare a list of the landowners involved showing the number of acres subject to assessment.

(2) When the property tax rolls are delivered to the county treasurer by the county auditor, as required by law, the county treasurer shall compute the tax due the watershed conservation district from each landowner in accordance with the rate fixed by the directors and the value of the real property indicated on the tax roll. The computation shall be made on the regular tax bills.

SECTION 15. Collection of taxes.—(1) The county treasurer shall collect the taxes due the watershed conservation district at the same time and in the same manner as he collects other taxes of the county.

(2) The taxes shall be subject to the same due and delinquency dates, discounts, penalties and interests as are applied to the collection of county taxes.

SECTION 16. Expenditures.—Tax funds collected shall be transferred to and held by the treasurer of the watershed conservation district for the specific purpose for which they have been collected. All expenditures of such funds shall be made by the directors of the

watershed conservation district with the approval of the supervisors of the soil conservation district.

SECTION 17. Petition to have lands detached.—The owners of lands which have not been, are not and cannot be benefited by their inclusion in the watershed conservation district may petition the supervisors of the soil conservation district to have such lands detached. The petition shall describe such lands and state the reasons why they should be detached. A hearing shall be held by the supervisors within thirty days after the petition is filed and due notice of such hearing shall be given by the supervisors. If it is determined by the supervisors that such lands shall be detached, such determination shall be certified to the Auditor of Hampton County for recording. After being recorded, the certification shall be filed with the State Soil Conservation Committee.

SECTION 18. Petition for discontinuance of district—hearing—referendum—discontinuance if election and determination favorable.—(1) At any time after five years after the organization of a watershed conservation district, twenty-five or more landowners within such district, or if less than fifty landowners are involved, a majority of such landowners, may file a petition with the supervisors of the soil conservation district asking that the existence of the watershed conservation district be discontinued. The petition shall state the reasons for discontinuance, and that all obligations of the watershed conservation district have been met. The supervisors may conduct such hearings upon the petition as may be necessary to assist them in the consideration thereof.

(2) Within sixty days after such petition has been filed with the supervisors they shall give due notice of the holding of a referendum. The supervisors shall hold such referendum substantially as provided for in Section 11 of this act. The question shall be submitted by ballots upon which the words "For terminating the existence of the ———— Watershed Conservation District" and "Against terminating the existence of the ———— Watershed Conservation District" shall be printed, with a square before each proposition and a direction to insert an "X" mark in the square before one or the other of the propositions as the voter may favor or oppose the discontinuance of such watershed conservation district. Only landowners within the watershed conservation district shall be eligible to vote in such referendum. No informality in the conduct of the referendum or in any matters relating thereto shall invalidate the

referendum or the results thereof if notice of the referendum shall have been given substantially as herein provided and the referendum shall have been fairly conducted.

(3) The supervisors shall publish the results of the referendum and shall thereafter determine whether the continued operation of the watershed conservation district is administratively practicable and feasible. If the supervisors determine that the continued operation of the watershed conservation district is administratively practicable and feasible, they shall record such determination and deny the petition. If the supervisors determine that the continued operation of the watershed conservation district is not administratively practicable and feasible, they shall record such determination and shall certify such determination to the directors of the watershed conservation district; *provided,* however, that the supervisors shall not be authorized to determine that the continued operation of the watershed conservation district is administratively practicable and feasible unless at least a majority of the votes cast in the referendum shall have been cast in favor of the continuance of the watershed conservation district.

(4) Upon receipt from the supervisors of a certification that they have determined that the continued operation of the watershed conservation district is not administratively practicable and feasible, the directors shall forthwith proceed to terminate the affairs of the watershed conservation district. A copy of the determination shall be certified to the Auditor of Hampton County for recording. After being recorded, the certification shall be filed with the State Soil Conservation Committee.

SECTION 19. Supervisory authority if district discontinued.—If the Hampton County Soil Conservation District is discontinued, all supervisory authority over the affairs of the watershed conservation district which was previously exercised by the supervisors shall thereafter be exercised by the governing body of Hampton County.

SECTION 20. Time effective.—This act shall take effect upon approval by the Governor.

Approved the 1st day of April, 1965.

No. 655

An Act Providing For The Creation Of Watershed Conservation Districts In Jasper County, And The Election Of Directors Of Watershed Conservation Districts And Their Powers And Duties; And Providing For A Levy Of Taxes For The Organization And Administration Of Such Districts, And For The Construction, Operation And Maintenance Of Works Of Improvement Within Such Districts.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Definitions.—Whenever used or referred to in this act, unless a different meaning clearly appears from the context:

(1) "Watershed conservation district" means a governmental subdivision of this State, and a public body corporate and politic, organized in accordance with the provisions of this act, for the purposes, with the powers, and subject to the restrictions hereinafter set forth.

(2) "Director" means one of the members of the governing body of a watershed conservation district, elected in accordance with the provisions of this act.

(3) "Supervisor" means one of the members of the governing body of the Jasper Soil Conservation District in which any part of a watershed conservation district is situated.

(4) "Petition" means a petition filed under the provision of Section 4 of this act for the creation of a watershed conservation district.

(5) "County" means Jasper County of South Carolina.

(6) "Landowner" or "owner of land" includes any person, firm or corporation who shall hold legal or equitable title to any lands lying within a watershed conservation district organized under the provisions of this act.

(7) "Due notice" means notice published at least twice, with an interval of at least one week between the two publication dates, in a publication of general circulation within the appropriate area, or, if no such publication of general circulation be available, notice posted at a reasonable number of conspicuous places within the appropriate area, such posting to include, where possible, posting at public places where it is customary to post notices concerning county or municipal affairs generally.

SECTION 2. Watershed Conservation Districts may be formed in Jasper County.—Authority is hereby granted to form watershed

conservation districts within Jasper County for the purpose of developing and executing plans and programs relating to any phase of the control and prevention of soil erosion, flood prevention, or the conservation, development, utilization, and disposal of water.

SECTION 3. Area.—The area embraced in a watershed conservation district must be contiguous and must lie within a well-defined watershed; and such area shall not include lands located within the boundary of any incorporated city or town, or lands embraced in another watershed conservation district.

SECTION 4. Petition for formation.—When twenty-five or more landowners within a proposed watershed conservation district, or, if less than fifty landowners are involved, a majority of such landowners, desire to form a watershed conservation district, they shall file a petition with the supervisors of the soil conservation district asking that a watershed conservation district be organized to function in the area described in the petition. Such petition shall set forth the proposed name of the watershed conservation district; that there is need, in the interest of the public health, safety, and welfare, for a watershed conservation district to function in the territory described in the petition; a description of the territory proposed to be organized as a watershed conservation district, which description need not be given by metes and bounds or by legal subdivisions, but shall be deemed sufficient if generally accurate; and the approximate number of acres of land included in the proposed watershed conservation district.

SECTION 5. Hearing on petition.—(1) Within thirty days after such petition has been filed with the supervisors of the soil conservation district, they shall cause due notice to be given of a hearing upon the question of the desirability and necessity, in the interest of the public health, safety, and welfare, of the creation of such watershed conservation district. All interested parties shall have the right to attend such hearing and to be heard. If it shall appear at the hearing that other lands should be included in the petition or that lands included in the petition should be excluded, the supervisors shall permit such inclusion or exclusion, provided the land area involved still meets the requirements of Section 3 of this act.

(2) If it appears upon the hearing that it may be desirable to include within the proposed watershed conservation district territory outside of the area within which due notice of the hearing has been given, the hearing shall be adjourned and due notice of a further

hearing shall be given throughout the entire area considered for inclusion in the proposed watershed conservation district, and such further hearing shall be held. After final hearing, if the supervisors of the soil conservation district determine, upon the facts presented at the hearing and upon other available information, that there is need, in the interest of the public health, safety, and welfare, for a watershed conservation district to function in the territory considered at the hearing, they shall make and record such determination, and shall define the area, but the description need not be given by metes and bounds. The description shall be deemed sufficient if generally accurate and the approximate number of acres of land included in the proposed watershed conservation district is shown.

(3) If the supervisors of the soil conservation district determine after such hearing that there is no need for a watershed conservation district to function in the territory considered at the hearing, they shall make and record such determination and shall deny the petition.

SECTION 6. Referendum.—After the supervisors of the soil conservation district have made and recorded a determination that there is need, in the interest of the public health, safety, and welfare, for a watershed conservation district to function in the territory considered at the hearing, and have defined the boundaries thereof, they shall consider the question whether the operation of a watershed conservation district within the proposed boundaries with the powers conferred upon it by this act is administratively practicable and feasible. To assist the supervisors in making this determination, they shall, within a reasonable time after the entry of a finding that there is need for the organization of a watershed conservation district and the determination of the boundaries thereof, hold a referendum within the proposed watershed conservation district upon the proposition of the creation of the watershed conservation district. Due notice of the referendum shall be given by the supervisors. Such notice shall state the date of holding the referendum, the hours of opening and closing the polls, and shall designate one or more places within the proposed watershed conservation district as polling places and shall give notice that the directors shall have the power of eminent domain. The supervisors shall have full charge of the referendum and shall have suitable ballots printed and furnished to each polling place; appoint necessary box managers and other referendum officials, and shall canvass the referendum and announce the results. The cost of holding the referendum shall be paid from the general fund of Jasper County. *Provided,*

that notwithstanding any provision of law to the contrary the power of eminent domain shall not be exercised over the protest of any landowner until it is conclusively established that the land proposed to be condemned is absolutely essential to the creation and operation of the watershed conservation district.

SECTION 7. Question.—The question to be voted on shall be submitted by ballots upon which appear the words:

"For creation of .....Watershed Conservation District"
"Against creation of .....Watershed Conservation District"

A square shall follow each proposition. The ballot shall contain a direction to insert an "X" mark in the square following one or the other of the propositions as the voter may favor or oppose creation of the watershed conservation district. The ballot shall set forth the boundaries of the proposed watershed conservation district as determined by the supervisors of the soil conservation district. No one except owners of lands lying within the boundaries of the proposed watershed conservation district, as determined by the supervisors of the soil conservation district, shall be eligible to vote in the referendum. Qualified voters may vote by absentee ballot in the referendum under such rules and regulations as may be prescribed by the supervisors. No informalities in the conduct of the referendum or in any matters relating thereto shall invalidate the referendum or the result thereof if notice of the referendum shall have been given substantially as herein provided and the referendum shall have been fairly conducted.

SECTION 8. Results—district to be created if results and determination favorable.—The votes shall be counted by the referendum officials at the close of the polls and a report of the results along with the ballots shall be delivered and certified to the supervisors of the soil conservation district; and thereafter the supervisors shall determine whether the operation of the watershed conservation district within the defined boundaries is administratively practicable and feasible. If the supervisors determine that the operation of such district is not administratively practicable and feasible, they shall record such determination and deny the petition. No such nominating petition shall be accepted by the supervisors unless it is signed by twenty-five or more landowners within the watershed conservation district, or, if less than fifty landowners are involved, by a majority of such landowners. If the candidates nominated do not exceed the number of directors to be chosen, the supervisors shall declare them to be elected. (3) If the candidates nominated for directors of the watershed conservation district exceed the number of directors to be chosen, the supervisors of the soil conservation district shall, after having given due notice thereof, cause an election to be held within the watershed conservation district within a reasonable time after the expiration of the nominating period. The provisions of Sections 5, 6 and 7 of this act as to notice, qualifications of voters, absentee voting, and the manner of holding the referendum in organizing a watershed conservation district, shall apply insofar as practicable to the election of the directors. The names of all qualified nominees shall be printed in alphabetical order upon ballots with a square before each name and a direction to insert an "X" mark in the square before any five names to indicate the voter's preference. Only landowners within the water-

The premium on each bond shall be paid by the watershed conservation district.

SECTION 10. (1) To acquire, by purchase, exchange, lease, gift, grant, bequest, devise, or otherwise, or through condemnation proceedings in the manner provided in Sections 25-101 through 25-140 and Sections 33-121 through 33-148, Code of Laws of South Carolina, 1962, such lands, easements, or rights-of-way as are needed to carry out any authorized purpose of the watershed conservation district; and to sell, lease, or otherwise dispose of any of its property or interests therein in furtherance of the purposes and provisions of this act; *Provided,* that the power of eminent domain conferred hereunder shall not extend to the property of any public utility that the utility could have acquired under its power of eminent domain.

(4) To levy an annual tax on the real property within the district subject to the limitations provided in Section 13 of this act for payment of the costs and expenses of organizing the watershed conservation district or for carrying out any authorized purpose of such district. Such levy shall be made only after approval by the supervisors of the soil conservation district and upon notifying the county auditor.

(5) Where watersheds cross county or state lines, the watershed directors are authorized to work with similar organizations in determining cost sharing to solve common problems.

SECTION 11. Bonds not to be issued unless referendum held.—(1) Bonds authorized by Section 10 of this act shall not be issued until proposed by order or resolution of the directors of the watershed conservation district, specifying the purpose for which the funds are to be used and the proposed undertaking, the amount of bonds to be issued, the rate of interest they are to bear, and the amount of any necessary tax levy in excess of the maximum authorized in Section 13 of this act. A copy of the order or resolution shall be certified to the supervisors of the soil conservation district.

(2) The supervisors shall hold a hearing on such proposal after having given due notice. If it appears that the proposal is within the scope and purpose of this act and meets all other requirements of the law, the proposal shall be submitted to the landowners of the district by a referendum held by the supervisors.

(3) The provisions of Sections 5, 6 and 7 of this act as to notice, qualifications of voters, absentee voting, and manner of holding the referendum in organizing a watershed conservation district shall apply to the referendum held under this section.

(4) If two-thirds of the votes cast in such referendum favor the proposal, the directors shall, with the approval of the supervisors, be authorized to issue such bonds.

SECTION 12. Compensation.—The directors of the watershed conservation district shall receive no compensation for their services, but they may be reimbursed for expenses, including traveling expenses, necessarily incurred in the performance of their duties as approved by the supervisors of the soil conservation district.

SECTION 13. Budget—tax levy.—Within the first quarter of each calendar year, the directors of the watershed conservation district shall prepare an itemized budget of the funds needed for administration of the watershed conservation district and for construction, operation and maintenance of works of improvement. After approval of such budget by the supervisors of the soil conservation district, the county auditor shall levy a tax sufficient to meet such budget on all real property within the watershed conservation district of not to exceed five mills on each dollar of assessed valuation, except that this limitation shall not apply to any levy necessary to provide a sinking fund for the retirement of bonds authorized by Section 11 of this act. A copy of such budget shall be certified to the Auditor of Jasper County.

SECTION 14. List of landowners and acres subject to assessment.—(1) The directors of the watershed conservation district, with the assistance of the county auditor, shall prepare a list of the landowners involved showing the number of acres subject to assessment.

(2) When the property tax rolls are delivered to the county treasurer by the county auditor, as required by law, the county treasurer shall compute the tax due the watershed conservation district from each landowner in accordance with the rate fixed by the directors and the value of the real property indicated on the tax roll. The computation shall be made on the regular tax bills.

SECTION 15. Collection of taxes.—(1) The county treasurer shall collect the taxes due the watershed conservation district at the same time and in the same manner as he collects other taxes of the county.

(2) The taxes shall be subject to the same due and delinquency dates, discounts, penalties and interests as are applied to the collection of county taxes.

SECTION 16. Expenditures.—Tax funds collected shall be transferred to and held by the treasurer of the watershed conservation district for the specific purpose for which they have been collected. All expenditures of such funds shall be made by the directors of the watershed conservation district with the approval of the supervisors of the soil conservation district.

Petition to have lands detached.—The owners of lands which have not been, are not and cannot be benefited by their inclusion in the watershed conservation district may petition the supervisors of the soil conservation district to have such lands detached. The petition shall describe such lands and state the reasons why they should be detached. A hearing shall be held by the supervisors within thirty days after the petition is filed and due notice of such hearing shall be given by the supervisors. If it is determined by the supervisors that such lands shall be detached, such determination shall be certified to the Auditor of Jasper County for recording. After being recorded, the certification shall be filed with the State Soil Conservation Committee.

SECTION 18. Petition for discontinuance of district—hearing—referendum—discontinuance if election and determination favorable.—(1) At any time after five years after the organization of a watershed conservation district, twenty-five or more landowners within such district, or if less than fifty landowners are involved, a majority of such landowners, may file a petition with the supervisors of the soil conservation district asking that the existence of the watershed conservation district be discontinued. The petition shall state the reasons for discontinuance, and that all obligations of the watershed conservation district have been met. The supervisors may conduct such hearings upon the petition as may be necessary to assist them in the consideration thereof.

(2) Within sixty days after such petition has been filed with the supervisors they shall give due notice of the holding of a referendum. The supervisors shall hold such referendum substantially as provided for in Section 11 of this act. The question shall be submitted by ballots upon which the words "For terminating the existence of the..... Watershed Conservation District" and "Against terminating the existence of the ..... Watershed Conservation District" shall be printed, with a square before each proposition and a direction to insert an "X" mark in the square before one or the other of the propositions as the voter may favor or oppose the discontinuance of

such watershed conservation district. Only landowners within the watershed conservation district shall be eligible to vote in such referendum. No informality in the conduct of the referendum or in any matters relating thereto shall invalidate the referendum or the results thereof if notice of the referendum shall have been given substantially as herein provided and the referendum shall have been fairly conducted.

(3) The supervisors shall publish the results of the referendum and shall thereafter determine whether the continued operation of the watershed conservation district is administratively practicable and feasible. If the supervisors determine that the continued operation of the watershed conservation district is administratively practicable and feasible, they shall record such determination and deny the petition. If the supervisors determine that the continued operation of the watershed conservation district is not administratively practicable and feasible, they shall record such determination and shall certify such determination to the directors of the watershed conservation district; *provided,* however, that the supervisors shall not be authorized to determine that the continued operation of the watershed conservation district is administratively practicable and feasible unless at least a majority of the votes cast in the referendum shall have been cast in favor of the continuance of the watershed conservation district.

(4) Upon receipt from the supervisors of a certification that they have determined that the continued operation of the watershed conservation district is not administratively practicable and feasible, the directors shall forthwith proceed to terminate the affairs of the watershed conservation district. A copy of the determination shall be certified to the Auditor of Jasper County for recording. After being recorded, the certification shall be filed with the State Soil Conservation Committee.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Findings of General Assembly.—The General Assembly finds that the School District of Lancaster County (The School District) has a need for further school facilities in order to accommodate pupils attending the public school system in the school district. It has therefore determined to authorize the Lancaster County Board of Education (the board) to effect the acquisition of further school facilities through the constructing and equipping of buildings and the renovation and improvement of existing buildings to the extent of one million seven hundred thousand dollars or such lesser sum as may, upon the occasions of the issuance of bonds, be determined to be within the constitutional limitation applicable to the school district.

SECTION 2. Lancaster County may acquire additional school facilities.—The Lancaster County Board of Education is empowered to acquire such further school facilities as may be procured through the issuance and sale of the bonds authorized hereby and through such other funds made available to the board, and to that end, shall be empowered to construct and equip new school buildings, to improve, enlarge and re-equip existing school buildings, and to acquire such land as may be needed therefor.

SECTION 3. Bond issue authorized.—In order to obtain funds for the purposes above set forth, the board is hereby authorized and empowered to issue not exceeding one million seven hundred thousand dollars of general obligation bonds of The School District of Lancaster County. The proceeds derived from the sale of such bonds shall be disposed of as follows:

(a) Any accrued interest shall be applied to the payment of the first installment of interest to become due on such bonds.

(b) Any premium shall be applied to the payment of the first installment of principal of such bonds.

(c) The remaining proceeds shall be used upon warrants of the board to defray the cost of issuing the bonds authorized hereby, and to acquire further school facilities as provided herein.

(d) If any balance remain, the same shall be held by the Treasurer of Lancaster County in a special fund and used to effect the retirement of bonds authorized hereby.

SECTION 4. Issues—maturity—redemption—interest—dates.—The bonds may be issued as a single issue, or from time to time

as several separate issues in the discretion of the board; *provided,* that no bonds shall be issued later than three years after the effective date of this act. All bonds shall mature serially in successive annual installments of such amounts as may be determined by the board, except that the maturity date of the last installment of any bonds issued hereunder shall fall due not later than twenty-five years from the date such bonds bear. Any bond issued pursuant to this act may, at the discretion of the board, contain a provision permitting its redemption prior to its stated maturity at such redemption premium as the board shall prescribe. The bonds shall be of such denomination, shall bear such rate of interest as the board may determine, payable on such occasions as the board shall determine. The bonds may be issued with the privilege to the holder of having them registered as to principal on the books of the Treasurer of Lancaster County, and the principal thus made payable to the registered holder (unless the last registered transfer shall have been to bearer), upon such conditions as the board may prescribe. They shall bear such date and be payable at such places as the board may likewise prescribe.

SECTION 5. Execution.—The bonds and the interest coupons thereto attached shall be executed in such manner as the board shall prescribe.

SECTION 6. Sale.—The bonds shall be sold by the board at not less than par and accrued interest to the date of their respective deliveries at public sale, and at least ten days prior to any sale, notice, announcing the intention to receive bids for the sale of any bonds authorized by this act, shall be published in a newspaper of general circulation in the State of South Carolina.

SECTION 7. Exempt from taxes.—The bonds and all interest to become due thereon shall have the tax exempt status as prescribed by Section 65-4.1 of the 1962 Code.

SECTION 8. Payment.—For the payment of the principal and interest of all bonds issued pursuant to this act as the same respectively mature, and for the creation of such sinking fund as may be necessary therefor, the full faith, credit and taxing power of The School District of Lancaster County shall be irrevocably pledged, and there shall be levied annually by the Auditor of Lancaster County, and collected by the Treasurer of Lancaster County, in the same manner as county

taxes are levied and collected, a tax without limit, on all taxable property in the school district, sufficient to pay the principal and interest of such bonds as they respectively mature and to create such sinking fund as may be necessary therefor; *provided,* that, until changed by subsequent enactment, the ad valorem tax levy shall be reduced to the extent that there is on deposit with the Treasurer of Lancaster County, on the occasion in each year when the ad valorem tax levy is to be made, moneys derived from contributions or grants from the State of South Carolina to The School District of Lancaster County for capital improvements for school facilities which can be used for the payment of such principal and interest, and in all instances where an annual tax levy is so reduced, the moneys derived from such contributions and grants shall be applied to the payment of such principal and interest and to no other purpose.

SECTION 9. When action may be taken.—Any action required of the board may be taken at any meeting of the board, regular or special, and at such meeting a majority of the members of the board shall constitute a quorum for the purpose of adopting a resolution making provision for the issuance of bonds pursuant to this act, awarding the sale of such bonds, or taking any other action permitted or required of the board by the provisions of this act.

(2) If it appears upon the hearing that it may be desirable to include within the proposed watershed conservation district territory

outside of the area within which due notice of the hearing has been given, the hearing shall be adjourned and due notice of a further hearing shall be given throughout the entire area considered for inclusion in the proposed watershed conservation district, and such further hearing shall be held. After final hearing, if the supervisors of the soil conservation district determine, upon the facts presented at the hearing and upon other available information, that there is need, in the interest of the public health, safety, and welfare, for a watershed conservation district to function in the territory considered at the hearing, they shall make and record such determination, and shall define the area, but the description need not be given by metes and bounds. The description shall be deemed sufficient if generally accurate and the approximate number of acres of land included in the proposed watershed conservation district is shown.

(3) If the supervisors of the soil conservation district determine after such hearing that there is no need for a watershed conservation district to function in the territory considered at the hearing, they shall make and record such determination and shall deny the petition.

SECTION 6. Referendum.—After the supervisors of the soil conservation district have made and recorded a determination that there is need, in the interest of the public health, safety, and welfare, for a watershed conservation district to function in the territory considered at the hearing, and have defined the boundaries thereof, they shall consider the question whether the operation of a watershed conservation district within the proposed boundaries with the powers conferred upon it by this act is administratively practicable and feasible. To assist the supervisors in making this determination, they shall, within a reasonable time after the entry of a finding that there is need for the organization of a watershed conservation district and the determination of the boundaries thereof, hold a referendum within the proposed watershed conservation district upon the proposition of the creation of the watershed conservation district. Due notice of the referendum shall be given by the supervisors. Such notice shall state the date of holding the referendum, the hours of opening and closing the polls, and shall designate one or more places within the proposed watershed conservation district as polling places and shall give notice that the directors shall have the power of eminent domain. The supervisors shall have full charge of the referendum and shall have suitable ballots printed and furnished to each polling place; appoint necessary box managers and other referendum officials, and shall canvass

the referendum and announce the results. The cost of holding the referendum shall be paid from the general fund of McCormick County. *Provided,* that notwithstanding any provision of law to the contrary the power of eminent domain shall not be exercised over the protest of any landowner until it is conclusively established that the land proposed to be condemned is absolutely essential to the creation and operation of the watershed conservation district.

SECTION 7. Question.—The question to be voted on shall be submitted by ballots upon which appear the words:

"For creation of ———— Watershed Conservation District"

"Against creation of ———— Watershed Conservation District"

A square shall follow each proposition. The ballot shall contain a direction to insert an "X" mark in the square following one or the other of the propositions as the voter may favor or oppose creation of the watershed conservation district. The ballot shall set forth the boundaries of the proposed watershed conservation district as determined by the supervisors of the soil conservation district. No one except owners of lands lying within the boundaries of the proposed watershed conservation district, as determined by the supervisors of the soil conservation district, shall be eligible to vote in the referendum. Qualified voters may vote by absentee ballot in the referendum under such rules and regulations as may be prescribed by the supervisors. No informalities in the conduct of the referendum or in any matters relating thereto shall invalidate the referendum or the result thereof if notice of the referendum shall have been given substantially as herein provided and the referendum shall have been fairly conducted.

SECTION 8. Results—district to be created if results and determination favorable.—The votes shall be counted by the referendum officials at the close of the polls and a report of the results along with the ballots shall be delivered and certified to the supervisors of the soil conservation district; and thereafter the supervisors shall determine whether the operation of the watershed conservation district within the defined boundaries is administratively practicable and feasible. If the supervisors determine that the operation of such district is not administratively practicable and feasible, they shall record such determination and deny the petition. If the supervisors determine that the operation of such district is administratively practicable and feasible, they shall record such determination and shall proceed with the organization of such district in the manner hereinafter set forth; *provided,* however, that the supervisors shall not have authority to

determine that the operation of such district is administratively practicable and feasible unless at least a majority of the votes cast in the referendum upon the proposition of the creation of such district shall have been cast in favor of the creation of such district. If the supervisors shall determine that the operation of such district is administratively practicable and feasible, they shall certify such determination to the Clerk of Court of McCormick County and to the Secretary of State. Upon proper recordation of such determination, such watershed conservation district shall constitute a governmental subdivision of this State and a public body corporate and politic. After being recorded, such certification shall be filed with the State Soil Conservation Committee.

SECTION 9. Board of directors to govern district—nominating petitions—election—ballots—terms—officers—bond of treasurer. —(1) The governing body of the watershed conservation district shall consist of five directors, elected as provided herein.

(2) Within thirty days after a watershed conservation district has been created, nominating petitions may be filed with the supervisors of the soil conservation district to nominate candidates for directors of the watershed conservation district. No such nominating petition shall be accepted by the supervisors unless it is signed by twenty-five or more landowners within the watershed conservation district, or, if less than fifty landowners are involved, by a majority of such landowners. If the candidates nominated do not exceed the number of directors to be chosen, the supervisors shall declare them to be elected. No person shall be eligible to be a director of a watershed conservation district who is not a landowner in the watershed conservation district in which he seeks election.

(3) If the candidates nominated for directors of the watershed conservation district exceed the number of directors to be chosen, the supervisors of the soil conservation district shall, after having given due notice thereof, cause an election to be held within the watershed conservation district within a reasonable time after the expiration of the nominating period. The provisions of Sections 5, 6 and 7 of this act as to notice, qualifications of voters, absentee voting, and the manner of holding the referendum in organizing a watershed conservation district, shall apply insofar as practicable to the election of the directors. The names of all qualified nominees shall be printed in alphabetical order upon ballots with a square before each name and a direction to insert an "X" mark in the square be-

fore any five names to indicate the voter's preference. Only landowners within the watershed conservation district shall be eligible to vote in the election. The five candidates who shall receive the largest number respectively of the votes cast in the election shall be the directors of the watershed conservation district, and shall, upon the supervision of the supervisors of the soil conservation district, be the governing body of the watershed conservation district.

(4) Of the directors first elected, the two receiving the largest number of votes shall serve for terms of four years, the two receiving the next largest number of votes shall serve for terms of three years, and the one receiving the next largest number of votes shall serve for a term of two years. The term of office of each of their successors shall be for four years, and until their successors have been appointed or elected and qualify. Vacancies shall be filled in the manner of the original appointment for the unexpired portion of the term only.

(5) The directors shall annually designate from among their number a chairman, secretary, and treasurer. The treasurer shall execute an official bond for the faithful performance of the duties of his office, to be approved by the directors. Such bond shall be executed by a surety company authorized to do business in this State and shall be in an amount determined by the directors. The premium on each bond shall be paid by the watershed conservation district.

SECTION 10. District to be corporate body—powers and duties.—A watershed conservation district organized under the provisions of this act shall constitute a governmental subdivision of this State, and a public body corporate and politic, exercising public powers, and such district and the directors thereof shall, subject to the approval of the supervisors of the soil conservation district, have the following powers, in addition to others granted in other sections of this act:

(1) to acquire, by purchase, exchange, lease, gift, grant, bequest, devise, or otherwise, or through condemnation proceedings in the manner provided in Sections 25-101 through 25-140 and Sections 33-121 through 33-148, Code of Laws of South Carolina, 1962, such lands, easements, or rights-of-way as are needed to carry out any authorized purpose of the watershed conservation district; and to sell, lease, or otherwise dispose of any of its property or interests therein in furtherance of the purposes and provisions of this act;

(2) To construct, reconstruct, repair, enlarge, improve, operate, and maintain such works of improvement as may be necessary or con-

venient for the performance of any of the operations authorized by this act;

(3) To borrow money and to execute promissory notes and other evidences of debt in connection therewith for payment of the costs and expenses of organizing the watershed conservation district or for carrying out any authorized purpose of such district, and if promissory notes are issued, to execute such mortgages on any property owned by such district, or assign or pledge such revenues or assessments of such district as may be required by the lender as security for the repayment of the loan; and to issue, negotiate, and sell its bonds as provided in Section 11 of this act;

(4) To levy an annual tax on the real property within the district subject to the limitations provided in Section 13 of this act for payment of the costs and expenses of organizing the watershed conservation district or for carrying out any authorized purpose of such district. Such levy shall be made only after approval by the supervisors of the soil conservation district and upon notifying the county auditor.

(5) Where watersheds cross county or state lines, the watershed directors are authorized to work with similar organizations in determining cost sharing to solve common problems.

SECTION 11. Bonds not to be issued unless referendum held.—(1) Bonds authorized by Section 10 of this act shall not be issued until proposed by order or resolution of the directors of the watershed conservation district, specifying the purpose for which the funds are to be used and the proposed undertaking, the amount of bonds to be issued, the rate of interest they are to bear, and the amount of any necessary tax levy in excess of the maximum authorized in Section 13 of this act. A copy of the order or resolution shall be certified to the supervisors of the soil conservation district.

(2) The supervisors shall hold a hearing on such proposal after having given due notice. If it appears that the proposal is within the scope and purpose of this act and meets all other requirements of the law, the proposal shall be submitted to the landowners of the district by a referendum held by the supervisors.

(3) The provisions of Sections 5, 6 and 7 of this act as to notice, qualifications of voters, absentee voting, and manner of holding the referendum in organizing a watershed conservation district shall apply to the referendum held under this section.

(4) If two-thirds of the votes cast in such referendum favor the proposal, the directors shall, with the approval of the supervisors, be authorized to issue such bonds.

SECTION 12. Compensation.—The directors of the watershed conservation district shall receive no compensation for their services, but they may be reimbursed for expenses, including traveling expenses, necessarily incurred in the performance of their duties as approved by the supervisors of the soil conservation district.

SECTION 13. Budget—tax levy.—Within the first quarter of each calendar year, the directors of the watershed conservation district shall prepare an itemized budget of the funds needed for administration of the watershed conservation district and for construction, operation and maintenance of works of improvement. After approval of such budget by the supervisors of the soil conservation district, the county auditor shall levy a tax sufficient to meet such budget on all real property within the watershed conservation district of not to exceed five mills on each dollar of assessed valuation, except that this limitation shall not apply to any levy necessary to provide a sinking fund for the retirement of bonds authorized by Section 11 of this act. A copy of such budget shall be certified to the Auditor of McCormick County.

SECTION 14. List of landowners and acres subject to assessment.—(1) The directors of the watershed conservation district, with the assistance of the county auditor, shall prepare a list of the landowners involved showing the number of acres subject to assessment.

(2) When the property tax rolls are delivered to the county treasurer by the county auditor, as required by law, the county treasurer shall compute the tax due the watershed conservation district from each landowner in accordance with the rate fixed by the directors and the value of the real property indicated on the tax roll. The computation shall be made on the regular tax bills.

SECTION 15. Collection of taxes.—(1) The county treasurer shall collect the taxes due the watershed conservation district at the same time and in the same manner as he collects other taxes of the county.

(2) The taxes shall be subject to the same due and delinquency dates, discounts, penalties and interests as are applied to the collection of county taxes.

SECTION 16. Expenditures.—Tax funds collected shall be transferred to and held by the treasurer of the watershed conservation district for the specific purpose for which they have been collected.

All expenditures of such funds shall be made by the directors of the watershed conservation district with the approval of the supervisors of the soil conservation district.

SECTION 17. Petition to have lands detached.—The owners of lands which have not been, are not and cannot be benefited by their inclusion in the watershed conservation district may petition the supervisors of the soil conservation district to have such lands detached. The petition shall describe such lands and state the reasons why they should be detached. A hearing shall be held by the supervisors within thirty days after the petition is filed and due notice of such hearing shall be given by the supervisors. If it is determined by the supervisors that such lands shall be detached, such determination shall be certified to the Auditor of McCormick County for recording. After being recorded, the certification shall be filed with the State Soil Conservation Committee.

SECTION 18. Petition for discontinuance of district—hearing—referendum—discontinuance if election and determination favorable.—(1) At any time after five years after the organization of a watershed conservation district, twenty-five or more landowners within such district, or if less than fifty landowners are involved, a majority of such landowners, may file a petition with the supervisors of the soil conservation district asking that the existence of the watershed conservation district be discontinued. The petition shall state the reasons for discontinuance, and that all obligations of the watershed conservation district have been met. The supervisors may conduct such hearings upon the petition as may be necessary to assist them in the consideration thereof.

(2) Within sixty days after such petition has been filed with the supervisors they shall give due notice of the holding of a referendum. The supervisors shall hold such referendum substantially as provided for in Section 11 of this act. The question shall be submitted by ballots upon which the words "For terminating the existence of the ———— Watershed Conservation District" and "Against terminating the existence of the ———— Wastershed Conservation District" shall be printed, with a square before each proposition and a direction to insert an "X" mark in the square before one or the other of the propositions as the voter may favor or oppose the discontinuance of such watershed conservation district. Only landowners within the watershed conservation district shall be eligible to vote in such referendum. No informality in the conduct of the

referendum or in any matters relating thereto shall invalidate the referendum or the results thereof if notice of the referendum shall have been given substantially as herein provided and the referendum shall have been fairly conducted.

(3) The supervisors shall publish the results of the referendum and shall thereafter determine whether the continued operation of the watershed conservation district is administratively practicable and feasible. If the supervisors determine that the continued operation of the watershed conservation district is administratively practicable and feasible, they shall record such determination and deny the petition. If the supervisors determine that the continued operation of the watershed conservation district is not administratively practicable and feasible, they shall record such determination and shall certify such determination to the directors of the watershed conservation district; *provided,* however, that the supervisors shall not be authorized to determine that the continued operation of the watershed conservation district is administratively practicable and feasible unless at least a majority of the votes cast in the referendum shall have been cast in favor of the continuance of the watershed conservation district.

(4) Upon receipt from the supervisors of a certification that they have determined that the continued operation of the watershed conservation district is not administratively practicable and feasible, the directors shall forthwith proceed to terminate the affairs of the watershed conservation district. A copy of the determination shall be certified to the Auditor of McCormick County for recording. After being recorded, the certification shall be filed with the State Soil Conservation Committee.

SECTION 19. Supervisory authority if district discontinued.—If the McCormick County Soil Conservation District is discontinued, all supervisory authority over the affairs of the watershed conservation district which was previously exercised by the supervisors shall thereafter be exercised by the governing body of McCormick County.

SECTION 20. Time effective.—This act shall take effect upon approval by the Governor.

Approved the 26th day of February, 1965.

All funds by this act provided for the Department of Public Welfare in Marlboro County shall be deposited in a bank to the credit of the Department of Public Welfare and disbursed by check signed by the county director and countersigned by a member of the Board of Public Welfare, to be by the board designated. *Provided,* the director's salary shall be paid by the County Commissioners as is customary in the claims against the county.

SECTION 2. The Board of County Highway Commissioners and all other officers of Marlboro County are requested and directed to be economical in the expenditure of all public funds, and to keep the expense below the appropriations when practicable and consistent with public requirements, and no unused appropriated fund shall be carried forward for the particular use in the succeeding year, but shall be transferred to the contingent fund provided for in this section. In no case shall the expenditure exceed the appropriation for any purpose; *provided,* that out of the surplus contingent fund are to be paid all necessary expenses for which no specific appropriation was made herein, and for unavoidable expenses in excess of the appropriations for any purpose. No officer, agent or employee of Marlboro County shall contract any debt for any purpose, or expend any sums in excess of the appropriations in this act provided for such specific purpose, and for any and all violations thereof they, and their bondsmen, shall be jointly and severally liable. Any officer, agent or employee shall be personally liable for any such debt contracted.

SECTION 3. All funds herein appropriated for Marlboro County Agricultural and Development Board shall be expended pursuant to the direction and authorization of the board.

SECTION 4. The sheriff of the county shall have the right, when ever he considers such necessary, to call in the county attorney to prosecute before any magistrate in any and all cases; the fee of the county attorney is to be approved and paid by the county commissioners. *Provided,* however, that no more than three hundred dollars shall be expended pursuant to this section.

SECTION 5. The sheriff of the county is hereby directed to so regulate the movement and activities of the rural policemen that all sections of the county shall enjoy the protection of the law without favor and without neglect.

The protection of all school property is hereby made a special mission of the sheriff and his force. He is particularly directed to so regulate the enforcement of the law as to protect school property from injury, theft and destruction; and to enforce the law against plowing in the roads. The contingent fund and uniform appropriation of one thousand five hundred dollars hereinabove made shall be expended by the Sheriff of Marlboro County for the enforcement of law and purchase of uniforms for county officers.

SECTION 6. The County Board of Highway Commissioners of Marlboro County is hereby declared to be the sole financial and purchasing agent of Marlboro County, and when any officer or board of the county desires new equipment or supplies, or replacement, or extraordinary service in connection with his or their office, or desires that any expenditure be made, or expense be incurred in regard to his or their office, whether specifically appropriated in this act or not, or desires to make any purchase or incur any expense, he shall file his request for same, in writing, with the County Board of Highway Commissioners, who shall make such purchase in accordance with provisions herein made. No officer or board shall have any authority to make contracts of purchase or incur other obligations in the name of the county except as authorized by law, and no contracts made, except as herein provided, shall be valid to bind the county. No bill account or invoice shall be paid unless the procedure hereinabove set forth has been complied with except upon written approval of the delegation.

SECTION 7. The appropriation of twelve thousand five hundred dollars for the treatment in Marlboro County General Hospital of deserving charity patients, whose condition demands hospital treatment, is made subject to the following conditions: that no deserving charity patient as above described shall be turned away as long as there are facilities and room in the hospital; that there shall be no charge whatsoever except the daily expense of sixteen dollars and fifty-eight cents per patient. *Provided,* that the funds shall be available for use of the Marlboro County General Hospital only upon itemized statements of the actual days spent in the hospital by charity patients, signed by each patient individually and certified by the hospital management, such statement being presented to the board of county commissioners at its regular monthly meetings. The Duke Foundation payment for charity work of one dollar per day is to be deducted from the amount of nineteen dollars and thirty-seven cents, leaving eighteen dollars and thirty-seven cents per charity patient to be paid by the county. These conditions and provisions are to be interpreted and enforced as meaning that when the Duke Endowment gives one dollar for charity work, the county will give fifteen dollars and fifty-eight cents, not to exceed in total amount the sum of fourteen thousand five hundred dollars for the year 1965-1966. County funds shall be available only to match in this way funds coming from the Duke Foundation for charity beds, and shall be paid only in cases approved as charity cases by the Duke Foundation. The board of county commissioners is authorized and directed to prepare and have printed for use by the patient and hospital management forms and blanks for making the above-mentioned certified statements. *Provided,* further, that the charity patients referred to must be citizens of Marlboro County.

SECTION 13. The board of commissioners shall publish once each month in some newspaper published in Marlboro County an itemized statement of all expenditures of county funds, contract for publishing the same to be let to the newspaper making the lowest bid.

SECTION 14. The county supervisor shall be the executive head of the county board of highway commissioners; but each member of the board of county highway commissioners shall have equal authority and the board shall at each monthly meeting provide for and set out generally the work to be done the following month on the county road system.

SECTION 15. The county commissioners are hereby authorized and empowered to borrow money for county purposes in anticipation of collection of taxes and to pledge such taxes when collected, as well as the full faith and credit of Marlboro County, for its repayment, upon the written approval of the legislative delegation. No amount shall be borrowed in excess of anticipated taxes.

SECTION 16. The funds appropriated and set aside in this act shall be used only for the purposes set forth herein. In the event funds are used for items for which they were not appropriated, all officers, agents or employees who take part in or have anything whatsoever to do with the transfer or use of such funds shall be deemed guilty of malfeasance in office and subject to removal at once by the Governor of the State of South Carolina, or by the proper

An Act To Amend Sections 1 And 4 Of Act No. 789 Of 1952, Relating To The Establishment Of The Clinton Newberry Natural Gas Authority, So As To Permit The Authority To Build Additional Transmission Facilities.

Whereas, the General Assembly finds that by Act No. 789 of 1952, it did create the Clinton Newberry Natural Gas Authority (the Authority) and did commit to it the function of constructing a single gas transmission line from a point from Newberry to Clinton and from thence to the main transmission line of Transcontinental Gas Pipe Line Company (Transcontinental) at or near Fountain Inn, in order that such line might serve distribution systems for each of Clinton and Newberry and their surrounding territories. The Authority has performed the functions committed to it, and in pursuance of the powers thus granted, constructed a single six-inch transmission line. It has now developed that the demand for gas has reached a point where the existing transmission line is inadequate, resulting in a need for additional transmission facilities.

The question has arisen as to whether the language of Act 789 permits the construction of additional transmission facilities and to remove such question, and to enable the Authority to construct additional transmission facilities, it has been determined that Act 789 of 1952 should be appropriately amended. Now, therefore,

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Section 1 of Act 789 of 1952 amended—Clinton Newberry Natural Gas Authority created.—Section 1 of Act 789 of 1952 is amended by striking it out and inserting in lieu thereof the following:

"Section 1. There is hereby created a body corporate and politic of perpetual succession to be known as the Clinton Newberry Natural Gas Authority (hereinafter sometimes referred to as the authority). It shall be the function of the authority to cause the construction of such natural gas transmission lines and transmission facilities (including, if necessary, compressor units) as may be necessary in order that natural gas may be transmitted from the main transmission line of Transcontinental Gas Pipe Line Company at or near Fountain Inn, in order to serve transmission systems for each of Clinton and Newberry and their surrounding territories, and to continuously operate, maintain, improve and enlarge such project."

SECTION 2. Section 4 of Act 789 of 1952 amended—powers and duties.—Section 4 of Act 789 of 1952 is amended by striking out paragraph 6 and inserting in lieu thereof the following:

"6. To build, construct, maintain and operate transmission lines and facilities which shall extend from Newberry to Clinton, and thence to the main transmission line of Transcontinental Gas Pipe Line Company, at or near Fountain Inn, and from time to time to enlarge, improve and extend the same."

SECTION 3. Time effective.—This act shall take effect upon approval by the Governor.

Approved the 1st day of April, 1965.

No. 689

An Act To Authorize The Board Of Trustees Of Pickens County School District A, The State Of South Carolina, To Issue General Obligation Bonds Of The School District To Such Extent As On The Occasion Of The Issuance Of Any Such Bonds Is Permitted By The Constitutional Debt Limitation Applicable To The School District, To Prescribe The Conditions Under Which The Bonds May Be Issued And The Purposes For Which Their Proceeds May Be Expended, And To Make Provision For The Payment Of The Bonds.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Findings of General Assembly.—The General Assembly finds that at the general election held on November 3, 1964, an informal referendum was conducted in Pickens County School District A, hereinafter called the district, to ascertain the wishes of the electorate with respect to a new program of public school construction and that the referendum resulted favorably by a substantial margin. It has investigated the needs for further public school facilities within the district, which is an area coextensive with Pickens County itself. Finding that further public school facilities are required, the General Assembly has determined to make available to the trustees of the district the power to raise money through the sale of bonds during the period hereinafter prescribed, to the extent that bonds may be issued within the applicable constitutional limitation applying to the district, which is that set forth in amendment No. 95 to Section 5 of Article X and found on page 258, Volume 16 of the Code of Laws of South Carolina, 1962. Being satisfied that the referendum held on November 3, 1964, adequately expresses the will of the electorate, it has determined to dispense with any election as a condition precedent to the issuance of bonds.

SECTION 2. Bond issue authorized.—In order to provide a means whereby the district may raise money to construct and equip further public school facilities for the district, to provide appropriate sites for any new buildings, and in order to provide funds for additions, enlargements and improvements to existing public school facilities, the Board of Trustees of Pickens County School District A (as constituted by Section 21-3792, Code of Laws of South Carolina, 1962), hereinafter called the board, shall, during the period of time prescribed by Section 14 of this act be empowered to issue, as a

single issue, or from time to time as several separate issues, general obligation bonds of the district to such extent as, on the occasion of the issuance of any such bonds, is permitted by the constitutional debt limitation applicable to the district.

SECTION 3. Maturity.—All bonds issued pursuant to this act shall mature in such annual series or instalments as the board shall prescribe, except that the first maturing bonds shall mature within three years from the date of issue; not less than three per cent of the bonds shall mature in each year; and no bond shall mature later than twenty-five years from the date of issue.

SECTION 4. Redemption.—Any bond issued pursuant to this act may be issued with a provision permitting its redemption prior to its stated maturity, at par and accrued interest, plus such redemption premium as may be prescribed by the board, but no bond shall be redeemable prior to its stated maturity unless it contains a statement to that effect. In the proceedings authorizing the issuance of such bonds, provision shall be made specifying the manner of call and the notice thereof that must be given as to bonds made redeemable prior to their stated maturities.

SECTION 5. Form.—The bonds issued pursuant to this act shall be in the form of negotiable coupon bonds, payable to bearer, but may be issued with the privilege to any holder of having them registered as to principal on the books of the Treasurer of Pickens County, upon such conditions as the board may prescribe. Except when so registered, all bonds issued pursuant to this act shall have all attributes of negotiable instruments under the law merchant and the negotiable instrument law.

SECTION 6. Where payable.—The bonds issued pursuant to this act shall be made payable at such place, within or without the State, as the board shall provide.

SECTION 7. Interest.—Bonds issued pursuant to this act shall bear interest at rates determined by the board.

SECTION 8. Denominations and execution.—The bonds and the coupons to be thereunto attached shall be in such denomination and shall be executed in such manner as the board shall by resolution prescribe.

SECTION 9. Sale.—Bonds issued pursuant to this act shall be sold at a price of not less than par and accrued interest to the date of their

respective deliveries. They shall be sold after public advertisement of their sale in a newspaper of general circulation in South Carolina. Such published notice shall appear not less than ten days prior to the occasion set for opening bids.

SECTION 10. Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Definitions.—Whenever used or referred to in this act, unless a different meaning clearly appears from the context:

(1) "Watershed conservation district" means a governmental subdivision of this State, and a public body corporate and politic, organized in accordance with the provisions of this act, for the purposes, with the powers, and subject to the restrictions hereinafter set forth.

(2) "Director" means one of the members of the governing body of a watershed conservation district, elected in accordance with the provisions of this act.

(3) "Supervisor" means one of the members of the governing body of the Pickens Soil and Water Conservation District in which any part of a watershed conservation district is situated.

(4) "Petition" means a petition filed under the provisions of Section 4 of this act for the creation of a watershed conservation district.

(5) "County" means Pickens County of South Carolina.

(6) "Landowner" or "owner of land" includes any person, firm or corporation who shall hold legal or equitable title to any lands lying within a watershed conservation district organized under the provisions of this act.

(7) "Due notice" means notice published at least twice, with an interval of at least one week between the two publication dates, in a publication of general circulation within the appropriate area, or, if no such publication of general circulation be available, notice posted at a reasonable number of conspicuous places within the appropriate area, such posting to include, where possible, posting at public places where it is customary to post notices concerning county or municipal affairs generally.

SECTION 2. Watershed Conservation Districts may be formed in Pickens County.—Authority is hereby granted to form watershed conservation districts within Pickens County for the purpose of developing and executing plans and programs relating to any phase of the control and prevention of soil erosion, flood prevention, or the conservation, development, utilization and disposal of water.

SECTION 3. Area.—The area embraced in a watershed conservation district must be contiguous and must lie within a well-defined watershed; and such area shall not include lands located within the boundary of any incorporated city or town, or lands embraced in another watershed conservation district.

SECTION 4. Petition for formation.—When twenty-five or more landowners within a proposed watershed conservation district, or, if less than fifty landowners are involved, a majority of such landowners, desire to form a watershed conservation district, they shall file a petition with the supervisors of the soil and water conservation district asking that a watershed conservation district be organized to function in the area described in the petition. Such petition shall set forth the proposed name of the watershed conservation district; that there is need, in the interest of the public health, safety and welfare, for a watershed conservation district to function in the territory de-

scribed in the petition; a description of the territory proposed to be organized as a watershed conservation district, which description need not be given by metes and bounds or by legal subdivisions, but shall be deemed sufficient if generally accurate; and the approximate number of acres of land included in the proposed watershed conservation district.

SECTION 5. Hearing on petition.—(1) Within thirty days after such petition has been filed with the supervisors of the soil and water conservation district, they shall cause due notice to be given of a hearing upon the question of the desirability and necessity, in the interest of the public health, safety and welfare, of the creation of such watershed conservation district. All interested parties shall have the right to attend such hearing and to be heard. If it shall appear at the hearing that other lands should be included in the petition or that lands included in the petition should be excluded, the supervisors shall permit such inclusion or exclusion, provided the land area involved still meets the requirements of Section 3 of this act.

(2) If it appears upon the hearing that it may be desirable to include within the proposed watershed conservation district territory outside of the area within which due notice of the hearing has been given, the hearing shall be adjourned and due notice of a further hearing shall be given throughout the entire area considered for inclusion in the proposed watershed conservation district, and such further hearing shall be held. After final hearing, if the supervisors of the soil and water conservation district determine, upon the facts presented at the hearing and upon other available information, that there is need, in the interest of the public health, safety and welfare, for a watershed conservation district to function in the territory considered at the hearing, they shall make and record such determination, and shall define the area, but the description need not be given by metes and bounds. The description shall be deemed sufficient if generally accurate and the approximate number of acres of land included in the proposed watershed conservation district is shown.

(3) If the supervisors of the soil and water conservation district determine after such hearing that there is no need for a watershed conservation district to function in the territory considered at the hearing, they shall make and record such determination and shall deny the petition.

SECTION 6. Referendum.—After the supervisors of the soil and water conservation district have made and recorded a determination

that there is need, in the interest of the public health, safety and welfare, for a watershed conservation district to function in the territory considered at the hearing, and have defined the boundaries thereof, they shall consider the question whether the operation of a watershed conservation district within the proposed boundaries with the powers conferred upon it by this act is administratively practicable and feasible. To assist the supervisors in making this determination, they shall, within a reasonable time after the entry of a finding that there is need for the organization of a watershed conservation district and the determination of the boundaries thereof, hold a referendum within the proposed watershed conservation district upon the proposition of the creation of the watershed conservation district. Due notice of the referendum shall be given by the supervisors. Such notice shall state the date of holding the referendum, the hours of opening and closing the polls, and shall designate one or more places within the proposed watershed conservation district as polling places and shall give notice that the directors shall have the power of eminent domain. The supervisors shall have full charge of the referendum and shall have suitable ballots printed and furnished to each polling place, appoint necessary box managers and other referendum officials, and shall canvass the referendum and announce the results. The cost of holding the referendum shall be paid from the general fund of Pickens County. *Provided,* that notwithstanding any provision of law to the contrary, the power of eminent domain shall not be exercised over the protest of any landowner until it is conclusively established that the land proposed to be condemned is absolutely essential to the creation and operation of the watershed conservation district.

SECTION 7. Question.—The question to be voted on shall be submitted by ballots upon which appear the words:

"For creation of .....Watershed Conservation District"
"Against creation of .....Watershed Conservation District"

A square shall follow each proposition. The ballot shall contain a direction to insert an "X" mark in the square following one or the other of the propositions as the voter may favor or oppose creation of the watershed conservation district. The ballot shall set forth the boundaries of the proposed watershed conservation district as determined by the supervisors of the soil and water conservation district. No one except owners of lands lying within the boundaries of the proposed watershed conservation district, as determined by the supervisors of the soil and water conservation district, shall be eligible to

vote in the referendum. Qualified voters may vote by absentee ballot in the referendum under such rules and regulations as may be prescribed by the supervisors. No informalities in the conduct of the referendum or in any matters relating thereto shall invalidate the referendum or the result thereof if notice of the referendum shall have been given substantially as herein provided and the referendum shall have been fairly conducted.

SECTION 8. Results—district to be created if results and determination favorable.—The votes shall be counted by the referendum officials at the close of the polls and a report of the results, along with the ballots, shall be delivered and certified to the supervisors of the soil and water conservation district; and thereafter the supervisors shall determine whether the operation of the watershed conservation district within the defined boundaries is administratively practicable and feasible. If the supervisors determine that the operation of such district is not administratively practicable and feasible, they shall record such determination and deny the petition. If the supervisors determine that the operation of such district is administratively practicable and feasible, they shall record such determination and shall proceed with the organization of such district in the manner hereinafter set forth; *provided,* however, that the supervisors shall not have authority to determine that the operation of such district is administratively practicable and feasible unless at least a majority of the votes cast in the referendum upon the proposition of the creation of such district shall have been cast in favor of the creation of such district. If the supervisors shall determine that the operation of such district is administratively practicable and feasible, they shall certify such determination to the Clerk of Court of Pickens County and to the Secretary of State. Upon proper recordation of such determination, such watershed conservation district shall constitute a governmental subdivision of this State and a public body corporate and politic. After being recorded, such certification shall be filed with the State Soil and Water Conservation Committee.

SECTION 9. Board of directors to govern district—nominating petitions—election—ballots—terms—officers—bond of treasurer.—(1) The governing body of the watershed conservation district shall consist of five directors, elected as provided herein.

(2) Within thirty days after a watershed conservation district has been created, nominating petitions may be filed with the supervisors of

the soil and water conservation district to nominate candidates for directors of the watershed conservation district. No such nominating petition shall be accepted by the supervisors unless it is signed by twenty-five or more landowners within the watershed conservation district, or, if less than fifty landowners are involved, by a majority of such landowners. If the candidates nominated do not exceed the number of directors to be chosen, the supervisors shall declare them to be elected. No person shall be eligible to be a director of a watershed conservation district who is not a landowner in the watershed conservation district in which he seeks election.

(3) If the candidates nominated for directors of the watershed conservation district exceed the number of directors to be chosen, the supervisors of the soil and water conservation district shall, after having given due notice thereof, cause an election to be held within the watershed conservation district within a reasonable time after the expiration of the nominating period. The provisions of Sections 5, 6 and 7 of this act as to notice, qualifications of voters, absentee voting, and the manner of holding the referendum in organizing a watershed conservation district, shall apply insofar as practicable to the election of the directors. The names of all qualified nominees shall be printed in alphabetical order upon ballots with a square before each name and a direction to insert an "X" mark in the square before any five names to indicate the voter's preference. Only landowners within the watershed conservation district shall be eligible to vote in the election. The five candidates who shall receive the largest number respectively of the votes cast in the election shall be the directors of the watershed conservation district, and shall, upon the supervision of the supervisors of the soil and water conservation district, be the governing body of the watershed conservation district.

(4) Of the directors first elected, the two receiving the largest number of votes shall serve for terms of four years, the two receiving the next largest number of votes shall serve for terms of three years, and the one receiving the next largest number of votes shall serve for a term of two years. The term of office of each of their successors shall be for four years, and until their successors are elected and qualify. Vacancies shall be filled by selection by the supervisors for the unexpired portion of the term only.

(5) The directors shall annually designate from among their number a chairman, secretary, and treasurer. The treasurer shall execute an official bond for the faithful performance of the duties of his office,

to be approved by the directors. Such bond shall be executed by a surety company authorized to do business in this State and shall be in an amount determined by the directors. The premium on each bond shall be paid by the watershed conservation district.

SECTION 10. District to be corporate body—powers and duties.—A watershed conservation district organized under the provisions of this act shall constitute a governmental subdvision of this State, and a public body corporate and politic, exercising public powers, and such district and the directors thereof shall, subject to the approval of the supervisors of the soil and water conservation district, have the following powers, in addition to others granted in other sections of this act:

(1) To acquire, by purchase, exchange, lease, gift, grant, bequest, devise, or otherwise, or through condemnation proceedings in the manner provided in Sections 25-101 through 25-140 and Sections 33-121 through 33-148, Code of Laws of South Carolina, 1962, such lands, easements or rights-of-way as are needed to carry out any authorized purpose of the watershed conservation district; and to sell, lease, or otherwise dispose of any of its property or interests therein in furtherance of the purposes and provisions of this act; *provided,* that the power of eminent domain conferred hereunder shall not extend to the property of any public utility or public service corporation that the utility or public service corporation could have acquired under its power of eminent domain;

(2) To construct, reconstruct, repair, enlarge, improve, operate, and maintain such works of improvement as may be necessary or convenient for the performance of any of the operations authorized by this act;

(3) To borrow money and to execute promissory notes and other evidences of debt in connection therewith for payment of the costs and expenses of organizing the watershed conservation district or for carrying out any authorized purpose of such district, and if promissory notes are issued, to execute such mortgages on any property owned by such district, or assign or pledge such revenues or assessments of such district as may be required by the lender as security for the repayment of the loan; and to issue, negotiate, and sell its bonds as provided in Section 11 of this act;

(4) To levy an annual tax on the real property within the district subject to the limitations provided in Section 13 of this act for payment of the costs and expenses of organizing the watershed conserva-

tion district or for carrying out any authorized purpose of such district. Such levy shall be made only after approval by the supervisors of the soil and water conservation district and upon notifying the county auditor; and

(5) Where watersheds cross county or state lines, the watershed directors are authorized to work with similar organizations in determining cost sharing to solve common problems.

SECTION 11. Bonds not to be issued unless referendum held.—(1) Bonds authorized by Section 10 of this act shall not be issued until proposed by order or resolution of the directors of the watershed conservation district, specifying the purpose for which the funds are to be used and the proposed undertaking, the amount of bonds to be issued, the rate of interest they are to bear, and the amount of any necessary tax levy in excess of the maximum authorized in Section 13 of this act. A copy of the order or resolution shall be certified to the supervisors of the soil and water conservation district.

(2) The supervisors shall hold a hearing on such proposal after having given due notice. If it appears that the proposal is within the scope and purpose of this act and meets all other requirements of the law, the proposal shall be submitted to the landowners of the district by a referendum held by the supervisors.

(3) The provisions of Sections 5, 6 and 7 of this act as to notice, qualifications of voters, absentee voting, and manner of holding the referendum in organizing a watershed conservation district shall apply to the referendum held under this section.

(4) If two-thirds of the votes cast in such referendum favor the proposal, the directors shall, with the approval of the supervisors, be authorized to issue such bonds.

SECTION 12. Compensation.—The directors of the watershed conservation district shall receive no compensation for their services, but they may be reimbursed for expenses, including traveling expenses, necessarily incurred in the performance of their duties as approved by the supervisors of the soil and water conservation district.

SECTION 13. Budget—tax levy.—Within the first quarter of each calendar year, the directors of the watershed conservation district shall prepare an itemized budget of the funds needed for administration of the watershed conservation district and for construc-

tion, operation and maintenance of works of improvement. After approval of such budget by the supervisors of the soil and water conservation district, the county auditor shall levy a tax sufficient to meet such budget on all real property within the watershed conservation district of not to exceed five mills on each dollar of assessed valuation, except that this limitation shall not apply to any levy necessary to provide a sinking fund for the retirement of bonds authorized by Section 11 of this act. A copy of such budget shall be certified to the Auditor of Pickens County.

SECTION 14. List of landowners and acres subject to assessment.—(1) The directors of the watershed conservation district, with the assistance of the county auditor, shall prepare a list of the landowners involved showing the number of acres subject to assessment.

(2) When the property tax rolls are delivered to the county treasurer by the county auditor, as required by law, the county treasurer shall compute the tax due the watershed conservation district from each landowner in accordance with the rate fixed by the directors and the value of the real property indicated on the tax roll. The computation shall be made on the regular tax bills.

SECTION 15. Collection of taxes.—(1) The county treasurer shall collect the taxes due the watershed conservation district at the same time and in the same manner as he collects other taxes of the county.

(2) The taxes shall be subject to the same due and delinquency dates, discounts, penalties and interests as are applied to the collection of county taxes.

SECTION 16. Expenditures.—Tax funds collected shall be transferred to and held by the treasurer of the watershed conservation district for the specific purpose for which they have been collected. All expenditures of such funds shall be made by the directors of the watershed conservation district with the approval of the supervisors of the soil and water conservation district.

SECTION 17. Petition to have lands detached.—The owners of lands which have not been, are not and cannot be benefited by their inclusion in the watershed conservation district may petition the supervisors of the soil and water conservation district to have such lands detached. The petition shall describe such lands and state the reasons why they should be detached. A hearing shall be held by

the supervisors within thirty days after the petition is filed and due notice of such hearing shall be given by the supervisors. If it is determined by the supervisors that such lands shall be detached, such determination shall be certified to the Auditor of Pickens County for recording. After being recorded, the certification shall be filed with the State Soil and Water Conservation Committee.

SECTION 18. Petition for discontinuance of district—hearing —referendum — discontinuance if election and determination favorable.—(1) At any time after five years after the organization of a watershed conservation district, twenty-five or more landowners within such district, or if less than fifty landowners are involved, a majority of such landowners, may file a petition with the supervisors of the soil and water conservation district asking that the existence of the watershed conservation district be discontinued. The petition shall state the reasons for discontinuance, and that all obligations of the watershed conservation district have been met. The supervisors may conduct such hearings upon the petition as may be necessary to assist them in the consideration thereof.

(2) Within sixty days after such petition has been filed with the supervisors they shall give due notice of the holding of a referendum. The supervisors shall hold such referendum substantially as provided for in Section 11 of this act. The question shall be submitted by ballots upon which the words "For terminating the existence of the..... Watershed Conservation District" and "Against terminating the existence of the ..... Watershed Conservation District" shall be printed, with a square before each proposition and a direction to insert an "X" mark in the square before one or the other of the propositions as the voter may favor or oppose the discontinuance of such watershed conservation district. Only landowners within the watershed conservation district shall be eligible to vote in such referendum. No informality in the conduct of the referendum or in any matters relating thereto shall invalidate the referendum or the results thereof if notice of the referendum shall have been given substantially as herein provided and the referendum shall have been fairly conducted.

(3) The supervisors shall publish the results of the referendum and shall thereafter determine whether the continued operation of the watershed conservation district is administratively practicable and feasible. If the supervisors determine that the continued operation of the watershed conservation district is administratively practicable

and feasible, they shall record such determination and deny the petition. If the supervisors determine that the continued operation of the watershed conservation district is not administratively practicable and feasible, they shall record such determination and shall certify such determination to the directors of the watershed conservation district; *provided,* however, that the supervisors shall not be authorized to determine that the continued operation of the watershed conservation district is administratively practicable and feasible unless at least a majority of the votes cast in the referendum shall have been cast in favor of the continuance of the watershed conservation district.

(4) Upon receipt from the supervisors of a certification that they have determined that the continued operation of the watershed conservation district is not administratively practicable and feasible, the directors shall forthwith proceed to terminate the affairs of the watershed conservation district. A copy of the determination shall be certified to the Auditor of Pickens County for recording. After being recorded, the certification shall be filed with the State Soil and Water Conservation Committee.

An Act To Authorize The Liberty-Chesnee-Fingerville Water Commission To Issue General Obligation Bonds Of Liberty-Chesnee-Fingerville Water District In An Amount Not Exceeding One Hundred Thousand Dollars, To Prescribe The Conditions Under Which The Bonds May Be Issued And The Purposes For Which Their Proceeds May Be Expended, And To Make Provision For The Payment Of The Same.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Findings of General Assembly.—The General Assembly finds:

(1) Heretofore by Act No. 1120 of the Acts of 1960 the General Assembly created Liberty-Chesnee-Fingerville Water District in Spartanburg County (the district) and committed to it the function of providing water service for the district. Thereafter pursuant to such act Liberty-Chesnee-Fingerville Water Commission (the commission) was duly organized and following the election required by Act No. 1120 of 1960 issued general obligation bonds to the extent of one million two hundred thousand dollars and applied their proceeds to the cost of constructing and establishing a water system in the district.

(2) It has now been found that the water system of the district urgently requires extensions and improvements, including the installation of a water storage tank to provide adequate pressure for persons and industries within the district. It has been estimated that the same can be obtained at a cost of not exceeding one hundred thousand dollars.

(3) On the basis of this finding the General Assembly proposes to authorize the commission to issue general obligation bonds of the district, without the holding of any election, in order to provide means by which the required moneys may be raised.

In the proceedings authorizing the issuance of such bonds, provision shall be made specifying the manner of call and the notice thereof that must be given as to bonds made redeemable prior to their stated maturities.

SECTION 5. Form.—The bonds issued pursuant to this act shall be in the form of negotiable coupon bonds, payable to bearer, but may be issued with the privilege to any holder of having them registered as to principal on the books of the Treasurer of Spartanburg County, upon such conditions as the commission may prescribe. Except when so registered, all bonds issued pursuant to this act shall have all attributes of negotiable instruments under the law merchant and the negotiable instrument law.

SECTION 6. Where payable.—The bonds issued pursuant to this act shall be made payable at such place, within or without the State, as the commission shall provide.

SECTION 10. Payment.—For the payment of the principal and interest of all bonds issued pursuant to this act, as they respectively mature, and for the creation of such sinking fund as may be necessary therefor, the full faith, credit and taxing power of the district shall be irrevocably pledged, and there shall be levied annually by the Auditor of Spartanburg County, and collected by the Treasurer of Spartanburg County, in the same manner as county taxes are levied and collected, on all taxable property in the district, a tax sufficient to pay the principal and interest of the bonds as they respectively mature and to create such sinking fund as may be necessary therefor.

SECTION 11. Exempt from taxes.—The principal and interest of bonds issued pursuant to this act shall have the tax exempt status prescribed by Section 65-4.1, Code of Laws of South Carolina, 1962.

(a) Any accrued interest shall be applied to the payment of the first instalment of interest to become due on such bonds.

(b) Any premium shall be applied to the payment of the first instalment of principal of such bonds.

(c) The remaining proceeds shall be expended, upon the warrant or order of the commission, for the following purposes:

(i) To defray the costs of issuing the bonds authorized by this act;

(ii) To provide for extensions and improvements to the water system of the district, including the installation of a water storage tank; and

(iii) If, after the final completion of the commission's program, the commission shall certify to the Treasurer of Spartanburg County that any remaining balance in the bond account is no longer needed for its program, then such balance shall be held by the treasurer and used to effect the retirement of bonds then outstanding, which shall have been issued pursuant to this act.

An Act Providing For The Creation Of Watershed Conservation Districts In Spartanburg County, The Election Of Directors And Their Powers And Duties; And Providing For A Levy Of Taxes For The Organization And Administration Of Such Districts, And For The Construction, Operation And Maintenance Of Works Of Improvement Within Such Districts.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Definitions.—Whenever used or referred to in this act, unless a different meaning clearly appears from the context:

(1) "Watershed conservation district" means a governmental subdivision of this State, and a public body corporate and politic, organized in accordance with the provisions of this act, for the purposes, with the powers, and subject to the restrictions hereinafter set forth.

(2) "Director" means one of the members of the governing body of a watershed conservation district, elected in accordance with the provisions of this act.

(3) "Supervisor" means one of the members of the governing body of the Spartanburg Soil Conservation District in which any part of a watershed conservation district is situated.

(4) "Petition" means a petition filed under the provisions of Section 4 of this act for the creation of a watershed conservation district.

(5) "County" means Spartanburg County of South Carolina.

(6) "Landowner" or "owner of land" includes any person, firm or corporation who shall hold legal or equitable title to any lands lying within a watershed conservation district organized under the provisions of this act.

(7) "Due notice" means notice published at least twice, with an interval of at least one week between the two publication dates, in a publication of general circulation within the appropriate area, or, if no such publication of general circulation be available, notice posted at a reasonable number of conspicuous places within the appropriate area, such posting to include, where possible, posting at public places where it is customary to post notices concerning county or municipal affairs generally.

SECTION 2. Watershed Conservation Districts may be formed in Spartanburg County.—Authority is hereby granted to form watershed conservation districts within Spartanburg County for the purpose of developing and executing plans and programs relating to any phase of the control and prevention of soil erosion, flood prevention, or the conservation, development, utilization and disposal of water.

SECTION 3. Area.—The area embraced in a watershed conservation district must be contiguous and must lie within a well-defined watershed; and such area shall not include lands located within the boundary of any incorporated city or town, or lands embraced in another watershed conservation district.

SECTION 4. Petition for formation.—When twenty-five or more landowners within a proposed watershed conservation district, or, if less than fifty landowners are involved, a majority of such landowners, desire to form a watershed conservation district, they shall file a petition with the supervisors of the soil conservation district asking that a watershed conservation district be organized to function in the area described in the petition. Such petition shall set forth: the proposed name of the watershed conservation district; that there is need, in the interest of the public health, safety and welfare, for a watershed conservation district to function in the territory described in the petition; a description of the territory proposed to be organized as a watershed conservation district, which description need not

be given by metes and bounds or by legal subdivisions, but shall be deemed sufficient if generally accurate; and the approximate number of acres of land included in the proposed watershed conservation district.

SECTION 5. Hearing on petition.—(1) Within thirty days after such petition has been filed with the supervisors of the soil conservation district, they shall cause due notice to be given of a hearing upon the question of the desirability and necessity, in the interest of the public health, safety and welfare, of the creation of such watershed conservation district. All interested parties shall have the right to attend such hearing and to be heard. If it shall appear at the hearing that other lands should be included in the petition or that lands included in the petition should be excluded, the supervisors shall permit such inclusion or exclusion, provided the land area involved still meets the requirements of Section 3 of this act.

(2) If it appears upon the hearing that it may be desirable to include within the proposed watershed conservation district territory outside of the area within which due notice of the hearing has been given, the hearing shall be adjourned and due notice of a further hearing shall be given throughout the entire area considered for inclusion in the proposed watershed conservation district, and such further hearing shall be held. After final hearing, if the supervisors of the soil conservation district determine, upon the facts presented at the hearing and upon other available information, that there is need, in the interest of the public health, safety and welfare, for a watershed conservation district to function in the territory considered at the hearing, they shall make and record such determination, and shall define the area, but the description need not be given by metes and bounds. The description shall be deemed sufficient if generally accurate and the approximate number of acres of land included in the proposed watershed conservation district is shown.

(3) If the supervisors of the soil conservation district determine after such hearing that there is no need for a watershed conservation district to function in the territory considered at the hearing, they shall make and record such determination and shall deny the petition.

SECTION 6. Referendum.—After the supervisors of the soil conservation district have made and recorded a determination that there is need, in the interest of the public health, safety and welfare, for a watershed conservation district to function in the territory considered

at the hearing, and have defined the boundaries thereof, they shall consider the question of whether the operation of a watershed conservation district within the proposed boundaries with the powers conferred upon it by this act is administratively practicable and feasible. To assist the supervisors in making this determination, they shall, within a reasonable time after the entry of a finding that there is need for the organization of a watershed conservation district and the determination of the boundaries thereof, hold a referendum within the proposed watershed conservation district upon the proposition of the creation of the watershed conservation district. Due notice of the referendum shall be given by the supervisors. Such notice shall state the date of holding the referendum, the hours of opening and closing the polls, and shall designate one or more places within the proposed watershed conservation district as polling places and shall give notice that the directors shall have the power of eminent domain. The supervisors shall have full charge of the referendum and shall have suitable ballots printed and furnished to each polling place, appoint necessary box managers and other referendum officials, and shall canvass the ballots and announce the results. The cost of holding the referendum shall be paid from the general fund of Spartanburg County. *Provided,* that notwithstanding any provision of law to the contrary, the power of eminent domain shall not be exercised over the protest of any landowner until it is conclusively established that the land proposed to be condemned is absolutely essential to the creation and operation of the watershed conservation district.

SECTION 7. Question.—The question to be voted on shall be submitted by ballots upon which appear the words:

"For creation of .....Watershed Conservation District"

"Against creation of .....Watershed Conservation District"

A square shall follow each proposition. The ballot shall contain a direction to insert an "X" mark in the square following one or the other of the propositions as the voter may favor or oppose creation of the watershed conservation district. The ballot shall set forth the boundaries of the proposed watershed conservation district as determined by the supervisors of the soil conservation district. No one except owners of lands lying within the boundaries of the proposed watershed conservation district, as determined by the supervisors of the soil conservation district, shall be eligible to vote in the referendum. Qualified voters may vote by absentee ballot in the referendum under such rules and regulations as may be prescribed by the super-

visors. No informalities in the conduct of the referendum or in any matters relating thereto shall invalidate the referendum or the result thereof if notice of the referendum shall have been given substantially as herein provided and the referendum shall have been fairly conducted.

SECTION 8. Results—district to be created if results and determination favorable.—The votes shall be counted by the referendum officials at the close of the polls and a report of the results along with the ballots shall be delivered and certified to the supervisors of the soil conservation district, and thereafter the supervisors shall determine whether the operation of the watershed conservation district within the defined boundaries is administratively practicable and feasible. If the supervisors determine that the operation of such district is not administratively practicable and feasible, they shall record such determination and deny the petition. If the supervisors determine that the operation of such district is administratively practicable and feasible, they shall record such determination and shall proceed with the organization of such district in the manner hereinafter set forth; *provided,* however, that the supervisors shall not have authority to determine that the operation of such district is administratively practicable and feasible unless at least a majority of the votes cast in the referendum upon the proposition of the creation of such district shall have been cast in favor of the creation of such district. If the supervisors shall determine that the operation of such district is administratively practicable and feasible, they shall certify such determination to the Clerk of Court of Spartanburg County, the Code Commissioner and to the Secretary of State. Upon proper recordation of such determination, such watershed conservation district shall constitute a governmental subdivision of this State and a public body corporate and politic. After being recorded, such certification shall be filed with the State Soil Conservation Committee.

SECTION 9. Board of directors to govern district—nominating petitions—election—ballots—terms—officers—bond of treasurer.—(1) The governing body of the watershed conservation district shall consist of five directors, elected as provided herein.

(2) Within thirty days after a watershed conservation district has been created, nominating petitions may be filed with the supervisors of the soil conservation district to nominate candidates for directors of the watershed conservation district. No such nominating petition

shall be accepted by the supervisors unless it is signed by twenty-five or more landowners within the watershed conservation district, or, if less than fifty landowners are involved, by a majority of such landowners. If the candidates nominated do not exceed the number of directors to be chosen, the supervisors shall declare them to be elected. No person shall be eligible to be a director of a watershed conservation district who is not a landowner in the watershed conservation district in which he seeks election.

(3) If the candidates nominated for directors of the watershed conservation district exceed the number of directors to be chosen, the supervisors of the soil conservation district shall, after having given due notice thereof, cause an election to be held within the watershed conservation district within a reasonable time after the expiration of the nominating period. The provisions of Sections 5, 6 and 7 of this act as to notice, qualifications of voters, absentee voting, and the manner of holding the referendum in organizing a watershed conservation district, shall apply insofar as practicable to the election of the directors. The names of all qualified nominees shall be printed in alphabetical order upon ballots with a square before each name and a direction to insert an "X" mark in the square before any five names to indicate the voter's preference. Only landowners within the watershed conservation district shall be eligible to vote in the election. The five candidates who shall receive the largest number respectively of the votes cast in the election shall be the directors of the watershed conservation district, and shall, upon the supervision of the supervisors of the soil conservation district, be the governing body of the watershed conservation district.

(4) Of the directors first elected, the two receiving the largest number of votes shall serve for terms of four years, the two receiving the next largest number of votes shall serve for terms of three years, and the one receiving the next largest number of votes shall serve for a term of two years. The term of office of each of their successors shall be for four years. Any vacancy shall be filled for the unexpired term as provided for the original directors.

(5) The directors shall annually designate from among their number a chairman, secretary and treasurer. The treasurer shall execute an official bond for the faithful performance of the duties of his office, to be approved by the directors. Such bond shall be executed by a surety company authorized to do business in this State and shall be in an amount determined by the directors. The premium on each bond shall be paid by the watershed conservation district.

SECTION 10. District to be corporate body—powers and duties.—A watershed conservation district organized under the provisions of this act shall constitute a governmental subdivision of this State, and a public body corporate and politic, exercising public powers, and such district and the directors thereof shall, subject to the approval of the supervisors of the soil conservation district, have the following powers, in addition to others granted in other sections of this act:

(1) To acquire, by purchase, exchange, lease, gift, grant, bequest, devise, or otherwise, or through condemnation proceedings in the manner provided in Sections 25-101 through 25-140 and Sections 33-121 through 33-148, Code of Laws of South Carolina, 1962, such lands, easements, or rights-of-way as are needed to carry out any authorized purpose of the watershed conservation district; and to sell, lease, or otherwise dispose of any of its property or interests therein in furtherance of the purposes and provisions of this act;

(2) To construct, reconstruct, repair, enlarge, improve, operate and maintain such works of improvement as may be necessary or convenient for the performance of any of the operations authorized by this act;

(3) To borrow money and to execute promissory notes and other evidences of debt in connection therewith for payment of the costs and expenses of organizing the watershed conservation district for carrying out any authorized purpose of such district, and if promissory notes are issued, to execute such mortgages on any property owned by such district, or assign or pledge such revenues or assessments of such district as may be required by the lender as security for the repayment of the loan; and to issue, negotiate and sell its bonds as provided in Section 11 of this act;

(4) To levy an annual tax on the real property within the district subject to the limitations provided in Section 13 of this act for payment of the costs and expenses of organizing the watershed conservation district or for carrying out any authorized purpose of such district. Such levy shall be made only after approval by the supervisors of the soil conservation district and upon notifying the county auditor.

SECTION 11. Bonds not to be issued unless referendum held.—(1) Bonds authorized by Section 10 of this act shall not be issued until proposed by order or resolution of the directors of the watershed conservation district, specifying the purpose for which funds are to be used and the proposed undertaking, the amount of bonds

to be issued, the rate of interest they are to bear, and the amount of any necessary tax levy in excess of the maximum authorized in Section 13 of this act. A copy of the order or resolution shall be certified to the supervisors of the soil conservation district.

(2) The supervisors shall hold a hearing on such proposal after having given due notice. If it appears that the proposal is within the scope and purpose of this act and meets all other requirements of the law, the proposal shall be submitted to the landowners of the district by a referendum held by the supervisors.

(3) The provisions of Sections 5, 6 and 7 of this act as to notice, qualifications of voters, absentee voting and manner of holding the referendum in organizing a watershed conservation district shall apply to the referendum held under this section.

(4) If two-thirds of the votes cast in such referendum favor the proposal, the directors shall, with the approval of the supervisors, be authorized to issue such bonds.

SECTION 12. Compensation.—The directors of the watershed conservation district shall receive no compensation for their services, but they may be reimbursed for expenses, including traveling expenses, necessarily incurred in the performance of their duties as approved by the supervisors of the soil conservation district.

SECTION 13. Budget—tax levy.—Within the first quarter of each calendar year, the directors of the watershed conservation district shall prepare an itemized budget of the funds needed for administration of the watershed conservation district and for construction, operation and maintenance of works of improvement. After approval of such budget by the supervisors of the soil conservation district, the county auditor shall levy a tax sufficient to meet such budget on all real property within the watershed conservation district of not to exceed five mills on each dollar of assessed valuation, except that this limitation shall not apply to any levy necessary to provide a sinking fund for the retirement of bonds authorized by Section 11 of this act. A copy of such budget shall be certified to the Auditor of Spartanburg County.

SECTION 14. List of landowners and acres subject to assessment.—(1) The directors of the watershed conservation district with the assistance of the county auditor shall prepare a list of the landowners involved showing the number of acres subject to assessment.

(2) When the property tax rolls are delivered to the county treasurer by the county auditor, as required by law, the county treasurer shall compute the tax due the watershed conservation district from each landowner in accordance with the rate fixed by the directors and the value of the real property indicated on the tax roll. The computation shall be made on the regular tax bills.

SECTION 15. Collection of taxes.—(1) The county treasurer shall collect the taxes due the watershed conservation district at the same time and in the same manner as he collects other taxes of the county.

(2) The taxes shall be subject to the same due and delinquency dates, discounts, penalties and interest as are applied to the collection of county taxes.

SECTION 16. Expenditures.—Tax funds collected shall be transferred to and held by the treasurer of the watershed conservation district for the specific purpose for which they have been collected. All expenditures of such funds shall be made by the directors of the watershed conservation district with the approval of the supervisors of the soil conservation district.

SECTION 17. Petition to have lands detached.—The owners of lands which have not been, are not and cannot be benefited by their inclusion in the watershed conservation district may petition the supervisors of the soil coservation district to have such lands detached. The petition shall describe such lands and state the reasons why they should be detached. A hearing shall be held by the supervisors within thirty days after the petition is filed and due notice of such hearing shall be given by the supervisors. If it is determined by the supervisors that such lands shall be detached, such determination shall be certified to the Auditor of Spartanburg County for recording. After being recorded, the certification shall be filed with the State Soil Conservation Committee.

SECTION 18. Petition for discontinuance of district—hearing—referendum—discontinuance if election and determination favorable.—(1) At any time after five years after the organization of a watershed conservation district, twenty-five or more landowners within such district, or, if less than fifty landowners are involved, a majority of such landowners, may file a petition with the supervisors of the soil conservation district asking that the existence of the watershed conservation district be discontinued. The petition

shall state the reasons for discontinuance, and that all obligations of the watershed conservation district have been met. The supervisors may conduct such hearings upon the petition as may be necessary to assist them in the consideration thereof.

(2) Within sixty days after petition has been filed with the supervisors they shall give due notice of the holding of a referendum. The supervisors shall hold such referendum substantially as provided for in Section 11 of this act. The question shall be submitted by ballots upon which the words "For terminating the existence of the ..... Watershed Conservation District" and "Against terminating the existence of the ..... Watershed Conservation District" shall be printed, with a square before each proposition and a direction to insert an "X" mark in the square before one or the other of the propositions as the voter may favor or oppose the discontinuance of such watershed conservation district. Only landowners within the watershed conservation district shall be eligible to vote in such referendum. No informality in the conduct of the referendum or in any matters relating thereto shall invalidate the referendum or the results thereof if notice of the referendum shall have been given substantially as herein provided and the referendum shall have been fairly conducted.

(3) The supervisors shall publish the results of the referendum and shall thereafter determine whether the continued operation of the watershed conservation district is administratively practicable and feasible. If the supervisors determine that the continued operation of the watershed conservation district is administratively practicable and feasible, they shall record such determination and deny the petition. If the supervisors determine that the continued operation of the watershed conservation district is not administratively practicable and feasible, they shall record such determination and shall certify such determination to the directors of the watershed conservation district; *provided,* however, that the supervisors shall not be authorized to determine that the continued operation of the watershed conservation district is administratively practicable and feasible unless at least a majority of the votes cast in the referendum shall have been cast in favor of the continuance of the watershed conservation district.

(4) Upon receipt from the supervisors of a certification that they have determined that the continued operation of the watershed conservation district is not administratively practicable and feasible, the directors shall forthwith proceed to terminate the affairs of the watershed conservation district. A copy of the determination shall be certi-

fied to the Auditor of Spartanburg County for recording. After being recorded, the certification shall be filed with the State Soil Conservation Committee.

SECTION 19. Supervisory authority if district discontinued.—If the Spartanburg Soil Conservation District is discontinued, all supervisory authority over the affairs of the watershed conservation district which was previously exercised by the supervisors shall thereafter be exercised by the governing body of Spartanburg County.

SECTION 20. Time effective.—This act shall take effect upon approval by the Governor.

An Act To Empower The Spartanburg County Board Of Control To Issue Not Exceedng Two Million Three Hundred Thousand Dollars Of General Obligation Bonds Of Spartanburg County To Provide Further Hospital Facilities In The County; To Prescribe The Conditions Under Which The Bonds Shall Be Issued And To Make Provision For Their Payment.

Whereas, an investigation of the needs of Spartanburg County establishes that further hospital facilities are required; and

Whereas, under the provisions of certain national statutes, particularly the Hill-Burton Act, Spartanburg County is about to establish eligibility for certain federal funds, the exact amount unknown; and

Whereas, the present plans of the hospital trustees call for an expansion project which would require over six million dollars, approximately two-thirds of which would be derived from federal funds if the total project is federally approved and Congress makes the funds available; and

Whereas, in order to obtain the additional hospital facilities and give effect to the expansion project contemplated by the trustees with the use of federal funds, the General Assembly has determined to empower the Spartanburg County Board of Control (herein called county board) to issue in several separate issues not exceeding two million three hundred thousand dollars of general obligation bonds of Spartanburg County, or such portion of said sum as may be permitted under applicable constitutional debt limitations, but to withhold issuance of any separate issue until the amount of federal funds available from time to time may be determined. Now, therefore,

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Spartanburg County may issue bonds.—The Spartanburg County Board of Control shall be empowered to issue two million three hundred thousand dollars of general obligation bonds of Spartanburg County, or so much thereof as may be needed and may be permitted under constitutional debt limitations applicable to Spartanburg County.

SECTION 2. Issues.—The bonds shall be issued in several separate issues, but the amount of the first and all subsequent issues shall not exceed the amount or amounts irrevocably committed to the Spar-

tanburg County General Hospital Project from time to time under the provisions of the Hill-Burton Act, or any other Federal or State law. The receipt of a letter or letters by the county board from the Administrator, Hospital Construction for the South Carolina Health Officer, (or his successor in office) advising of the earmarking of such funds and the amount thereof, shall be a condition precedent to the issuance of the first and all subsequent issues of such bonds and conclusively establish the amount standing irrevocably committed to the project from time to time under the Hill-Burton Act. The issuance of the first separate issue of the bonds shall preclude repeal of this condition which will thereby govern issuance and amount of all subsequent issues.

SECTION 3. Presumption that conditions met.—If and when the county board issues any of the bonds, it may be conclusively presumed by any purchaser or subsequent holder of any of the bonds that conditions precedent to issuance have been met and that the amount of the first and all subsequent issues does not exceed the amount authorized hereunder for any separate issue.

SECTION 4. Maximum amount — denominations — interest.— The aggregate principal amount of the bonds shall not exceed two million three hundred thousand dollars, and as the bonds are issued from time to time, they shall be in such denominations and shall bear such rate or rates of interest, payable semiannually, as may be determined by the county board. They shall be serial bonds maturing in annual series, or installments, of one or more bonds each, the first of which series, or installments, shall be due and payable not more than one year after the date of the bonds and the last not more than twenty-five years after such date. Such annual series, or installments, may be equal or unequal in amount, but none shall be greater than twice the amount of any previously maturing series, or installment. The principal and interest of the bonds may be made payable within or without the State and in such medium of payment as may be indicated on the face of the bonds.

SECTION 5. Execution.—The bonds shall be issued as coupon bonds, payable to bearer, but may be issued with the privilege to the holder of having them registered as to principal on the books of the county treasurer, and the principal thus made payable to the registered holder, unless the last registered transfer shall be to bearer, upon such conditions as the Spartanburg County Board of Control

may prescribe. The bonds shall be signed by the members of the county board, or a majority thereof, and countersigned by the Clerk of the Spartanburg County Board of Control, and the seal of the Spartanburg County Board of Control shall be affixed to, or impressed on each bond; but the coupons of the bonds need not be authenticated otherwise than by a facsimile signature of the county treasurer.

SECTION 6. Sale.—The bonds shall be sold by the county board to the highest bidder for cash upon such advertisement as the county board shall deem proper. The county board may reject any and all bids which in their judgment would not be to the best interests of the county.

SECTION 7. Exempt from taxes.—The bonds shall be exempt from all State, county, school and municipal taxes.

SECTION 8. Payment.—For the payment of the principal and interest on the bonds, the full faith, credit and taxing power of the county are irrevocably pledged, and the county auditor of Spartanburg County is hereby authorized and directed to levy annually on all taxable property in Spartanburg County a tax sufficient to pay the principal and interest of all bonds issued under this act, as such principal and interest respectively become due, and the county treasurer of Spartanburg County is hereby authorized and directed to collect such tax.

SECTION 9. Proceeds.—The proceeds derived from the sale of the bonds shall be deposited with the treasurer of Spartanburg County in a special fund, separate and distinct from all other funds, and shall be expended for the following purposes: (1) the accrued interest, if any, shall be applied to meet the first installment of principal to become due on the bonds, (2) the premium received, if any, shall be applied to the payment of the first installment of principal to become due, and (3) the principal proceeds shall be expended upon the order or warrant of the Board of Trustees of the Spartanburg County General Hospital for:

(a) the cost of issuing the bonds; and

All instructions from the Union County Supervisor and the Governing Body of Union County concerning surface-treated roads, bridges thereon, driveways, church yards and cemeteries, and all other surface-treated work and projects of Union County, or the equipment, materials or personnel used or to be used in the construction or maintenance or repair of same shall be transmitted directly to the superintendent of surface-treated roads and all other instructions from the Union County Supervisor or the Governing Body of Union County concerning matters other than matters and affairs related to surface-treated roads as aforesaid shall be transmitted directly to the Captain of the Union County Chain Gang.

SECTION 13. The Supervisor of Union County shall have general supervision of, and be responsible for, all roads and bridges, the County chain gang and the county home; subject, however, to the emergency powers conferred on the Legislative Delegation in Section 11 of this act. *Provided,* however, the superintendent of surface-treated roads shall be in immediate charge and control of all equipment, materials and personnel, used or to be used in the construction or maintenance or repair of surface-treated roads, bridges thereon, driveways, church yards and cemeteries, and all other surface-treated work and projects of Union County, and the captain of the chain gang shall be in immediate charge and control of all other persons employed at the Union County Chain Gang, and such persons, with the exception of the superintendent of surface-treated roads, shall be subordinated to the chain gang captain, regardless of their titles or duties, and the captain of the chain gang is hereby empowered to dismiss any such employee or employees, except the superintendent of surface-treated roads. Such suspended or dismissed employee shall have the right to appeal to the county governing board and the county supervisor, who shall jointly hold such hearings as may be deemed necessary to determine the facts and pass on the merits of such dismissal or suspension, and in their discretion may either sustain or reverse such dismissal or suspension; however, to override the action taken by the captain of the chain gang, it shall be necessary for no less than five board members and the county supervisor to so vote. The superintendent of surface-treated roads shall be subject to suspension or dismissal by unanimous action in writing to be signed by all members of the Union County Legislative Delegation.

SECTION 14. The county governing board, by a majority vote of those present at a regular or special meeting thereof, shall have authority and is hereby required to order and direct the supervisor to provide for and cause to be done all proper and necessary repairs and maintenance work on roads and bridges, and may designate the roads or bridges to be repaired or maintained. It shall be the duty of the supervisor to carry out such orders and directions of the board as fully and completely as may be possible, and in the absence of any orders or directions from the governing board, whether this be caused by completion of all work ordered by the board, or by failure of the board to direct a schedule of such work or for any other cause, then it shall be the duty of the supervisor to direct and cause to be performed the proper and necessary repairs and maintenance work on roads and bridges. In cases of emergency, arising from any cause where a county road or bridge has become or is about to become hazardous, dangerous or impassable to traffic, the supervisor shall take immediate action on his own initative, even if it be necessary temporarily to stop work that has been ordered or directed by the governing board, to meet and overcome such emergency, and he shall cause such work to be done so as to afford traffic reasonable and safe passage over such road or bridge. In order to carry out the orders and directions of the governing board, or to meet emergencies which may arise, the supervisor shall convey instructions and orders for such repair and maintenance work to the captain of the chain gang and should the captain fail or refuse to carry out orders and directions submitted to him by the supervisor, then and in such event the supervisor may suspend or dismiss the captain of the chain gang. *Provided,* further, that any county officer or employee who shall be suspended, removed or discharged as herein provided shall not be paid for any period during such time of suspension and, in case of removal or discharge, shall not receive pay from any after the date thereof.

The powers and authority enumerated and set forth in this section shall not nullify or diminish or be in derogation of the powers and authority heretofore enumerated and set forth in the preceding sections of this appropriations act concerning the superintendent of surface-treated roads.

SECTION 15. The county supervisor and the Union County Governing Board may authorize the clerk or bookkeeper to make purchases not exceeding one hundred dollars in cases of emergency. The

clerk or bookkeeper shall give bond in the sum of one thousand dollars, conditioned for the faithful performance of his duties, the premium for such bond to be paid as the premiums for the bonds of other county officers are now paid.

SECTION 16. All purchases for all supplies, equipment, machines, etc., and goods or services for Union County shall be made upon a written order specifically designating whatever is to be purchased or paid for, signed by the county official or employee requesting same, and approved by the signature of the county supervisor or county bookkeeper endorsed on such order. No vouchers or warrants for purchases or payments made in violation of this section shall be approved for payment by the county supervisor or governing board or paid by the county treasurer. The county supervisor or the county bookkeeper shall have the power of inspection of all purchases and services rendered for Union County at all times. Any county official or employee who makes any purchase or contract for services other than as herein provided shall be subject to immediate removal from office.

Provided, this section shall not apply to those items specifically exempted in Section 1 of this act.

SECTION 17. The Union County Bookkeeper shall maintain a record of all absences and vacations taken by county employees. All county employees shall have an annual noncumulative sick leave of thirty days per year. Employees shall be paid for these thirty days' sick leave, *provided* sickness is properly substantiated by a doctor's certificate.

SECTION 18. It shall be unlawful to sell or offer for sale any wine or beer in Union County between the hours of twelve o'clock Saturday night and sunrise Monday morning. Any person, firm or corporation violating this section shall be punished by a fine of not more than one hundred dollars, or by imprisonment for not exceeding thirty days. The right of any person to sell wine and beer in Union County at any time, under a license issued by the State, shall be forfeited and the license revoked, upon conviction of violating the provisions of this section.

SECTION 19. Any circus, carnival, or other such admission-charging show or amusement that usually exhibits under a tent or outdoors may exhibit in Union County without payment of any license fee

or charge. *Provided,* that such exhibition is made under the auspices or sponsorship of a local eleemosynary association or organization and pursuant to a contract requiring such association or organization to pay the license for such exhibition; and *provided,* further, that such exhibition is first approved by and the time and place set by the Executive Secretary and Treasurer of Union County Fair Association.

SECTION 20. No license shall be issued for the practice of fortunetelling or palm reading in Union County.

SECTION 21. The members of the press shall be allowed to attend any meeting where the expenditures of county money, including money allocated to the county from State funds, or from any other sources, is under consideration.

All appropriations herein made are subject to the right and authority of the Union County Delegation to change, alter, increase, deduct therefrom, or transfer funds from one item and/or account to another at any time, without notice, when in its judgment and discretion such change, alteration, transfer, increase or deduction is necessary to conform with revenue expected during the life of this act for the best interest of the county.

SECTION 24. This act is continuous and of continuous force and continuing into the future until changed by a repealing act of the General Assembly of the State of South Carolina.

SECTION 25. If any section, subsection, paragraph, sentence, phrase, clause, word or provision of this act shall be held unconstitutional or invalid for any reason, the same shall not affect, impair or invalidate any of the remaining sections, subsections, paragraphs, sentences, phrases, clauses, words or provisions of this act.

An Act Providing For The Creation Of Watershed Conservation Districts In York County, And The Election Of Directors Of Watershed Conservation Districts And Their Powers And Duties; And Providing For A Levy Of Taxes For The Organization And Administration Of Such Districts, And For The Construction, Operation And Maintenance Of Works Of Improvement Within Such Districts.

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Definitions.—Whenever used or referred to in this act, unless a different meaning clearly appears from the context:

(1) "Watershed conservation district" means a governmental subdivision of this State, and a public body corporate and politic, organized in accordance with the provisions of this act, for the purposes, with the powers, and subject to the restrictions hereinafter set forth.

(2) "Director" means one of the members of the governing body of a watershed conservation district, elected in accordance with the provisions of this act.

(3) "Supervisor" means one of the members of the governing body of the Catawba Soil Conservation District in which any part of a watershed conservation district is situated.

(4) "Petition" means a petition filed under the provisions of Section 4 of this act for the creation of a watershed conservation district.

(5) "County" means York County of South Carolina.

(6) "Landowner" or "owner of land" includes any person, firm or corporation who shall hold legal or equitable title to any lands lying within a watershed conservation district organized under the provisions of this act.

(7) "Due notice" means notice published at least twice, with an interval of at least one week between the two publication dates, in a publication of general circulation within the appropriate area, or, if no such publication of general circulation be available, notice posted at a reasonable number of conspicuous places within the appropriate area, such posting to include, where possible, posting at public places where it is customary to post notices concerning county or municipal affairs generally.

SECTION 2. Watershed conservation Districts may be formed in York County.—Authority is hereby granted to form watershed conservation districts within York County for the purpose of develop-

ing and executing plans and programs relating to any phase of the control and prevention of soil erosion, flood prevention, or the conservation, development, utilization, and disposal of water.

SECTION 3. Area.—The area embraced in a watershed conservation district must be contiguous and must lie within a well-defined watershed; and such area shall not include lands located within the boundary of any incorporated city or town, or lands embraced in another watershed conservation district.

SECTION 4. Petition for formation.—When twenty-five or more landowners within a proposed watershed conservation district, or, if less than fifty landowners are involved, a majority of such landowners, desire to form a watershed conservation district, they shall file a petition with the supervisors of the soil conservation district asking that a watershed conservation district be organized to function in the area described in the petition. Such petition shall set forth the proposed name of the watershed conservation district; that there is need, in the interest of the public health, safety, and welfare, for a watershed conservation district to function in the territory described in the petition; a description of the territory proposed to be organized as a watershed conservation district, which description need not be given by metes and bounds or by legal subdivisions, but shall be deemed sufficient if generally accurate; and the approximate number of acres of land included in the proposed watershed conservation district.

SECTION 5. Hearing on petition.—(1) Within thirty days after such petition has been filed with the supervisors of the soil conservation district, they shall cause due notice to be given of a hearing upon the question of the desirability and necessity, in the interest of the public health, safety, and welfare, of the creation of such watershed conservation district. All interested parties shall have the right to attend such hearing and to be heard. If it shall appear at the hearing that other lands should be included in the petition or that lands included in the petition should be excluded, the supervisors shall permit such inclusion or exclusion, provided the land area involved still meets the requirements of Section 3 of this act.

(2) If it appears upon the hearing that it may be desirable to include within the proposed watershed conservation district territory outside of the area within which due notice of the hearing has been given, the hearing shall be adjourned and due notice of a further

hearing shall be given throughout the entire area considered for inclusion in the proposed watershed conservation district, and such further hearing shall be held. After final hearing, if the supervisors of the soil conservation district determine, upon the facts presented at the hearing and upon other available information, that there is need, in the interest of the public health, safety, and welfare, for a watershed conservation district to function in the territory considered at the hearing, they shall make and record such determination, and shall define the area, but the description need not be given by metes and bounds. The description shall be deemed sufficient if generally accurate and the approximate number of acres of land included in the proposed watershed conservation district is shown.

(3) If the supervisors of the soil conservation district determine after such hearing that there is no need for a watershed conservation district to function in the territory considered at the hearing, they shall make and record such determination and shall deny the petition.

SECTION 6. Referendum.—After the supervisors of the soil conservation district have made and recorded a determination that there is need, in the interest of the public health, safety and welfare, for a watershed conservation district to function in the territory considered at the hearing, and have defined the boundaries thereof, they shall consider the question whether the operation of a watershed conservation district within the proposed boundaries with the powers conferred upon it by this act is administratively practicable and feasible. To assist the supervisors in making this determination, they shall, within a reasonable time after the entry of a finding that there is need for the organization of a watershed conservation district and the determination of the boundaries thereof, hold a referendum within the proposed watershed conservation district upon the proposition of the creation of the watershed conservation district. Due notice of the referendum shall be given by the supervisors. Such notice shall state the date of holding the referendum, the hours of opening and closing the polls, and shall designate one or more places within the proposed watershed conservation district as polling places and shall give notice that the directors shall have the power of eminent domain. The supervisors shall have full charge of the referendum and shall have suitable ballots printed and furnished to each polling place; appoint necessary box managers and other referendum officials, and shall canvass the ballots and announce the results. The cost of holding the referendum shall be paid from the general fund of York County.

Provided, that notwithstanding any provision of law to the contrary the power of eminent domain shall not be exercised over the protest of any landowner until it is conclusively established that the land proposed to be condemned is absolutely essential to the creation and operation of the watershed conservation district.

SECTION 7. Question.—The question to be voted on shall be submitted by ballots upon which appear the words:

"For creation of ———— Watershed Conservation District"

"Against creation of ———— Watershed Conservation District"

A square shall follow each proposition. The ballot shall contain a direction to insert an "X" mark in the square following one or the other of the propositions as the voter may favor or oppose creation of the watershed conservation district. The ballot shall set forth the boundaries of the proposed watershed conservation district as determined by the supervisors of the soil conservation district. No one except owners of lands lying within the boundaries of the proposed watershed conservation district, as determined by the supervisors of the soil conservation district, shall be eligible to vote in the referendum. Qualified voters may vote by absentee ballot in the referendum under such rules and regulations as may be prescribed by the supervisors. No informalities in the conduct of the referendum or in any matters relating thereto shall invalidate the referendum or the result thereof if notice of the referendum shall have been given substantially as herein provided and the referendum shall have been fairly conducted.

SECTION 8. Results—district to be created if results and determination favorable.—The votes shall be counted by the referendum officials at the close of the polls and a report of the results along with the ballots shall be delivered and certified to the supervisors of the soil conservation district; and thereafter the supervisors shall determine whether the operation of the watershed conservation district within the defined boundaries is administratively practicable and feasible. If the supervisors determine that the operation of such district is not administratively practicable and feasible, they shall record such determination and deny the petition. If the supervisors determine that the operation of such district is administratively practicable and feasible, they shall record such determination and shall proceed with the organization of such district in the manner hereinafter set forth; *provided,* however, that the supervisors shall not have authority to determine that the operation of such district is administratively practicable and feasible unless at least a majority of the votes cast in the

referendum upon the proposition of the creation of such district shall have been cast in favor of the creation of such district. If the supervisors shall determine that the operation of such district is administratively practicable and feasible, they shall certify such determination to the Clerk of Court of York County, the Code Commissioner and to the Secretary of State. Upon proper recordation of such determination, such watershed conservation district shall constitute a governmental subdivision of this State and a public body corporate and politic. After being recorded, such certification shall be filed with the State Soil Conservation Committee.

SECTION 9. Board of directors to govern district—nominating petitions—election—ballots—terms—officers—bond of treasurer. —(1) The governing body of the watershed conservation district shall consist of five directors, elected as provided herein.

(2) Within thirty days after a watershed conservation district has been created, nominating petitions may be filed with the supervisors of the soil conservation district to nominate candidates for directors of the watershed conservation district. No such nominating petition shall be accepted by the supervisors unless it is signed by twenty-five or more landowners within the watershed conservation district, or, if less than fifty landowners are involved, by a majority of such landowners. If the candidates nominated do not exceed the number of directors to be chosen, the supervisors shall declare them to be elected. No person shall be eligible to be a director of a watershed conservation district who is not a landowner in the watershed conservation district in which he seeks election.

(3) If the candidates nominated for directors of the watershed conservation district exceed the number of directors to be chosen, the supervisors of the soil conservation district shall, after having given due notice thereof, cause an election to be held within the watershed conservation district within a reasonable time after the expiration of the nominating period. The provisions of Sections 5, 6 and 7 of this act as to notice, qualifications of voters, absentee voting, and the manner of holding the referendum in organizing a watershed conservation district, shall apply insofar as practicable to the election of the directors. The names of all qualified nominees shall be printed in alphabetical order upon ballots with a square before each name and a direction to insert an "X" mark in the square before any five names to indicate the voter's preference. Only landowners within the watershed conservation district shall be eligible to vote in the election. The

five candidates who shall receive the largest number respectively of the votes cast in the election shall be the directors of the watershed conservation district, and shall, upon the supervision of the supervisors of the soil conservation district, be the governing body of the watershed conservation district.

(4) Of the directors first elected, the two receiving the largest number of votes shall serve for terms of four years, the two receiving the next largest number of votes shall serve for terms of three years, and the one receiving the next largest number of votes shall serve for a term of two years. The term of office of each of their successors shall be for four years. Any vacancy shall be filled for the unexpired term as provided to original directors.

(5) The directors shall annually designate from among their number a chairman, secretary, and treasurer. The treasurer shall execute an official bond for the faithful performance of the duties of his office, to be approved by the directors. Such bond shall be executed by a surety company authorized to do business in this State and shall be in an amount determined by the directors. The premium on each bond shall be paid by the watershed conservation district.

SECTION 10. District to be corporate body—powers and duties.—A watershed conservation district organized under the provisions of this act shall constitute a governmental subdivision of this State, and a public body corporate and politic, exercising public powers, and such district and the directors thereof shall, subject to the approval of the supervisors of the soil conservation district, have the following powers, in addition to others granted in other sections of this act:

(1) To acquire, by purchase, exchange, lease, gift, grant, bequest, devise, or otherwise, or through condemnation proceedings in the manner provided in Sections 25-101 through 25-140 and Sections 33-121 through 33-148, Code of Laws of South Carolina, 1962, such lands, easements, or rights-of-way as are needed to carry out any authorized purpose of the watershed conservation district; and to sell, lease, or otherwise dispose of any of its property or interest therein in furtherance of the purposes and provisions of this act;

(2) To construct, reconstruct, repair, enlarge, improve, operate, and maintain such works of improvements as may be necessary or convenient for the performance of any of the operations authorized by this act;

(3) To borrow money and to execute promissory notes and other evidences of debt in connection therewith for payment of the costs

and expenses of organizing the watershed conservation district for carrying out any authorized purpose of such district, and if promissory notes are issued, to execute such mortgages on any property owned by such district, or assign or pledge such revenues or assessments of such district as may be required by the lender as security for the repayment of the loan; and to issue, negotiate, and sell its bonds as provided in Section 11 of this act;

(4) To levy an annual tax on the real property within the district subject to the limitations provided in Section 13 of this act for payment of the costs and expenses of organizing the watershed conservation district or for carrying out any authorized purpose of such district. Such levy shall be made only after approval by the supervisors of the soil conservation district and upon notifying the county auditor.

SECTION 11. Bonds not to be issued unless referendum held. —(1) Bonds authorized by Section 10 of this act shall not be issued until proposed by order or resolution of the directors of the watershed conservation district, specifying the purpose for which the funds are to be used and the proposed undertaking, the amount of bonds to be issued, the rate of interest they are to bear, and the amount of any necessary tax levy in excess of the maximum authorized in Section 13 of this act. A copy of the order or resolution shall be certified to the supervisors of the soil conservation district.

(2) The supervisors shall hold a hearing on such proposal after having given due notice. If it appears that the proposal is within the scope and purpose of this act and meets all other requirements of the law, the proposal shall be submitted to the landowners of the district by a referendum held by the supervisors.

(3) The provisions of Sections 5, 6 and 7 of this act as to notice, qualifications of voters, absentee voting, and manner of holding the referendum in organizing a watershed conservation district shall apply to the referendum held under this section.

(4) If two-thirds of the votes cast in such referendum favor the proposal, the directors shall, with the approval of the supervisors, be authorized to issue such bonds.

SECTION 12. Compensation.—The directors of the watershed conservation district shall receive no compensation for their services, but they may be reimbursed for expenses, including traveling expenses, necessarily incurred in the performance of their duties as approved by the supervisors of the soil conservation district.

SECTION 13. Budget—tax levy.—Within the first quarter of each calendar year, the directors of the watershed conservation district shall prepare an itemized budget of the funds needed for administration of the watershed conservation district and for construction, operation and maintenance of works of improvement. After approval of such budget by the supervisors of the soil conservation district, the county auditor shall levy a tax sufficient to meet such budget on all real property within the watershed conservation district of not to exceed five mills on each dollar of assessed valuation, except that this limitation shall not apply to any levy necessary to provide a sinking fund for the retirement of bonds authorized by Section 11 of this act. A copy of such budget shall be certified to the Auditor of York County.

SECTION 14. List of landowners and acres subject to assessment.—(1) The directors of the watershed conservation district with the assistance of the county auditor shall prepare a list of the landowners involved showing the number of acres subject to assessment.

(2) When the property tax rolls are delivered to the county treasurer by the county auditor, as required by law, the county treasurer shall compute the tax due the watershed conservation district from each landowner in accordance with the rate fixed by the directors and the value of the real property indicated on the tax roll. The computation shall be made on the regular tax bills.

SECTION 15. Collection of taxes.—(1) The county treasurer shall collect the taxes due the watershed conservation district at the same time and in the same manner as he collects other taxes of the county.

(2) The taxes shall be subject to the same due and delinquency dates, discounts, penalties and interest as are applied to the collection of county taxes.

SECTION 16. Expenditures.—Tax funds collected shall be transferred to and held by the treasurer of the watershed conservation district for the specific purpose for which they have been collected. All expenditures of such funds shall be made by the directors of the watershed conservation district with the approval of the supervisors of the soil conservation district.

SECTION 17. Petition to have lands detached.—The owners of lands which have not been, are not and cannot be benefited by their

inclusion in the watershed conservation district may petition the supervisors of the soil conservation district to have such lands detached. The petition shall describe such lands and state the reasons why they should be detached. A hearing shall be held by the supervisors within thirty days after the petition is filed and due notice of such hearing shall be given by the supervisors. If it is determined by the supervisors that such lands shall be detached, such determination shall be certified to the Auditor of York County for recording. After being recorded, the certification shall be filed with the State Soil Conservation Committee.

SECTION 18. Petition for discontinuance of district—hearing—referendum—discontinuance if election and determination favorable.—(1) At any time after five years after the organization of a watershed conservation district, twenty-five or more landowners within such district, or if less than fifty landowners are involved, a majority of such landowners, may file a petition with the supervisors of the soil conservation district asking that the existence of the watershed conservation district be discontinued. The petition shall state the reasons for discontinuance, and that all obligations of the watershed conservation district have been met. The supervisors may conduct such hearings upon the petition as may be necessary to assist them in the consideration thereof.

(2) Within sixty days after petition has been filed with the supervisors they shall give due notice of the holding of a referendum. The supervisors shall hold such referendum substantially as provided for in Section 11 of this act. The question shall be submitted by ballots upon which the words "For terminating the existence of the ——— ——— Watershed Conservation District" and "Against terminating the existence of the ——— Watershed Conservation District" shall be printed, with a square before each proposition and a direction to insert an "X" mark in the square before one or the other of the propositions as the voter may favor or oppose the discontinuance of such watershed conservation district. Only landowners within the watershed conservation district shall be eligible to vote in such referendum. No informality in the conduct of the referendum or in any matters relating thereto shall invalidate the referendum or the results thereof if notice of the referendum shall have been given substantially as herein provided and the referendum shall have been fairly conducted.

(3) The supervisors shall publish the results of the referendum and shall thereafter determine whether the continued operation of the

watershed conservation district is administratively practicable and feasible. If the supervisors determine that the continued operation of the watershed conservation district is administratively practicable and feasible, they shall record such determination and deny the petition. If the supervisors determine that the continued operation of the watershed conservation district is not administratively practicable and feasible, they shall record such determination and shall certify such determination to the directors of the watershed conservation district; *provided,* however, that the supervisors shall not be authorized to determine that the continued operation of the watershed conservation district is administratively practicable and feasible unless at least a majority of the votes cast in the referendum shall have been cast in favor of the continuance of the watershed conservation district.

In accordance with authority granted in Section 32-1525 of the Code of Laws of South Carolina, 1962. the following Regulations are promulgated:

4.8 Beef or pork as an ingredient refers to muscular tissue of animal.

4.9 Any meat product carrying more than 3½% cereal and/or extenders must be labeled "Imitation". The word "Imitation" must precede the brand name and be of the same type and style as the other lettering on the label. Immediately following the brand name, a statement of all ingredients arranged in order of their predominance must be stated.

4.10 To prevent unnecessary labeling, beef and pork by-products are grouped into two categories each.

CATEGORY A includes trimmed tongues, hearts, livers and fat and may be designated on the label as beef or pork by-products, as the case may be.

CATEGORY B includes lips, tongue trimmings, spleens, tripe, tongues, skins, ears, snouts, kidneys, stomachs, and untrimmed pork jowls, and when used must be shown on the label, for example: Beef by-products and lips, tongue trimmings, snouts, stomachs, et cetera.

4.11 Meat products labeled simply as franks, weiners, beef or pork will be considered all meat products, as the law requires any meat product containing cereals and/or extenders, to be labeled "cereal and extenders added" if the maximum does not exceed 3½%, and if more than 3½%, be labeled as "Imitation", and the percentage of each shall be stated on the label.

The effective date of these Regulations shall be July 10, 1964.

(Filed in the office of the Secretary of State October 5, 1962)

Promulgated under authority of Section 66-415 of the 1962 Code

2(a). All manufacturers, jobbers, wholesalers, retailers and others who distribute gasoline at retail level and desire to designate the various grades or brands by numbers shall not display or use any number for the grade or grades or brand name other than the registered octane count for such grade or grades or brand name, **except where a legible statement is affixed to all pumps dispensing such grade or grades indicating that such number or numbers do not represent octane numbers;:**

(Filed in the office of the Secretary of State October 9, 1964)

Promulgated under authority of Section 3-608 of the 1962 Code

Definition

I. The term "Concentrated Commercial Feeding Stuffs" defined in Section 3-601 Code of Laws of South Carolina, is further defined and held to include:

All materials which are distributed for use as feed or for mixing in feed, other than for man, except:

(a) Whole hays, straw, cotton seed hulls, and corn stover, when the same are not mixed with other materials, and

(b) The unmixed whole seeds of grains of cereals when not mixed with other materials. Also such unmixed whole seeds of grains of cereals found by inspection to be in such damaged condition

as to be unfit for feed purposes, and which may not therefore be mixed with other materials or sold or distributed in any manner for feed purposes.

Labeling

The firm name and address shown on tags and/or labeled packages is held solely responsible for:

1. Registration of the product.
2. The product meeting the declared nutritional guarantee.
3. Every ingredient being in the feeding stuff as stated in the list of ingredients.

Every person, firm, or corporation that ships or distributes feeding stuffs into the State of South Carolina, except as hereinafter provided in Section 4, shall be solely responsible for:

1. The payment of inspection fees.
2. Ascertaining that the feeding stuffs are registered by the manufacturer. and are properly tagged.

II. For mineral feeds and for feeds containing five percent (5%) or more mineral ingredients the statement shall include the following when added:

Minimum and maximum percentages of calcium (Ca).

Minimum percentage of iodine (I).
Minimum and maximum percentages of salt (Nacl).

Other substances or elements, determinable by laboratory methods may be guaranteed by permission of the Commissioner of Agriculture. When any items are guaranteed, they shall be subject to inspection and analysis in accordance with the methods and regulations that may be prescribed by the Commissioner.

Molasses, and products sold or distributed solely as mineral or vitamin supplements and guaranteed as specified in this Section, need not show guarantees for protein, fat, and fiber.

If a commercial feeding stuff contains a non-nutritive substance which is intended for use in diagnosis, cure, mitigation, treatment or prevention of disease or which is intended to affect the structure or any function of the animal body, the Commissioner may require the label to show the amount present, directions for use and warnings against misuse of the feed.

An ingredient statement is not required for single standardized ingredients which are officially defined by the Association of American Feed Control Officials.

Registration—Reporting System—Bond

III. Every person who desires to distribute commercial feeding stuffs in this state shall, as a condition precedent to registration of the product, make application to the Commissioner of Agriculture for a permit to report the tonnage of feeding stuff sold.
Registration of Commercial Feeds shall be granted upon the further following conditions:

1. Each and every distributor shall keep such records as are necessary to indicate accurately the tonnage of feeding stuffs bought, sold, and distributed in the state, and as are satisfactory to the Commissioner of Agriculture. Issuance of sales invoices on all sales and deliveries and maintenance of purchase invoices is mandatory. Such records shall be available to the Commissioner, or his duly authorized representative, at any and all reasonable hours for the purpose of making such examination as is necessary to verify the tonnage statement and the tax paid.

2. Each and every distributor shall report the taxable tonnage sold and distributed monthly under oath and on forms to be furnished by the Commissioner. Such reports shall be made and the inspection fee shall be due and payable monthly on the 10th day of each month covering the tonnage and kind of commercial feeding stuffs sold during the preceding month.

If the report is not filed and the inspection fee paid by the 20th day following the date due. or if the report of tonnage be false, the Commissioner may revoke the permit as well as the registration.

In order to guarantee faithful performance with these regulations, each manufacturer, importer, jobber, firm, corporation, or person shall, before being granted a permit to use the reporting system, comply with the requirements of Section 3-644 of the feed law.

Where feeding stuffs have heretofore been registered and the registrant is not under the reporting system, then such person shall have a period of ninety days from the date hereof to come under the reporting system. Failure to do so within this period shall result in cancellation of the registration.

Purchase Exemption Permit

IV. Any importer, manufacturer, manipulator or distributor who buys, or receives on exchange, from another importer, manufacturer, manipulator, distributor or individual, concentrated commercial feeding stuffs for mixing purposes and resale, may apply to the Commissioner of Agriculture for a permit which shall authorize the purchaser to buy or receive such feeding stuffs for such purposes without any tax being first paid thereon, if the tax is paid when such material, either mixed with other materials or in its original form, is resold in South Carolina to other than the holder of a purchase exemption permit. Such permits shall be issued within the discretion of the Commissioner of Agriculture.

1. Preparation of sales invoices covering sales and deliveries to holders of purchase exemption permits is mandatory, and all such invoices shall show exclusion of the inspection fee by legibly recording the purchasers' purchase exemption permit number preceded by the wording "South Carolina Exemption Permit". The inspection fee shall be considered not paid and due and payable by the seller or distrbiutor on all invoices not showing the exemption permit number notation and shall not be subject to refund under any condition.

2. Sellers and distributors shall require, and purchasers shall furnish with the initial order placed under the permit with the supplier, a certified statement to the seller that the purchaser is the holder of a purchase exemption permit. A copy of this statement shall be immediately forwarded to the South Carolina Department of Agriculture. All such statements shall be prepared on forms furnished by the Department of Agriculture. Failure by the permit holder to furnish to the South Carolina Department of Agriculture a copy of each such statement issued shall require payment of a $5.00 penalty for each notice not furnished.
3. Each and every importer, manufacturer or manipulator shall keep such records as are necessary to indicate accurately the tonnage of feeding stuffs purchased, sold and delivered pursuant to issuance of the purchase exemption permit, and such records must be satisfactory to the Commissioner or his duly authorized representative; and said records shall be made available at any and all reasonable hours for the purpose of making such examination as is necessary to verify the tonnage purchased, sold, and delivered.
4. Where a purchase exemption permit is granted to an importer, manufacturer, or manipulator, each manufacturer, importer, jobber, firm, corporation or person shall, before being granted a purchase exemption permit, deposit with the Commissioner cash or its equivalent in the amount of five hundred ($500.00) dollars, or shall post with the Commissioner a surety bond in like amount, executed by some corporate surety company authorized to do business in South Carolina, and counter-signed by a licensed South Carolina agent of said company, which shall be approved by the Commissioner before acceptance. The conditions of the bond shall be to guarantee compliance with all statutory laws, the rules and regulations of the State of South Carolina relating to the sale, manufacture and distribution of commercial feeding stuffs in the State of South Carolina. Non-performance or failure to comply shall result in the payment of the sum of five hundred ($500.00) dollars as liquidated damages to the State of South Carolina.

   The bond required hereunder shall be in addition to that required under Section 3-644. The posting of separate bonds of five hundred ($500.00) dollars each or a combined bond with limited liability of five hundred ($500.00) dollars under each bonding requirement shall be optional. Five hundred ($500.00) dollars monthly reporting permit bonds on file upon effective date of this regulation may be increased to one thousand ($1,000.00) dollars by endorsement of the issuing surety.

Inspection Tax

V. The inspection tax required under Section 3-641 applies to all commercial feeding stuffs furnished, supplied or used for the growing or feeding under contract or agreement, other than for man, and shall also apply to any feeding stuffs which are produced by the purchase of grain or other materials and the grinding and mixing of same with

concentrated commercial feeding stuffs being used as a supplement or base.

A "Customer Formula Feed" is hereby defined as a mixture of commercial feeds or materials, each batch of which mixture is formulated according to the specific instructions of the final purchaser, or contract feeder and is subject to the inspection tax required under Section 3-641 just as any other commercial feeding stuff.

A "Customer Formula Feed" shall be labeled by invoice. The invoice, which is to accompany delivery and be supplied to the purchaser at the time of delivery, shall bear the following information:

1. Weight or quantity of the feed.
2. Name and address of the mixer.
3. Name and address of the purchaser.
4. Date of sale.
5. The product name and brand name, if any, and number of pounds of each registered commercial feed used in the mixture and the name and number of pounds of each other feed ingredient added.
6. A statement of the maximum percentage it contains of crude fiber, and the minimum percentage of crude fat and crude protein.

A "Custom-mixed Feed" is hereby defined as a feed composed of grains or other feed materials grown on the farm of a person, firm, or corporation engaged in farming and ground and mixed with a concentrate or base for the sole purpose of being fed to the livestock, domestic animals or poultry of the said person, firm, or corporation.

In "custom-mixed feed", only that portion of such feed as is grown and supplied by the said person, firm or corporation, shall be exempt from the feed inspection tax; provided the identical grain or other feed material furnished the mixer is received back. The exchange, swap or barter of such material for like grain or material by and between the manufacturer, importer, jobber, firm or corporation and the person, firm, or corporation engaged in farming and supplying such material from his farm for use in a "custom-mixed feed" precludes exemption and said feed becomes subject to the inspection tax just as any other feeding stuff.

A "custom-mixed feed" shall be labeled by invoice. The invoice, which is to accompany delivery and be supplied to the purchaser at the time of delivery, shall bear the following information:

1. Name and address of the mixer.
2. Name and address of the purchaser.
3. Date of sale.
4. The product name and brand name, if any, and number of pounds of each registered commercial feed used in the mixture and the name and number of pounds of each other feed ingredient added.

The effective date of these regulations shall be October 8, 1964.

Regulation No. 3

(Filed in the office of the Secretary of State September 30, 1964)

Regulation No. 3 is amended by deleting Paragraph B in its entirety and inserting in lieu thereof the following:

B. **Establishment of Milk Bases**—The base period shall be from September 1 of each year through January 31 next succeeding. (A base period from September 1 each year through December 31 next succeeding may be used in plants when such period is mutually agreeable to the producers and distributors concerned, provided written notice to that effect is forwarded to the Commission by the distributors prior to September 1 each year.) The base of each producer shall be determined after each base period in accordance with the rules set forth below.

1. The base of each producer shall be one hundred and five percent (105%) of the monthly average of the Class I and Class II utilization allocated to each producer, exclusive of any military contract milk, during the base period or the producer's total production during such period, whichever is lesser, except as provided in paragraph 3. (NOTE: For the base period beginning September 1, 1964 **ONLY**, military milk may be included in the calculation of bases at plants holding military contracts at the beginning of the period if a majority of the producers so elect in a mail referendum conducted by the Commission.)
2. The base of a new producer, coming on the market without an established base, shall be determined by dividing the total grade A milk delivered by such producer during the first base period occurring after the entry of such producer on the market by the number of months in the base period; provided however, a new producer shall not be entitled to establish an average monthly base in excess of 20,000 pounds.
3. A producer with an established base who delivers milk regularly to a grade A milk plant during the base period and whose average production during such period decreases by more than ten percent (10%) of his current base, shall have his new base determined by multiplying his current base by ninety percent (90%); provided, however. such producer's new base shall not exceed the amount obtained by multiplying his current base by the average percentage of the total plant base applicable in determining the bases of all producers in the plant at which his milk is marketed; and provided further, that a producer shall not be entitled to the protection as herein provided for two (2) consecutive base periods.

This amendment shall take effect October 1, 1964.

Regulation No. 4

(Filed in the office of the Secretary of State December 8, 1964)

Filing of Wholesale and Retail Prices

Regulation No. 4, as amended, is further amended by rewriting it in its entirety to read as follows:

A. Pursuant to the requirements of Section 32-1640.4, 1962 Code, each distributor, as a prerequisite to obtaining a license, shall file with the Commission, on forms prepared and furnished by the Commission, a schedule of wholesale and retail prices established by such distributor for each market served directly by the distributor or indirectly through a sub-distributor, sales branch or subsidiary principally supplied with processed products by such distributor. Each schedule shall include the price of each unit of product covered by the Act and offered for sale by the distributor, and shall specify the size and type of container. The required schedule of prices and any change with respect thereto shall be signed by a responsible official, who by virtue of his position and duties can appropriately sign the affidavit on Form No. SDC-1, and such person shall be designated in the distributor's application for license or renewal of license to be held legally responsible for compliance with conditions of the license to be issued.

1. A copy of the distributor's current schedule of prices on file at any time with the Commission for any market served by a sub-distributor, sales branch or subsidiary shall be furnished by the distributor to and kept on file in the office of the sub-distributor, sales branch or subsidiary serving such market.
2. A distributor shall not be required to establish and file prices with the Commission for any product(s) offered for sale except those products covered by the Act (milk, milk products. ice cream and frozen desserts). However, the sale by a distributor of any product which is not covered by the Act to ANY wholesale or retail consumer at a price less than the price made available to ALL wholesale and retail customers respectively, or any other discriminatory pricing practice with respect to such products by a licensee, shall be deemed a decrease in the prices filed with the Commission for the products covered by the Act and a violation of the price filing provisions of this Regulation.

B. Upon receipt from distributors of all required Schedules of Prices annually, the Commission shall, as soon thereafter as is practical, determine and make available to each licensed distributor the prices of each unit of milk and milk product established by each licensed distributor for each market within the State.

C. The wholesale and retail prices filed with the Commission by a distributor for each market shall be charged uniformly for all deliveries within the market except as follows:

1. Special wholesale prices MAY be established for any market and filed with the Commission to be made available to: (1) private, public, or parochial schools and state or church supported colleges or uni-

versities which provide non-profit lunch room facilities for students; (2) eleemosynary institutions or agencies and, (3) non-profit hospitals entirely supported by a church or by the federal, state, county or municipal governments; **PROVIDED;** the special wholesale prices so established are made available uniformly to all such customers within a given market. Special wholesale prices established in accordance herewith shall not apply to products purchased by or for independently operated dairy bars, soda shops, canteens, student centers, etc., or food service facilities operated by any person other than the specific types of customers designated above.

2. The prices filed for any market shall not be deemed to apply to products sold to the United States Government under contract and delivered to federal military installations; provided however, each distributor entering into a contract with the United States Government to supply any product covered by the Act to such installations shall notify the Commission in writing prior to the first day of delivery under such contract of: (1) the name of the installation to be supplied; (2) the approximate quantity of each unit of each product to be supplied; (3) the unit price made available on each unit of each product and; (4) the beginning and terminating dates of the contract.

D. The prices established by a distributor for any market and filed with the Commission may be changed (including any addition to the distributor's product line of a **new product** or a **new unit** of an existing product on which prices are required to be filed (**ONLY** on the first day of any calendar month; **PROVIDED,** a **complete** new schedule of prices applicable in such market is sent by certified mail to the Commission, **on forms furnished by the Commission,** and such schedule is received in the Commission office at least ten (10) days (exclusive of Sundays and legal holidays) prior to sale or **OFFER** to sell at the prices established by the new schedule.

E. The Commission, upon receipt of a new schedule of prices duly filed for any market, shall mail within three (3) days thereof (exclusive of Sundays and legal holidays) a copy of the new schedule to each licensed distributor operating in the market in which the new prices are to be applicable.

F. A distributor, upon receipt from the Commission of a new schedule of prices established by a competitor for any market, may place into effect in such market on the effective date designated on such schedule similar price changes (but not below those which have been duly filed with the Commission by a competitor); **PROVIDED,** the distributor sends to the Commission by certified mail a complete new schedule of prices to be applicable in the affected market and such schedule is received in the Commission office at least one (1) day (exclusive of Sundays and legal holidays) prior to sale or **OFFER** to sell at the new prices filed as provided by this paragraph.

G. No distributor shall sell or **OFFER** for sale any product covered by the Act in any market, either directly or indirectly through a sub-

distributor, sales branch or subsidiary, at a price less than the price offered in the market in which such distributor's processing plant is located, or less than the price offered in the principal sales area of such distributor (measured by volume of sales), except when such lower price is offered in good faith to meet a competitive price which has been duly filed with the Commission, and after due notice has been given as provided in paragraph F above. No sub-distributor shall sell or **OFFER** for sale any product covered by the Act at a price forbidden the distributor by whom such sub-distributor is principally supplied with processed products.

H. A distributor shall not file and place into effect a price for any unit of milk or milk product which is less than the unit price of such product as duly filed by the distributor with the Commission on April 1, 1963, except to meet competition as provided in paragraph F of this Regulation or as may be permitted by Special Order of the Commission, until the Commission has determined by an audit to be made at the request of the distributor, that any proposed reduced price of any unit of milk or milk product is not less than the distributor's cost as defined by Section 32-1611(23) and 32-1640.8 of the 1962 Code of Laws of South Carolina.

I. A distributor shall prove, at a hearing before the Commission. that all provisions of Section 32-1640.3(3), 1962 Code of Laws of South Carolina relating to the establishment of prices based on quantity, terms or conditions of sale have been fully complied with before filing or placing into effect any schedule of wholesale prices which are based on said factors.

J. A distributor shall not file and place into effect, on or after January 1, 1965, a price for any unit of milk, skim milk, or buttermilk in any container larger or smaller than a half-gallon unit (except a unit normally sold to the wholesale trade for use in a dispenser) which is less than an amount proportionate to the price filed for a half-gallon unit of such product on the basis of the relative volume of the larger or smaller unit adjusted by any differential in the distributor's container cost. Furthermore, on and after January 1, 1965, a distributor shall not offer milk, skim milk or buttermilk for sale in any market in a unit larger than one-half gallon (including containers bound together and sold as a unit) unless such product, in the same size and type of container, is generally sold by such distributor in the market or area in which such distributor's processing plant is located. The provisions of this paragraph shall not prohibit a distributor from meeting lawful competition. This regulation shall take effect January 1, 1965.

(Filed in the office of the Secretary of State December 10, 1964)

Regulation No. 4, as amended, is further amended by deleting Paragraph H in its entirety and inserting the following in lieu thereof:

H. A distributor shall not file and place into effect any prices for milk and milk products based upon any system or policy of pricing (i. e., prices based upon quantities purchased or other terms or conditions of sale)

which is different from the system or policy used in establishing the prices on file with the Commission on April 1, 1963, except to meet competition as provided in paragraph F of this Regulation or as may be permitted by Special Order of the Commission, until the Commission has determined by an audit to be made at the request of the distributor, that any proposed reduced price of any unit of milk or milk product is not less than the distributor's cost as defined by Section 32-1611(23) and 32-1640.8 of the 1962 Code of Laws of South Carolina.

This amendment shall take effect January 1, 1965.

SECTION 1. Definitions.

a. Stabilization Pond—Stabilization Ponds are relatively shallow basins built by excavation of the ground and/or diking, and are used for the purpose of treating raw, settled, intermediate, or secondary domestic sewage effluent by storage under conditions that favor natural biological activity and accompanying bacterial digestion, which reduces the waste to a stabilized state. The term stabilization pond, as herein used, is synonymous with the term oxidation pond or sewage lagoon.

b. Loading—A measure of the waste to which the pond is subjected, expressed as population equivalent or as pounds of five-day Bio-chemical Oxygen Demand per water surface acre per day. No pond shall have less than a 30-day theoretical detention period.

c. Freeboard—Freeboard refers to the portion of a dike or dam which is above the highest water surface.

SECTION 2. Minimum Design Factors.

a. Loading—Loadings shall conform to current Sanitary Engineering Division policy which may be obtained upon request.

b. Shape—The shape of ponds should be regular and essentially square or rectangular with rounded corners and no coves, peninsulas, or islands where floating material may accumulate.

c. Depth—The liquid maximum and minimum depths shall conform to current Sanitary Engineering Division policy. Provisions must be made to vary the working depth of the pond.

d. Inlets—The inlet shall be located at least one-half the shortest diameter of the pond away from the shoreline and in no instance nearer than one-half the longest diameter of the pond to the outlet structure. Invert of last manhole on the sewer line shall be above the highest operating level of the pond. Where there is gravity discharge to the pond, the line shall discharge to the pond through a 90° ell at a point below the lowest operating level to a splash block. Submerged pump lines to ponds shall have provisions to prevent any back-siphonage, in addition to the usual check valve and gate valve installation. All pump stations to be equipped with two pumps, and the discharge from pump lines shall be directed away from the surface so as to avoid surface turbulence. No wooden structures which come in contact with the sewage shall be allowed, and all metal surfaces in contact with the sewage shall be coated with a material to prevent rusting and corrosion. Effluents from primary stabilization ponds in a two or more pond series may be discharged to the shore line of the second pond. Design shall be based on a detention equal to or in excess of 30 days.

e. Outlets—The outlet structure shall be designed so as to provide for subsurface withdrawal. The design shall allow for variation in the working depth and necessary dewatering of the pond. The outlet structure shall be located at a point most distant from the inlet. The inside face shall be at least one foot from toe of dike and shall be accessible by means of a bridge.

f. Dikes—Dike must be relatively impervious and keyed to original ground surface where deemed necessary by engineer. Dike slopes shall not be less than three horizontal to one vertical and the top width shall be adequate for the travel of maintenance vehicles. Freeboard above the maximum depth water-line shall be not less than two feet nor more than four, depending on the size of the pond. Dikes shall be seeded above the water line with a satisfactory short stem, shallow rooted grass and well attended until growth is established.

g. Pond Bottom—The pond bottom shall be level and well compacted to avoid excessive seepage, and free of vegetation when the system is placed in operation.

h. Fencing—The site shall be completely fenced with a non-climbable, stock-tight fence. The fence shall be at least five feet in height with three strands of barbwire on top. A locked gate large enough to admit maintenance vehicles shall be provided. The fence shall be placed so as to aid in maintenance operations. Permanent signs containing the words "THIS IS A SEWAGE STABILIZATION POND—KEEP OUT" shall be placed on the fence.

i. Maximum hours of sunlight on the pond surface shall be provided, and removal of obstacles preventing air circulation over the pond surface is required.

j. Chlorination—In cases where discharge of the final effluent is to a watercourse with a classification justifying chlorination, this chlorination facility shall be shown, in detail, with the required equipment and detention period.

k. Access to the pond shall be provided without crossing land of others, unless right of access has been legally established, and must have roadway for use of maintenance equipment.

l. A basic effluent measuring device shall be provided.

SECTION 3. Location.

The location of a stabilization pond shall be such that sufficient isolation is obtained, or as far from residential and commercial developments as is reasonably practicable and economically feasible.

SECTION 4. Design By A Registered Engineer.

All stabilization ponds shall be designed by a Registered Engineer licensed by the State of South Carolina. Plans and specifications must be submitted to the State Board of Health for review and approval prior to construction, and shall then be constructed and initially operated under the engineer's supervision for such a period as determined by State Board of Health and Water Pollution Control Authority.

SECTION 5. Initial Operation.

Use of the stabilization pond shall follow an inspection by the State Board of Health and a letter of release for use issued. The pond shall be partially filled with fresh water or other arrangements made to insure an adequate liquid level during start up. At no time shall a pond containing waste be allowed to partially or completely dry up.

SECTION 6. Operation and Maintenance.

Where stabilization ponds are not to be operated and maintained by a municipality, or legally constituted sewer district, city, or other legally constituted sewage authority, the owner shall submit along with the plans a legal document establishing this responsibility for the permanent operation and maintenance of the complete sewerage facility (the approval of this document is a function of the S. C. Attorney General's office).

Grass referred to herein shall be regularly cut, and any erosion to the dikes, or damage to the fence, or other features, shall be immediately repaired. Particular attention shall be given to the prevention of marginal growth of weeds and aquatic growth.

This supersedes those filed in the office of the Secretary of State July 13, 1960.

INSURANCE COMMISSION

Uninsured Motorist Fund Distribution

Promulgated under authority of Sections 46-138.6 and 37-56 of the 1962 Code

(Filed in the office of the Secretary of State December 29, 1964)

It appears that all companies authorized to write automobile liability insurance contracts in this State have been requested to provide appropriate premium and loss statistics for the year 1963, and have been advised that any such company not reporting by September 1, 1964, will not be entitled to participate in the distribution of the South Carolina Uninsured Motorist Fund for 1963.

It further appears that all such companies have provided the statistics requested, or, by failure to provide such statistics, have waived participation in the distribution for the year 1963.

It further appears that the appropriate formulae for distribution consistent with the provisions and intent of Section 46-135, et seq., of the Code, is as follows:

Section 1. The fund distributable shall comprise an amount equal to the total amount of uninsured motorist fees provided for in Section 46-136 of the Code, less the amount provided for in Section 46-138.4(1) of the Code regarding costs and expenses for administration in the registration and licensing of uninsured motor vehicles, plus the balance remaining in the fund for prior years.

Section 2. The fund distributable shall be separated on the basis of total written premiums for private passenger writings and total written premiums for all other automobile liability writings.

Section 3. Distribution shall be made from the total "private passenger" distributable fund, pro-rata to participating companies on the

basis of company insured car years to the total of all companies insured car years.

Section 4. Distribution shall be made from the total "all other" distributable fund, pro-rata to the participating companies on the basis of company "all other" written premiums to the total of all companies "all other" written premiums.

Therefore, ditribution shall be made from the Uninsured Motorist Fund, in accordance with the above formulae.

State Fire Marshal

Promulgated under authority of Sections 37-82.1 and 37-82.7 of the 1962 Code

(Filed in the office of the Secretary of State February 2, 1965)

Places of Outdoor Assembly, Grandstands and Tents

I. Applicability of Pamphlet No. 102

The provisions of National Fire Protection Association Pamphlet No. 102 of 1957 shall constitute the minimum fire prevention and protection standards for the prevention of fire and for the protection of life and property with respect to places of outdoor assembly in connection with grandstands and tents. Those interested should refer to the copy filed in the office of the Secretary of State.

II. Scope and Purpose of Pamphlet No. 102

The scope and purpose of Pamphlet No. 102 is contained in Section 1-1 which provides, as follows:

"1-1. Scope and Purpose.

This standard covers the design, construction, location, maintenance, and use of grandstands, indoor or outdoor, including temporary, permanent, portable, or foldable stands, and of tents or other structures and premises for use or used as places of outdoor assembly. Its purpose is to specify reasonable requirements to safeguard persons and property in so far as it pertains to public safety."

III. Statutes, Provisions of Codes and Ordinances

No provision of Pamphlet No. 102 shall apply to the extent that it is in conflict with any statute of this State, any provision of any building or other code duly adopted by ordinance of a municipality or any duly adopted ordinance of any municipality. In the event of such a conflict, such statute, provision or ordinance shall apply in all respects.

IV. Prior Regulation

The regulation filed October 28, 1963, regarding Pamphlet No. 102 is hereby cancelled and superseded.

Building Exits

I. Applicability of Code

The provisions of the Building Exits Code for Life Safety from Fire, published by the National Fire Protection Association—NFPA No. 101-1963 shall constitute the minimum fire prevention and protection standards for the prevention of fire and for the protection of life and property with

respect to exits and related matters in connection with factories, asylums, hospitals, churches, schools, halls, theaters, amphitheaters, and all other buildings or structures in which numbers of persons work, live, or congregate from time to time for any purpose. Those interested should refer to the copy filed in the office of the Secretary of State.

II. Definitions

The word "exit," as used in this Regulation, is defined in paragraph 3001 of Section 30 of Chapter III of the Code as follows:

"3001. An exit, as referred to in this Code, shall be a way of departure from the interior of a building or structure to the open air outside at the ground level. It may comprise vertical and horizontal means of travel such as doorways, stairways, escalators, ramps, corridors, passageways and fire escapes, including all elements necessary for the purpose of emergency escape from the building or structure. An exit begins at any doorway or other point of access to an exit from which occupants may proceed to the exterior of the building or structure with reasonable safety.

"In case of a stairway, the exit includes the door to the stairway enclosure, stairs and landings inside the enclosure, the door from the stairway enclosure to the street or open air or any passageway and door necessary to provide a path of travel from the stairway enclosure to the street or open air. In case of a door leading directly from the street floor to the street or open air the exit comprises only the doorway.

"Doors of small individual rooms, as in hotels, while constituting means of escape from the room, are not referred to as exits except when they lead directly to the outside of the building or other place of safety, but in a large room, such as a school auditorium, the doors constitute an integral part of the exit system and are referred to as exits from the room. An interior aisle, corridor or hallway used to reach a stair or door exit is not an exit except where it is so located, arranged and enclosed as to constitute an integral part of a system of travel as described in the preceding paragraph."

III. Introduction to Code

The introduction to the Code provides, as follows:

"1. This Code deals with public safety from fire and like emergencies. It specifies the number, size and arrangement of exit facilities sufficient to permit prompt escape of occupants from buildings or structures in case of fire or other condition dangerous to life. It covers construction, protection and occupancy features to minimize danger to life from fire, smoke, fumes or panic before buildings are vacated. The Code recognizes that life safety is more than a matter of exits and accordingly deals with various matters besides exits which are considered essential to life safety, and, in some cases, specifies limits beyond which the hazard is so great that no practical amount of exits can give assurance of any reasonable safety.

"2. Absolute safety from fire is not practically attainable; the objective of this Code is to specify measures which will provide that degree

of public safety from fire which can be reasonably required. The Code endeavors to avoid requirements which might involve unreasonable hardships or unnecessary inconvenience or interference with normal use and occupancy of buildings, but insists upon compliance with minimum standards for fire safety necessary in the public interest, even though a financial hardship may be involved in some individual cases.

"3. This Code does not attempt to cover general fire prevention or building construction features such as are commonly dealt with in fire prevention codes and building codes, nor to protect the individual from the results of his own careless acts such as smoking in bed.

"4. Exits from vehicles, vessels or other mobile structures are not covered by this Code except that when in fixed locations and occupied as buildings they are treated as buildings in regard to exit requirements.

"5. Neither the prevention or accidental personal injuries during the course of normal occupancy of buildings, nor the preservation of property from loss by fire has been considered as the basis for any of the provisions of this Code, but many of the requirements of the Code will incidentally contribute towards these objectives.

"6. The Building Exits Code recognizes that panic in a burning building may be uncontrollable, but deals with the potential panic hazard through measures designed to prevent the development of panic. Experience indicates that panic seldom develops, even in the presence of potential danger, so long as occupants of buildings are moving towards exits which they can see within a reasonable distance with no obstructions or undue congestion in the path of travel. However, any uncertainty as to the location or adequacy of means of exit, the presence of smoke, or stoppage of exit travel, such as may occur when one person stumbles and falls on stairs, may be conducive to panic. Panic danger is greatest when there are numbers of people in a confined area.

"Scope and Applications.

"11. The official scope statement for the Building Exits Code is: 'This Code covers the construction, arrangement and use of exit facilities necessary to provide safe means of egress from structures, together with such features of construction and protection as have bearing on safety of egress.'

"12. This Code covers both new and existing construction. In various sections of the Code there are specific provisions for existing structures differing from those for new construction. Except in so far as specifically thus provided, all requirements of the Code apply to existing as well as to new construction.

"Basis.

"21. The provisions of this Code are based upon fires in which major loss of life has occurred over a long period of years, with an analysis of those features primarily responsible for fire fatalities, supplemented by studies of the conditions of occupancy of buildings and the manner of use of exit facilities, together with such test and research data as

have been available. Psychological as well as physical factors have been considered, as fire experience shows that many of the fire tragedies of history cannot be completely explained by physical factors alone. Details which have necessarily been established on a basis of engineering judgment in the absence of specific factual data have been checked in relation to actual fire experience, recognized architectural practice and long-existing legal requirements.

"22. The present text incorporates the same basic provisions that have appeared in previous editions, but with different editorial treatment. All of the text is subject to continuing study by the committee with a view to making further improvements in future editions."

IV. Statutes, provisions of other Codes, and Ordinances

No provision of the Code shall apply to the extent that it is in conflict with any statute of this State, any provision of any building or other code duly adopted by ordinance of a municipality or any duly adopted ordinance of any municipality. In the event of such a conflict, such statute, other provision or ordinance shall apply in all respects.

Proxies, Consents and Authorizations of Domestic Insurers

(Filed in the office of the Secretary of State February 25, 1965)

Effective Date: The following regulation shall be effective on and after April 1, 1965.

Section 1 Application of Regulation—This regulation is applicable to all domestic insurers having one hundred or more stockholders; provided, however, that this regulation shall not apply to any insurer if ninety-five percent or more of its stock is owned or controlled by a parent or an affiliated insurer and the remaining shares are held by less than five hundred stockholders. A domestic insurer which files with the Securities and Exchange Commission forms of proxies, consents and authorizations complying with the requirements of the Securities and Exchange Act of nineteen hundred thirty-four and the Securities and Exchange Acts Amendments of nineteen hundred sixty-four and Regulation X-14 of the Securities and Exchange Commission promulgated thereunder shall be exempt from the provisions of this regulation.

Section 2 Proxies, Consents and Authorizations—No domestic insurer, or any director, officer or employee of such insurer subject to Section 1 hereof, or any other person, shall solicit, or permit the use of his name to solicit, by mail or otherwise, any proxy, consent, or authorization in respect of any stock of such insurer in contravention of this regulation and Schedules A and B hereto annexed and hereby made a part of this regulation.

Section 3 Disclosure of Equivalent Information—Unless proxies, consents, or authorizations in respect of a stock of a domestic insurer subject to Section 1 hereof are solicited by or on behalf of the management of such insurer from the holders of record of stock of such insurer in accordance with this regulation and the Schedules thereunder prior to any annual or other meeting, such insurer shall, in accordance with this regulation and/or such further regulations as the Commissioner may adopt, file with the

Commissioner and transmit to all stockholders of record information substantially equivalent to the information which would be required to be transmitted if a solicitation were made.

Section 4 Definitions

1. The definitions and instructions set out in Schedule SIS, as promulgated by the National Association of Insurance Commissioners, shall be applicable for purposes of this regulation.
2. The terms "solicit" and "solicitation" for purposes of this regulation shall include:
   (a) any request for a proxy, whether or not accompanied by or included in a form of proxy; or
   (b) any request to execute or not to execute, or to revoke, a proxy; or
   (c) the furnishing of a proxy or other communication to stockholders under circumstances reasonably calculated to result in the procurement, withholding or revocation of a proxy.
3. The terms "solicit" and "solicitation" shall not include:
   (a) any solicitation by a person in respect of stock of which he is the beneficial owner;
   (b) action by a broker or other person in respect to stock carried in his name or in the name of his nominee in forwarding to the beneficial owner of such stock soliciting material received from the company, or impartially instructing such beneficial owner to forward a proxy to the person, if any, to whom the beneficial owner desires to give a proxy, or impartially requesting instructions from the beneficial owner with respect to the authority to be conferred by the proxy and stating that a proxy will be given if the instructions are received by a certain date.
   (c) the furnishing of a form of proxy to a stockholder upon the unsolicited request of such stockholder, or the performance by any person of ministerial acts on behalf of a person soliciting a proxy.

Section 5 Information to be Furnished to Stockholders

1. No solicitation subject to this regulation shall be made unless each person solicited is concurrently furnished or has previously been furnished with a written proxy statement containing the information specified in Schedule A.
2. If the solicitation is made on behalf of the management of the insurer and relates to an annual meeting of stockholders at which directors are to be elected, each proxy statement furnished pursuant to subsection 1 hereof shall be accompanied or preceded by an annual report (in preliminary or final form) to such stockholders containing such financial statements for the last fiscal year as are referred to in Schedule SIS under the heading "Financial Reporting to Stockholders." Subject to the foregoing requirements with respect to financial statements, the annual report to stockholders may be in any form deemed suitable by the management.
3. Two copies of each report sent to the stockholders pursuant to this Section shall be mailed to the Commissioner not later than the date

on which such report is first sent or given to stockholders or the date on which preliminary copies of solicitation material are filed with the Commissioner pursuant to Subsection 1 of Section 7, whichever date is later.

Section 6 Requirements as to Proxy

1. The form of proxy (a) shall indicate in bold face type whether or not the proxy is solicited on behalf of the management, (b) shall provide a specifically designated blank space for dating the proxy and (c) shall identify clearly and impartially each matter or group of related matters intended to be acted upon, whether proposed by the management or stockholders. No reference need be made to proposals, as to which discretionary authority is conferred pursuant to Subsection 3 hereof.
2. Means shall be provided in the proxy for the person solicited to specify by ballot a choice between approval or disapproval of each matter or group of related matters referred to therein, other than elections to office. A proxy may confer discretionary authority with respect to matters as to which a choice is not so specified if the form of proxy states in bold face type how it is intended to vote the shares or authorization represented by the proxy in each such case.
3. A proxy may confer discretionary authority with respect to other matters which may come before the meeting, provided the persons on whose behalf the solicitation is made are not aware a reasonable time prior to the time the solicitation is made that any other matters are to be presented for action at the meeting and provided further that a specific statement to that effect is made in the proxy statement or in the form of proxy.
4. No proxy shall confer authority (a) to vote for the election of any person to any office for which a bona fide nominee is not named in the proxy statement, or (b) to vote at any annual meeting other than the next annual meeting (or any adjournment thereof) to be held after the date on which the proxy statement and form of proxy are first sent or given to stockholders.
5. The proxy statement or form of proxy shall provide, subject to reasonable, specified conditions, that the proxy will be voted and that where the person solicited specifies by means of ballot provided pursuant to Subsection 2 hereof a choice with respect to any matter to be acted upon, the vote will be in accordance with the specifications so made.
6. The information included in the proxy statement shall be clearly presented and the statements made shall be divided into groups according to subject matter, with appropriate headings. All printed proxy statements shall be clearly and legibly presented.

Section 7 Material Required to be Filed

1. Two preliminary copies of the proxy statement and form of proxy and other soliciting material to be furnished to stockholders concurrently therewith shall be filed with the Commissioner at least ten days prior to the date definitive copies of such material are first sent or given

3. Two definitive copies of the proxy statement, form of proxy and all other soliciting material, in the form in which this material is furnished to stockholders, shall be filed with, or mailed for filing to, the Commissioner not later than the date such material is first sent or given to the stockholders.
4. Where any proxy statement, form of proxy or other material filed pursuant to these rules is amended or revised, two of the copies shall be marked to clearly show such changes and shall be so filed with the Commissioner as herein provided.
5. Copies of replies to inquiries from stockholders requesting further information and copies of communications which do no more than request that forms of proxy theretofore solicited be signed and returned need not be filed pursuant to this Section.
6. Notwithstanding the provisions of Subsections 1 and 2 hereof and of Subsection 5 of Section 10, copies of soliciting material in the form of speeches, press releases and radio or television scripts may, but need not, be filed with the Commissioner prior to use or publication. Definitive copies, however, shall be filed with or mailed for filing to the Commissioner as required by Subsection 3 hereof not later than the date such material is used or published.    (a) No solicitation subject to this Section shall be made by any person other than the management of an insurer unless at least five business days prior thereto, or such shorter period as the Commissioner may authorize upon a showing of good cause therefor, there has been filed with the Commissioner, by or on behalf of each participant in such solicitation, a statement in duplicate containing the information specified by Schedule B and a copy of any material proposed to be distributed to stockholders in furtherance of such solicitation. Where preliminary copies of any materials are filed, distribution to stockholders should be deferred until the Commissioner's comments have been received and complied with, or until fifteen days have elapsed, whichever shall first occur.
   (b) Within five business days after a solicitation subject to this Section is made by the management of an insurer, or such longer period as the Commissioner may authorize upon a showing of good cause therefor, there shall be filed with the Commissioner by or on behalf of each participant in such solicitation, other than the insurer, and by or on behalf of each management nominee for

director, a statement in duplicate containing the information specified by Schedule B.

(c) If any solicitation on behalf of management or any other person has been made, or if proxy material is ready for distribution, prior to a solicitation subject to this Section in opposition thereto, a statement in duplicate containing the information specified in Schedule B shall be filed with the Commissioner by or on behalf of each participant in such prior solicitation, other than the insurer, as soon as reasonably practicable after the commencement of the solicitation in opposition thereto.

(d) If, subsequent to the filing of the statements required by paragraphs (a), (b) and (c) of this Subsection, additional persons become participants in a solicitation subject to this rule, there shall be filed with the Commissioner, by or on behalf of each such person, a statement in duplicate containing the information specified by Schedule B, within three business days after such person becomes a participant, or such longer period as the Department may authorize upon a showing of good cause therefor.

(f) Each statement and amendment thereto filed pursuant to this paragraph shall be part of the public files of the Commissioner.

4. Solicitations Prior to Furnishing Required Written Proxy Statement—Notwithstanding the provisions of Subsection 1 of Section 5, a solicitation subject to this Section may be made prior to furnishing stockholders a written proxy statement containing the information specified in Schedule A with respect to such solicitation, provided that:

(a) The statements required by Subsection 3 hereof are filed by or on behalf of each participant in such solicitation.

(b) No form of proxy is furnished to stockholders prior to the time the written proxy statement required by Subsection 1 of Section 5 is furnished to such persons; provided, however, that this paragraph (b) shall not apply where a proxy statement then meeting the requirements of Schedule A has been furnished to stockholders.

(c) At least the information specified in paragraphs (b) and (c) of the statements required by Subsection 3 hereof to be filed by each participant, or an appropriate summary thereof, are included in each communication sent or given to stockholders in connection with the solicitation.

(d) A written proxy statement containing the information specified in Schedule A with respect to a solicitation is sent or given stockholders at the earliest practicable date.

5. Solicitations Prior to Furnishing Required Written Proxy Statement—Filing Requirements—Two copies of any soliciting material proposed to be sent or given to stockholders prior to the furnishing of the written proxy statement required by Subsection 1 of Section 5 shall

be filed with the Commissioner in preliminary form at least five business days prior to the date definitive copies of such material are first sent or given to such persons, or such shorter period as the Commissioner may authorize upon a showing of good cause therefor.

6. Application of This Section to Report—Notwithstanding the provisions of Subsections 2 and 3 of Section 5, two copies of any portion of the report referred to in Subsection 2 of Section 5 which comments upon or refers to any solicitation subject to this Section, or to any participant in any such solicitation, other than the solicitation by the management, shall be filed with the Commissioner in preliminary form at least five business days prior to the date copies of the report are first sent or given to stockholders.

Item 2. Dissenters' Right of Appraisal—Outline briefly the rights of appraisal or similar rights of dissenting stockholders with respect to any matter to be acted upon and indicate any statutory procedure required to be followed by such stockholders in order to perfect their rights. Agent and Agency Licenses

Promulgated under authority of Section 37-56 of the 1962 Code

(Filed in the office of the Secretary of State June 4, 1965)

1. License required for each Agent and Agency

(a) **Agency:** Section 37-231.1. Each Agency as defined in Section 37-231.1 shall file an application for a license on a form distributed by the Department. This applies to each corporation, partnership and other organization in which more than one person has an interest or which operates under a trade name other than that of the individual licensed agent. The agency is required to submit the application to the Insurance Department and to pay the required fee; however, each insurer is required to notify all its agencies of their responsibility to file an agency application and pay the required fee. Only one license is required for each agency regardless of the number of insurers it represents, but all insurers then represented must be identified in the application.

(b) **Agent or Local Agent:** Sections 37-231, 233, 246 and 247. An Agent or Local Agent is a person who is authorized by an insurance company to represent it and to offer the public insurance contracts and attendant services that are performed incident to such insurance contracts. Every person who acts in the capacity of Agent or Local Agent, including each stockholder, officer, director, member, employee or associate of an Agency, performing any act of an agent as enumerated in Section 37-233, must be licensed for the particular kind of business transacted by such person, and for each insurer represented.

(c) **Non-Resident Agents:** Sections 37-246, 247 and 248. A non-resident cannot be licensed as an Agent to do business in this State unless (i) there is a reciprocal agreement between the Chief Insurance Commissioner and the insurance regulatory authority of the non-resident Agent's state of residence; (ii) the non-resident meets the minimum statutory requirements of this State for the issuance of such license including the written examination unless his State waives the examination requirement for South Carolina residents.

All business produced by the non-resident Agent must be written through a licensed resident Agent in view of the express provisions of Section 37-247, as amended in 1964. A licensed non-resident ordinary life Agent may solicit business in this State and share in the commissions on such business to the extent permitted by Section 37-254; however, in view of the provisions of Section 37-247, as amended in 1964, the company is not authorized to write such business unless it is written through one of its licensed Agents who is a resident of this State, and in such event, each policy,

except a life policy, must be personally countersigned by a licensed resident Agent. Violations of Section 37-247, as amended, are subject to the penalty provisions of Section 37-248.

(d) **General Agents, Special Agents and State Agents:** Sections 37-231 and 37-235.

"General Agent" defined:

(i) A General Agent is a person, firm, corporation or association of individuals acting in a particular territory defined by contract as a representative of insurance companies, who is clothed with authority to appoint and supervise Agents and Local Agents (sometimes called "Sub-agents") and to perform such management authority, usually done in company Home and Branch offices, as is delegated to him by the principal. All General Agents, whether domiciled in this State or elsewhere, who conduct the business of insurance in this State, shall be licensed for each insurer represented in the corporate name, trade name or individual name by which the General Agency operates.

A General Agent may employ one or more Special Agents or State Agents as hereinafter defined, and each such Special Agent or State Agent must be licensed to represent every insurer represented by his employer unless satisfactory evidence is presented to the Insurance Department that such person employed by a General Agent performs no service duties on behalf of all such insurers.

"Special Agent" defined:

(ii) A Special Agent is a person employed by an insurance company or by a General Agency to travel through a designated territory dealing with Agents and Local Agents to supervise and assist them in the proper discharge of their duties as agents. A non-resident may be licensed as a Special Agent.

"State Agent" defined:

(iii) A State Agent discharges the same duties as a Special Agent.

A non-resident may be licensed as a State Agent.

License related to acts and duties performed, not title of licensee:

(iv) The legal classification of a person, firm, corporation or association as a "General Agent" or any other type Agent, is not determined by agreement between such Agent and an insurer nor the method of compensating the Agent, but is determined by all facts surrounding the relationship between the two and the actual duties performed by the Agent. Persons characterized as "Managers" who at any time perform the duties of a General Agent, Special Agent or State Agent, must be licensed as General Agents, Special Agents or State Agents, as applicable.

2. **Annual Fees for Licenses:** Section 37-235.

Agency, $10; Agent or Local Agent, $10; General Agent, $25; Special Agent, $25 and State Agent, $25.

An Agent of a common carrier who sells only transportation ticket policies of accident and health insurance or baggage insurance on personal effects shall pay a license fee of $5.

3. Types of Licenses Issued:

The following classes of licenses shall be issued to individual agents, who must be licensed for each insurer represented:

(a) **General Licenses:**

i. Life
ii. Accident and Health
iii. Property
iv. Casualty

Provided that any agent who qualifies therefor shall be entitled to be licensed for any combination of the above General classes; provided further, that the holder of a General license is entitled to be licensed to transact the following classes of business hereinafter specified for holders of "Restricted" licenses:

1. A Life Agent to transact Industrial Life and Credit Life;
2. An Accident and Health Agent to transact Industrial Accident and Health and Credit Accident and Health;
3. A Property Agent to transact Credit Property, Automobile Physical Damage, Marine, Title, and Crop Hail;
4. A Casualty Agent to transact Automobile Liability and Marine.

(b) **Restricted Licenses:**

iii. Industrial Fire
iv. Credit Life
v. Credit Accident and Health
vi. Credit Property
vii. Automobile Physical Damage
viii. Automobile Liability
ix. Marine
x. Title
xi. Crop Hail

4. Personal Qualifications Required:

Every person required by law to be licensed as an Agent or Local Agent must comply with the following minimum requirements:

(a) **Age**—Nineteen years, unless evidence of mature judgment and ability is presented.

(b) **Sponsorship**—Applicant must be sponsored by an insurer licensed in the State for class(es) of business for which the applicant is applying for license, such insurer to be held accountable for the accuracy of the certification of character and trustworthiness submitted by it in behalf of a new agent on the Personal Application Form distributed by the Insurance Department for such purpose. Information obtained from commercial reporting sources concerning character and reputation of an applicant must be retained for at least three years by the sponsoring insurer, and made available to the Insurance Department upon request.

(c) **Occupational Status**—Except as noted, every applicant must certify whether insurance sales or service work is to be a fulltime vocation, and if not, full particulars of other vocational or professional activities must be

submitted by letter. This requirement is not applicable to applicants for Restricted Licenses for Credit Life, Credit Accident and Health, Credit Property, Automobile Physical Damage, and Title.

(d) **Education or Training**—The sponsoring insurer must certify whether the applicant for a license has completed or is enrolled in an educational or training program approved by the Chief Insurance Commissioner. If the applicant is enrolled in an educational or training program on the date application is made, the sponsoring insurer will be required to notify the Insurance Department when the program has been completed or terminated short of completion. If the applicant is not enrolled in such a program, he will be required to certify that he has completed a minimum amount of home study from a list of nationally recognized textbooks on insurance subjects as promulgated by the Insurance Department, or substantially equivalent study material, before he will be permitted to take an examination. Such home study requirements shall be related as nearly as practical to the classes of insurance business for which the applicant seeks a license, and examinations will be compiled as nearly as practical from such basic study material and the insurance laws of South Carolina. Whenever an applicant studies texts or other material that is not contained on the list of approved Insurance Department texts and study material, and fails to pass the written examination, he shall be required to sustain the burden of satisfying the Chief Insurance Commissioner that such texts or material are substantially equivalent in content to the texts on the approved list before he may stand a second examination.

Every insurer which conducts an educational course or training program for its agents must file with the Chief Insurance Commissioner a resumé of the curriculum and instructor personnel or description of the training program, whereupon the Chief Insurance Commissioner shall approve such course or program as to intellectual content and training, or specify in writing why such course fails to meet the requirements of the Insurance Department for accreditation. For the purpose of this section, schools that are not operated by insurers may seek accreditation by filing with the Insurance Department information of the type specified for licensed insurers. In all instances accreditation will be based on the content of study material and listed qualifications (whether by education or experience) of instructors, as certified by the insurer or other person offering the course(s).

An applicant may qualify hereunder if he has satisfactorily completed one or more insurance courses in a college or university, or in residence or correspondence study in a formal educational or training program operated by an insurer or by any other person, prior to applying for a license, provided satisfactory evidence of such completion is submitted to the Chief Insurance Commissioner.

(e) **Successful Completion of Examination**—Except for Agents of common carriers described in paragraph 2(a) hereof, every applicant for a license as Local Agent or Agent must pass a written examination unless he holds a current, valid license to represent one or more insurers for the class(es) of business for which he seeks authority as agent; provided, however, that holders of General Licenses may qualify without examination to receive Restricted Licenses as provided by Section 3 hereof.

Examinations will be given in Columbia or at selected points in the State; the places, days, and times of which shall be announced from time to time by the Insurance Department.

An applicant for an Agent's license who fails the examination may stand a second examination, but no temporary license issued pursuant to Section 37-236 shall be extended beyond its stated expiration date because of the failure of the holder of such license to pass the written examination during the ninety day term of such temporary license.

An applicant who fails two examinations for the same class of license shall be ineligible to take a third examination within six months from the date of the second failure. In such event the applicant shall not be eligible to receive a second temporary license while preparing for a third examination unless he can qualify under Section 5(b) of this Regulation.

5. Temporary Licenses:

Temporary licenses shall be issued pursuant to Section 37-236, subject to the following conditions:

(a) **Need:** The sponsoring insurer and the applicant for a temporary license must demonstrate the need in writing for issuance of a temporary license.

(b) **License Period:** A temporary license is valid for a maximum period of ninety days. No person shall be eligible to receive a temporary license for the same class of insurance for which he formerly possessed a temporary license, either for the same insurer or another insurer, unless he can show that non-issuance of a permanent license during the time he held the first temporary license was the result of circumstances beyond his direction or control.

(c) **When privilege of insurers to obtain temporary licenses for agents to be withdrawn:** The discretionary authority of the Commissioner to issue temporary licenses will not be exercised as to any insurer which is found to be abusing this provision of this Regulation as a means to defeat the obvious purposes of Section 37-236 of the Code.

6. Prior Inconsistent Regulations Rescinded:

The following prior Regulations are withdrawn, and superseded by this Regulation:

(a) Regulation entitled "Agents, Brokers, and Adjusters Licensing Procedures," filed in the Office of the Secretary of State August 10, 1960, and August 21, 1960, except for paragraph 2 thereof.

From the testimony taken and facts presented, and after due consideration of the information submitted, it appears that rules and regulations governing leases and subcontracts by D, E and F Certificate holders should be adopted as follows: and, it further appears that the General Rules and Regulations Governing the Operation of Motor Vehicle Carriers in South Carolina should be amended by renumbering Section 9. Penalties and Cancellation to Section 10, and Rules 92 and 93 thereunder to Rules 102 and 103, respectively, and that a new Section 9. Leases and Subcontracts and Rules 92 through 101, thereunder, be inserted, so that Section 9 and Section 10 will then read:

* Rules B and C are adopted in order that the licensed optician may be readily identified; may assume his personal responsibility to the public for accurately filling prescriptions; and in the interest of the public health of spectacle wearers.

TAX COMMISSION

Sales and Use Tax

Promulgated under authority of Section 65-1443 of the 1962 Code

(Filed in the office of the Secretary of State July 9, 1964)

Regulation No. 37, as amended. Pertaining to exemption from the tax on sales of motor vehicles, trailers, semi-trailers and pole trailers for immediate transportation and use outside of South Carolina.

Regulation No. 37 adopted by the South Carolina Tax Commission and filed in the office of the Secretary of State of South Carolina on May 29, 1963 is hereby amended by striking it out and inserting in lieu thereof the following, which shall be known as Regulation No. 37, as amended.

In order to be exempt from Sales and/or Use Tax on the sale of a motor vehicle, trailer, semi-trailer or pole trailer as provided for by Act 1074, Acts and Joint Resolutions for South Carolina 1964, approved May 25, 1964, the seller of such property shall obtain an affidavit from the purchaser, which affidavit shall provide for the name of the purchaser, his state of residence and address, the state in which the motor vehicle, trailer, semi-trailer or pole trailer is to be registered and used, the name of the seller, the retail license number of the seller, the date of the purchase of the property, its make, model, year, serial and motor number, if any, the sales price, any trade-in allowance given, the net amount paid and whether or not the equipment is new or used.

For the purposes of this statute a motor vehicle, trailer, semi-trailer or pole trailer must be of a type such as is customarily licensed and registered for general use on the highways of South Carolina, and the following definitions shall apply:

1. Motor Vehicle: Every vehicle which is self-propelled and customarily used on South Carolina highways, provided however, that the term shall not include self-propelled motor vehicles not designed or used primarily for the transportation of persons or pay-load property and incidentally operated or moved over the highways, including farm tractors, road construction and maintenance machinery, ditch-digging apparatus, truck cranes or mobile shovel cranes, and similar vehicles, this enumeration to be deemed partial and not to operate to exclude other such vehicles which are within the general terms of this definition;

2. Trailer: Every vehicle with or without motive power, other than a pole trailer, designed for carrying persons or property and for being drawn by a motor vehicle and so constructed that no part of its weight rests upon the towing vehicle;

3. Semi-trailer: Every vehicle with or without motive power, other than a pole trailer, designed for carrying persons or property and for being drawn by a motor vehicle and so constructed that some part of its weight and that of its load rests upon or is carried by another vehicle;

4. Pole Trailer: Every vehicle without motive power designed to be drawn by another vehicle and attached to the towing vehicle by means

of a reach or pole or by being boomed or otherwise secured to the towing vehicle and ordinarily used for transporting long or irregularly shaped loads such as poles, pipes or structural members capable, generally, of sustaining themselves as beams between the supporting connections.

Subject to the tax when delivered to the purchaser in South Carolina are:

1. Every trailer or semi-trailer (commonly referred to as "house trailer" or "mobile home") which is designed, constructed and equipped as a dwelling, living abode, or sleeping place, either permanently or temporarily, and is equipped for use as a conveyance on streets or highways; and

2. A trailer or semi-trailer similar to number 1 hereinabove whose chassis and exterior shell is designed and constructed for use either permanently or temporarily for advertising, sales, display or promotion of merchandise or services or for any other commercial purpose **except the transportation of property for hire;**

3. Semi-trailers and pole trailers weighing less than 500 pounds, with a capacity of less than 1000 pounds;

4. Trailers and semi-trailers weighing 1500 pounds or less and with a load capacity not exceeding 2500 pounds **and** which are designed, adapted and used **exclusively** for agriculture, horticulture **or** for the carrying of an implement of husbandry;

5. All other trailers, semi-trailers and pole trailers not required to be registered and licensed for use on South Carolina highways.

The affidavit shall be in three parts, the original to be retained by the seller with the invoice. The second copy must be attached to the sales or use tax return of the seller for the period in which the sale is made, and must be received by the Commission within the period provided by law, that being on or before the 20th day of the month next succeeding the period covered by the return. The third copy is furnished to the purchaser. The gross sales of motor vehicles so exempt must be indicated separately on the reverse side of the sales and/or use tax return and substantiated by the attached affidavits of purchasers.

The term "immediate transportation" is deemed to be a period within ten (10) days from the date of sale.

The term "use in another state" means the vehicle is not to be frequently used in South Carolina.

Effective May 25, 1964.

Stream Classifications

(Filed in the office of the Secretary of State September 25, 1964)

(The public hearing as required by law prior to the classification and/or reclassification of streams was held in Anderson, South Carolina, August 14, 1964.)

This action is based on the following finding of fact made by the Authority after consideration of the transcript of public hearing held by the South Carolina Water Pollution Control Authority in Anderson, South Carolina, August 14, 1964:

1. That Little Generostee Creek and tributaries in Anderson County, South Carolina, are not presently classified.
2. That representatives of local residents testified that waters of these streams are presently used for agricultural purposes and would continue to be so used.
3. That representatives of local residents testified that water qualities specified for Class C streams would be adequate for their use.
4. That analyses performed by the staff of the South Carolina Water Pollution Control Authority show that these streams meet the Class C specifications.
5. That based on these we therefore find the proper classification of Little Generostee Creek and tributaries from the headwaters to its junction with the Savannah River to be Class C.

(Filed in the office of the Secretary of State September 25, 1964)

(The public hearing as required by law prior to the classification and/or reclassification of streams was held in Marion, South Carolina, July 17, 1964.)

This action is based on the following finding of fact made by the Authority after consideration of the transcript of public hearing held by the South Carolina Water Pollution Control Authority in Marion, South Carolina, July 17, 1964:

1. That Catfish Creek and tributaries, also known as Catfish Canal and tributaries throughout Marion County are presently classified at Level C.
2. That testimony of local residents familiar with this area shows that Catfish Creek and tributary are in fact swamp streams.
3. That analyses performed by the technical staff of the South Carolina Water Pollution Control Authority show that these streams meet the quality standards for swamp streams.
4. That based on these facts we therefore find the proper classification of Catfish Creek and tributaries (Catfish Canal and tributaries) in Marion County, South Carolina, from its headwaters to its junction with the Great Pee Dee River to be Class C Swamp.

(This supersedes the classification applied to Catfish Creek and tributaries in Marion County adopted by the Authority on May 23, 1956, and filed with the Secretary of State on June 8, 1956.)

(Filed in the office of the Secretary of State May 26, 1965)

(The public hearing as required by law prior to the classification and/or reclassification of streams was held in Hartsville, South Carolina, April 19, 1965.)

This action is based on the following finding of fact made by the Authority after consideration of the transcript of public hearing held by the South Carolina Water Pollution Control Authority in Hartsville, South Carolina, April 19, 1965:

1. THAT Cedar Creek and tributaries, from their headwaters in Chesterfield and Darlington Counties downstream to the junction with the Pee Dee River on the Chesterfield-Darlington County line are presently unclassified.
2. THAT testimony at the hearing indicated that interested local residents desired that these waters be placed in Class B.
3. THAT analyses performed by the technical staff of the South Carolina Water Pollution Control Authority show that these streams meet the quality standards for Class B waters.
4. THAT no opposition to this proposal was expressed at the hearing.
5. THAT based on these facts we therefore find the proper classification of Cedar Creek and Tributaries in Darlington and Chesterfield Counties from their headwaters downstream to their junction with the Pee Dee River to be Class B.
